ADMIN. 1000

STATE OF MINNESOTA

DEPARTMENT ATTORNEY GENERAL

Office Memorandum

TO : Mike Miller
Special Assistant
Attorney General
Department of Administration

DATE: Feb. 10, 1975

FROM : Terry P. O'Brien
Special Assistant
Attorney General

SUBJECT: Transmittal of Files re Freedom from TB

Enclosed are three files containing the documentation relating to the Health Board's adoption of regulations requiring school employees to show freedom from T.B.

Minn. Stat. § 123.69 (1974) requires that school employees demonstrate freedom from T. B. as prescribed through Board of Health rules. These regulations simply establish the method by which employees show such freedom. They appear rather straight forward and the process of promulgation provided no problems. The rules did not give rise to any real controversy.

I would appreciate it if you would return the files number 1 and 2 to me when the review process is completed.

If you have any questions, please don't hesitate to call.

Thanks.

TPO:AJ

Enclosures

REGULATIONS AS ADOPTED

MHD 327: Annual Tuberculin Testing for Employees of School Districts, Private or Parochial Schools, Day Care Centers, and Nursery Schools.

Unless an employee has previously shown a positive reaction to a standard intradermal tuberculin test as certified by a physician, the employees of all school districts and the employees of all private or parochial schools, day care centers, and nursery schools shall be required to have a standard intradermal tuberculin test to show freedom from tuberculosis within one year prior to employment, and annually thereafter. If the tuberculin test is negative, the employee shall be considered free from tuberculosis. The State Board of Health may require more frequent testing if employees are exposed to a known active tuberculosis case or cases.

MHD 328: Annual Examinations of All Employees Showing Positive Reactions.

All employees showing positive reaction to the standard intradermal tuberculin test shall have such additional examinations as are necessary to enable their physician to certify their freedom from tuberculosis. These examinations may include any or all of the following considerations: History; physical examination; chest x-ray; additional skin test, laboratory examinations including smear and culture. Minimum requirement shall be a report by a roentgenologist of a satisfactory negative 14 x 17 inch chest x-ray taken within 60 days of employment and annually thereafter for duration of employment.

1. Following are the proposed regulations to implement M.S. 1971, Section 123.69 as amended by the 1974 Legislature; an Act relating to Public Health; requiring employees of school districts, private or parochial schools, day care centers, and nursery schools to show freedom from tuberculosis.

MHD 327: Annual Tuberculin Testing for Employees of School Districts, Private or Parochial Schools, Day Care Centers, and Nursery Schools.

Unless an employee has previously shown a positive reaction to a standard intradermal tuberculin test as certified by a physician, the employees of all school districts and the employees of all private or parochial schools, day care centers, and nursery schools shall be required to have a standard intradermal tuberculin test to show freedom from tuberculosis within one year prior to employment, and annually thereafter. If the tuberculin test is negative, the employee shall be considered free from tuberculosis. The State Board of Health may require more frequent testing if employees are exposed to a known active tuberculosis case or cases.

MHD 328: Annual Examinations of All Employees Showing Positive Reactions.

All employees showing positive reaction to the standard intradermal tuberculin test shall have such additional examinations as are necessary to enable their physician to certify their freedom from tuberculosis. These examinations may include any or all of the following considerations: History; physical examination; chest x-ray; additional skin test, laboratory examinations including smear and culture. Minimum requirement shall be a report by a roentgenologist of a satisfactory negative 14 x 17 inch chest x-ray taken within 60 days of employment and annually thereafter for duration of employment.

COUNTY OF HENNEPIN

BEFORE THE MINNESOTA

STATE BOARD OF HEALTH

In the Matter of Proposed Rules Relating to Annual Tuberculin Testing for Employees of School Districts, Private or Parochial Schools, Day Care Centers, and Nursery Schools

ORDER FOR HEARING

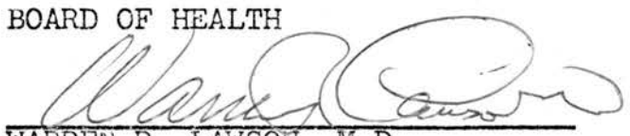

To effectively implement Minn. Stat. § 123.69 as amended by the 1974 Legislature, the Minnesota State Board of Health deems it necessary to consider adoption of the proposed rules captioned above pursuant to the authority vested in it by the above-referenced statute.

NOW, THEREFORE, IT IS ORDERED this 9th day of October, 1974, that a public hearing on the proposed rules captioned above be held in the Board Room, Minnesota Health Department Building, 717 Delaware Street S.E., Minneapolis, Minnesota, on November 20, 1974, commencing at 9:30 A.M., and continuing until all representatives of associations or other interested groups or persons have had an opportunity to be heard.

IT IS FURTHER ORDERED, that notice of said hearing be given to all representatives of associations or other interested groups or persons who have registered their names with the Secretary of State for that purpose and all persons who are presently members of the Minnesota Legislature.

COUNTY OF HENNEPIN

BEFORE THE MINNESOTA

STATE BOARD OF HEALTH

In the Matter of Proposed Rules Relating to Annual Tuberculin Testing for Employees of School Districts, Private or Parochial Schools, Day Care Centers, and Nursery Schools

NOTICE OF HEARING

Notice is hereby given that a public hearing will be held pursuant to Minn. Stat. § 15.0412 subd. 4 (1971) in the above-entitled matter, in the Board Room, Minnesota Department of Health Building, 717 Delaware Street S.E., Minneapolis, Minnesota, on Wednesday, November 20, 1974, commencing at 9:30 A.M., and continuing until all representatives or other interested groups of persons have had an opportunity to be heard concerning adoption of the proposed rules captioned above by submitting either oral or written data, statements, or arguments. Statements or briefs may be submitted without appearing at the hearing.

A copy of the proposed rules is attached and made a part hereof.

Copies of the proposed rules are now available and may be obtained by writing to the Minnesota Department of Health, Tuberculosis Control Unit, 717 Delaware Street S.E., Minneapolis, Minnesota 55440. Additional copies will be available at the door on the date of the hearing.

A copy of the procedural rules for the hearing is attached and made a part hereof.

Testimony or other evidence to be submitted for consideration should be pertinent to the matter at hand and may be presented either orally or in writing at the public hearing or by mailing a statement to the Secretary and Executive Officer of the Board at the Department of Health Building, address as above. If the person submitting a statement cannot be present to read his statement at the time of the hearing, the statement will be entered into the record. For those wishing to submit written statements or exhibits, it is requested that at least three (3) copies of such statement, exhibit or summary be furnished at the hearing. The record will remain open for receipt of briefs or other written material relative to the proposed rules for twenty (20) days subsequent to the public hearing.

It is suggested that to save time and avoid duplication, those organizations or associations having a common viewpoint or interest in these proceedings join together where possible and present a single statement in behalf of such interests.

Dated: October 9th, 1974.

STATE OF MINNESOTA

BOARD OF HEALTH

WARREN R. LAWSON, M.D.
Secretary and Executive Officer

MINNESOTA STATE BOARD OF HEALTH

PROCEDURAL RULES FOR HEARING

The purpose of the hearing is to allow interested parties to express their views and present facts bearing upon the proposed regulations. So as to provide for an orderly presentation of evidence, the following rules will be in effect during the hearing specified in the attached Notice of Hearing:

1. Anyone wishing to be heard should indicate by signing the speaking sheet, listing his name, address, and the group which he represents. The speaking sheet will be available at the main entrance to the hearing room. It is requested that each group select one speaker only to present its views.

2. The first time the witness makes a statement he should spell his name and identify the group he is representing. Prior to making any subsequent statements he should state his name and the group which he represents. He may be sworn upon his request but it is not required. If he elects not to be sworn, that may be considered in determining the weight to be given to his testimony.

3. By giving testimony, a witness, including one who may also be a member of the panel, subjects himself to questioning by the panel. However, he is subject to cross-examination by non-members of the panel only if he affirmatively consents to being so examined. A refusal to be cross-examined may be considered in determining the weight to be given to his testimony.

4. All parties interested in introducing any written matter may do so by having it marked as an exhibit and then introduced for the record. Unsworn written matter may be received, but the fact that it is unsworn may be considered in determining the weight to be given it.

CERTIFICATE OF BOARD'S

AUTHORIZING RESOLUTION

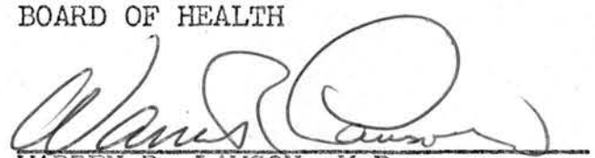

I, Warren R. Lawson, M.D., do hereby certify that I am the Secretary and Executive Officer of the Minnesota State Board of Health, a board duly authorized under the laws of the State of Minnesota, and that the following is a true, complete, and correct copy of a resolution adopted at a meeting of the said Board of Health duly and properly called and held on the 12th day of July, 1974, that a quorum was present at said meeting; that a majority of those present voted for the resolution; that said resolution is set forth in the minutes of said meeting and has not been rescinded or modified.

> "RESOLVED, that Warren R. Lawson, M.D., Secretary and Executive Officer of the Minnesota State Board of Health, be and he hereby is granted the authority and directed to call a hearing for the purpose of promulgating rules of the Board of Health relating to the requirement that school employees show freedom from tuberculosis as well as perform any and all acts incidental thereto, including but without being limited thereto, signing an order for hearing and notice of hearing as well as acting as or appointing a presiding officer at all hearings."

IN WITNESS WHEREOF, I have hereunto subscribed my name this 13th day of January, 1975.

STATE OF MINNESOTA

COUNTY OF HENNEPIN

BEFORE THE MINNESOTA

STATE BOARD OF HEALTH

In the Matter of Proposed Rules Relating to Annual Tuberculin Testing for Employees of School Districts, Private or Parochial Schools, Day Care Centers, and Nursery Schools.

STATEMENT OF NEED

The above-captioned rules are not amendments to existing rules of the State Board of Health.

The need to adopt these rules arises because of the legislative mandate contained in Minn. Laws 1974, ch. 526. All employees of school districts, private or parochial schools, day care centers, and nursery schools shall show freedom from tuberculosis in accordance with rules and regulations promulgated by the Board of Health. These regulations detail the manner in which such freedom of tuberculosis shall be shown as well as describing the steps to be taken by employees showing positive reactions to tuberculin tests.

In the Matter of Proposed Rules Relating to Annual Tuberculin Testing for Employees of School Districts, Private or Parochial Schools, Day Care Centers, and Nursery Schools

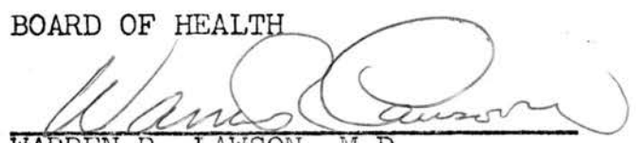

APPOINTMENT

David Giese is hereby appointed to serve as hearing officer on behalf of the State Board of Health in the above captioned matter, said hearing to be held on November 20, 1974, and continuing until all representatives of associations or other interested groups or persons have had an opportunity to be heard.

This appointment is made pursuant to the following authority: resolution of the State Board of Health adopted at its meeting on July 12, 1974.

STATE OF MINNESOTA

BOARD OF HEALTH

WARREN R. LAWSON, M.D.
Secretary and Executive Officer

Dated: October 9th, 1974.

STATE OF MINNESOTA

COUNTY OF HENNEPIN

BEFORE THE MINNESOTA

STATE BOARD OF HEALTH

In the Matter of the Proposed Rules Relating to Annual Tuberculin Testing for Employees of School Districts, Private or Parochial Schools, Day Care Centers and Nursery Schools

ORDER ADOPTING RULES

The above-entitled matter came on for hearing before the Minnesota State Board of Health on the 20th day of November, 1974, at 9:30 A.M. in the Board Room, Minnesota Department of Health Building, 717 Delaware Street S.E., Minneapolis, Minnesota 55440, after proper notice required by Minn. Stat. § 15.0412 (1971) was served upon all persons, associations and other interested groups registered with the Secretary of State for that purpose.

After affording interested persons an opportunity to present written and oral data, statements and arguments, and having heard and considered all of the testimony and evidence adduced and upon the records, files and proceedings herein, and applicable statutory standards or criteria, and having confirmed the need for the above-captioned rules.

NOW, THEREFORE, IT IS ORDERED that these rules identified as MHD 327 and 328 are adopted this 13th day of January, 1975, pursuant to authority vested in me by Minn. Stat. § 123.69 as amended by the 1974 Legislature, and by resolution of the Minnesota State Board of Health duly adopted at a meeting of the said Board on the 9th day of January, 1975.

STATE OF MINNESOTA

BOARD OF HEALTH

WARREN R. LAWSON, M.D.
Secretary and Executive Officer

STATE OF MINNESOTA

COUNTY OF HENNEPIN

BEFORE THE MINNESOTA

STATE BOARD OF HEALTH

In the Matter of Proposed Rules Relating to Annual Tuberculin Testing for Employees of School Districts, Private or Parochial Schools, Day Care Centers, and Nursery Schools

FINDINGS OF FACT

The above-entitled matter came on for hearing before the Minnesota State Board of Health on the 20th day of November, 1974, at 9:30 A.M. in the Board Room, Minnesota Department of Health Building, 717 Delaware Street S.E., Minneapolis, Minnesota 55440, after proper notice required by Minn. Stat. § 15.0412 (1971) was served upon all persons, associations and other interested groups registered with the Secretary of State for that purpose.

After affording interested persons an opportunity to present written and oral data, statements, and arguments, and having heard and considered all of the testimony and evidence adduced and upon the records, files and proceedings herein, the Board makes and enters the following findings:

1. Authority to adopt regulations pertaining to annual tuberculin testing for employees of school districts, private or parochial schools, day care centers, and nursery schools is contained in Minnesota Laws 1974, ch. 526 § 1. This statute provides that employees of all school districts, private or parochial schools, nursery schools and day care centers shall show freedom from tuberculosis. Minnesota Laws 1974, ch. 526 specifically states that school employees shall "show freedom from tuberculosis

in accordance with rules and regulations promulgated by the state board of health." These regulations are within that grant of authority.

2. There is a need for these regulations. Minn. Laws 1974, ch. 526 requires that employees engaged in educational programs show freedom from tuberculosis. These regulations are necessary to specify how such freedom may be established and determined. The Board finds that these regulations as adopted, reasonably carry out its duties under the law.

3. MHD 328 requires that all employees who show a positive reaction to the standard intradermal tuberculin test shall have a chest X-ray taken within 60 days of employment and annually thereafter for duration of employment. The Board finds that some people may not complete a full program of treatment. Further, one who may have had tuberculosis at one time may have a recurrence at a later time. The Board therefore finds that requiring an annual X-ray of those employees who have shown a positive reaction to the intradermal tuberculin test is necessary and proper.

4. Minn. Laws 1974, ch. 526 requires that school organizations bear the expense of the services necessary for the diagnosis and report of tuberculosis. The Board finds that the expense of such a testing program is not excessive. Indeed, the standard intradermal tuberculin test

can be performed by the school nurse. Any costs incurred under these regulations are found to be reasonable expenses when considered in terms of the protection the testing program provides children.

5. The Board finds that the regulations concern employees of schools only through the secondary level and not employees of post-secondary schools, since the complications of tuberculosis may be especially severe in children during pre-school years and puberty.

6. Other provisions of the regulations not specifically referred to herein are found to be supported by evidence in the record.

7. These regulations are in keeping with the will and help fulfill the policy of the state as expressed by Minn. Laws 1974, ch. 526. In view of the importance of protecting children from possible exposure to tuberculosis, these regulations enable the state to carry out the legislature's express wish that the Board provide a method of testing school employees.

Dated: January 9, 1975.

President

CERTIFICATE OF BOARD'S

ADOPTION OF RULES RESOLUTION

I, Warren R. Lawson, M.D., do hereby certify that I am the Secretary and Executive Officer of the Minnesota State Board of Health, a board duly authorized under the laws of the State of Minnesota, and that the following is a true, complete, and correct copy of a resolution adopted at a meeting of the said Board of Health duly and properly called and held on the 9th day of January, 1975; that a quorum was present at said meeting; that said resolution is set forth in the minutes of said meeting and has not been rescinded or modified.

> "RESOLVED, that the rules relating to annual tuberculin testing for employees of school districts, private or parochial schools, day care centers and nursery schools identified as MHD 327 and 328 are found to be reasonable, necessary and supported by the evidence contained in the record, and are hereby approved and adopted, pursuant to authority vested in us by Minn. Laws 1974, ch. 526 and that Warren R. Lawson, M.D., Secretary and Executive Officer of the Minnesota State Board of Health, be and hereby is authorized to sign an order adopting those rules."

IN WITNESS WHEREOF, I have hereunto subscribed my name this 13th day of January, 1975.

STATE OF MINNESOTA

BOARD OF HEALTH

WARREN R. LAWSON, M.D.
Secretary and Executive Officer

STATEMENT OF COMPLIANCE WITH
MANUAL OF RULE MAKING PROCEDURES

I, Special Assistant Attorney General Terry P. O'Brien, do hereby declare that I have examined the proposed rules relating to annual tuberculin testing for employees of school districts, private or parochial schools, day care centers, and nursery schools and all related documents and that, based on them and my personal familiarity with the applicable procedures, the Manual of Rule Making Procedures has been followed.

Dated: February 5, 1975.

STATE OF MINNESOTA

COUNTY OF HENNEPIN

BEFORE THE MINNESOTA

STATE BOARD OF HEALTH

In the Matter of Proposed Rules Relating to Annual Tuberculin Testing for Employees of School Districts, Private or Parochial Schools, Day Care Centers, and Nursery Schools.

The above-entitled matter came on for hearing before the Minnesota State Board of Health, in the Board Room, Minnesota Department of Health Building, 717 Delaware Street South East, Minneapolis, Minnesota, on November 20th, 1974, commencing at approximately 9:30 o'clock a.m.

* * *

APPEARANCES:

Mr. David J. Giese

Mr. Terry O'Brien

Mr. William Mitchell

* * *

MR. GIESE: The hearing will come to order. There is a registration sheet in the back of the room. I would like everyone to sign that this morning whether or not you intend to testify. There are also additional copies of the proposed regulations on the table at the entrance to the room. If you have not signed the registration sheet, I would appreciate it if you would do so at this time.

My name is David Giese, and I will be the Hearing Officer this morning. On my left is Mr. Terry O'Brien, the Special Assistant Attorney General assigned to the Department of Health. On my right is Mr. Bill Mitchell, who is with the TB Control Program in the Division of Personal Health Services.

Ladies and gentlemen, the purpose of this hearing is to provide an opportunity for public comment

on the State Board of Health Proposed Regulations Relating to Annual Tuberculin Testing for Employees of School Districts, Private or Parochial Schools, Day Care Centers, and Nursery Schools. Let me assure you that the Department of Health will give serious consideration to all comments and suggestions offered at today's hearing.

You will notice that the procedural rules were includedwith the Notice of Hearing and it is our intent to adhere to those rules as follows:

Anyone wishing to be heard should indicate by signing the speaking sheet, listing his name, address and the group which he represents. The speaking sheet will be available at the main entrance to the hearing room. It is requested that each group select one speaker only to present its views.

The first time the witness makes a statement, he should spell his name and identify the group he is representing. Prior to making any subsequent statements, he should state his name and the group which he represents. He may be sworn upon his request but it is not required. If he elects not to be sworn, that may be considered in determining the weight to be given to his testimony.

By giving testimony, a witness, including one who may also be a member of the panel, subjects

himself to questioning by the panel. However, he is subject to cross-examination by non-members of the panel only if he affirmatively consents to being so examined. A refusal to be cross-examined may be considered in determining the weight to be given to his testimony.

All parties interested in introducing any written matter may do so by having it marked as an exhibit and then introduced for the record. Unsworn written matter may be received, but the fact that it is unsworn may be considered in determining the weight to be given it.

At this time I would like to call upon Mr. O'Brien, Special Assistant Attorney General, to introduce exhibits which evidence the State Board of Health's compliance with the Administrative Procedures Act. Mr. O'Brien.

MR. O'BRIEN: Thank you, Mr. Hearing Officer. At this time I would request that the exhibits which I will summarize as follows be accepted as evidence of the Department's compliance with Chapter 15, the Administrative Procedures Act of Minnesota Statutes.

Exhibit 1 consists of the two proposed regulations and an amendment to those regulations attached.

Exhibit #2 is the Order for Hearing, signed by Dr. Lawson, the Secretary and Executive Officer,

signed on the 9th of October, ordering the hearing for today.

Exhibit #3 is the Notice of Hearing, also signed by Dr. Lawson on the 9th of October.

Exhibit #4 is the Certificate of the Secretary of State.

Exhibit #5 is the Affidavit of Mailing. This affidavit consists of the mailing list supplied to the Department by the Secretary of State. Both the Administrative Procedures Act and the Supreme Court of Minnesota require that those people who have an interest should be notified of hearings in advance. These lists to those people that are interested are defined as those people who have put their name in with the Secretary of State.

Exhibit #6 is the Statement of Need, signed for Dr. Lawson by Dr. Ellen Fifer, M.D., who has been authorized by the Board to sign in Dr. Lawson's name.

Exhibit #7 is the appointment of the Hearing Officer, signed by Dr. Lawson on October 9th, 1974.

Exhibit #8 is the justification for Tuberculin Testing Regulations.

Exhibit #9 is the first of a series of

letters that have been received by the Department of Health relating to the adoption of these proposed regulations. Exhibit #9 is a letter from Dean Abrahamson of the University of Minnesota.

Exhibit #10 is a letter from Harold W. Brunn, representing the Minnesota State Medical Association.

Exhibit #11 is a letter from Dr. Pettersen, representing the Olmsted County Health Department.

Exhibit #12 is from Ella S. Christensen from the Northfield Public Schools Health Department.

I will not try to summarize these letters. They are introduced into the record and I think that they speak for themselves.

MR. GIESE: The aforementioned exhibits, 1 through 12, are hereby accepted into the record.

As you know, there are two proposed regulations that we are dealing with today. It is my intent to take testimony on each of them separately. After we have completed that, I will be happy to take testimony in a general manner which may or may not relate specifically back to either one of the regulations. So if you have general comments, please hold those until we have dealt with each of the proposed regulations.

There are additional copies of the

proposed regulations as I indicated earlier on the table at the entrance to the room. If you do not have a copy, you may get one at this time so you can follow along with us.

The first proposed regulation is MHD 327, we are suggesting a change in that. I will read it with the change:

"Unless an employee has previously shown a positive reaction to a standard intradermal Tuberculin test as certified by a physician, the employees of all school districts and the employees of all private or parochial schools, day care centers, and nursery schools shall be required to have a standard intradermal Tuberculin test to show freedom from Tuberculosis within one year prior to employment, and annually thereafter. If the Tuberculin test is negative, the employee shall be considered free from Tuberculosis. The State Board of Health may require more frequent testing if employees are exposed to a known active Tuberculosis case or cases."

That is proposed regulation MHD 327. I would like to ask for any comment that you may have on it. Please raise your hand if you would like to testify at this time and I will call upon you.

I would like to remind those who wish to testify that as they approach the podium, they ought

to state their name, spell it, and identify the group that they represent. Prior to making any subsequent statements, he should state his name and indicate the group that he is representing.

Is there anyone that wishes to testify on MHD 327 with the proposed change?

The record will reflect that there are none.

The second proposed regulation is MHD 328, "Annual examinations of all employees showing positive reactions. All employees showing positive reaction to the standard intradermal tuberculin test shall have such additional examinations as are necessary to enable their physician to certify their freedom from Tuberculosis. These examinations may include any or all of the following considerations: History; physical examination; chest x-ray; additional skin test, laboratory examinations including smear and culture. Minimum requirement shall be a report by a roentgenologist of a satisfactory negative 14 by 17 inch chest x-ray taken within sixty days of employment and annually thereafter for duration of employment."

That is proposed regulation MHD 328. Anyone wishing to comment thereon please raise your hand. Yes?

MS. NAOMI QUINELL: Can I just ask a

question?

MR. GIESE: Would you approach the podium, please?

MS. QUINELL: Well, I just have a question.

MR. GIESE: That's fine. Please come to the podium and state your full name, spell the last name and indicate the group that you represent.

MS. QUINELL: Naomi Quinell, Department of Health, Q-u-i-n-e-l-l.

MR. GIESE: Thank you.

MS. QUINELL: The 14 by 17 x-ray; does the report have to be read, or does the x-ray have to be read, by a roentgenologist? Can it be read by a general practitioner?

MR. GIESE: Mr. Mitchell, would you like to respond?

MR. MITCHELL: I think it can be read by a roentgenologist. I believe it is actually the -- it can be any physician. Dr. Fleming could probably clarify that.

DR. FLEMING: I think the intent of the word "roentgenologist" just refers to the person who read the x-ray. I think we would accept a reading from a physician, a reading from someone reasonably confident

and competent in reading x-rays.

MS. QUINELL: Who would decide that?

DR. FLEMING: We would accept the doctor's reading.

MRS. MARJORIE MOORE: I am Marjorie Moore, coordinator of the school of nursing service in St. Cloud Public Schools, and I am representing the area nursing and medical personnel of the St. Cloud area. We would like --

MR. GIESE: Excuse me. Would you spell your last name, please?

MRS. MOORE: M-o-o-r-e.

MR. GIESE: Thank you.

MRS. MOORE: We would like to propose that all new employees in said school districts parochial schools, day care centers and nursery schools be required to have an introdermal tuberculin test upon employment and then every three years thereafter. Likewise for the x-raying of them, the positive reactors would be required to have an x-ray, 14 by 17 chest film, upon employment and then every three years thereafter.

I say this because we have not found very many new converters out of almost 1,800 employees in our particular school system. This year we had five new converters. And we have not found any active Tuberculosis

over the years. And it just does not seem that money-wise, time-wise and so-on, that we can justify this kind of program.

Then I have a question. The way the law reads now, how is it proposed that this will be enforced? We have had some people who have not complied with the law the way it reads at the present time in getting their intradermal test, and they have not been dismissed from their responsibilities, teaching or whatever they are doing, in the school system. And I just wonder how this is enforced.

MR. MITCHELL: I believe the enforcement is up to the local school district, because they are the ones that are charged with carrying out these procedures. Just what steps they can take, I really can't tell you. I suppose the first and best one is to try an educational approach. What other steps they can take, I guess would be followed by any employee-employer relationship; when the employee fails to live up to what the employer expects of him or requires of him. It's pretty general, but I can't tell you any specific measures they can take. It's up to them.

MRS. MOORE: In consulting with our administration in the St. Cloud Public Schools, they have told me that they cannot dismiss a person for not

complying with this regulation, nor can they force them to go to their private physician if they fail to come to one of our clinics that we provide for them.

MR. MITCHELL: Well, I would think that since the law says they must show annual freedom from Tuberculosis, if they refuse to show annual freedom from Tuberculosis, you think that theoretically they would not be allowed to expose themselves to children - or be in a classroom with school children. Just how far the school administration is willing to enforce that, they are endangering the health -- theoretically, should they develop Tuberculosis, they are endangering the health of school children by having failed to live up to the letter of the law. I would think that the school administration could exclude them, but that would be up to them to see how far they could go.

MRS. MOORE: With the phasing out of the mobile x-ray units and the regulations saying that the school districts are indeed obligated to pay for the tuberculin testing as well as the 14 by 17 chest film, this has gotten to be a really prohibitive thing. Our administration in our school district, they spent around $1,500 on chest films alone this year for positive reactors, that have previously shown positive reactors, and the five that we have that were using converters.

And they have said that this is something that they cannot cope with.

Now, the local hospital in St. Cloud does x-ray these people for $11.95 per film, and this is the cheapest rate that we are able to get in the area. I don't know what other schools have done since the phasing out of the mobile x-ray units. Thank you.

MR. GIESE: Okay. Thank you. Are there any further comments on MHD 328?

MS. CELIA CAGNONI: Yes. I am Celia Cagnoni, C-a-g-n-o-n-i, with the St. Paul Public Schools. I agree with Mrs. Moore that this is a very expensive thing. We have about 5,000 people to keep track of. And also the doctors are questioning; they feel that they should have the responsibility of their patients. And I am getting many questions about people with a positive tuberculin test, especially after they have had chemotherapy. Many doctors feel that if a positive reactor has had a full year of chemotherapy, that there should be no need for further x-rays. And it's almost an impossible law to enforce.

MR. GIESE: Okay. Thank you. Are there any further questions or comments?

MS. MARY GODARD: I am Mary Godard, G-o-d-a-r-d, and I am the nursing coordinator for the

Anoka-Hennepin School District. I guess I will take the other side of the fence. I cannot go along with the fact of not having a Mantoux test every year. And I guess I say that because we have had two situations in our school district; one was a custodian who turned out to have an active case of Tuberculosis. It was picked up by us. By the time we really found out what he had, he had exposed two schools of children. He was a custodian in the cafeteria. So that we had to do three Mantoux tests on all the school children in two of our elementary buildings. We did find some of the children had turned positive; one even in kindergarten, who had been a negative before. Some of the children did go on chemotherapy.

This past year we found a twenty year old cook who had had a negative Mantoux test in January of this year. She was a cook in the day care center. She was employed in April of '74 and she terminated her employment in August of '74, not feeling well. She went to the doctor on October the 20th. She was discovered to have a positive Mantoux and an x-ray lesion in her lung.

So, in this case, we had to then go to all of the children and Mantoux test all of her children in the day care center who had been exposed to this

particular cook.

So, when you say do not do a Mantoux test every three years, and here we have had one that had changed from a negative Mantoux in January to April, I guess I would have to take exception to it.

Now, we are a school district where we have approximately 3,000 that we have to be aware of, and I will admit that it is a very big job. It is my responsibility that we see whether they get their Mantoux tests or whether they get their chest x-ray.

I think that you have to consider when you say $1,500, that might seem like quite a bit of money, but I guess I have to go on other things that the school district will pay for, even including their athletic budget which will go way up into the thousands, and nobody will say a thing about that. So, I guess I can't get too upset when we are talking about fifteen hundred to two thousand dollars that we might have to spend on x-rays if we are going to protect the children. We spend a lot of time in getting the Mantoux tests. I do think that having a Mantoux test rather than a chest x-ray, I think that the employee must submit to a Mantoux test. And then if he has a positive of ten millimeters, then he can get an x-ray and have it paid for by the school district.

In our district, we did refer the people to their own doctor. We were going to try to get it through the hospital, and the doctors said, no, they said that they wanted to see their own patients.

So, we went along with that. And we gave letters to the people who had to have a chest x-ray.

I think that we had to consider in the long run that it's so easy to let go and say that, well, we aren't getting very much of a response now, there aren't too many positive reactors, why don't we just give it up. And as has happened in other communicable diseases, you just let down the barriers and I think that you start having problems.

I think I have to go along, as a public health nurse, I would have to go along with the prevention type of it.

MR. GIESE: Thank you. Are there any further comments?

MS. HELEN O'DAIR: I am Helen O'Dair, O-'-D-a-i-r, from the Robbinsdale Area Schools. We have 2,400 employees and we are in Hennepin County, and admittedly we do have a better resource for x-rays. But we have been able to enforce this regulation a hundred percent.

I would like to state one example: It

looks at times that it is a needless piece of work, but last fall we had a custodian who refused to take his Mantoux test because he said he had a positive already. He also refused to get an x-ray. So we went through the school process of suspension until such time as he would show freedom from Tuberculosis. He chose to go to his family doctor. A follow-up call from the family doctor thanked us for getting him in, because he stated that he wanted to get him back in but did not have the control to get him back to his office. The man was put on chemo-therapy treatment, and this man did return to his job in one month and is under continuous supervision. But that man just was not going to go in and have any follow-up care except for this school regulation that we were able to force him into.

MR. GIESE: Thank you. Are there any further comments? Are there any further comments on either proposed regulation MHD 327, MHD 328 or any general comments?

MS. EDWINA NEAL: May I raise a question? Edwina Neal, N-e-a-l, Minnetonka Schools. Your reading of MHD 327 did not conform with the printed material, I do not think.

MR. MITCHELL: That is correct. We made a suggested change, a small change. There was another

piece of paper. I don't know if you were able to pick it up or not. It's right out on the outer table. It has the suggested change. What it does is introduce a sentence at the beginning of 327. It says, "Unless an employee has previously shown a positive reaction to a standard intradermal tuberculin test as certified by a physician, the employees of all --" and goes on with the rest of it.

MS. NEAL: Thank you.

MS. GODARD: Mary Godard again. It has not been stated as to what you consider a positive reaction to be and whether this is including the time test or not, or whether you are going strictly on the intradermal type.

MR. MITCHELL: A time test would be considered a standard intradermal test. We didn't state what a positive would be considered to be because there are some problems with this. When we think of a Mantoux test, we know it's ten millimeters or more, but yet in the case of contact, when you consider if you have a contact to active TB, you consider a positive to be five to nine millimeters. So, there are exceptions we didn't feel we could state in the regulations. What a positive would be considered to be, we would have to leave that up to the judgment of the physician and the

school nurse really to use their own professional judgment as to what is an accepted positive. We didn't feel we could write that into the regulation.

MR. GIESE: Are there any further questions or comments?

MS. NEAL: Edwina Neal, N-e-a-l, Minnetonka Schools. I do have a concern relative to the matter of enforcement of the law, and do recognize that it is legally the responsibility of the local school district. But I do need to express an opinion. I think there is considerable variance in the school districts as to their understanding of the law and to what degree they may or may not be complying. And in that regard, although we are all adverse to the reports, I suppose I can't help but feel that there should be some legal documentation or reporting required by the State Department of Health from each local school district in the state if in fact this law is going to have some teeth in it. I think there are too many loose ends in it at this time.

MR. GIESE: Thank you. Are there any further comments? Is there anyone else that would like to provide testimony on either one of the proposed regulations or provide general comments? The record will reflect that there are none -- okay.

MS. GODARD: I have one other question.

MR. GIESE: Yes?

MS. GODARD: And that is the fact that these examinations, this Section 328, "These examinations may include any or all of the following considerations: history; physical examinations --" Now, is this expecting that the school district is going to pay this? It doesn't say anywhere that the school district is.

MR. MITCHELL: Yes, it would.

MS. GODARD: So that if a patient has to go --

MR. MITCHELL: If the physician felt that he had to have these kinds of examinations to completely rule out active Tuberculosis, then it would have to.

MS. GODARD: Thank you.

MR. GIESE: Are there any further comments or questions? The record will reflect that there are none. For the purpose of receiving oral testimony, this hearing is concluded. However, the record will remain open for twenty days for the purpose of receiving written statements which may be submitted to Mr. Mitchell.

Mr. O'Brien will provide a brief explanation of the procedure to be followed in order to complete the promulgation process. Mr. O'Brien.

MR. O'BRIEN: Thank you, Mr. Hearing

Officer. As the Hearing Officer noted, the record will remain open for twenty more days for the receipt of any written testimony. Therefore the Department will be reviewing any comments which are submitted to it within the next twenty days and regard that written testimony as part of this hearing. At that point when the twenty day period ends and the record is closed, the Department will review all of the testimony which has been received. They will make any revisions which are felt to be necessary when the regulations are reviewed at that time. The regulations then will be prepared in final draft form and presented to the Board of Health. If the Board chooses to adopt the regulations, they will be sent to the Attorney General's office. That office, the Attorney General's office, will have twenty days in which to review the regulations and approve or disapprove as to form and legality. If the Attorney General's office decides to approve the regulations, then they will be filed with the Secretary of State and with the Department of Administration. At the time of that filing, they will have the force and effect of law.

MR. GIESE: Thank you. Are there any further questions? Hearing none, we stand adjourned. Thank you.

REPORTER'S CERTIFICATE

I, Richard K. Huff, do hereby certify that I recorded in Stenotypy the hearing before the Minnesota Board of Health on the 20th day of November, 1974, at Minneapolis, Minnesota;

I further certify that thereafter and on that same date I transcribed into typewriting under my direction the foregoing transcript of said recorded hearing, which transcript consists of the preceding 21 typewritten pages;

I further certify that said hearing of such interview is true and correct to the best of my ability.

Richard K. Huff,
Court Reporter

Dated this 22nd day
of November, 1974.
