STATE OF MINNESOTA

COUNTY OF RAMSEY

BEFORE DR. J. G. FLINT
SECRETARY AND EXECUTIVE OFFICER
STATE LIVESTOCK SANITARY BOARD

In the matter of Proposed Amendment to the Rules of the State Livestock Sanitary Board, LSB-1, Importation of Cattle.

STATEMENT OF NEED

The above-captioned amendments are to existing rules of the Livestock Sanitary Board. The last time the above-captioned rules were amended was December, 1972.

The need to amend these rules arises because of the desire of the Livestock Sanitary Board to relieve the economic hardships imposed by the present rule requiring tests of all special permit and affidavit feeding heifers for release of quarantine.

A change is necessary to guard against introduction of brucellosis from certain high brucellosis incidence States and to protect Minnesota's status as a brucellosis-free State.

STATE OF MINNESOTA

COUNTY OF RAMSEY

BEFORE DR. J. G. FLINT
SECRETARY AND EXECUTIVE OFFICER
STATE LIVESTOCK SANITARY BOARD

In the Matter of the Proposed Amendment to
Rules of the State Livestock Sanitary Board,
LSB-1, Importation of Cattle.

FINDINGS OF FACT

The above-entitled matter came on for hearing before Dr. J. G. Flint, Secretary and Executive Officer of the State Livestock Sanitary Board, on the 20th day of March, 1975, at 1:00 p.m. in Conference Room D, Veterans Service Building, St. Paul, Minnesota, after proper notice required by M.S. 1974, Section 15.0412, Subdivision 4, was served upon all persons, associations, and other interested groups registered with the Secretary of State for that purpose.

After affording interested persons an opportunity to present written and oral data, statements, and arguments, and having heard and considered all of the testimony and evidence presented, and upon the records, files, and proceedings herein, I find the following:

1. Authority to promulgate and amend the above-captioned rule and regulation is contained in M.S., Section 35.03 (1974). That Section directs the State Livestock Sanitary Board to protect the health of the domestic animals of the State by such means as it deems expedient to that end, including the adoption of rules and regulations. These rules are hereby found to come within that authority and are found to be reasonable.

2. Amendment of this regulation will relieve the economic hardship imposed on owners of special permit and affidavit feeding heifers by allowing a test of part of the quarantined heifers instead of all for release of quarantine. No evidence was produced that this amendment would adversely affect the health of the domestic animals of the State of Minnesota.

(MORE)

3. For purposes of protecting the cattle in Minnesota from introduction of brucellosis from certain States with a high incidence of brucellosis this amendment makes a brucellosis retest requirement for cattle imported from such States. This amendment will protect the brucellosis-free status that the State of Minnesota presently enjoys. Evidence indicates that the benefit will far outweigh the expense and inconvenience of the retest. Latest data indicates less than two percent of the imported breeding cattle would be required to be retested for brucellosis.

4. These amendments are reasonable and are in the public interest and further are found within the scope of M.S. 35.03 (1974).

TRANSCRIPT

OF PUBLIC HEARING HELD AT 1:00 PM, MARCH 20, 1975 on LSB-1, IMPORTATION OF CATTLE in ROOM D - VETERANS SERVICE BUILDING - DR. J. G. FLINT PRESIDING

DR FLINT: We will call the hearing to order at this time. This hearing is being held for the purpose of considering amendments to Regulation LSB-1, Importation of Cattle. All persons interested in doing so will be given an opportunity to present their views. A transcript of all testimony given today will be prepared and submitted to the Board for consideration prior to the next Board meeting which has been tentatively scheduled for Friday, April 11th. After the hearing is over today a 20-day period will be allowed in which time interested parties may submit written material. This material will become a part of the transcript and the 20-day period will be up to and including Wednesday, April 9th. In accordance with the Rules and Regulations of the Attorney General's office for holding public hearings, hearing notices were sent to all persons who have filed their names with the Secretary of State requesting such notices, to all legislators as well as to certain other representatives of the industry. Dr Pyle, at this time, will you read into the record the exhibits.

DR PYLE: The exhibits we have here and available for examination are the

Certificate of the Board's Resolution

The Order for the Hearing

The Notice of the Hearing

The Secretary of State's Certificate

The Affidavit of Mailing

The Proposed Amendment to Regulation LSB-1, and

The Statement of Need.

DR FLINT: At this time would you read into the record the Statement of Need.

DR PYLE: The Statement of Need reads as follows:

"In the matter of Proposed Amendment to the Rules of the State Livestock Sanitary Board, LSB-1, Importation of Cattle.

"The above-captioned amendments are to existing rules of the Livestock Sanitary Board. The last time the above-captioned rules were amended was December, 1972.

"The need to amend these rules arises because of the desire of the Livestock Sanitary Board to relieve the economic hardships imposed by the present rule requiring tests of all special permit and affidavit feeding heifers for release of quarantine.

"A change is necessary to guard against introduction of brucellosis from certain high brucellosis incidence States and to protect Minnesota's status as a brucellosis-free State."

That was signed January 30th, 1975, by J. G. Flint, Secretary and Executive Officer.

DR FLINT: Dr Pyle, at this time, would you go through the proposed amendments just briefly, also giving a little explanation of the reason for the changes and I'd like to have you also establish a need for the changes as you go through them.

DR PYLE: There are a number of slight changes that are not mentioned in the Statement of Need such as up-dating the date of Minnesota Statutes and punctuation. The first major change is on Page 6, Section (i), pertaining to breeding cattle from modified certified brucellosis areas. Number (3), sub-section number (3) is new and it reads as follows:

"Cattle from states with a high incidence of herd infection as determined by statistical data of the Animal and Plant Inspection Service of the United States Department of Agriculture are subject to quarantine for a brucellosis test at owner's expense no less than 30 days nor more than 90 days from the date of importation. The Secretary and Executive Officer shall make a determination on January 2 of each year based on the herd infection rates for each of the states for the fiscal year preceding.

This was put in to protect the State of Minnesota from the importation of cattle that could be tested negative within the previous 30 days but might be exposed or come from a high incidence brucellosis area. It's based on the fact that 89 percent of the infected herds of about slightly over 14,000 herds in fiscal year 1974 were in eleven of the fifty states. This is the basis by which this proposal is being made.

DR FLINT: I'd like to make one addition to that paragraph. On Page 6, section (3), in line 2, you should insert the word "Health" between "Plant" and "Inspection" so that it reads: "Animal and Plant Health Inspection Service."

DR PYLE: The next change concerns the testing of SPECIAL PERMIT and AFFIDAVIT cattle and this is indicated on Page 9, section (1) ... sub-section (cc) ... (aaa). It reads:

> "(aaa) If all of the SPECIAL PERMIT or AFFIDAVIT cattle are tested and found negative the quarantine will be released.
>
> "(bbb) If reactors are disclosed no cattle may be sold.
>
> "(ccc) The diagnosis of brucellosis tests shall be made in accordance with regulation LSB-11. (which is the regulation for brucellosis.)
>
> "(ddd) If all of the SPECIAL PERMIT or AFFIDAVIT cattle are tested and suspects are disclosed the suspects shall be sent to slaughter on permit from the Board or isolated from all other tested cattle and all negative cattle may be sold.
>
> "(eee) If part of the SPECIAL PERMIT or AFFIDAVIT cattle are tested and suspects are disclosed the suspects shall be sent to slaughter on permit from the Board and all negative cattle sold under quarantine for a retest no sooner than 30 nor more than 60 days following the first test.
>
> "(fff) If only part of the SPECIAL PERMIT or AFFIDAVIT cattle are tested and negative then such cattle must be isolated until retested for brucellosis at owner's expense no sooner than thirty (30) days nor more than 60 days following the initial test, or sold under quarantine for retest at owner's expense no sooner than thirty (30) days nor more than 60 days following the initial test.
>
> "(ggg) Any animal showing a positive reaction to the tuberculosis test and all brucellosis reactors shall be identified as reactors and shipped for slaughter to a slaughtering establishment where there is Federal inspection. A permit from the Board is required and such reactors are not eligible for indemnity."

These changes are deemed necessary to remove the hardship for the cattle feeder who has cattle that he has to test because of some change in circumstances or because of pregnancy to allow him to test part of the cattle rather than to test all of the cattle.

DR FLINT: Well, Dr Pyle, it's true, isn't it, that prior to this amendment an owner could obtain a permit to have all of the cattle tested to relieve the quarantine. Really, what this change has done is that it has authorized him to obtain a permit to have only part of those cattle tested, right? And this is outlined on Page 9, there in section (cc)(iv).

DR PYLE: The other change in this is that this will allow the diagnosis of suspects. Previously in the regulation as it is now, whenever any brucellosis titer, any positive of any kind, no matter how slight, it had to be diagnosed as a reactor. This follows along with what is being done at auction markets and in other places where tests are being made.

DR FLINT: Of course, this was a glaring inconsistency, was it not, because it allowed the sale of negative cattle from a herd in which a reactor had been disclosed.

DR PYLE: This is correct.

DR FLINT: So under the new amendment, if a reactor is disclosed, then the rest of the animals will be kept under quarantine. Right?

DR PYLE: That is right.

DR FLINT: OK. Do you have anything further to add?

DR PYLE: No, the only thing that I would say is that it seems like it will protect the industry just as much as we thought we were doing in the past but it makes it a little more adaptable to individual situations.

DR FLINT: And probably not quite so arbitrary.

DR PYLE: That is correct.

DR FLINT: Well, I would just like to once again reiterate the fact that following the hearing in accordance with the Rules and Regulations of the Attorney General's

office governing public hearings that a 20-day period is allowed for interested parties to submit written material which will become a part of the transcript. The 20-day period will be up to and including Wednesday, April 9th.
