SUBJECT: Rules Relating to Issuance of Certificates of Approval to Laboratories Performing Bacteriological Examinations of Water

Enclosed for your review are three files containing the documentation supportive of the above-referenced rules.

The rules provide for a voluntary program whereby those laboratories, which so choose, may seek a Certificate of Approval.

There was no controversy surrounding the rules. No letters were received regarding the rules and only one non-agency person made remarks at the hearing.

The Findings of Fact were re-drafted to incorporate by reference the Statement of Justification, Exhibit #8 of the hearing. The hearing was held on December 30, 1975.

If and when the rules are filed, would you please return files numbered 1 and 2 to me.

If you have any questions, please do not hesitate to contact me.

Thanks.

STATE BOARD OF HEALTH

In the matter of Proposed
Rules Relating to the Issuance
of Certificates of Approval to
Laboratories Performing
Bacteriological Examinations of
Water.

STATEMENT OF NEED

The above-captioned rules are not amendments to existing rules of the State Board of Health.

These rules are needed in order to provide uniform tests and standards by which to monitor the safety of water. As increased emphasis upon reporting and follow-up upon communicable illnesses has increased, the number of water-borne outbreaks of disease has begun to increase. Much of the defense against such outbreaks is the disinfection and treatment of drinking water. The measure of the reliability of such treatment is the listing by bacteriological methods for the presence of chloroform groups or indicator organisms. Although the standards set forth for bacteriological listing of water are explicit and particular, they can be misinterpreted or ignored under pressures of haste and overload. Certificates of Approval will minimize such risks and provide uniform procedures. Surveys conducted pursuant to issuance of Certificates of Approval can stimulate a closer adherence to those standards found acceptable by the water industry and the federal government. Major improvements were noted in procedures and equipment in the sixteen laboratories which received two surveys conducted approximately one year apart.

As environmental stresses, the effects of pollution, the aging of water-system equipment and advances in technology continue to increase,

the need for the Board of Health to accept only demonstrably reliable data from laboratories approved to perform bacteriological examinations of water is crucial.

STATE OF MINNESOTA

BOARD OF HEALTH

WARREN R. LAWSON, M.D.
Secretary and Executive Officer

MINNESOTA STATE BOARD OF HEALTH

Proposed regulations pertaining to the Approval of Laboratories performing bacteriological examinations of water (Proposed MDH 143).

Justification

Chapter 8: MDH 143 (a) - (f)

MDH 143 (a) Scope and Purpose

The State of Minnesota and the federal government require test results of bacteriological monitoring be reported to them from various municipalities. These data are used to determine the sanitary quality of the waters tested. The health of many Minnesotans is directly influenced by these waters. With the passage of the Safe Drinking Water Act, which will have the weight of law by 1977, the number of water examinations will be vastly increased. In order to insure the validity of the data reported, a baseline of acceptability is needed. This regulation is proposed to insure that those laboratories generating such data are in compliance with guidelines designated by the State of Minnesota and the federal government. Those laboratories found to be in compliance will be issued a Certificate of Approval and their names placed on an Approved List. Only with a system of laboratory surveys assuring quality performance and techniques can the data be said to represent the actual microbial population present in the waters tested. Therefore, only those laboratories whose names appear on the Approved List will be considered to be acceptable and have their data accepted by the State of Minnesota for official use in the evaluation of the sanitary quality of drinking water.

MDH 143 (b) Definitions

This section states the statute (Minnesota Stat. § 144.12 [K974]) under which this regulation is proposed and the definitions of terms used in it.

MDH 143 (c) Bacteriological Tests

Here are stated those tests that will be surveyed. A laboratory may be approved for any one, or combination of, tests listed. Only those tests that may be required by the State of Minnesota are listed.

MDH 143 (d) Application for Certificate of Approval
In order to process the laboratory requests for surveys in an orderly fashion, this procedure has been set forth.

MDH 143 (e) Procedure and Performance Standards
This section contains the "heart" of the regulation. It lists the criteria proposed to establish the competance of laboratories performing bacterial analyses upon waters. It also specifies the conditions of, and time limits for, laboratory approval.

MDH 143 (f) Renewal of Certificate of Approval
This specifies the procedure for renewal of the Certificate of Approval and maintenance of the laboratories name upon the Approved List.

Special Note:
In consideration of the subject of Removal of the Certificate of Approval please see the separate memo by Russell Frazier.

LABORATORY APPROVAL - REMOVAL FROM APPROVED LIST

We have considered your suggestion that some mechanism be provided for taking approved status from laboratories, and removing them from the approved list, for failure to conform to the standards required by the regulation during the two year period normally covered by a certificate of approval. We do not foresee conditions under which we would expect to use such a procedure and would prefer that the regulation make no reference to it. Certainly no certificate of approval would ever be withdrawn without a thorough study and a period of working with the laboratory. Since the approval period is short, it would be quite unlikely that such a period of attempted adjustment would be completed before the Certificate of Approval was outdated.

STATE BOARD OF HEALTH

In the Matter of the Proposed Rule Relating to the Issuance of Certificates of Approval to Laboratories Performing Bacteriological Examinations of Water.

ORDER ADOPTING RULE

The above-entitled matter came on for hearing before the Minnesota State Board of Health on the 30th day of December, 1975, at 9:00 A.M. in the Board Room, Minnesota Department of Health Building, 717 Delaware Street S.E., Minneapolis, Minnesota 55440, after proper notice required by Minn. Stat. § 15.0412 (Supp. 1975) was served upon all persons, associations and other interested groups registered with the Secretary of State for that purpose.

After affording interested persons an opportunity to present written and oral data, statements and arguments, and having heard and considered all of the testimony and evidence adduced and upon the records, files and proceedings herein, and applicable statutory standards or criteria, and having confirmed the need for the above-captioned rules.

NOW, THEREFORE, IT IS ORDERED that these rules identified as Minn. Reg. MHD 143 are adopted this 16th day of April, 1976, pursuant to authority vested in me by Minn. Stat. § § 144.05 (1974) and 144.12 (Supp. 1975), and by resolution of the Minnesota State Board of Health duly adopted at a meeting of the said Board on the 11th day of March, 1976.

STATE OF MINNESOTA

BOARD OF HEALTH

WARREN R. LAWSON, M.D.
Secretary and Executive Officer

STATE OF MINNESOTA
COUNTY OF HENNEPIN

BEFORE THE MINNESOTA
STATE BOARD OF HEALTH

In the Matter of the Proposed Rules Relating to the Issuance of Certificates of Approval to Laboratories Performing Bacteriological Examinations of Water.

FINDINGS OF FACT

The above-entitled matter came on for hearing before the Minnesota State Board of Health on the 30th day of December, 1975, at 9:00 A.M., in the Board Room, Minnesota Department of Health Building, 717 Delaware Street S.E., Minneapolis, Minnesota 55440, after proper notice required by Minn. Stat. § 15.0412 (Supp. 1975) was served upon all persons, associations and other interested groups registered with the Secretary of State for that purpose and also upon other persons, associations and groups of which the State Board of Health was aware of as possibly having an interest in the above-captioned rules.

After affording interested persons an opportunity to present written and oral data, statements and arguments, and having heard and considered all of the testimony and evidence adduced and upon the records, files and proceedings herein, the Board makes and enters the following findings:

FINDINGS OF FACT

1. Authority to adopt rules pertaining to the issuance of certificates of approval to laboratories performing bacteriological examinations of water is found in Minn. Stat. § § 144.05 (1974) and 144.12 subd. 1(5) (Supp. 1975). Minn. Stat. § 144.05 (1974) specifically confers upon the Board of Health authority to develop programs and services for protecting the health of citizens and to conduct investigations and data to

identify and describe health problems. More specifically, Minn. Stat. § 144.12 subd. 1 (Supp. 1975) states that the Board may regulate, through the issuance of licenses or permits, the pollution of waters and the distribution of drinking water. These regulations are within the legislative grant of authority conferred upon the Board of Health.

2. There is a need for these regulations. As increased emphasis upon reporting and follow-up upon communicable illnesses has increased, the number of water-borne outbreaks of disease has begun to increase. Due to environmental stresses, aging water-system equipment and pollution effects, the need for the Board of Health to accept only demonstrably reliable data from laboratories approved to perform bacteriological examinations is crucial. Certificates of approval will minimize possible risks and provide uniform procedures for those laboratories which choose to seek approval.

3. MHD 143(a) relating to the scope and purpose of the rule indicates that the Board of Health will accept test results from only those laboratories approved by the Board. Inasmuch as the Federal Environmental Protection Agency has designated the Board of Health as its deputy for bacteriological surveys, the EPA will only accept reports regarding potable water from Board approved laboratories. Since there are no operating boards or consortiums in the water industry within Minnesota which have been organized to monitor or legally enforce safe and effective testing techniques and equipment to insure the biological acceptability of water, the Board finds that it is in the best position to perform such functions. Further, the Board accepts and adopts the rationale contained on page one of the Justification, accepted into the record as Exhibit 8 at the Hearing held on December 30, 1975, regarding the adoption of these regulations.

4. MHD 143(d) requires that persons performing the bacteriological tests specified in the rules must be approved

to perform such tests before a Certificate of Approval will be issued. The Board finds that competent test results would not be insured if only a general chairman or department head was approved instead of all individuals actually performing the tests. Of the 46 laboratories which have voluntarily participated in a survey program, 38 employ competent persons to perform the test, but have an unqualified "supervisor" above them who does not actually perform bacteriological tests. The Board sees a danger in approving only administrative personnel who may not directly work in the laboratories. In order to preserve the integrity of the test results as well as to impress upon potentially unsupervised workers the continued need for impeccable techniques, the Board finds that approval of each person performing such tests is necessary. The Board accepts and adopts the rationale contained on page two of the Justification, accepted as Exhibit 8 at the public Hearing held on December 30, 1975, regarding the adoption of these rules.

5. Other provisions of the rule not specifically referred to herein are found to be supported by evidence in the record.

6. As only one public person made any comments during the hearing, and no letters were received prior or subsequent to the hearing, no modification has been made in the rule as initially proposed in the Notice of Hearing.

7. This rule is in keeping and will help fulfill the policy of the State as expressed in Minn. Stat. § § 144.05 (1974) and 144.12 (Supp. 1975).
