DEPARTMENT ATTORNEY GENERAL

Office Memorandum

TO : JOSEPH P. GRABA, Secretary
State Board of Vo-Tech Education

DATE: 7/23/84

Attn: CHARLES T. MOTTL/Special Assist. Att. General

FROM : LARRY D. STARNS
Special Assistant LDS
Attorney General

PHONE: 297-3493

SUBJECT: In the Matter of Proposed Adoption of Rules Governing Post-Secondary Voactional Instructional Persennel Licensure - Robotics Technician 5 MCAR § 1.0790 C.

Enclosed herewith are the rules you have submitted for approval. These rules have been approved by this office and filed with the Secretary of State. Please note that they have not been filed with the State Register. This must be done promptly by your agency.

Upon receipt and before transmittal to your agency, however, it is important that you recheck these rules as to:

1. Affixation of stamps of the Attorney General and Secretary of State;

2. Coverage by these stamps of all rules submitted; and

3. Inclusion of all pages to the rules in the approved set.

If you have any questions in this regard, please contact me.

Amended Rule as Adopted

5 MCAR S 1.0790 Post-secondary vocational instructional personnel.

A.-B. [Unchanged.]

C. Uncharted licensure criteria; robotics technician. To qualify for a license, an applicant in a licensure area not charted in 5 MCAR S 1.0798, must comply with 5 MCAR S 1.0781, 1.0782, 1.0784 C., and 1.0785, and specifically in the area of technical education/robotics technician, must present evidence of completion of the following education and occupational experience requirements.

1. Education requirement. An applicant must have completed at an accredited institution, either:

a. two years (2,160 clock hours) post-secondary vocational-technical training focusing on technician level training in any one or more of the following areas ~~of~~: robotics/flexible automation, fluid power, electronics, automated packaging, industrial engineering, electro-mechanical technology, ~~or~~ industrial technology, or manufacturing processes; or

b. a degree program in any one or more of the following: mechanical, electrical, or aero-space engineering at the baccalaureate level or higher.

2. Occupational experience requirement. An applicant must have 2,000 hours of experience within the last five years in robotics ~~or programmable~~/flexible automation, and 4,000 hours of experience focusing on the technical application of any one or more of the following areas: robotics/flexible automation; electronics emphasizing computer technician or computer programmer skills; fluid power mechanics; manufacturing processes applications; or electro-mechanical technology.

Rules With Hearing

Enclosed is the complete record of the Hearing.

Also enclosed are four copies of the Rules as Adopted and two copies of the Order Adopting Rules. In addition, is a copy of each of the following:

1. Certificate of Board's Resolution Adopting Rules
2. Notice of Intent to Solicit Outside Opinion and any written Material received
3. Order for Hearing
4. Certificate of Board's Authorizing Resolution
5. Notice of Hearing
6. Affidavit of Mailing
   Affidavit of the Additional Notice....Rulemaking Mailing List Certificate
7. Rules as Proposed - State Register
   and as mailed
8. Hearing Examiner's Report
9. Chief Hearing Examiner's Report
10. Findings of Fact and Conclusions
11. Statement of Need and Reasonableness
12. Affidavit of Mailing Notice of Submission to the Attorney General and accompanying Notice

Please let me know when this record is ready for pick up and I will send someone to get it.

Thank you.

State of Minnesota
State Board of Vocational-Technical Education

In the Matter of the Proposed Adoption
of Rules of the State Board of
Vocational-Technical Education
Governing Rules for Licensure of
Vocational Education Personnel
MR 3515.5050 (Renumbered from 5 MCAR
§ 1.0790C.)

ORDER ADOPTING RULES

The above entitled matter came on for hearing before Hearing Examiner Richard C. Luis on the 23rd day of February, 1984 at 9:00 A.M. at the Capitol Square Building, first floor conference rooms, 550 Cedar Street, St. Paul, Minnesota, after proper notice required by Minnesota Statutes sections 14.05 to 14.08 and 14.10 to 14.28 was served upon all persons, associations, and other interested groups registered with the State Board of Vocational-Technical Education for that purpose.

After affording interested persons an opportunity to present written and oral data, statements and agruments, hearing all of the testimony, considering all of the evidence adduced and upon the records, files, and proceedings herein and applicable statutory standards or criteria, and confirming the need for and reasonableness of the above-captioned rule.

NOW, THEREFORE, IT IS ORDERED that these rules identified as 3515.5050 are adopted this 11th day of June, 1984, pursuant to authority vested in the Board by Minnesota Statutes sections 121.11, subd. 12, and 125.185, subd. 4.

STATE OF MINNESOTA
OFFICE OF ADMINISTRATIVE HEARINGS

FOR THE STATE BOARD OF VOCATIONAL-TECHNICAL EDUCATION

In the Matter of Proposed Adoption
of Rules Governing Post-Secondary
Vocational Instructional Personnel
Licensure - Robotics Technician
5 MCAR § 1.0790 C.

ORDER OF THE CHIEF
ADMINISTRATIVE LAW JUDGE

WHEREAS, a hearing was held on February 23, 1984 before Richard C. Luis, an Administrative Law Judge of the State Office of Administrative Hearings, on the above-entitled matter in compliance with the rule-making provisions of Minn. Stat. Ch. 14 (1982 and 1983 Supp.); and

WHEREAS, the Report of Administrative Law Judge made pursuant to Minn. Stat. § 14.50, was issued to the State Board of Vocational-Technical Education and;

WHEREAS, the State Board of Vocational-Technical Education has now determined to adopt rules; and

WHEREAS, the State Board of Vocational-Technical Education has submitted said rules to the Chief Administrative Law Judge for review pursuant to Minn. Stat. §§ 14.16, 14.51, and 9 MCAR § 2.111; and

WHEREAS, the Chief Administrative Law Judge finds that the final proposed rules are not substantially different from those proposed at the public hearing.

NOW, THEREFORE, upon receipt of this Order, the State Board of Vocational-Technical Education has the responsibility of submitting the complete hearing record and the rules as adopted to the Revisor of Statutes and Attorney General and to publish in the State Register if approved by the Attorney General.

Dated: May 24, 1984.

Duane R. Harves

DUANE R. HARVES
Chief Administrative Law Judge

STATE OF MINNESOTA
OFFICE OF ADMINISTRATIVE HEARINGS

FOR THE STATE BOARD OF VOCATIONAL-TECHNICAL EDUCATION

In the Matter of Proposed Adoption
of Rules Governing Post-Secondary
Vocational Instructional Personnel
Licensure - Robotics Technician
5 MCAR § 1.0790 C.

REPORT OF THE HEARING EXAMINER

Pursuant to a Notice of Hearing dated November 7, 1983, the above-entitled matter came on for hearing before Richard C. Luis, duly appointed Hearing Examiner, on Thursday, February 23, 1984, commencing at 9:00 a.m. in Conference Rooms A and B, First Floor, Capitol Square Building, St. Paul, Minnesota. This is a rulemaking proceeding conducted pursuant to Minn. Stat. Ch. 14 to determine whether the Board of Vocational-Technical Education has the authority to adopt the rules proposed and whether they are necessary and reasonable and may be adopted.

Charles Mottl, Special Assistant Attorney General, 1100 Bremer Tower, Seventh Place and Minnesota Streets, St. Paul, Minnesota 55101, appeared as counsel for the Board of Vocational-Technical Education. The Board's panel consisted of Joseph Graba, State Director of Vocational-Technical Education; Dr. Deena Allen, Supervisor, Instructional Services Section; and Maryls Hedtke, Student Intern, Instructional Services Section, all employees of the State Department of Education. Approximately 35 persons attended the hearing, and 29 persons signed the hearing register. The hearing continued until 3:30 p.m. on February 23, until all persons present had an opportunity to be heard. Four of the public witnesses (Craig Froke, Richard Pooley, David Carroll, and Michael Newkirk) were persons solicited by the Board in advance of the hearing to testify on behalf of the proposed rules. One written comment was filed with the Office of Administrative Hearings before the hearing was held. At the hearing, the Board submitted 12 exhibits and the public submitted 12 exhibits, two of which are multi-parted (Exhibit 6 consists of 21 documents and Exhibit 8 consists of 4 documents). Several written comments, including one document from the Board containing recommended amendments and an analysis of its reaction to the public comments, were received prior to the close of the comment period, which remained open for 14 days, through March 8, 1984, by order of the Hearing Examiner issued at the hearing. One public comment was filed late.

Pursuant to Minn. Stat. § 14.15, subd. 1, (1983 Supp.) the record remained open for an additional three business days, through March 13, 1984, to allow the Board to indicate in writing whether there were amendments supported by other persons which it was willing to adopt. The Board allowed this deadline to pass without filing a written acceptance of other amendments.

This Report shall be available for review to all affected individuals upon request for at least five working days before the agency takes any further action on the rule(s). Pursuant to Minn. Stat. § 14.16 (1982), the Board of Vocational-Technical Education shall, if it proposes to adopt the rule as recommended herein, submit the rule, together with the complete hearing record to the Attorney General and shall be responsible for notifying persons who have indicated that they wish to be notified of such filing. If the Board makes changes in the rule other than those recommended herein, it shall submit the rule with the complete hearing record to the Chief Hearing Examiner for a review of the changes prior to submitting it to the Attorney General for review.

Based upon all the testimony, exhibits, and written comments, the Hearing Examiner makes the following:

FINDINGS OF FACT

Procedural Requirements

1. On November 10, 1983, the State Board for Vocational Education (predecessor of the State Board of Vocational-Technical Education) filed the following documents with the Chief Hearing Examiner:

(a) A copy of the proposed rules.
(b) The Order for Hearing, signed by the Board's Secretary, Ruth E. Randall, Commissioner of Education, with an attached document of authority from the Board to order the hearing.
(c) The Notice of Hearing proposed to be issued.
(d) A statement of the number of persons expected to attend the hearing and estimated length of the Board's presentation.

2. On January 23, 1984, a Notice of Hearing and a copy of the proposed rules were published at 8 State Register No. 30, pp. 1715-1717.

3. On January 1, 1984, pursuant to Minn. Laws 1983, Chapter 258, §§ 60, 61 and 63, the State Board for Vocational Education was abolished and the State Board of Vocational-Technical Education was established to govern post-secondary vocational education. The new Board was granted all powers necessary and incident to the management, jurisdiction, and governance of post-secondary vocational education. The rules of the State Board for Vocational Education for post-secondary and adult vocational education licensure were transferred to the jurisdiction of the new Board.

4. On January 18, 1984, the Board of Vocational-Technical Education mailed the Notice of Hearing to all persons and associations who had registered their names with the Board, and its predecessor Board for Vocational Education, for the purpose of receiving such notice.

5. On January 25, 1984, the Board of Vocational-Technical Education filed the following documents with the Hearing Examiner:

(a) The Notice of Hearing as mailed.
(b) The Board's certification that its mailing list was accurate and complete.
(c) The Affidavit of Mailing the Notice to all persons on the Board's list.
(d) The Statement of Need and Reasonableness.
(e) The names of Department of Education personnel who will represent the Board at the hearing together with the names of any other witnesses solicited by the Board to appear on its behalf.
(f) A copy of the State Register containing the proposed rules.
(g) An Affidavit of Additional Notice.
(h) All materials received following a Notice of Intent to Solicit Outside Opinion published at 7 State Register No. 44, p. 1579 on May 2, 1983. No material was received by the Department of Education in response to this solicitation.

5. The documents were available for inspection at the Office of Administrative Hearings from the date of filing to the date of the hearing.

6. The record remained open through March 8, 1984, for the receipt of written comments and statements, the period having been extended by order of the Hearing Examiner to 14 calendar days following the hearing. Pursuant to Minn. Stat. § 14.15, subd. 1, the Board of Vocational-Technical Education was allowed an additional three business days, through March 13, 1984, to indicate in writing whether there were amendments suggested by other persons which it was willing to adopt. The Board allowed this deadline to pass without comment.

Background

7. The subject matter of the proposed rules is the licensure standards for persons authorized to teach a post-secondary course in robotics technician training in the public vocational-technical schools of Minnesota. Robotics is a relatively new, emerging field, both in education and industry. Programs of education for robotics technicians have been approved and are being implemented in three of the state's Area Vocational-Technical Institutes (Granite Falls, Minneapolis and Staples). None of the instructors of the course programs has been licensed because of the lack of rules setting licensure standards. As a result of having a program in place, with instructors teaching those programs, the Board for Vocational Education, through its administrative arm, the Vocational-Tecnical Education Division of the State Department of Education, gave the implementation of licensure standards for instructors in robotics immediate priority. The robotics technician licensure rule was developed by a committee which included, among others, representatives from the three Area Vocational-Technical Institutes offering the course program. The licensure criteria developed by the committee were submitted to the robotics technician program advisory committees at the Minneapolis and Granite Falls Area Vocational-Technical Institutes for their review and approval. Both of these advisory committees include representatives from private industry interested in robotics, including persons from 3M, Honeywell, Control Data, and GCA Corporation. Neither advisory committee recommended changes in the rule as proposed.

On September 12, 1983, the Committee's final draft, as approved by the Board for Vocational Education and the State Department's Vocational-Technical Division, was published at 8 State Register No. 11, pp. 428-429, under a Notice of Intent to Adopt Rule Without a Public Hearing. Pursuant to Minn. Stat. § 14.22, the public was advised that no public hearing would be held unless seven or more persons made a written request within 30 days (the comment period) following publication of the Notice on September 12. During the comment period, 21 requests for a public hearing were received by the Vocational-Technical Division (see Public's Exhibit 6A-6U). As a result, pursuant to Minn. Stat. § 14.25, the Board proceeded with this public hearing process.

Statutory Authority

8. In its Notice of Hearing, the Board cited the following statutes as authority for the adoption of the proposed rules:

(1) Minn. Stat. § 121.11, subd. 12, which reads, in relevant part:

> "The state board (for vocational education) shall adopt and enforce rules, consistent with this code, appropriate for the administration and enforcement thereof...."; and

(2) Minn. Stat. § 125.185, subd. 4, which reads, in relevant part:

> "...With regard to vocational education teachers the board of teaching shall adopt and maintain as its rules the rules of the state board for vocational education."

At the hearing, counsel for the Board entered into the record, as Board's Exhibit 12, relevant portions of Minn. Laws 1983, Chapter 258, the enactment with abolished the Board for Vocational Education and created the Board of Vocational-Technical Education. Chapter 258, § 61, subd. 9, reads:

> "The state board may promulgate rules, according to the provisions of chapter 14, for the licensure of teaching, support and supervisory personnel in post-secondary and adult vocational education."

The Hearing Examiner finds that Minn. Laws 1983, Chapter 258, § 61, subd. 9, grants the Board of Vocational-Technical Education the statutory authority to adopt the proposed rules.

Discussion of the Proposed Rules

9. The proposed rules are structured to fit the traditional design, or model, used in setting licensure standards for teachers in other areas of vocational-technical education. That is, they contain an education requirement (at least two years of relevant training) and occupational experience requirements. The occupational experience requirements are for a minimum of three years (6,000 hours) of experience, and are divided into two independent parts. The first, or "recency" requirement, mandates a minimum of

one year (2,000 hours) of experience in the specific occupational field of robotics within the last five years prior to application for licensure. The second part of the occupational experience standard requires a minimum of two more years (4,000 hours) in the occupational field or any of several other occupational areas which have been determined by the drafters to relate to robotics. This second portion of the experience requirement has no "recency" provision. In other words, it is permissible to have acquired the experience at any time during the course of the applicant's career.

The specific standards proposed by the Board, in the proposals as published on January 23, 1984, and as amended prior to the close of the record, will be discussed below.

10. There was controversy at the hearing, however, regarding the "conformity" of the standards into the model described in the preceding Finding, a model in structural conformity with all existing post-secondary vocational-technical licensure rules. Dr. Deena Allen, the Education Department's chief spokesperson at the hearing, testified that the Department is currently studying a structural reformation of all of the vocational-technical education licensing standards. Several public witnesses, such as Caroline Rosdahl of the Anoka Area Vocational-Technical Institute and Dick Sunsdahl, an instructor at the Faribault Area Vocational-Technical Institute representing the Minnesota Trade and Industrial Association, advocated the setting up of standards around a "core" concept, whereby a separate category of "robotics coordinator" would be licensed as a lead instructor and specialists in related disciplines would be authorized to teach "units of instruction" within the robotics program (such as electronics, fluid power mechanics, tool and die, etc.). The proponents of this position argue that such a structure is more realistic than the current model, and that reformation of the rule structure should begin with these rules. Dr. Allen replied that, while the Department was aware of problems inherent in the current model, it has decided to propose these rules within the structure of that model because (1) it is the model currently in effect and there is an immediate need to license instructors, and (2) the Department has decided to continue studying the overall structure for its vocational-technical education licensing standards until such time as it will propose a general reformation of the standards for all areas of instruction, foregoing the "piecemeal" approach to reform that would result from adoption of a different model in one particular area at this time.

The Hearing Examiner finds that the Department's choice of a structural model conforming to the model currently used for licensure standards in all other areas of vocational-technical instruction is necessary and reasonable. This is so not only because of the immediate need for licensed instructors but also because the model conforms to all of the other, currently valid, rules regarding licensure of instructors throughout the vocation-technical education system.

11. The education and occupational experience requirements originally published in the State Register contain serial listings of several areas in which education and experience relevant to licensure could be acquired. Each list separated its subparts by commas or semicolons and deployed the alternative conjunction "or" prior to the last item in the list. The

drafters' intention is that any combination of one or more of the items listed would be acceptable. The proposal as originally drafted was correct, gramatically, in expressing that concept, but several members of the public expressed concern about confusion over the meaning and intent of the listings as drafted. As a result, the Department proposed an amendment which inserts the words "any one or more of the following" before the serial listings in subsections 1a, 1b, and 2. The Hearing Examiner finds that this amendment is necessary and reasonable for clarification purposes and further finds that this amendment is not a substantial change.

12. The education requirement in the proposed rule provides an alternative of two years' post-secondary vocational-technical training in certain listed areas or completion of a degree program (baccalaureate or higher) in certain engineering areas. Several members of the public advocated the addition of the variety of areas of post-secondary vocational-technical training to the list, such as robotics itself, flexible automation, programmable automation, tool and die and mechanical drafting.

In its submission prior to the close of the record, the Board proposed amending its list of acceptable vocational-technical training by adding "manufacturing processes" to the list. The use of this generic term is an attempt to incorporate the desire expressed by public witnesses to provide, in the rule, an appropriate educational base for a robotics technician instructor. It is also consistent with the emphasis on "areas", rather than on specific programs or courses, as reflected in the proposal as published. The Board argues that this term covers the areas of design technology, machine tool processes, tool and die, tool design and mechancial drafting that public witnesses were concerned should be recognized. The Hearing Examiner finds the proposed amendment adding "manufacturing processes" to the list of areas recognized as appropriate for the education requirement to be necessary and reasonable. It is further found that this amendment is not a substantial change in the rules as originally published because it concerns a subject matter raised by the original Notice - appropriate education.

13. The Board's final submission prior to the close of the record added the areas of "robotics" and "flexible automation" to both the list of acceptable education requirements and to the list of acceptable career (4,000 hours) occupational experience requirements. It also proposed deletion of word "programmable" from the "recent" occupational experience requirement (2,000 hours in the last five years) and substitution of the word "flexible" in its place.

The general thrust of these proposals is to recognize that educational training and occupational experience in the area of robotics itself is relevant to determining the qualifications of licensure to teach a robotics technician course. The Hearing Examiner finds that this position, advocated by several of the public witnesses at the hearing and accepted by the Department of Education personnel acting for Board, is both necessary and reasonable.

However, the Hearing Examiner's review of the record has led him to conclude that the terms "robotics" and "flexible automation" are synonomous - that is, they both deal with machines, like robots, that are designed to

perform any of several mechanical functions. On the other hand, "programmable" automation, the term proposed for deletion in the final submission, refers to machines designed to perform only one mechanical function. It is suggested that the use of the separate categories of "robotics" and "flexible automation" in the rule may be redundant, and that the Board should consider using the conjunction "or" between the two listings or placing a slash between them, rather than separating them by punctuation, for purposes of editorial clarification. It is found that such a change would be editorial in nature and not a substantial change, and it is further found that such a change is necessary and reasonable.

If it was the Board's intention to include training and occupational experience requirements in single-function machines in its lists, however, the term "programmable automation" should be inserted in the educational requirements and the career occupational experience requirements lists and the word "programmable" should be re-inserted before the word "automation" in the "recency" requirement of subsection two. Such a change, if adopted, would be consistent with the testimony offered at the hearing by David Hoska and David Carroll and is found to be necessary and reasonable. It is further found that insertion of "programmable automation" as suggested would not be a substantial change, because the subject matter (educational and occupational experience requirements) was raised in the Notice of Hearing and at the public hearing.

14. Testimony was taken at the hearing and documents were submitted prior to the close of the record supporting changes regarding several other subjects, which were considered and rejected by the Board in its final submission. These included:

(1) Suggestions that the rule should allow persons currently teaching some robotics in other programs, such as electronics, to be "grandfathered" in and thus be eligible for a robotics technician teaching license;

(2) Dropping of the requirement for recent occupational experience in robotics; and

(3) Providing credit for occupational experience acquired in the military service.

The Board rejected suggestion (1) above because the fact that instructors in other programs are currently allowed to, and do, teach small units of robotics within their programs does not, of itself, guarantee that they have the necessary training and experience to teach a full program of robotics technician training. Suggestion (2) was rejected because the Board decided that it was important in this area, in which the technology is relatively recent and changing rapidly, to have recent, "hands on" experience. It is reasoned that those persons who have worked with robotics more regularly and recently in their jobs are more apt to have an in-depth knowledge of robotics consistent with current industry standards. Suggestion (3), for a recognition of military occupational experience within the body of the rule itself, was rejected because the Board currently has a rule, part five of Minn. Rule 3515.1300 (also numbered 5 MCAR § 1.0783 B. 5.), recognizing and quantifying military experience as an alternative form of occupational experience, cutting across all areas of vocational-technical licensure.

15. Pursuant to Minn. Stat. § 14.47 (1983 Supp.) the Revisor of Statutes has issued a recompilation of all Minnesota state agency rules. The proposed rules are numbered 5 MCAR § 1.0790 C. The Hearing Examiner notes that such a notation is not in conformity with the recompiled rules as issued by the Revisor of Statutes. Under the recompilation, the subject of Licensure for Personnel in Vocational Schools is Minn. Rules Chapter 3515. If the Board decides to adopt rules as a result of this hearing process, the rules will be renumbered by the office of the Revisor of Statutes to conform with the recompilation.

Based upon the foregoing Findings of Fact, the Hearing Examiner makes the following:

CONCLUSIONS

1. That the Board for Vocational Education, predecessor to the Board of Vocational-Technical Education gave proper notice of the hearing in this matter.

2. That the Board for Vocational Education, predecessor to the Board of Vocational-Technical Education has fulfilled the procedural requirements of Minn. Stat. § 14.14, subds. 1, 1a and 2 (1982), as amended by Minn. Laws 1983, Ch. 210, § 4 and Ch. 301, § 64, and all other procedural requirements of law or rule.

3. That the Board for Vocational-Technical Education has documented its statutory authority to adopt the proposed rules, and has fulfilled all other substantive requirements of law or rule within the meaning of Minn. Stat. §§ 14.05, subd. 1, 14.15, subd. 3, as amended by Minn. Laws 1983, Ch. 210, § 6, and 14.50 (i) and (ii) (1982).

4. That the Board for Vocational-Technical Education has demonstrated the need for and reasonableness of the proposed rules by an affirmative presentation of facts in the record within the meaning of Minn. Stat. §§ 14.14, subd. 2 and 14.50 (iii) (1982).

5. That the additions and amendments to the proposed rules which were suggested by the Board for Vocational-Technical Education after publication of the proposed rules in the State Register do not result in rules which are substantially different from the proposed rules as published in the State Register within the meaning of Minn. Stat. § 14.15, subd. 3 (1982), as amended by Minn. Laws 1983, Ch. 210, § 6, and 9 MCAR §§ 2.110 A. and 2.111 (1980 Ed.).

6. That any Findings which might properly be termed Conclusions and any Conclusions which might properly be termed Findings are hereby adopted as such.

7. That a finding or conclusion of need and reasonableness in regard to any particular rule subsection does not preclude and should not discourage the Board for Vocational-Technical Education from further modification of the rules based upon an examination of the public comments, provided that no

substantial change is made from the proposed rules as originally published, and provided that the rule finally adopted is based upon facts appearing in this rule hearing record.

Based upon the foregoing Conclusions, the Hearing Examiner makes the following:

RECOMMENDATION

It is hereby recommended that the proposed rules be adopted consistent with the Findings and Conclusions made above.

Dated this 6th day of April, 1984.

(State Board for Vocational Education)

Ruth E. Randall

Ruth E. Randall, Secretary

CERTIFICATE OF BOARD'S

AUTHORIZING RESOLUTION

I, Ruth E. Randall, do hereby certify that I am the Secretary of the Board of Education (State Board for Vocational Education), a board duly authorized under the laws of the State of Minnesota, and that the following is a true, complete, and correct copy of a resolution adopted at a meeting of the Board of Education (State Board for Vocational Education) duly and properly called and held on the 7th day of November, 1983, that a quorum was present at said meeting, that a majority of those present voted for the resolution and that said resolution is set forth in the minutes of said meeting and has not been rescinded or modified.

> "RESOLVED, that Ruth E. Randall, Secretary of the Board of Education (State Board for Vocational Education), be and she hereby is granted the authority and directed to call a hearing for the purpose of promulgating rules of the Board governing Licensure of Post-Secondary vocational instructional personnel Robotics Technician as well as perform any and all acts incidental thereto, including but without being limited to signing an Order for Hearing and Notice of Hearing, as well as acting as the Board's representative at all hearings."

IN WITNESS WHEREOF, I have hereunto subscribed my name this 7th day of November, 1983.

Ruth E. Randall

Ruth E. Randall, Secretary

Member, State Board of Education

State of Minnesota
State Board of Vocational-
Technical Education

Before Richard C. Luis
Hearing Examiner
Office of Administrative
Hearings

In the Matter of Proposed Adoption
of Rules of the State Board of
Vocational-Technical Education
Governing Post-Secondary Vocational
Instructional Personnel Licensure--
Robotics Technician
3515.4900 - 3515.5050 (Renumbered
from 5MCAR § 1.0790)

Findings of Fact and
Conclusions:

The above entitled matter came on for hearing before Richard C. Luis, Hearing Examiner, on Thursday, February 23, 1984, at 9:00 a.m. in Conference Rooms A and B, First Floor, Capitol Square Building, St. Paul, Minnesota, after proper notice as required by Minnesota Statute, Chapter 14 was served upon all persons, associations, and other interested groups registered with the State Board of Vocational-Technical Education for that purpose.

After affording interested persons an opportunity to present written and oral statements and arguments, having reviewed all of the testimony, having considered all of the evidence submitted, having considered the Report of the Hearing Examiner, and based upon all of the testimony and proceedings herein, and applicable statutory standards or criteria, having withheld action on the proposed Rules for the required period of time after receipt of the Report of the Hearing Examiner, and having confirmed the need for the above captioned Rules, the State Board of Vocational-Technical Education finds that the Findings of Fact of the Hearing Examiner accurately reflect the facts in the record except as set forth below.

NOW THEREFORE, IT IS RESOLVED that the State Board of Vocational-Technical Education hereby adopts and incorporates herein the report

of the Hearing Examiner dated April 6, 1984, relative to the above-entitled matter, except as set forth below.

FINDINGS OF FACT AND CONCLUSIONS

1. The State Board of Vocational-Technical Education adopts the recommendation of the Hearing Examiner as contained in Findings of Fact, Number 13, suggesting that the terms "robotics" and "flexible automation" are synonomous and the "conjunction or between the two listings or placing a slash between them" is appropriate for purposes of editorial clarification.

> 1. Education requirement. An applicant must have completed at an accredited institution, either:
>
> a. two years (2,160 clock hours) post-secondary vocational-technical training focusing on technician level training in any one or more of the following areas: ~~of~~ robotics / flexible automation, fluid power, electronics, automated packaging, industrial engineering, electro-mechanical technology, ~~or~~ industrial technology;, or manufacturing processes; or
>
> b. a degree program in any one or more of the following: mechanical, electrical, or aero-space engineering at the baccalaureate level or higher.
>
> 2. Occupational experience requirement. An applicant must have 2,000 hours of experience within the last five years in robotics/ ~~or programmable~~ flexible automation, and 4,000 hours of experience focusing on the technical application of any one or more of the following areas: robotics / flexible automation; electronics emphasizing computer technician or computer programmer skills; fluid power mechanics; manufacturing processes applications; or electro-mechanical technology.

The Board concludes that the recommended editorial change is needed and reasonable because the language proposed by the Hearing Examiner clarifies the original intention of the Board.

2. The State Board of Vocational-Technical Education declines to implement the second suggestion contained in Number 13 of the Hearing Examiner's report with respect to re-inserting the term "programmable" before the word automation in the educational requirements and the career occupational experience requirements. The Board concludes that the term "robotics/flexible automation" encompasses programmable automation;

therefore it is unnecessary to specifically include the term "programmable" automation.

3. The State Board of Vocational-Technical Education has carefully reviewed all comments submitted to the Hearing Examiner and expressed to the Board prior to the adoption of the rules governing Post-Secondary Vocational Instructional Personnel Licensure - Robotics Technician.

4. The State Board of Vocational-Technical Education concludes that the rules, as amended, are both needed and reasonable.

3. The forms for providing this information may be developed by either the insurer or by the data service organization to which the insurer belongs. The forms must be filed as part of the experience rating plan.

C. Schedule rating plans. The maximum credit and maximum debit which can be developed by schedule rating shall be determined by the commissioner and shall be no more than 25 percent of manual premium, after application of any experience modification.

D. Failure to comply.

1. If the commissioner finds upon review of the insurer's rate filing that the rates or rating plans do not comply with the requirements of Minnesota Statutes, sections 79.55 to 79.61 and 4 MCAR §§ 1.9140-1.9147, or that the filing lacks the necessary information to determine whether the rates comply with the cited statutes and rules, then the commissioner shall notify the insurer in what respects the rates or rating plans fail to comply and specify a reasonable period within which the defects shall be corrected.

2. If the insurer fails to correct the specified defects within the time period specified, the insurer is in violation of Minnesota Statutes, section 79.56 and subject to a fine as provided in subdivision 3.

4 MCAR § 1.9147 Policy forms.

Workers' compensation insurance must be written using policy forms filed by the data service organization of which the insurer is a member except that if the insurer files a rating plan requiring a policy provision or endorsement for which the data service organization has made no usable filing, then the insurer may file its own policy forms needed to implement its rating plans.

State Board of Education
(State Board for Vocational Education)
Department of Education
Vocational-Technical Division

Proposed Adoption of Rules Governing Post-Secondary Vocational Instructional Personnel Licensure—Robotics Technician 5 MCAR § 1.0790 C

Notice of Hearing

A public hearing concerning the proposed rules will be held at the Capitol Square Building, Conference Room A and B, first floor, on February 23, 1984, commencing at 9:00 a.m. and continuing until all interested persons have had an opportunity to be heard. The proposed rules may be modified as a result of the hearing process. Therefore, if you are affected in any manner by the proposed rules, you are urged to participate in the rule hearing process.

Following the Board's presentation at the hearing all interested or affected persons will have an opportunity to ask questions and make comments. Statements may be made orally and written material may be submitted. In addition, whether or not an appearance is made at the hearing, written statements or material may be submitted to Richard C. Luis, Hearing Examiner, Office of Administrative Hearings, 400 Summit Bank Building, 310 South Fourth Avenue, Minneapolis, MN 55415, telephone (612) 341-7610, either before the hearing or within five working days after the close of the hearing. The hearing examiner may, at the hearing, order that the record be kept open for a longer period not to exceed 20 calendar days. The rule hearing procedure is governed by Minn. Stat. §§ 14.02 to 14.56, and by 9 MCAR §§ 2.101-2.113 (Minnesota Code of Agency Rules). If you have any questions about the procedure, call or write the hearing examiner.

Notice is hereby given that 25 days prior to the hearing, a Statement of Need and Reasonableness will be available for review at the Board and at the Office of Administrative Hearings. This Statement of Need and Reasonableness will include a summary of all the evidence and argument which the Board anticipates presenting at the hearing justifying both the need for and the

KEY: PROPOSED RULES SECTION — Underlining indicates additions to existing rule language. ~~Strike outs~~ indicate deletions from existing rule language. If a proposed rule is totally new, it is designated "all new material." ADOPTED RULES SECTION — Underlining indicates additions to proposed rule language. ~~Strike outs~~ indicate deletions from proposed rule language.

reasonableness of the proposed rule or rules. Copies of the Statement of Need and Reasonableness may be obtained from the Office of Administrative Hearings at a minimal charge.

The Board intends to present only a short summary of the Statement of Need and Reasonableness at the hearing but will answer questions raised by interested persons. You are therefore urged to review the Statement of Need and Reasonableness before the hearing. Additional copies will be available at the hearing.

These rules provide educational and occupational experience requirements for post-secondary instructors wishing to apply for a Robotics Technician teaching license.

The Board's statutory authority to promulgate the proposed rules is provided by Minn. Stat. §§ 121.11, Subd. 12, and 125.185, Subd. 4.

The Board estimates that there will be no cost to local bodies in the State to implement the rules for the two years immediately following its adoption within the meaning of Minn. Stat. § 14.11.

A copy of the proposed rules is attached hereto. One free copy may be obtained by writing to Dr. Rosemary T. Fruehling, Capitol Square Building, 550 Cedar Street, St. Paul, MN 55101, telephone (612) 296-3387. Additional copies will be available at the door on the date of the hearing. If you have any questions on the content of the proposed rules, contact Dr. Rosemary T. Fruehling.

Notice: Any person may request notification of the date on which the Hearing Examiner's Report will be available, after which date the Board may not take any final action on the rules for a period of five working days. Any person may request notification of the date on which the hearing record has been submitted (or resubmitted) to the Attorney General by the Board. If you desire to be so notified, you may so indicate at the hearing. After the hearing, you may request notification by sending a written request to the Hearing Examiner (in the case of the Hearing Examiner's Report), or to the Board (in the case of the Board's submission or resubmission to the Attorney General).

Minn. Stat. Ch. 10A requires each lobbyist to register with the State Ethical Practices Board within five days after he or she commences lobbying. A lobbyist is defined in Minn. Stat. § 10A.01, subd. 11 as any individual:

(a) Engaged for pay or other consideration, or authorized by another individual or association to spend money, who spends more than five hours in any one month or more than $250; not including his own travel expenses and membership dues, in any year, for the purpose of attempting to influence legislative or administrative action by communicating or urging others to communicate with public officials; or

(b) Who spends more than $250, not including his own traveling expenses and membership dues, in any year for the purpose of attempting to influence legislative or administrative action by communicating or urging others to communicate with public officials.

The statute provides certain exceptions. Questions should be directed to the Ethical Practices Board, 41 State Office Building, St. Paul, MN 55155, telephone (612) 296-5615.

November 7, 1983

Ruth E. Randall, Secretary
State Board of Education
(State Board for Vocational Education)

Rule as Proposed

5 MCAR § 1.0790 Post-secondary vocational instructional personnel.

A.-B. [Unchanged.]

C. Uncharted licensure criteria; robotics technician. To qualify for a license, an applicant in a licensure area not charted in 5 MCAR § 1.0798, must comply with 5 MCAR § 1.0781, 1.0782, 1.0784 C., and 1.0785, and specifically in the area of technical education/robotics technician, must present evidence of completion of the following education and occupational experience requirements.

1. Education requirement. An applicant must have completed at an accredited institution, either:

a. two years (2,160 clock hours) post-secondary vocational-technical training focusing on technician level training in the areas of fluid power, electronics, automated packaging, industrial engineering, electro-mechanical technology, or industrial technology; or

b. a degree program in mechanical, electrical, or aero-space engineering at the baccalaureate level or higher.

2. Occupational experience requirement. An applicant must have 2,000 hours of experience within the last five years in robotics or programmable automation, and 4,000 hours of experience focusing on the technical application of electronics

emphasizing computer technician or computer programmer skills; fluid power mechanics; manufacturing processes applications; or electro-mechanical technology.

Department of Energy and Economic Development

Proposed Amendments of Rules Governing the Home Energy Disclosure Program and the Minimum Energy Efficiency Standards for Residential Rental Units

Order for Hearing

It is ordered this 9th day of January, 1984, that a public hearing be held on the proposed amendments of the rules captioned above in Room 715 of the American Center Building on February 28, 1984, commencing at 9:15 a.m. and continuing until all representatives of associations and other interested groups have had an opportunity to be heard.

It is further ordered that notice of said hearing be given to all persons who have registered their names with the Minnesota Department of Energy and Economic Development for that purpose and be published in the *State Register*.

Mark B. Dayton
Commissioner
Department of Energy and Economic Development

Notice of Hearing

Notice is hereby given that a public hearing will be held pursuant to Minnesota Statutes, 1982, section 14.14, subd. 1. in the above-entitled matter in the American Center Building, Room 715, 150 E. Kellogg Blvd., St. Paul, MN on February 28, 1984 commencing at 9:15 a.m. and continuing until all representatives of associations or other interested groups or persons have had an opportunity to be heard concerning adoption of the rules captioned above. The public hearing will continue on February 29 commencing at 10:00 a.m. only if it is not completed on February 28. Persons interested in presenting testimony should appear on February 28 as there is no assurance that the public hearing will continue on February 29. The hearing will be conducted according to Minn. Stat. § 14.13 to 14.20 and the rules of the Office of Administrative Hearings, 9 MCAR § 2.100-2.113.

At the hearing, statements may be made orally and written material may be submitted and recorded in the hearing record. In addition, written material may be submitted to Hearing Examiner Allan Klein, Office of Administrative Hearings, 400 Summit Bank Building, 310 South 4th Avenue, Minneapolis, Minnesota 55415—telephone (612) 341-7609, either before the hearing or within five working days after the close of the hearing unless the hearing examiner orders the record to remain open for a longer period of time, not to exceed 20 calendar days. The proposed rules are subject to change as a result of the rules hearing process. The Division therefore strongly urges those who may be affected in any manner by the substance of the proposed rules to participate in the rules hearing process.

The Commissioner proposes to amend existing rules relating to the following matters:

1. Deletions of references to the Home Energy Disclosure Program which was eliminated by the 1983 legislature;
2. Amendments to the Minimum Standards for Energy Efficiency for Residential Rental Units that include:

a) a requirement by July, 1985 to insulate attics to R-38, exterior walls to R-11 and foundations to R-11, including previously defined "inaccessible" attics, walls, foundations, and rim joists.

b) a performance option for buildings with 5 or more units as an alternative to the other prescriptive standards.

3. Expand the definition of "economic feasibility" (used to determine the applicability of each standard) to include costs to repair the building to comply with the standards;
4. Adding a minimum steady state efficiency for heating systems for smaller buildings;
5. Dropping storm doors as a standard for larger buildings.

These standards apply to all residential buildings which were built before 1976, and which are renter occupied between the

Notice of Intent to Solicit Outside Opinion Regarding Proposed Rules Governing the Rules for Licensure of Vocational Education Personnel

Notice is hereby given that the State Board of Education (State Board for Vocational Education) is seeking information or opinions from sources outside the agency in preparing to amend Rules for Licensure of Vocational Education Personnel. The following rules are being amended: 5 MCAR § 1.0782 C. New instructional positions; 5 MCAR § 1.0790 A. Qualifications for licensure for post-secondary vocational instructional personnel; 5 MCAR § 1.0798 Post-secondary licensure chart. The promulgation of these rules is authorized by Minn. Stat. §§ 121.11, subd. 12; 121.21, subd. 6; and 125.185, subd. 4.

The State Board of Education (State Board for Vocational Education) requests information and comments concerning the subject matter of these rules. Interested or affected persons may submit statements of information or comment orally or in writing. Written statements should be addressed to:

Dr. Rosemary T. Fruehling
Division of Vocational-Technical Education
541 Capitol Square Building
550 Cedar Street
St. Paul, Minnesota 55101

Oral statements will be received during regular business hours over the telephone at (612) 296-3387 and in person at the above address.

All statements of information and comments shall be accepted until May 31, 1983. Any written material received by the State Board of Education (State Board for Vocational Education) shall become part of the record in the event that the rules are amended.

May 2, 1983

Mary Thornton Phillips
Assistant Commissioner
Division of Vocational-Technical Education

Department of Health
Health Systems Division

Notice of Vacancy

Poison Information Center Advisory Council has one vacancy open for a physician specializing in internal medicine. Applicants cannot be a resident of St. Louis, Hennepin, Olmsted, Nobles, Clay or Scott counties and may not be affiliated with the designated poison information center. The council advises the Commissioner of Health on establishing a poison information center to provide poison information and educational services to the public and to health professionals. Members receive no compensation, but do receive reimbursement for travel expenses. For specific information contact the Poison Information Center Advisory Council, 717 Delaware St. S.E., Minneapolis 55414; (612) 623-5284.

St. Paul, MN 55101

Dear Dr. Fruehling,

I am writing to you concerning the proposed rule MCAR 1.0790 Post Secondary Robotics Licensure. I am a manufacturing engineer certified in the fields of special machine design and robotics and am currently teaching courses in robotic applications at local vocational schools as part of their adult evening program. I also conduct classes and seminars in robotic applications for Honeywell Inc., Control Data Inc., and George Washington University.

As an educator in the field of robotics I am concerned about the fact that mechanical design and machine shop operations are not considered as appropriate educational background for robotic instructors. As a graduate of a vocational-school mechanical-design curriculum and an individual holding a vocational teaching license in machine shop operations, I feel that these courses of study are as suited to provide an adequate knowledge base as the technical areas listed in the proposal.

If I understand the proposed rule correctly, the required educational experience acts only as a foundation on which extensive education and experience in various facets of robotics must be added. I feel the knowledge gained from mechanical-design and machine-shop curricula can prepare an individual for the multi-disciplined area of robotics and hope that the committee reviewing the proposal will take a closer look at the educational requirements as now stated and revise them to include these background fields.

Respectfully,

David R. Hoska
President

Re: Proposed Rule MCAR 1.0790 Post Secondary Robotics Licensure.

Dear Dr. Fruehling,

In reviewing the Educational Requirement for Licensure of a Robotics Technology Instructor, I noticed that the fields of Machine Shop Operations, Mechanical Drawing, and Welding, were notably absent. I feel that this oversight should be corrected since in order to competently interface the robot with much of the technology already used in manufacturing, these areas of knowlege are essential. The individual who is able to relate the techniques of machining skill to the artificial knowlege universe of the robot will be the only type that will produce the properly educated person for the emerging demand of modern industry.

There should be also a clarification of what is intended by "computer programer skills" . To the average educator, this connotes ability to program, edit, & debug in any of the many languages used in computer sciences. It would be much better if the instructor were required to be competent in NC programing, machine language programming, or hexa-decimal coding or micro-coding which are what is used most in the robotics applications today.

When public hearings are held on the proposed rule, MCAR 1.0790, I trust that these inputs will be helpful in achieving the best possible document.

Sincerely,

Frederick O. Olsen CMfgE

St. Paul, MN 55101

Dear Dr. Fruehling:

I am writing as a representative of Anoka AVTI. Today our school received your memo regarding "Notice of Intent to Adopt Rules Without a Public Hearing" in the area of Robotics Technician Licensure. The memo states that persons interested in these rules shall have 30 days to submit comments. Since it is dated August 9, 1983, there has been a serious delay in getting it to us.

I am writing at this time to request a public hearing on the proposed rules and will hope that you will proceed according to the provisions of Minnesota Statute 14.11 to 14.20.

I am also requesting at this time a copy of the "Statement of Need and Reasonableness" that describes the proposed rules related to licensure of Robotics Technician.

I would also like to request a copy of the "Final Rules as Proposed for Adoption" which will be submitted to the Attorney General.

In addition, I would like to register some of my concerns related to the proposed rules.

Section C2: "Occupational Experience Requirement"

The 2,000 hours of work experience within the last five years is unreasonable in that electronics instructors who have been teaching for more than five years could very well be reassigned to teach in the robotics area. These people have had upgrading workshops and have taken robotics courses and would be qualified to teach such a program. However, they might very well not have had the "recent paid work experience" because they were teaching.

Exh. No. 64
File No.
Date

I also think it is unreasonable to expect a person to have had 2,000 hours of experience in robotics or programmable automation, since these are new fields and it might be very difficult to find someone with that kind of experience.

If the 4,000 hours of experience also needs to be within five years, I would have the same concern as above, related to current electronics instructors.

I am hoping that some of these concerns may be addressed at the public hearing. Please be sure to let us know if and when there will be a public hearing.

Sincerely yours,

Caroline Rosdahl

Dear Dr. Fruehling:

It has recently come to my attention that the State Board of Education proposes to adopt rules governing the licensers of Robotics Instructors in Vocational Institutions.

The robotic industry is just emerging and still struggling for real direction. There are currently very few individuals who could meet your experience criteria for robotics and those that do have the experience are in great demand in private industry.

There are, at a minimum, 3 general areas a robot technician would work:

1) service and repair
2) manufacture and implementation
3) design of end-effectors and system layout

It is unclear from the proposed ruling how these areas are to be addressed.

The education system must remain flexible until the industry has settled somewhat. Right now it is undetermined who will be responsible for working on robots; electricians, electronic technicians, mechanics, plumbers or computer technicians.

It is further mentioned in the notice of intent that, at present, no public hearing is to be held. We request that there be a public hearing to fully examine this matter.

Thank you for receiving my thoughts on this matter. If there are any questions I will make myself available to answer them.

Sincerely,

GCA/PaR Systems

CERTIFICATE OF BOARD'S

RESOLUTION ADOPTING RULES

I, Joseph. P. Graba, do hereby certify that I am the Secretary of the State Board of Vocational-Technical Education, a board duly authorized under the laws of the State of Minnesota, and that the following is true, complete, and correct copy of a resolution adopted at a meeting of the State Board of Vocational-Technical Education, duly and properly called and held on the 11th day of June, 1984, that a quorum was present at said meeting, that a majority of these present voted for the resolution, is set forth in the minutes of said meeting and has not been rescinded or modified.

> "RESOLVED, that the rules relating to 3515.5050 renumbered from 5 MCAR § 1.0790 C. Licensure of Vocational Education Personnel, be and they hereby are approved and adopted, pursuant to authority vested in us by Minnesota Statutes sections 121.11, subd. 12, and 125.185, subd. 4, and that Joseph P. Graba, the Secretary of the State Board of Vocational-Technical Education, be and hereby is authorized to sign an order adopting these rules and further is authorized to perform the force and effect of law."

IN WITNESS WHEREOF, I have hereunto subscribed my name this 11th day of June, 1984.

Joseph P. Graba, Secretary

Member, State Board of
Vocational-Technical Education

State of Minnesota

Board of Vocational-Technical Education

Statement of Need and Reasonablness
Chapter Thirty-nine: Rules for Licensure
of Vocational Education Personnel

Proposed Amendments to Rules 5 MCAR § 1.0790 C.
Vocational Education Licenses for Robotics
Post-Secondary Licensure - Technical Education

Introduction

Public vocational education is delivered through area vocational-technical institutes, centers and school districts. Post-Secondary education is one category of vocational-technical education. Persons who teach post-secondary vocational-technical education courses must be licensed for the specific activity in which they teach. Qualifications for licensure include some form of post-secondary education and some relevant occupational experience in the area of licensure. Robotics technician is a new and emerging occupation integrating concepts and functions that have been in existance for many years such as hydraulics, pneumatics, mechanics, electricity, electronics, and computers with the application of robotics and programmable automation. This program prepares technicians for occupations in robotics design, research, applications, installation, programming, customer service, maintainance and repair.

Rule Amendments

5 MCAR § 1.0790 Post-Secondary vocational instructional personnel.

This amendment is needed to provide minimal teacher education criteria in the areas of educational and occupational experience for a post-secondary teacher licensure in the technical education area of Robotics Technician. This amendment is reasonable because: 1) It establishes teacher licensure criteria that are directly related to the content which must be taught by an instructor of this program, 2) it establishes alternative modes of educational experience for the instructor, 3) it offers adequate hours of hands-on occupational experience for the instructor to be competent in the areas of hydraulics; pneumatics; mechanics; electricity; electronics, robotics/programmable automation and computers, and 4) it complies with the Vocational teacher education sequence and Human Relations courses required for all post-secondary instructor licenses.

Amended Rule as Adopted

5 MCAR S 1.0790 Post-secondary vocational instructional personnel.

A.-B. [Unchanged.]

C. Uncharted licensure criteria; robotics technician. To qualify for a license, an applicant in a licensure area not charted in 5 MCAR S 1.0798, must comply with 5 MCAR S 1.0781, 1.0782, 1.0784 C., and 1.0785, and specifically in the area of technical education/robotics technician, must present evidence of completion of the following education and occupational experience requirements.

1. Education requirement. An applicant must have completed at an accredited institution, either:

a. two years (2,160 clock hours) post-secondary vocational-technical training focusing on technician level training in any one or more of the following areas ~~of~~: robotics/flexible automation, fluid power, electronics, automated packaging, industrial engineering, electro-mechanical technology, ~~or~~ industrial technology, or manufacturing processes; or

b. a degree program in any one or more of the following: mechanical, electrical, or aero-space engineering at the baccalaureate level or higher.

2. Occupational experience requirement. An applicant must have 2,000 hours of experience within the last five years in robotics ~~or programmable~~/flexible automation, and 4,000 hours of experience focusing on the technical application of any one or more of the following areas: robotics/flexible automation; electronics emphasizing computer technician or computer programmer skills; fluid power mechanics; manufacturing processes applications; or electro-mechanical technology.

STATEMENT OF COMPLIANCE WITH RULEMAKING PROCEDURES

I, Special Assistant Attorney General Charles T. Mottl, do hereby declare that I have examined the rules and all related documents and that, based on my examination and my personal familiarity with the applicable procedures, the Administrative Procedure Act, the rules of the Office of Administrative Hearings, and the rules of the Attorney General have been followed. Any exceptions are noted below.

Charles T. Mottl

Charles T. Mottl
Special Assistant
Attorney General

Dated: July 2, 1984
