In the Matter of the Proposed
Adoption of Rules of the
State Board of Education
Governing Implementation of
Health Occupations Program,
Minnesota Rules, part 3505.3300

FINDINGS OF FACT AND
CONCLUSIONS

At its meeting of November 14, 1984, the State Board of Education (hereinafter "the Board") proposed that the above-entitled rules be adopted after compliance with the procedure which authorizes an agency to propose and adopt rules without a public hearing. Pursuant thereto, the Notice of Intent to Adopt Rules Without a Public Hearing was published in the State Register together with a copy of the proposed rules. After adoption by the Board, these rules and the record herein shall be submitted to the Attorney General for review.

Based upon all the records and proceedings herein, the State Board of Education makes the following:

FINDINGS OF FACT

1. On July 9, 1984, the Notice of Intent to Solicit Outside Opinion Concerning Proposed Rules Governing Implementation of Health Occupations Programs was published in the State Register. No comments were received prior to November 14, 1984.

2. On November 14, 1984, the Board resolved to adopt Minnesota Rule, part 3505.3300 after compliance with the procedure which authorizes an agency to adopt rules without public hearing, Minnesota Statutes, Sections 14.22 to 14.28.

3. On December 18, 1984, 705 copies of the Notice of Intent to Adopt Minnesota Rule, part 3505.3300 Without Public Hearing and of the proposed rule were mailed to names appearing on the State Board of Education rule-making mailing list and Minnesota Secondary Health Occupations Instructors and to persons on the Education Statistics memo series list which are School Superintendents, Directors of ECSU's, Vocational Centers, Joint Power Districts.

4. On December 31, 1984, the Notice of Intent to Adopt Rules Without a Public Hearing, together with the rule proposed to be adopted were published in the State Register.

5. Four items of correspondence were received during the 30-day comment period. In a letter dated January 4, 1985, Bill Putnam, Superintendent/Principal of Barrett Public Schools, requested clarification about this proposed implementation method and whether the intent was to mandate that each district offer a Health Occupations program. A letter dated January 7, 1985, from Mr. Putnam formally requested a public hearing and expressed his opposition to mandated vocational programs. Mr. Tom Strom, Manager, Secondary Vocational Education, in a letter dated January 9, 1985, to Mr. Putnam, clarified the purpose of the proposed rule as providing for an alternative method of offering Health Occupations programs

over a two-year period of time rather than the present one-year requirement and it is not the intent of this rule to mandate Health Occupations for all school districts. It should also be noted that a proposed rule which would require all public secondary schools to offer some secondary vocational education programs effective for the 1986-87 school year was taken to a public hearing on February 7, 1985, pursuant to published and mailed notice. A letter dated December 28, 1984, from Lynn Salisbury, Director, Oakland Vocational Center, supported the proposed change of the rules. A letter dated January 4, 1985, from Hope Caldeen, Minnesota Nurses Association, requested a copy of the Statement of Need and Reasonableness and the Proposed Rules which were mailed January 9, 1985.

6. The Statement of Need and Reasonableness for the Proposed Amendment to Minnesota Rule, part 3505.3300, sets forth the need for and reasonableness of the rule to be adopted herein and such statement is incorporated herein.

CONCLUSIONS

1. The Board gave due, timely, adequate legal notice of its intent to adopt rules without public hearing.

2. Minnesota Statutes, Section 14.25 requires a public hearing on the proposed rule only if 25 persons request a public hearing during the comment period.

3. One person requested a public hearing during the comment period. No other person requested a public hearing on the proposed rule.

4. The Board has statutory authority to promulgate the proposed rules.

5. The Board has fulfilled all relevant, substantive and procedural requirements of law or rule.

6. The Board has demonstrated the need for and the reasonableness of the proposed rules by an affirmative presentation of facts.

7. The Board has concluded that the proposed rules satisfy the requirements of Minnesota Statutes, Section 14.22 to 14.28 and that the proposed rules should be adopted and published as final rules.

Statement of Need and Reasonableness for the Proposed Amendment to Minnesota Rule, Part 3505.3300.

Concerning: The proposed adoption of the amendment to the rule governing the implementation of the Health Occupations program.

The amendment is necessary to provide flexibility to the implementation of the Health Occupations program. By allowing the required 280 hours of program instruction to be offered over a two-year period of time, the schools would have the option of offering a time block of approximately one hour per school day over a period of two years, rather than the current requirement which provides an average of approximately two hours per school day. With many Health Occupations programs transferring from the cooperative centers into the high schools, additional options to provide these Health Occupations programs have been requested due to difficulty of scheduling and variables in schools. It is reasonable to offer this flexibility so the schools can provide students with greater opportunities for career exploration and skill development in the health occupations. The two-year program offering can successfully be utilized to provide continuity and program sequence in taking students from exploration of the health careers to the advanced portions of the curriculum. It is reasonable to provide options which will serve more students and provide the flexibility in planning needed to meet the changes in school and community needs.

The promulgation of these rules is authorized by Minnesota Statute SS 121.11, Subd. 12.
