NEED AND REASONABLENESS

3515.6005 POSTSECONDARY RELATED SUBJECTS INSTRUCTOR
3700.0381 BUSINESS AND OFFICE LICENSURE AND REENACTMENT AND VALIDATION

BACKGROUND

The statutory authority for the technical college board to promulgate theses rules is contained in Minnesota statutes section 136C.04, subd. 9 which states:

Licensure. The state board may adopt rules, according to the provisions of Chapter 14, for licensure of teaching, support, and supervisory personnel in postsecondary and adult vocational education. When necessary for continuous programs approved by the board and when the board determines that appropriate temporary standards to not exist, the state board may adopt appropriate temporary standards without regard to Chapter 14, and may issue temporary licenses to teaching and support personnel. A temporary license is valid up to one year and is not renewable, but a person holding a temporary license may, upon its expiration, be issued a license in accordance with standards adopted under Chapter 14. The state board may establish a processing fee for the issuance, renewal, or extension of a license.

The proposed rules changes are a continuation of a revision process of all postsecondary technical college licenses.

POSTSECONDARY RELATED SUBJECTS INSTRUCTOR

Subparts 1, 2 and 3 are the same as current rule 3515.6000. There are no changes in these subparts. Subpart 4, 3515.6005, is the same as current rule 3515.6000, subpart 3. There is no change in the content. The subpart has been changed to subpart 4 to accommodate the addition as described below.

Subp. 3. Recency exemption. This subpart allows an applicant who is currently licensed in an instructional area and practicing under that license to add a related subject to their credential without meeting the occupational recency requirement. Related instructors do not teach in an occupational content area but rather in a general studies area such as math, physics, or communication. At the time of their initial license they were required to have occupational experience including recency outside of education to assure their exposure to the world of work. Since the criteria for related instruction is primarily academic and licensed staff already met the occupational requirement, it is unreasonable to require an individual to leave the instructional area to meet an artificial recency requirement. Therefore this is a reasonable exception since there is no specific

occupation to which they teach.

3700.0381 COMPUTER PROGRAMMING; COMPUTER OPERATIONS.

New office technology resulted in a new venture program and instructor license entitled Microcomputer Support Specialist (now entitled, Microcomputer Support and Network Administration). It has become evident that existing computer instructional staff have the basic skills and knowledge but lacked the upgrading to teach content in other systems most recently available in industry. An agreement was reached with the University of Minnesota to offer an upgrading seminar for instructional staff licensed in Computer Operations or Programming in order to give them the necessary knowledge and skills to teach that particular program. This is a reasonable alternative to allow existing instructors with the basic education and occupational experience to acquire the necessary updating to move into a more advanced area of office practice consistent with today's technology. In addition, it will be offered for a period of two years to allow a reasonable amount of time for applicants to submit their licensure requests.

REENACTMENT AND VALIDATION

On March 18, 1990, a revised rule for Area Agriculture Coordinator went into effect. The intent at that time was that rule numbers 3515.5700, 3515.5900, 3515.6000, 3515.6100, 3515.6200, and 3515.6700 would not apply to the newly revised agriculture license. However, in actuality these rules were all repealed although that was not the intent. It is reasonable therefore to reenact as well as validate individuals who were licensed under these rules in good faith.

These changes are implemented using current processes and will have no fiscal impact.

NEED AND REASONABLENESS

3515.6005 POSTSECONDARY RELATED SUBJECTS INSTRUCTOR 3700.0381 BUSINESS AND OFFICE LICENSURE AND REENACTMENT AND VALIDATION

BACKGROUND

The statutory authority for the technical college board to promulgate theses rules is contained in Minnesota statutes section 136C.04, subd. 9 which states:

Licensure. The state board may adopt rules, according to the provisions of Chapter 14, for licensure of teaching, support, and supervisory personnel in postsecondary and adult vocational education. When necessary for continuous programs approved by the board and when the board determines that appropriate temporary standards to not exist, the state board may adopt appropriate temporary standards without regard to Chapter 14, and may issue temporary licenses to teaching and support personnel. A temporary license is valid up to one year and is not renewable, but a person holding a temporary license may, upon its expiration, be issued a license in accordance with standards adopted under Chapter 14. The state board may establish a processing fee for the issuance, renewal, or extension of a license.

The proposed rules changes are a continuation of a revision process of all postsecondary technical college licenses.

POSTSECONDARY RELATED SUBJECTS INSTRUCTOR

Subparts 1, 2 and 3 are the same as current rule 3515.6000. There are no changes in these subparts. Subpart 4, 3515.6005, is the same as current rule 3515.6000, subpart 3. There is no change in the content. The subpart has been changed to subpart 4 to accommodate the addition as described below.

Subp. 3. Recency exemption. This subpart allows an applicant who is currently licensed in an instructional area and practicing under that license to add a related subject to their credential without meeting the occupational recency requirement. Related instructors do not teach in an occupational content area but rather in a general studies area such as math, physics, or communication. At the time of their initial license they were required to have occupational experience including recency outside of education to assure their exposure to the world of work. Since the criteria for related instruction is primarily academic and licensed staff already met the occupational requirement, it is unreasonable to require an individual to leave the instructional area to meet an artificial recency requirement. Therefore this is a reasonable exception since there is no specific

occupation to which they teach.

3700.0381 COMPUTER PROGRAMMING; COMPUTER OPERATIONS.

New office technology resulted in a new venture program and instructor license entitled Microcomputer Support Specialist (now entitled, Microcomputer Support and Network Administration). It has become evident that existing computer instructional staff have the basic skills and knowledge but lacked the upgrading to teach content in other systems most recently available in industry. An agreement was reached with the University of Minnesota to offer an upgrading seminar for instructional staff licensed in Computer Operations or Programming in order to give them the necessary knowledge and skills to teach that particular program. This is a reasonable alternative to allow existing instructors with the basic education and occupational experience to acquire the necessary updating to move into a more advanced area of office practice consistent with today's technology. In addition, it will be offered for a period of two years to allow a reasonable amount of time for applicants to submit their licensure requests.

REENACTMENT AND VALIDATION

On March 18, 1990, a revised rule for Area Agriculture Coordinator went into effect. The intent at that time was that rule numbers 3515.5700, 3515.5900, 3515.6000, 3515.6100, 3515.6200, and 3515.6700 would not apply to the newly revised agriculture license. However, in actuality these rules were all repealed although that was not the intent. It is reasonable therefore to reenact as well as validate individuals who were licensed under these rules in good faith.

These changes are implemented using current processes and will have no fiscal impact.

AUTHORIZING RESOLUTION FOR ADOPTION OF A RULE WITHOUT A PUBLIC HEARING

I, F. B. Daniel, do hereby certify that I am a member and the President of the State Board of Technical Colleges, a Board duly authorized under correct copy of a resolution adopted at a meeting of the State Board of Technical Colleges, duly and properly called and held on the 14th day of August, 1991, that a quorum was present, and that a majority of those present voted for the resolution which has not been rescinded or modified.

"RESOLVED, that the rules relating to Postsecondary Licensure Criteria, for 3515.6005, Postsecondary Related Subjects Instructor; 3700.0381 Computer Programming; Computer Operations; License Transfer, Reenactment and Validation, and Repealer rules are approved and adopted, pursuant to authority vested in the State Board of Technical Colleges by Minnesota Statutes 136C.04, Subdivision 9. Helen Henrie, the Deputy Chancellor of the State Board of Technical Colleges, is authorized to sign the Findings of Fact, conclusions and order adopting the rule and further is authorized to modify the rule if necessary to obtain the approval of the rule by the Attorney General and to perform the necessary acts to provide that the rule shall have the force and effect of law."

STATE OF MINNESOTA
STATE BOARD OF TECHNICAL COLLEGES

In the Matter of the Proposed Adoption of the Rule of the State of Minnesota Governing Postsecondary Vocational Teaching Licensure, rules for 3515.6005 Postsecondary Related Subjects; 3700.0381 Computer Programming; Computer Operations; License Reenactment and Validation, and Repealer

FINDINGS OF FACT, CONCLUSIONS, AND ORDER ADOPTING RULE WITHOUT PUBLIC HEARING

(1) Notice of the State Board of Technical Colleges intent to adopt the above-entitled rule was published in the *State Register* on Monday, June 24, 1991, and was sent by United States mail to all persons on the list maintained by the agency pursuant to Minnesota Statutes, sections 14.14, subdivision 1a and 14.22 on June 18, 1991. (2) The statement of need and reasonableness was prepared before the notice of intent to adopt a rule without a public hearing was mailed to all persons on the rulemaking mailing list and published in the *State Register*, and was available to the public.

(4) All persons were given the opportunity to submit comment on the rule for 30 days after notice of the proposed rulemaking. (5) No requests for a public hearing on the rule were received by the agency. (7) No comments or submissions on the rule were received by the agency.

No requests for notice of submission to the Attorney General were received by the agency.

Based on the comments and evidence in the record before the agency, I find the following:

1. Minnesota Rules Part 3515.5050 Robotics Uncharted Criteria and Part 3700.0320 Banking and Finance Operations/Agriculture have been replaced by previously revised rules, Part 3700.0715 Automotive Systems Technology and Part 3700.0315 Banking and Finance Operations, respectively. Therefore, Parts 3515.5050 and 3700.0320 are obsolete and are repealed.

2. Minnesota Rule Parts 3700.0381 Computer Programming; Computer Operations provides a one-time opportunity for an approved upgrading workshop to allow these instructors an opportunity to become licensed in microcomputers. Part 3700.0381 is repealed in 1993.

3. The Revisor of Statutes inadvertently repealed Minnesota Rules Parts 3515.5700, 3515.5900, 3515.6000, 3515.6100, 3515.6200, and 3515.6700 in 1989 when they should not have been repealed. Reenactment and Validation validates the licenses held from the time of the inadvertent repealer to the present. Part 3515.6000 is also repealed in this proceeding since it is replaced by revised adopted rule Part 3515.6005 Postsecondary Related Subjects Instructor. (8)

4. The above-captioned rules are needed and reasonable.

NOW, THEREFORE, IT IS ORDERED that the rules identified as 3515.6005 Postsecondary Related Subjects Instructor; 3700.0381 Computer Programming; Computer Operations; License Reenactment and Validation, and Repealer are adopted this 18th day of September, 1991, pursuant to authority vested in the State Board of Technical Colleges by Minnesota Statutes, section 136C.04, Subdivision 9.
