Administrative Uniformity Committee

AGENDA – MEDICAL CODE TECHNICAL ADVISORY GROUP (MCT)
Tuesday, July 28, 2015
9:00 a.m. to 12:00 a.m.
Location: HealthPartners, 8170 Building, Bloomington, St. Croix – 1st floor

Webex Information

Teleconference Information:

Call-in line: 1-712-832-8300

Participant Access Code: 337213#

Callers are responsible for any long distance charges.

1. To start the webex session, go to: https://health-state-mn-ustraining.webex.com.
2. Under "Attend a Session "click "Live Sessions"
3. Click on the session for "AUC Medical Code TAG"
4. Provide your name, email address, and the following password: Mct2010! (Note: the password must be typed in; it cannot be cut and pasted. The exclamation point is part of the password)
5. Click "Join now"

1. **Welcome and Introductions**
   - **Attendance tracking: Deb Sorg** deb.a.sorg@healthpartners.com
   - **Membership request and/or updates: Deb Sorg** deb.a.sorg@healthpartners.com
2. **Review of Antitrust Statement**
3. **Review of last meeting's minutes** – June 11, 2015
4. **Mental Health Service Plan Development – DHS**

4/10/14 Minutes: See SBAR. Applies to children and adults, fee for service and public program plans. There are two services – service plan development and functional assessment. Can DHS develop a modifier to indicate units? TAG agreed that it might be the only option. DHS stated right thing to do is to request code from CMS; however, timing is the issue and getting buy-in from other states. Nine states cover these services using H00031 and H0032. Seven of those states use a 15 minute unit for the codes. DHS' concern is NCCI edits. CMS has recently begun looking at H codes for mental health. Are these codes being used by anyone? Not sure if used by health plans. Medica uses the H codes for autism and other assessments. Currently not being used by DHS for fee-for-service. What mental health providers are you using for these services? DHS' category of mental health professional. JoAnne Wolf feels that primary care provider will be involved and ask where they will fall into, medical homes. A DHS state that the service is mental health specific code only and is recognized by mental health professionals and practitioners. Services are authorized in statutes for CTSS only; children receiving CTSS services. Propose using it with UA code for CTSS. Adult Rehabilitative Mental Health Services (ARMHS) does not use modifier; UA modifier differentiate services for CTSS. Medica does not use modifier for Autism. TAG suggested creating a time modifier to use along with UA for ARMHS.	**OPEN** DHS will create a time modifier for time increment/units of time to use with modifier UA for ARMHS.
05/08/14 Minutes: The main issue is trying to find a code that represents the service and time. H0031 and H0032 fit the description of the service but are not time based. Nine states using H0031 and H0032; seven of the states are using the H codes, no modifiers, but instruct to use as 15-minute units. The reason modifiers are needed for MN is to indicate time variances because of the types of clients being served, for example adults, children, ESL clients.	**OPEN**

DHS will develop a new modifier(s). There may be other modifiers appended as needed such as UA or HN. DHS is waiting for federal approval before assigning modifiers.	
06/12/14 Minutes: No updates. DHS is still waiting for federal approval.	**OPEN**
06/24/14 Minutes: DHS reported the State Plan with the approved coding recommendations will be submitted 3rd quarter.	**OPEN**
07/22/14 Minutes: DHS reported request for approval from CMS will be submitted this quarter.	**OPEN**
08/14/14 Minutes: Action was deferred pending any additional comments.	**OPEN**
08/26/14, 10/9/14, 12/11/14 Minutes: Discussion of this item is postponed; waiting to hear from CMS	**OPEN**
1/8/15: Kathy stated the State plan has not been submitted to CMS as reported earlier. DHS will submit this quarter.	**OPEN**
2/12/15, 3/12/15, 4/9/15, 5/14/15, 6/11/15: DHS is Waiting for Feds to approve program and coding recommendations.	**OPEN**

5. Gambling Addiction Program - Richard Scherer, Club Recovery, LLC: See SBAR

7/22/14 minutes: See SBAR. There is no current policy for gambling addiction. They currently use the substance abuse codes. DHS doesn't reimburse allowed services through the claims process/system. Richard Scherer states that gambling addiction services are entered on an excel document. Claims are electronically billed through state contract, then the spreadsheet is sent to show what services were done. Four codes are currently billed but for consistency we should determine which codes would be appropriate to report. For example, at this time individual therapy are being used to bill group sessions. Additionally, the claim format 837I versus 837P is inconsistent. DSM5 is guide for determining patient treatment but not diagnosis. Faith Bauer noted that although DSM5 is a guide to determine the patient's diagnosis and guide treatment, DSM5 codes are not HIPAA compliant and ICD-9-CM codes will need to be submitted. Additional information both from the program/provider as well as payers is required.	**OPEN** Commercial payers TAG members will research issue with their contracting division Richard will send additional information to Faith prior to next meeting
08/14/14 Minutes: Deferred pending Mr. Scherer's participation and discussion at the next meeting. Faith will contact to invite him to the next meeting.	**OPEN**
08/26/14 Minutes: Paula Decker's response and evaluation of gambling diagnosis and programs was reviewed. Gambling addiction is a separate issue and is not the same as substance abuse. Modalities may be the same but treatment strategies are not the same. Some may apply to both but are very different strategies. Codes are very specific to substance abuse. Leave open until SBAR originator is able to attend and address the issue.	**OPEN**
10/9/14 Minutes: Richard Scherer was present to talk about his request. Club Recovery is a full service addiction clinic with a primary focus on pathological gambling and chemical abuse. A mental health component is included for those with co-addictions. The program is modelled after substance abuse programs. The primary focus is group treatment is group but individual treatment is also done. Treatment includes dealing with the family as well. DSM-5 reclassified gambling addiction under substance abuse disorders Current billing is done as a facility claim (837I) with the following codes: Revenue code: 0949 HCPCS codes: H2035-HQ H0031 H0001 H2020 Mental health services by an LICSW are billed on a professional claim using CPT BH codes and billed on a professional claim (837P). General discussion: The intent it establish uniform, consistent coding for gambling addiction. At this time payers differ. Some payers are using Rev code 0949 with H0001 for CD for assessment. H2020 was widely used (CMS stated H2020 was no longer an acceptable code and payers are moving away from this code). Some payers are requiring H2035 and H2020. Revenue codes 0944 – CD 0945 – alcohol and 0949 were also discussed. Also, the H codes noted basically deal with substance abuse. H2020 is per diem code. Services are being billed hourly. Need time code, such as H2019. We need to determine if this is a unique request or is applicable to other providers. What are best codes for reporting gambling services? Medica defines it as addictive behavior that substance abuse falls under; does not use standard SA codes for the gambling program. Is there a reason to not use H2035 since it falls in diagnostic are in addictive behavior? Initially under substance abuse.	**OPEN** MCT payers will discuss with their contract area. DHS will determine the policy. MDH will contact Ruth Moser (DHS) to schedule meeting with providers. MDH will forward meeting information to Faith for distribution to MCT. MCT payers will report their findings at December meeting

DHS gambling addiction is not being processed in their claim system. Distinct benefits for self-funded, commercial and Medicare. HCPCS code will distinguish services. Might be appropriate to go with CPT as one payer prefers the gambling addition services to be billed. CPT code would be hard to implement because of program type. Currently gambling addition is based on contracts. If providers can be identified to contact or the payers can determine. Gambling providers meet monthly.	
12/11/14: ~~Andrea Agerlie~~ Judy Edwards reported that Ruth Moser from DHS indicated that about 9-10 providers usually attend the monthly meeting. She was not sure if it would be helpful to include all providers in a discussion. Andrea will meet separately with Ruth to discuss coding.	**OPEN**
1/8/15 Brief discussion whether to close SBAR. Decision to keep open until after internal DHS meeting with gambling addiction program managers and AUC MCT representatives (~~Andrea Agerlie~~ Judy Edwards and Kathy Sijan)	**OPEN**
2/12/15: DHS met internally; they receive payment from lottery funds to provide compulsive gambling services. Assessment; active treatment and support services (H2019 TS) inpatient/outpatient; type of bill; revenue codes; Rule 82; court-orders, etc. Codes proposed on the SBAR are H2020; H0005 and H2035 are on original request. H2019 per 15 minute (treatment) H0031 (assessment) - No decision has been made by DHS on how to code at this time.	**OPEN** DHS will present in March
3/12/15: DHS still reviewing coding; not considering chemical or substance abuse codes. Met with policy staff and will review coding. DHS is currently invoicing services and is now reviewing to send through claim system.	**OPEN**
4/9/15: DHS presented a worksheet with proposed gambling addiction treatment coding. 'Since 1999, treatment for compulsive gambling for DHS recipients has been a statewide program, mandated that the funds for the program must be administered on an individual client, fee for service basis. The eligible vendor would bill every 30 days [based on the beginning date of treatment]. This currently is based on an invoice system, not a health care claim transaction. DHS currently covers these services as professional and facility based treatment services. Codes that indicate alcohol or drug abuse treatment are not appropriate to describe this treatment. In addition, gambling addiction treatment is funded by the state lottery and CD treatment is funded by CCDTF. DHS plans to move this type of service to be billed as a claim for processing through the claims system and approved codes for billing will be necessary. Richard Scherer, Club Recovery LLC submitted an SBAR in Oct, asking for a consistent coding solution. There are three parts to this proposal: assessment, treatment and ongoing treatment." See proposed coding is on the Worksheet in - Compulsive Gambling - DHS Proposal worksheet. In addition, DHS has prepared a gambling addiction treatment handbook with additional more detailed information that will be forwarded to the TAG. In discussion, concerns were raised about possible double billing for both professional and facility services. It was agreed to continue discussion of the proposed coding at a subsequent TAG meeting, and to request that DHS program staff (Helen Ghere) and Mr. Scherer attend the meeting.	**OPEN** All payers are asked to review proposed coding
5/14/15, 6/11/15: DHS is meeting internally to discuss issue. The issue remains open.	**OPEN**

6. Behavior Health Home (BHH) – Kathy Sijan, DHS

3/12/15: DHS Behavior Health Home policy staff, Jennifer Blanchard and Lisa Cariveau, attended the meeting to provide background and overview of the Behavior Health Home services described in the SBAR and to answer questions the MCT may have. Jennifer stated that the basis of BHH program is a result of the Affordable Care Act and that it is currently out for state public comments. It was noted that SAMSA approved the program. After approved, it will sent to CMS for federal approval. The anticipated start date is January 1, 2016. There are two services: • The first is the initial plan (S0280–U5 Medical home program, comprehensive care coordination and planning, initial plan, BHH, monthly). This service is billed for the first six months. These services do not have to be consecutive. • The second is maintenance of plan (S0281–U5 Medical home program, comprehensive care coordination and planning, maintenance of plan, BHH, monthly). This service is billed after the six months initial plan billing. Maintenance is ongoing and does not have a maximum. A question was asked if 99490 was considered. Codes S0280 and S0281 are already used for Health Care Home (HCH) but with different modifiers. The codes were chosen but with the U5 modifier because of the similarity of the program, BHH does not need to rendered by a physician, this is not a timed procedure (99490 designates time, and DHS want to establish a model for future health models. Participation is voluntary but has requirements for the patient/participant to be actively involved with an engaged health plan. For DHS this is a per patient/per month straight payment methodology; not flexible. There are no levels of complexity for BHH (HCH has four levels of billing).	**OPEN** DHS will send info to Faith re: State Plan language DHS will also make corrections to the SBAR and forward to Faith for distribution and request for an e-vote by MCT to approve

DHS currently has a pilot program. 36 providers are interested in participating in BHH. Must be a Medicaid provider, MH practitioner or MH practitioner; MH provider and/or meet DHS standards and provide service. This is s professional only. The patient/participant cannot receive duplicative services in the same/month. For example, payment may only made for a BHH or HCH, not both. Suggested "Monthly" be added to the definition to clarify payment. Suggestion that providers track services and document in their notes. What if MH wants to become a BHH if they are HCH? The provider could because the goal is to establish a relationship with a primary care.	
4/9/15: Andrea Agerlie of DHS presented a summary of coding recommendations for Behavior Health Home (BHH). She clarified that the program will become effective January 1, 2017, and that the codes could be incorporated with the TAG's coding clarification grid. However, federal approval of the codes is needed the codes could be considered for inclusion in the claims companion guides.	**OPEN**
5/14/15: No discussion; waiting for CMS approval.	**OPEN**
6/11/15: The program was open for public comments. DHS reviewed responses and updated the plan based on feedback received during public comment period. State plan was resubmitted to federal.	**OPEN**

7. MN Community Coding Practice/Recommendation Table

4/9/15, 5/14/15: Faith Bauer will update grid.	**OPEN**
6/11/15: Faith Bauer will update the grid including past issues where we indicated to add to grid as informational only. After review of the updated grid, discussion ensued about the Autism benefits, including a question regarding billing two services on the same day? Kathy will research. There is a difference between what services are performed at the same session and the same day. Code for the services you render. A few suggestions for the Autism Spectrum Disorder/Early Intensive Development (EIDBI) policy include: o Add a website link to the MHCP manual (once developed and available). o Remove the information on who can provide and where can service take place from the grid. The statement "For guidelines and additional information refer to the current MHCP manual" was also suggested but tabled until the next meeting.	**OPEN**

8. Family Caregiver Coaching and Counseling: Family Memory Care – Kathy Sijan, DHS

6/11/15: Memory Care SBAR – Kathy will research to determine if services fall under managed care. Are there any managed care services that do not have coding? TAG will review SBAR prior to July TAG meeting.	**OPEN**

9. Appendix A Review – Deb Sorg, HealthPartners

6/11/15: Deb Sorg reported that it is time to review Medicare manual to assure our MN rules are correct or if any new guides need to be developed. Need to address issue of A9270 for take home drugs for Medicare members. Deb volunteered to review Chapter 4/inpatient/outpatient hospital (A9270). Volunteers will be recruited to review a specific chapter(s) in the Medicare Claims Processing Manual.	**OPEN – Medicare chapters will be reviewed; a sign-up sheet will be routed**

10. C&TC Screenings – Kathy Sijan, DHS

11. C&TC Update – Kathy Sijan, DHS

12. Additional Agenda Items/ Announcements

- The next scheduled meeting is August 13, 9:00-12:00, St. Croix Room – 1st floor, HealthPartners, 8170 Building, Bloomington. The next scheduled meeting is July 28, 9:00-12:00, St. Croix Room – 1st floor, HealthPartners, 8170 Building, Bloomington.

Title of Meeting: AUC Medical Code TAG
Date and Time of Meeting – Thursday, June 11, 2015, 9 a.m. to 12 Noon
Location of Meeting – HealthPartners
Meeting Minutes

Minutes By: Judy Edwards and Faith Bauer

Agenda Item	Discussion	Action/Follow-up:
1. Welcome and Introductions • Attendance tracking	Faith called meeting to order. Introductions completed by members in attendance and those participants on the telephone. Deb Sorg tracks attendance. If calling into the meeting, please send an email to Deb Sorg at deb.a.sorg@healthpartners.com . Include your name, organization and if you are calling in for another person within your organization. Members should provide Deb Sorg with email address changes and new members contact information.	Completed.
2. Antitrust Statement	Reviewed – available on AUC website.	No discussion.
3. Review of last meeting's Minutes	Minutes approved with corrections to Agenda item #10 Other Business. Changes were made to last paragraph as follows. Since a large number of modifiers are part of the Autism EIDBI benefits coding, members wanted to know the order of which modifiers should be reported ~~in the~~ first ~~position~~. Kathy responded that the U modifiers should always be reported in the first or second position because they describe the program; she also stated that the coding listed in the Autism EIDBI benefits table ~~is~~were in ~~code~~the code order. ~~that all of the services should be reported.~~	Minutes will be posted on AUC MCT website
4. Mental Health Service Plan Development – DHS	Kathy Sijan reported DHS is still waiting for approval from CMS.	**OPEN**
5. Gambling Addiction Program - Richard Scherer, Club Recovery, LLC	No update available. DHS continues to meet internally to discuss issue. The issue remains open.	**OPEN** All payers are asked to review proposed coding
6. Behavior Health Home (BHH) – Kathy Sijan, DHS	The program was open for public comments. DHS reviewed responses and updated the plan based on feedback received during public comment period. State plan was resubmitted to federal.	**OPEN**
7. MN Community Coding Practice/Recommendation Table	Faith Bauer will update the grid including past issues where we indicated to add to grid as informational only. After review of the updated grid, discussion ensued about the Autism benefits, including a question regarding billing two services on the same day? Kathy will research. There is a difference between what services are performed at the same session and the same day. Code for the services you render. A few suggestions for the Autism Spectrum Disorder/Early Intensive Development (EIDBI) policy include: o Add a website link to the MHCP manual (once developed and available). o Remove the information on who can provide and where can service take place from the grid. o The statement "For guidelines and additional information refer to the current MHCP manual" was also suggested but tabled until the next meeting.	**OPEN**
8. Other Business	• Kathy reported that Certified Family Peer Specialist SBAR has been approved by CMS; DHS working to implement. Effective date is undetermined at this point.	**CLOSED**

Agenda Item	Discussion	Action/Follow-up:
	• Primary Care Consult Track one is completed and currently in companion guide. Track two is in the works at DHS. • MHCP guide needs to be updated to reflect Track two.	
9. Family Caregiver Coaching and Counseling: Family Memory Care – Kathy Sijan, DHS	Memory Care SBAR – Kathy will research to determine if services fall under managed care. Are there any managed care services that do not have coding? TAG will review SBAR prior to July TAG meeting.	**OPEN**
10. Appendix A Review – Deb Sorg, HealthPartners	Deb Sorg reported that it is time to review Medicare manual to assure our MN rules are correct or if any new guides need to be developed. Need to address issue of A9270 for take home drugs for Medicare members. Deb volunteered to review Chapter 4/inpatient/outpatient hospital (A9270). Volunteers will be recruited to review a specific chapter(s) in the Medicare Claims Processing Manual.	**OPEN – Medicare chapters will be reviewed; a sign-up sheet will be routed**
9. Next meeting	• The next scheduled meeting is July 28, 9:00-12:00, St. Croix Room – 1st floor, HealthPartners, 8170 Building, Bloomington. • Treats:	**CLOSED**

AUC BUSINESS NEED EXPLANATION FORM (AUC SBAR)

Instructions for Completing the AUC SBAR

Purpose: To provide a formal communication method by which member organizations or non-member interested parties may request the AUC to consider working on a particular issue related to administrative simplification or to request clarification of Minnesota rules and regulations related to administrative simplification.

Instructions: Do not combine issues in a single SBAR. Complete a separate SBAR form for each individual issue that needs to be addressed. The completion of the AUC Medical Code TAG (MCT) Decision Tree is highly recommended prior to completion of the SBAR form(s). If completed, please submit the MCT Decision Tree form along with your completed SBAR.

Complete Sections II and III of the SBAR. Section I is to be completed by MDH staff and Section IV is to be completed by the AUC.

Medical Coding TAG Decision Tree Form

In order to streamline and expedite the SBAR review process, the AUC Medical Code TAG utilizes the MCT Decision Tree in its decision-making process for consideration of SBARs under the TAG's review. The MCT has made the form available for use to ensure accurate and timely SBAR responses. The MCT Decision Tree form can be accessed from the AUC website at: http://www.health.state.mn.us/auc/forms.htm or by clicking on the link below in Step 1.

Step 1: Complete an MCT Decision Tree for each SBAR issue. Completing the MCT Decision Tree will enable a more thorough explanation of the SBAR issue(s) and prevent omission of critical or significant information.

Step 2: Fully complete Sections II and III. Incomplete or unclear analysis of the issue may cause unnecessary delay in the AUC response to the SBAR.

Section II

1. Provide contact information for person submitting the SBAR. Additional contact information may be required for the subject matter expert if different from the person completing the SBAR form.
2. The additional contact information may also be completed when the SBAR is being submitted on behalf of another individual who should also be notified of the AUC TAG meeting when the SBAR will be considered and who may or may not be a member of your organization.

   Please note: There may be a need to ask additional questions in order to clarify understanding of the issue as stated in the SBAR. The SBAR submitter and subject matter expert should be in attendance or available during the AUC TAG meeting and will be notified of meeting details at least one week prior to the SBARs' scheduled review date.

Section III

1. Provide an SBAR title for the issue you wish to have addressed.
2. Describe the issue, using descriptive and concise language and/or examples as appropriate, and by answering the questions outlined below:

- **Situation**: Describe the type of problem or issue, e.g., coding or clarification/interpretation. What is the current business practice and why is it a problem or an issue? Would the continuance of the practice result in non-compliance of federal (e.g., CMS guidelines) and Minnesota administrative simplification rules and regulations?
- **Background**: In explaining the pertinent history of the business practice, state how it is used within your organization or within the industry today. What is the negative impact of the business practice if not addressed by the AUC?
- **Assessment**: Be specific and provide as much detail you feel is required to convey or explain why this issue should be addressed by the AUC. How would a change to this business practice benefit health care administrative simplification in Minnesota?
- **Recommendation**: What are you proposing as the solution to this issue that will benefit the health care administrative simplification in Minnesota or improve standardization of the administrative simplification process in Minnesota?

Step 3: Submit the completed SBAR(s) and MCT Decision Tree(s) to the AUC via email at: health.AUC@state.mn.us.

AUC BUSINESS NEED EXPLANATION FORM (SBAR)

REMINDER: Submit the completed SBAR and MCT Decision Tree via email to the AUC at health.AUC@state.mn.us. The MCT Decision Tree is completed for medical coding issues only.

Section I – SBAR Status/Disposition information (To be completed by the Minnesota Department of Health)

Date received:	Organization submitting:		
Short Title		Log No.	Date Closed
Status: Exec Review Date	Sent to TAG/WG	TAG Recommendation: _____ Accept _____ Reject	Decision to Originator

Section II – Contact information (Person submitting the SBAR and/or Subject Matter Expert)

Contact Information for person completing this form:

Name: ANDREA AGERLIE
Title: Health Care Coding Compliance Officer
Email address: andrea.agerlie@state.mn.us
Telephone: 651-263-6314

Organization Information:

Name: MINNESOTA DEPARTMENT OF HUMAN SERVICES
Address: 540 Cedar St. , St. Paul, MN 55164-0993

Complete for additional contact or Subject Matter Expert, as required:

Name:
Title:
Email address:
Phone number:

Section III – SBAR information (Concise and specific description of the issue to be addressed stating the Situation, Background, Assessment, and Recommendation)

SBAR Issue Title: MENTAL HEALTH SERVICE PLAN DEVELOPMENT

S

SITUATION – Describe the current business practice(Please describe the problem or issue to be addressed):

The 2013 Minnesota Legislature modified 256B.0943 to add a new covered service under Children's Therapeutic Services and Supports (CTSS) called Mental Health Service Plan Development. The definition of Mental Health Service Plan Development in 256B.0943, Subd. 1(p) is as follows:

(1) The development, review, and revision of a child's individual treatment plan as provided in Minnesota Rules, part 9505.0371, subpart 7, including involvement of the client or client's parents, primary caregiver, or other person authorized to consent to mental health services for the client, and including arrangement of treatment and support activities specified in the individual treatment plan; and

(2) Administering standardized outcome measurement instruments, determined and updated by the commissioner, as periodically needed to evaluate the effectiveness of treatment for children receiving clinical services and reporting outcome measures as required by the commissioner.

In addition to CTSS, DHS has determined there is sufficient funding allocated to provision of Adult Rehabilitative Mental Health Services (ARMHS) to provide payment for similar services.

Mental Health Service Plan Development applies to both fee-for-service and managed care.

B

BACKGROUND – Explain the pertinent history of the business practice (How does this work today):

CTSS and ARMHS providers have clear requirements for completion of an individual treatment plan as well as timelines for review and revision of the plan. Legislation requires both CTSS and ARMHS providers to engage in Functional Assessment and related outcome measurement. Prior to the 2013 legislative changes, however, these time intensive activities were not reimbursed.

A

ASSESSMENT – Summarize your analysis of this issue (what are your challenges, what type of organizations are impacted by these challenges – provider types, health plans, others? Please indicate how this applies to AUC's mission, vision, values, and strategy. Are there any national or community standards that exist or are being developed that might help address the situation? If so, please explain):

Mental Health Service Plan Development will need to be split into two codes, one for the development, review and revision of the client's individual treatment plan (service plan development) and one for the administering of standard outcome measurements and reporting outcome measures (functional assessment). In addition, it is imperative the codes be defined with a time unit.

SERVICES TO BE CODED:

SERVICE PLAN DEVELOPMENT
CHILDREN:
* Treatment planning and review with family included
* Parent/legal guardian provides approval of individual treatment plan and any changes therein.

ADULTS:
* Treatment planning and review with or without family

FUNCTIONAL ASSESSMENT (AND OUTCOME MEASUREMENT)
CHILDREN:
* Strengths and Difficulty Questionnaire (SDQ)
* Child Adolescent Service Intensity Instrument (CASII) age 6-21 or Early Childhood Service Intensity Instrument (ECSII) under age 6
* Administration and reporting requirement at various intervals for the specified ages

ADULTS:
* Assessment covers 14 distinct domains of the clients functioning across different settings
* Assesses and identifies functional strengths and/or impairments.
* Clearly and concisely describes in narrative the individual's current status and level of functioning within each of 14 domains.
* Informs the Level of Care Utilization System (LOCUS) to help determine the resource intensity needs of individuals who receive adult mental health services.

For children, these services are completed by mental health professionals or clinical trainees. For adults, these services are completed by a practitioner, clinical trainee or mental health professional. Services can take place in a variety of settings, including but not limited to, clinic, school, home, community mental health center. Services are professional and will be billed on the 837p claim transaction.

CHALLENGES (the need for a time based code):
The needs and time involved in performing the above activities with adults differ markedly from performing these activities with children and their families.

* In general, adult mental health clients are their own legal guardians and they bear the responsibility and right to approve their own treatment plan, whereas clients under age 18 cannot provide approval for their own services. Due to work schedules, family situations or different treatment and legal requirements, Service Plan Development activities for children are more complex than adults.

* Requirements for adult Functional Assessment are greater (and take much longer to complete) than the requirements for children. The Functional Assessment and level of care determination for adults are greater than the requirements for Functional Assessment (outcome measurement) for children and adolescents (CASII, ECSII and SDQ).

	* Treating children with different diagnostic profiles can vary substantially from child to child, requiring varying resources and activities necessary to complete their Service Plan Development. * Providers are continually challenged to meet the needs of emerging immigrant populations as a response to Minnesota's diversifying demographics. Services to culturally and linguistically diverse individuals can vary widely due to complexity of language and cultural differences. Additional time may be needed to engage and thoroughly understand the individual's service needs. * Single, session-based codes for services that vary widely case to case and provider to provider will over compensate many providers and under compensate many others. The likely outcome is poorer treatment planning and monitoring than is warranted by the treatment needs of the specific client. Mental Health Service Plan Development applies to DHS fee-for-service and managed care. Discussion is necessary to develop a uniform billing method.
R	RECOMMENDATION – What are you recommending, including any known timing that needs to be considered: Pending federal approval, the effective date for coverage of these services will be 7/1/14. H0031 Mental Health Assessment, by non-physician H0032 Mental Health Service Plan Development by non-physician Both of the above codes seem to be a good fit for the description of services provided, but they are not time based. We have not found time based codes that address these services. We have found 9 states that cover these services using the H0031 and H0032. Seven of the nine states use a 15 minute unit for the codes. We would like to temporarily use these codes with a 15 minute unit and pursue establishment of two new time based codes through the Pilot Medicaid HCPCS Code Modification Request. I have spoken with a CMS regarding this situation. This process does not guarantee approval of new codes and is dependent upon other state involvement. The process also takes time and if establishment of new codes does take place, they would not be effective until 2015 at the earliest. We need a method to bill Mental Health Service Plan Development beginning 7/1/14.

Section IV – AUC Response (Include date SBAR recommendation was reviewed and approved by AUC TAG; state whether or not the SBAR originator's recommendation is accepted or rejected; substantiate in detail and specificity the basis or explanation for the TAG's response, citing or referencing as appropriate federal administrative simplification rules, Minnesota Uniform Companion Guide, HCPSC/CPT manuals, etc. reviewed and considered during the discussion.

Medical Code TAG should also include the disposition/status for coding decision in its response and effective dates, when required. (For example, inclusion of the clarification of a current practice or coding changes/additions in the MCT Coding Recommendation Grid and MN Uniform Companion Guide or inclusion in the MCT Coding Recommendation Grid only.) Additionally, information from the MCT Decision Tree summary and findings should be reflected in the response as applicable.

AUC BUSINESS NEED EXPLANATION FORM (AUC SBAR)

Instructions for Completing the AUC SBAR

Purpose: To provide a formal communication method by which member organizations or non-member interested parties may request the AUC to consider working on a particular issue related to administrative simplification or to request clarification of Minnesota rules and regulations related to administrative simplification.

Instructions: Do not combine issues in a single SBAR. Complete a separate SBAR form for each individual issue that needs to be addressed. The completion of the AUC Medical Code TAG (MCT) Decision Tree is highly recommended prior to completion of the SBAR form(s). If completed, please submit the MCT Decision Tree form along with your completed SBAR.

Complete Sections II and III of the SBAR. Section I is to be completed by MDH staff and Section IV is to be completed by the AUC.

Medical Coding TAG Decision Tree Form

In order to streamline and expedite the SBAR review process, the AUC Medical Code TAG utilizes the MCT Decision Tree in its decision-making process for consideration of SBARs under the TAG's review. The MCT has made the form available for use to ensure accurate and timely SBAR responses. The MCT Decision Tree form can be accessed from the AUC website at: http://www.health.state.mn.us/auc/forms.htm or by clicking on the link below in Step 1.

Step 1: Complete an MCT Decision Tree for each SBAR issue. Completing the MCT Decision Tree will enable a more thorough explanation of the SBAR issue(s) and prevent omission of critical or significant information.

Step 2: Fully complete Sections II and III. Incomplete or unclear analysis of the issue may cause unnecessary delay in the AUC response to the SBAR.

Section II

1. Provide contact information for person submitting the SBAR. Additional contact information may be required for the subject matter expert if different from the person completing the SBAR form.
2. The additional contact information may also be completed when the SBAR is being submitted on behalf of another individual who should also be notified of the AUC TAG meeting when the SBAR will be considered and who may or may not be a member of your organization.

   Please note: There may be a need to ask additional questions in order to clarify understanding of the issue as stated in the SBAR. The SBAR submitter and subject matter expert should be in attendance or available during the AUC TAG meeting and will be notified of meeting details at least one week prior to the SBARs' scheduled review date.

Section III

1. Provide an SBAR title for the issue you wish to have addressed.
2. Describe the issue, using descriptive and concise language and/or examples as appropriate, and by answering the questions outlined below:

- **Situation**: Describe the type of problem or issue, e.g., coding or clarification/interpretation. What is the current business practice and why is it a problem or an issue? Would the continuance of the practice result in non-compliance of federal (e.g., CMS guidelines) and Minnesota administrative simplification rules and regulations?
- **Background**: In explaining the pertinent history of the business practice, state how it is used within your organization or within the industry today. What is the negative impact of the business practice if not addressed by the AUC?
- **Assessment**: Be specific and provide as much detail you feel is required to convey or explain why this issue should be addressed by the AUC. How would a change to this business practice benefit health care administrative simplification in Minnesota?
- **Recommendation**: What are you proposing as the solution to this issue that will benefit the health care administrative simplification in Minnesota or improve standardization of the administrative simplification process in Minnesota?

Step 3: Submit the completed SBAR(s) and MCT Decision Tree(s) to the AUC via email at: health.AUC@state.mn.us.

SBAR ISSUE: Gambling Addiction Program

AUC BUSINESS NEED EXPLANATION FORM (SBAR)

REMINDER: Submit the completed SBAR and MCT Decision Tree via email to the AUC at health.AUC@state.mn.us. The MCT Decision Tree is completed for medical coding issues only.

Section I – SBAR Status/Disposition information (To be completed by the Minnesota Department of Health)

Section III – SBAR information (Concise and specific description of the issue to be addressed stating the Situation, Background, Assessment, and Recommendation)

SBAR Issue Title:

S	SITUATION Beginning January 1, 2014, one Minnesota health plan started to deny all claims submitted for their subscribers who were participating in our Gambling Addiction Program because they were under the impression that the AUC (or other govt agency) indicated beginning January 1, 2014 H2020 with the Rev Code 0949 was no longer applicable or acceptable. Up to January 1, 2014, we had been submitting claims using the coding nomenclature of H2020 with the Rev Code 0949 with no claim issues. Similarly, this coding structure has been used with all others payer up until the last year. That being said, another health plan changed their coding structure in July 2013 from H2020 0949 to H0005 0949. A third health plan continues using the billing structure of H2020 (however, it must be noted it has all claims submitted as "Professional" and are submitted using HCFA 1500 claim structure and therefore no rev code is associated . What I am trying to ascertain is how can billing for this level of care become more uniform across payers as well as be coded "appropriately"
B	BACKGROUND Aspects of the background of this issue is noted above. Currently there are 4 different coding structures utilized by most of the local payers: H2035 HQ 0949 (maybe???), H2020, H0005 0949, and H2020 0949.

A	ASSESSMENT –One health plan reports they received a directive in changes to coding for Compulsive Gambling from the AUC and began rejecting claims submitted with the coding H2020 0949 January 1, 2014. Currently, we are attempting to rebill for all of those services with a new billing scheme of H2035 HQ 0949 yet the health plan also informed us that that coding structure would be rejected using the rev code 0949 and asked that we use 0944, 0945, or 0953. None of these rev codes would be appropriate and likely could be considered fraudulent coding by CMS (for any Medicaid (PMAP) or Medicare dollars used to make payment). Clearly, amongst the various payers it is apparent that there seems not to be a standardized coding structure to bill for Compulsive Gambling particularly in the group setting.
R	RECOMMENDATION – Similar to coding for chemical dependency, I ask if this committee can make recommendations that would identify a singular coding structure for billing Compulsive Gambling Disorder treatment. Please note, I would question if it is appropriate to use the HCPC code H2020 as an hourly code given it has been traditionally regarded as a per deim code. Therefore it may be necessary to be mindful of using these codes as globally defined. It may be the better part of valor to use H2035 HQ 0949 since it likely reflects more closely to changes in the DSM 5 as Compulsive Gambling is now defined under Addiction Disorders, similar to other substance abuse classifications in the DSM 5. That being said, H2035 is defined exclusively as a drug/alcohol treatment code. I am unaware of any issues of using the Rev Code 0949.

Section IV – AUC Response (Include date SBAR recommendation was reviewed and approved by AUC TAG; state whether or not the SBAR originator's recommendation is accepted or rejected; substantiate in detail and specificity the basis or explanation for the TAG's response, citing or referencing as appropriate federal administrative simplification rules, Minnesota Uniform Companion Guide, HCPSC/CPT manuals, etc. reviewed and considered during the discussion.

Medical Code TAG should also include the disposition/status for coding decision in its response and effective dates, when required. (For example, inclusion of the clarification of a current practice or coding changes/additions in the MCT Coding Recommendation Grid and MN Uniform Companion Guide or inclusion in the MCT Coding Recommendation Grid only.) Additionally, information from the MCT Decision Tree summary and findings should be reflected in the response as applicable.

AUC BUSINESS NEED EXPLANATION FORM (AUC SBAR)

Instructions for Completing the AUC SBAR

Purpose: To provide a formal communication method by which member organizations or non-member interested parties may request the AUC to consider working on a particular issue related to administrative simplification or to request clarification of Minnesota rules and regulations related to administrative simplification.

Instructions: Do not combine issues in a single SBAR. Complete a separate SBAR form for each individual issue that needs to be addressed. The completion of the AUC Medical Code TAG (MCT) Decision Tree is highly recommended prior to completion of the SBAR form(s). If completed, please submit the MCT Decision Tree form along with your completed SBAR.

Complete Sections II and III of the SBAR. Section I is to be completed by MDH staff and Section IV is to be completed by the AUC.

Medical Coding TAG Decision Tree Form

In order to streamline and expedite the SBAR review process, the AUC Medical Code TAG utilizes the MCT Decision Tree in its decision-making process for consideration of SBARs under the TAG's review. The MCT also requires SBAR submitters to use the form to ensure accurate and timely SBAR responses. The MCT Decision Tree form can be accessed from the AUC website at: http://www.health.state.mn.us/auc/forms.htm or by clicking on the link below in Step 1 below.

Step 1: Complete an MCT Decision Tree for each SBAR issue. Completing the MCT Decision Tree will enable a more thorough explanation of the SBAR issue(s) and prevent omission of critical or significant information.

Step 2: Fully complete Sections I and II. Incomplete or unclear analysis of the issue may cause unnecessary delay in the AUC response to the SBAR.

Section I

1. Provide contact information for person submitting the SBAR. Additional contact information may be required for the subject matter expert if different from the person completing the SBAR form.
2. The additional contact information is completed when the SBAR is being submitted on behalf of another individual who should also be notified of the AUC TAG meeting when the SBAR will be considered and who may or may not be a member of your organization.

   Please note: There may be a need to ask additional questions in order to clarify understanding of the issue as stated in the SBAR. The SBAR submitter and subject matter expert should be in attendance or available during the AUC TAG meeting and will be notified of meeting details at least one week prior to the SBARs' scheduled review date.

Section II

1. Provide an SBAR short title for your issue.

2. Describe the issue, using descriptive and concise language and/or examples as appropriate, and by answering the questions outlined below:

   - **Situation**: Describe the type of problem or issue, e.g., coding or clarification/interpretation. What is the current business practice and why is it a problem or an issue? Would the continuance of the practice result in non-compliance of federal (e.g., CMS guidelines) and Minnesota administrative simplification rules and regulations?
   - **Background**: In explaining the pertinent history of the business practice, state how it is used within your organization or within the industry today. What is the negative impact of the business practice if not addressed by the AUC?
   - **Assessment**: Be specific and provide as much detail you feel is required to convey or explain why this issue should be addressed by the AUC. How would a change to this business practice benefit health care administrative simplification in Minnesota?
   - **Recommendation**: What are you proposing as the solution to this issue that will benefit the health care administrative simplification in Minnesota or improve standardization of the administrative simplification process in Minnesota?

Step 3: Submit the completed SBAR(s) and MCT Decision Tree(s) to the AUC via email at: health.AUC@state.mn.us.

Section I – SBAR Short Title, Date, and Contact information (Person submitting the SBAR and/or Subject Matter Expert)

SBAR Short title: BHH – Behavioral Health Home	Date: March 2, 2015
Contact Information for person completing this form: **Name:** Katherine Sijan **Title:** HealthCare Coding Compliance Officer **Email address:** katherine.sijan@state.mn.us **Telephone:** 651-431-5784	**Organization Information:** **Name:** MN Dept of Human Services **Address:** 540 Cedar St., 7th fl -0993 St Paul, MN 55155

Complete for additional contact or Subject Matter Expert, as required:

Name: Andrea Agerlie
Title: HealthCare Coding Compliance Officer
Email address: andrea.agerlie@state.mn.us
Phone number: 651-431-3159

Section II – SBAR information (Concise and specific description of the issue to be addressed stating the Situation, Background, Assessment, and Recommendation)

SBAR Issue Title: BHH – Behavioral Health Home

S	**SITUATION** – Describe the current business practice(Please describe the problem or issue to be addressed: The Chemical and Mental Health Services and the Health Care Administrations have designed the Behavioral Health Home (BHH) model to provide access to coordinated delivery of primary care and behavioral health services for children and youth with serious emotional disorders (SED) and adults with serious mental illness (SMI) or serious and persistent mental illness (SPMI). To receive BHH services, a person must be eligible for Medical Assistance (MA) and have a current diagnostic assessment indicating that the individual meets the criteria for SMI, SPMI, or SED. BHH services cannot duplicate any other case management service including waivers and the patient cannot be on both BHH and HCH at the same time. The BHH model differs from the Health Care Home (HCH) model in that HCH is an all payer model, whereas BHH is limited to only Medical Assistance (MA) recipients. BHH provides integrated primary and behavioral health services with the goal of developing the consumer's ability to manage his/her chronic behavioral health condition and HCH does not.
B	**BACKGROUND** – Explain the pertinent history of the business practice (How does this work today): There currently is no other service like this at this time. This is only a professional service.
A	**ASSESSMENT** – Summarize your analysis of this issue (what are your challenges, what type of organizations are impacted by these challenges – provider types, health plans, others? Please indicate how this applies to AUC's mission, vision, values, and strategy. Are there any national or community standards that exist or are being developed that might help address the situation? If so, please explain): The monthly service will include any or all six services provided for each month the recipient is eligible. This is not a mental health treatment or service. The first six months of BHH are called 'care engagement'. After the first six months of care engagement [can be non-consecutive], an individual will receive 'ongoing standard care'. NOTE: If the recipient is eligible and receives BHH care engagement services in January (month 1) and February (month

	2), then chooses not to receive BHH services or loses MA eligibility until May, then May will be 'month 3', and so on until six months of 'Care Engagement' have been completed. Then the client will receive 'Ongoing Standard' care for each subsequent month.
R	**RECOMMENDATION** – What are you recommending, including any known timing that needs to be considered: See embedded document for coding details and outline of program. DHS anticipates that this program will be effective January 1, 2016, pending Federal Approval. AUC Approval is needed now to begin internal work for these services.  BHH Behavioral Home - Coding.docx **Statute:** MN Statute: 256B.0747 Section 12 http://www.senate.leg.state.mn.us/departments/scr/billsumm/summary_display_from_db.php?ls=89&id=2655

Section III – AUC Response (Include date SBAR recommendation was reviewed and approved by AUC TAG; coding issue addressed or SBAR issue title; whether TAG accepted or rejected recommendation requested in SBAR; explanation or basis for TAG decision and SBAR response will be placed in recommendation grid or companion guide):

12	Physician/Nonphysician Practitioner Billing	X		(A) ST: Autism Spectrum Disorder/Early Intensive Developmental and Behavioral Intervention (EIDBI) The Minnesota Legislature enacted a statute (256B.0949) mandating an "autism early intensive intervention benefit" to children under age 18 with an autism spectrum disorder (ASD) diagnosis. This benefit has been named the Early Intensive Developmental and Behavioral Intervention (EIDBI) benefit. On July 7, 2014, CMS submitted an information bulletin directing all states to provide

medically necessary treatment for children with ASD consistent with provisions 1905 (a)(4)(B) for Early Periodic Screening Diagnosis and Treatment (EPSDT). This expands EIDBI service coverage to children up to 21 years of age and prevents targeting a specific population such as ASD. While most children receiving services in this benefit will have an ASD diagnosis, there are other children who may qualify for the benefit with a related condition, but won't have and ASD diagnosis.

(B) Rec: Both Department of Human Services (DHS) fee-for-service and managed care will need to provide coverage of the EIDBI benefit effective July 1, 2015. There are seven EIDBI benefit services:

1. The EIDBI Intervention
2. EIDBI Intervention Supervision and Direction
3. Comprehensive Multi-Disciplinary Evaluation (CMDE)
4. Individual Treatment Plan Development and Monitoring
5. Family Caregiver Training and Counseling
6. Coordinated Care Conference

12	Physician/Nonphysician Practitioner Billing			A (ST): **Labor Epidural Billing** The MCT responded to a request to approve standardized coding for "time present and immediately available" for billing of labor epidural anesthesia services, to be included in the relevant claims companion guides. B) Rec: The TAG agreed that there is no coding to identify specific standby services for anesthesia as requested and so no coding recommendation was possible. The TAG suggested that the SBAR submitter make a recommendation to CPT for national code(s) to address labor epidural anesthesiology billing "time present and immediately available." C) MCT 2/14/13 D) AUC Operations Committee approval date E)
12	Physician/Nonphysician Practitioner Billing	**X**		A) ST: Billing Requirements for CPT Code 69210 The MCT responded to a request to approve standardized coding for 68210. The narrative for 69210 was revised in 2014 to a unilateral code. Thus is performed on both ears it

				would be appropriate to bill the code with a -50 modifier. However, CMS is not recognizing (denying) 69210 if billed with a modifier 50 (bilateral procedure). Medicare has instructed to use modifiers –RT and –LT instead. B) REC: Medicare for Medicare products - report one line one unit, no modifiers. Commercial and DHS - report one line, one unit, 50 modifier. C) 6/12/14 D) AUC Operations approved E)
12	Physician/Nonphysician Practitioner Billing	**X**		A) ST: Modifier -25 on preventive medicine visits (99381-99397) The preventive exam denies against the immunization administration code. MN stated there is no need to add the -25 modifier but there are other health plans that require the modifier. Actions of the American Academy of Pediatrics last year caused the CCI policy to be temporary rescinded. However, the new effective date of the CCI policy is April 1, 2014. DHS must use the CCI edits. B) REC: All payers accept the -25 modifier so this is not a compliance issue, it is a payment issue. Need to work directly with payers she's having problem with. Reporting is uniform and MCT view as payment issue because it is a CCI edit. C) 4/14/14 D) AUC Operations approved E)
~~**12**~~	~~Physician/Nonphysician Practitioner Billing~~	~~**X**~~		~~**A) E-visits**~~ ~~For 2013, changes were made throughout the CPT code set to expand references to "physician" to include any "qualified health care professional" and generally to remove references to the provider from the code descriptors if at all possible. As described in the introduction to the codebook, "A "physician or other qualified health care professional" is an individual who is qualified by education, training, licensure/regulation (when applicable), and facility privileging (when applicable) who performs a professional service within his/her scope of practice and independently reports that professional service."~~ ~~B) Rec.: Based on the definition change, the MCT agreed that the current MUCG coding instructions for E-visits should be removed. Providers should submit codes based on the new CPT definition.~~ ~~C) MCT 5/9/13~~ ~~D)~~ ~~E) Remove the following entry from next version of the companion guide:~~ ~~"For E-visits, use 99444 for MD/DO/DC; use 98969 for non-physician healthcare professionals (e.g. Nurse Practitioner, Physician Assistant, and Clinical Nurse Specialist)."~~
~~**12**~~	~~Physician/Nonphysician~~	~~**X**~~		~~**A) Telephone services**~~

	Practitioner Billing			For 2013, changes were made throughout the CPT code set to expand references to "physician" to include any "qualified health care professional" and generally to remove references to the provider from the code descriptors if at all possible. As is described in the introduction to the codebook, "A "physician or other qualified health care professional" is an individual who is qualified by education, training, licensure/regulation (when applicable), and facility privileging (when applicable) who performs a professional service within his/her scope of practice and independently reports that professional service." B) Rec.: Based on the definition change, the MCT agreed that the current MUCG coding instructions for Telephone services should be removed. Providers should submit codes based on the new CPT definition. C) MCT 5/9/13 D) E) Remove the following entry from next version of the companion guide: "For telephone services, use 99441-99443 for MD/DO/DC; use 98966-98968 for non-physician healthcare professionals (e.g. Nurse Practitioner, Physician Assistant, Clinical Nurse Specialist)."
15	Ambulance	**X**		A) ST: **Community Paramedics** MN Statute 256B.0625, subd. 60 requires Medical Assistance cover services provided by community paramedics certified under section 144R.28, subd. 9 B) Rec: Community paramedic services should be billed as followed: • Professional claims only – 837P • Place of services – 12 (home) • Individual provider number – report the Medical director's NPI • Code T1016 U3, 15 minutes increments (one billing, services all inclusive) o T1016 Case management, each 15 minutes o U3 – service provided by certified community paramedic (EMT-CP) • Supplies and vaccines may be reported as needed with the appropriate HCPCS codes C) MCT 2/14/13 D) AUC Operations Committee approved Proposed as an addition to next version of 837P companion guide.
16	Laboratory Services	**X**	**X**	A) **Reporting Newborn Screening** MN Statute 144.125 requires all infants be screened for heritable and congenital disorders using a Newborn Screening Card purchased from the Minnesota Department of Health. Generally, the cost of the screen is incorporated in the birthing facility fees; however, in some circumstances, the specimen is taken after discharge. Rec.: When the specimen is taken for the Newborn Screening Card purchased from Minnesota

				~~Department of Health after the birth discharge, the newborn screen should be reported using S3620.~~ ~~This covers the cost incurred for the screening card. For repeat screens, report S3620 with the appropriate modifier for repeat services. Diagnostic testing should be reported with the appropriate HCPCS code for the test being performed.~~ ~~S3620 Newborn metabolic screening panel, includes test kit, postage and the laboratory tests specified by the state for inclusion in this panel (e.g., galactose; hemoglobin, electrophoresis; hydroxyprogesterone, 17-d; phenylanine (PKU); and thyroxine, total)~~ ~~76, 77 – repeat service~~ ~~C) MCT 2/14/13~~ ~~D) AUC Operations Committee approved~~ ~~Proposed as an addition to next version of 837P and 837I companion guides.~~
N/A	TABLE A.5.2 -- Behavioral Health Procedure Code/Modifier Combinations: For Specific Benefit Packages Unique To Minnesota Government Programs	X	X	A) Certified Family Peer Specialist – DHS B) Rec: Peer specialist is different from the adult; for parents who have children who have gone through the system and can assist another parent; can be advocate for family going through the system. Used in other states for parents with children with mental illness; Concern that there be a training program and certification to ensure providing positive support. Certification standards will be adopted hopefully nationally (continuing education requirements). Services are for children under 21. The HA modifier. TAG approved DHS recommended codes for these services and to place in coding recommendation grid, pending federal approval. New codes will also be placed in companion guide upon approval. For mental health services only and do not apply to substance abuse. H0038 Certified peer specialist services, per 15 minutes H0038 U5 Advanced level certified peer specialist services, per 15 minutes H0038 HQ Group setting, certified peer specialist services, per 15 minutes H0038 HA Child/adolescent program, certified peer specialist services, per 15 minutes H0038 HA HQ Child/adolescent program, group setting, certified peer specialist services, per 15 minutes C) MCT: 4/10/14 D) AUC Operations Committee E) Proposed as an addition to next version of 837P and the 837I companion guides.
N/A	**N/A**	**X**	**X**	A) ST: **Dental services performed in the operating room** B) Rec: 10-26-10 - For dental services not normally provided under general anesthesia…. Where dental HCPCS codes are the most specific, appropriate codes, they should be used to indicate dental procedures performed under general anesthesia in the operating room, on both the 837

				Professional and 837 Institutional claims types. C) MCT: 01/14/2010 D) AUC Operations Committee approved 02/08/10
~~N/A~~	~~N/A~~	~~X~~	~~X~~	~~A) ST: **MAT (Medication Assisted Treatment) Billing – Methadone vs. Other**~~ ~~To meet CMS and legislative requirements, DHS must revise coding for MAT services:~~ ~~1. to establish a code to distinguish methadone from all other drugs for MAT and~~ ~~2. to identify MAT intensive (plus)services for~~ ~~a. methadone and~~ ~~b. all other drugs~~ ~~B) Rec: Revise MUCG Table A.5.3.c – Substance Abuse Services: Outpatient Services as follows:~~ ~~**837I:**~~ ~~Service description Unit Revenue Code HCPCS Procedure Code TOB~~ ~~MAT Day 0944 H0020 089x or 013x~~ ~~MAT – all other drugs Day 0944 H0047 U9 089x or 013x~~ ~~**837P:**~~ ~~Service description Unit Revenue Code HCPCS Procedure Code TOB~~ ~~MAT Day 0944 H0020 089x or 013x N/A~~ ~~MAT – all other drugs Day 0944 H0047 UA N/A~~ ~~MAT Plus Day N/A N/A H0020 N/A~~ ~~MAT Plus – all other drugs Day N/A N/A H0047 UB N/A~~ ~~MAT Plus – a licensed program providing at least 9 hours of treatment service per week U9 – MAT, all other drugs, e.g. buprenorphine, naltrexone, Antabuse, etc.~~ ~~UA – MAT Plus, methadone UB – MAT Plus, all other drugs~~ ~~C) MCT 2/14/13~~ ~~D) AUC Operations Committee approved~~ ~~E) Proposed as an addition to next version of 837P and the 837I companion guides.~~

AUC BUSINESS NEED EXPLANATION FORM
(AUC SBAR)

Instructions for Completing the AUC SBAR

Purpose: To provide a formal communication method by which member organizations or non-member interested parties may request the AUC to consider working on a particular issue related to administrative simplification or to request clarification of Minnesota rules and regulations related to administrative simplification.

Instructions: Do not combine issues in a single SBAR. Complete a separate SBAR form for each individual issue that needs to be addressed. The completion of the AUC Medical Code TAG (MCT) Decision Tree is highly recommended prior to completion of the SBAR form(s). If completed, please submit the MCT Decision Tree form along with your completed SBAR.

Complete Sections II and III of the SBAR. Section I is to be completed by MDH staff and Section IV is to be completed by the AUC.

Medical Coding TAG Decision Tree Form

In order to streamline and expedite the SBAR review process, the AUC Medical Code TAG utilizes the MCT Decision Tree in its decision-making process for consideration of SBARs under the TAG's review. The MCT also requires SBAR submitters to use the form to ensure accurate and timely SBAR responses. The MCT Decision Tree form can be accessed from the AUC website at: http://www.health.state.mn.us/auc/forms.htm or by clicking on the link below in Step 1 below.

Step 1: Complete an MCT Decision Tree for each SBAR issue. Completing the MCT Decision Tree will enable a more thorough explanation of the SBAR issue(s) and prevent omission of critical or significant information.

Step 2: Fully complete Sections I and II. Incomplete or unclear analysis of the issue may cause unnecessary delay in the AUC response to the SBAR.

Section I

1. Provide contact information for person submitting the SBAR. Additional contact information may be required for the subject matter expert if different from the person completing the SBAR form.
2. The additional contact information is completed when the SBAR is being submitted on behalf of another individual who should also be notified of the AUC TAG meeting when the SBAR will be considered and who may or may not be a member of your organization.

   Please note: There may be a need to ask additional questions in order to clarify understanding of the issue as stated in the SBAR. The SBAR submitter and subject matter expert should be in attendance or available during the AUC TAG meeting and will be notified of meeting details at least one week prior to the SBARs' scheduled review date.

Section II

1. Provide an SBAR short title for your issue.

2. Describe the issue, using descriptive and concise language and/or examples as appropriate, and by answering the questions outlined below:

   - **Situation**: Describe the type of problem or issue, e.g., coding or clarification/interpretation. What is the current business practice and why is it a problem or an issue? Would the continuance of the practice result in non-compliance of federal (e.g., CMS guidelines) and Minnesota administrative simplification rules and regulations?
   - **Background**: In explaining the pertinent history of the business practice, state how it is used within your organization or within the industry today. What is the negative impact of the business practice if not addressed by the AUC?
   - **Assessment**: Be specific and provide as much detail you feel is required to convey or explain why this issue should be addressed by the AUC. How would a change to this business practice benefit health care administrative simplification in Minnesota?
   - **Recommendation**: What are you proposing as the solution to this issue that will benefit the health care administrative simplification in Minnesota or improve standardization of the administrative simplification process in Minnesota?

Step 3: Submit the completed SBAR(s) and MCT Decision Tree(s) to the AUC via email at: health.AUC@state.mn.us.

Administrative Uniformity Committee

Family Caregiver Coaching and Counseling: Family Memory Care

AUC BUSINESS NEED EXPLANATION FORM (SBAR)
TO BE COMPLETED BY THE MINNESOTA DEPARTMENT OF HEALTH

Date Received	Log No.	Date Closed	
Status: Exec Review Date	**Sent to TAG/WG**	**TAG Recommendation:** **_____ Accept** **_____ Reject**	**Decision to Originator**

REMINDER: Submit the completed SBAR and MCT Decision Tree form via email to the AUC at health.AUC@state.mn.us. The MCT Decision Tree is completed for medical coding issues only.

Section I – SBAR Short Title, Date, and Contact information (Person submitting the SBAR and/or Subject Matter Expert)

SBAR Short title:	Date:
Family Caregiver Coaching and Counseling: Family Memory Care	June 1, 2015
Contact Information for person completing this form: **Name:** Katherine Sijan **Title:** HealthCare Coding Compliance Officer **Email address:** katherine.sijan@state.mn.us **Telephone:** 651-431-5784	**Organization Information:** **Name:** MN Dept of Human Services **Address:** 540 Cedar St., 7th fl -0993 St Paul, MN 55155

Complete for additional contact or Subject Matter Expert, as required:

Name: Andrea Agerlie
Title: HealthCare Coding Compliance Officer
Email address: andrea.agerlie@state.mn.us
Phone number: 651-431-3159

Section II – SBAR information (Concise and specific description of the issue to be addressed stating the Situation, Background, Assessment, and Recommendation)

Title: Family Caregiver Coaching and Counseling: Family Memory Care

S

SITUATION – Describe the current business practice(Please describe the problem or issue to be addressed:

DHS Link: http://www.dhs.state.mn.us/main/idcplg?IdcService=GET_DYNAMIC_CONVERSION&RevisionSelectionMethod=LatestReleased&dDocName=id_056766

Elderly Waiver (EW) and Alternative Care (AC) programs fund home and community-based services (HCBS) for people age 65 and older who require the level of care provided in a nursing home, but choose to live in the community. These programs provide services and supports for people to live in their homes or a community setting, and may delay or prevent nursing facility (NF) care. The purpose of these programs is to promote community living and independence with services and

	supports designed to address each person's individual needs and choices. In the case of EW, the additional services go beyond what is otherwise available through Medical Assistance (MA). **Family Caregiver** This service provides training, education, coaching and counseling services for family and informal caregivers who provide direct and ongoing services for recipients enrolled in EW and AC programs. Elderly Waiver (EW) and Alternative Care (AC) Program currently includes the following Family Caregiver Services: 1- Training and Education – S5115 2- Assessment - S5115-TF
B	**BACKGROUND** – Explain the pertinent history of the business practice (How does this work today): See Below
A	**ASSESSMENT** – Summarize your analysis of this issue (what are your challenges, what type of organizations are impacted by these challenges – provider types, health plans, others? Please indicate how this applies to AUC's mission, vision, values, and strategy. Are there any national or community standards that exist or are being developed that might help address the situation? If so, please explain): EW and AC would like to add a new service called **Family Memory Care.** Family Memory Care [FMC] is a multi-component coaching and counseling intervention for supporting family and friend caregivers living with a person with dementia. Family Memory Care is a new service is based on the *New York University Caregiver Intervention program, which has been shown to prevent or delay nursing facility placement by 18 months on average. Family Memory Care includes: -Assessment -Education -Plan development -Coaching on strategies for coping FMC Consultants must meet professional standards and qualifications; participate in specialized training and clinical monitoring sessions. Caregiver consultants are trained in in memory care support. Caregivers live with the person with dementia where they are the primary caregiver. Caregivers attend 4 to 6 meetings in a 90 day period, with a consultant, and a family member who participates in 2-4 meetings. The person with dementia must have a GDS score of 4 or higher. The limit of total billable hours is up to 20 over a 365 day period for this intervention. Family caregiver services are a part of the care recipient's support plan and billed under the recipient's name and ID. The FMC targets the primary caregivers but other family members participate in the meetings. [Regardless the billable amount is up to 20 hours every 365 days.] Ad hoc support - family caregivers often need follow up information and advice from the family memory care consultant which can be provided in-person or over the phone. The ad hoc support has been a most helpful component of this intervention to families and is included in memory care training.\ NOTE: Per the program policy person, the waiver amendment has been submitted to federal gov't. _____ * http://nrepp.samhsa.gov/ViewIntervention.aspx?id=74

R	**RECOMMENDATION** – What are you recommending, including any known timing that needs to be considered: Recommend to add the following service to EW/AC Family Caregiver Services: S5115 – TG - Home care training, nonfamily; per 15 minutes, Complex/high level of care [Family Caregiver Coaching and Counseling; Family Memory Care] Note: 1 unit = 15 minutes Effective date: 7/1/15

Section III – AUC Response (Include date SBAR recommendation was reviewed and approved by AUC TAG; coding issue addressed or SBAR issue title; whether TAG accepted or rejected recommendation requested in SBAR; explanation or basis for TAG decision and SBAR response will be placed in recommendation grid or companion guide):

SBAR – C & TC update

AUC BUSINESS NEED EXPLANATION FORM (AUC SBAR)

Instructions for Completing the AUC SBAR

Purpose: To provide a formal communication method by which member organizations or non-member interested parties may request the AUC to consider working on a particular issue related to administrative simplification or to request clarification of Minnesota rules and regulations related to administrative simplification.

Instructions: Do not combine issues in a single SBAR. Complete a separate SBAR form for each individual issue that needs to be addressed. The completion of the AUC Medical Code TAG (MCT) Decision Tree is highly recommended prior to completion of the SBAR form(s). If completed, please submit the MCT Decision Tree form along with your completed SBAR.

Complete Sections II and III of the SBAR. Section I is to be completed by MDH staff and Section IV is to be completed by the AUC.

Medical Coding TAG Decision Tree Form

In order to streamline and expedite the SBAR review process, the AUC Medical Code TAG utilizes the MCT Decision Tree in its decision-making process for consideration of SBARs under the TAG's review. The MCT also requires SBAR submitters to use the form to ensure accurate and timely SBAR responses. The MCT Decision Tree form can be accessed from the AUC website at: http://www.health.state.mn.us/auc/forms.htm or by clicking on the link below in Step 1 below.

Step 1: Complete an MCT Decision Tree for each SBAR issue. Completing the MCT Decision Tree will enable a more thorough explanation of the SBAR issue(s) and prevent omission of critical or significant information.

Step 2: Fully complete Sections I and II. Incomplete or unclear analysis of the issue may cause unnecessary delay in the AUC response to the SBAR.

Section I

1. Provide contact information for person submitting the SBAR. Additional contact information may be required for the subject matter expert if different from the person completing the SBAR form.
2. The additional contact information is completed when the SBAR is being submitted on behalf of another individual who should also be notified of the AUC TAG meeting when the SBAR will be considered and who may or may not be a member of your organization.

   Please note: There may be a need to ask additional questions in order to clarify understanding of the issue as stated in the SBAR. The SBAR submitter and subject matter expert should be in attendance or available during the AUC TAG meeting and will be notified of meeting details at least one week prior to the SBARs' scheduled review date.

AUC BUSINESS NEED EXPLANATION FORM (SBAR)

TO BE COMPLETED BY THE MINNESOTA DEPARTMENT OF HEALTH			
Date Received	**Log No.**	**Date Closed**	
Status: Exec Review Date	**Sent to TAG/WG**	**TAG Recommendation:** _____ Accept _____ Reject	**Decision to Originator**

REMINDER: Submit the completed SBAR and MCT Decision Tree form via email to the AUC at health.AUC@state.mn.us. The MCT Decision Tree is completed for medical coding issues only.

Section I – SBAR Short Title, Date, and Contact information (Person submitting the SBAR and/or Subject Matter Expert)

SBAR Short title:	**Date:**
C&T C update	February 6, 2015
Contact Information for person completing this form:	**Organization Information:**
Name: Katherine Sijan Title: HealthCare Coding Compliance Officer Email address: katherine.sijan@state.mn.us Telephone: 651-431-5784	Name: Minnesota Dept of Human Services Address: 540 Cedar St St Paul, MN 55155

Complete for additional contact or Subject Matter Expert, as required:

Name: Andrea Agerlie
Title: HealthCare Coding Compliance Officer
Email address: andrea.agerlie@state.mn.us
Phone number: 651-431-3159

Section II – SBAR information (Concise and specific description of the issue to be addressed stating the Situation, Background, Assessment, and Recommendation)

SBAR Issue Title: **SBAR – C & TC update**

S	**SITUATION** – Describe the current business practice(Please describe the problem or issue to be addressed: There has been a coding update relating to the following code. See recommendation below. 96110-UC
B	**BACKGROUND** – Explain the pertinent history of the business practice (How does this work today): See below.
A	**ASSESSMENT** – Summarize your analysis of this issue (what are your challenges, what type of organizations are impacted by these challenges – provider types, health plans, others? Please indicate how this applies to AUC's mission, vision, values, and strategy. Are there any national or community standards that exist or are being developed that might help address the situation? If so, please explain): See below.
R	**RECOMMENDATION** – What are you recommending, including any known timing that needs to be considered: Per the CT&C Policy manager, DHS is making the following updates: 96110 was revised as of 1/1/2015 to be only developmental screening and a new code was released for mental health screening. DHS would like to change 96110-UC (mental health screening) to 96127 effective 1-1-2015. **Code verbiage as of 1/1/2015;** **96110**- Developmental screening (eg, developmental milestone survey, speech and language delay screen), with scoring and documentation, per standardized instrument **96127**-Brief emotional/behavioral assessment (eg, depression inventory, attention-deficit/hyperactivity disorder [ADHD] scale), with scoring and documentation, per standardized instrument

Section III – AUC Response (Include date SBAR recommendation was reviewed and approved by AUC TAG; coding issue addressed or SBAR issue title; whether TAG accepted or rejected recommendation requested in SBAR; explanation or basis for TAG decision and SBAR response will be placed in recommendation grid or companion guide]

AUC BUSINESS NEED EXPLANATION FORM
(AUC SBAR)

Instructions for Completing the AUC SBAR

Purpose: To provide a formal communication method by which member organizations or non-member interested parties may request the AUC to consider working on a particular issue related to administrative simplification or to request clarification of Minnesota rules and regulations related to administrative simplification.

Instructions: Do not combine issues in a single SBAR. Complete a separate SBAR form for each individual issue that needs to be addressed. The completion of the AUC Medical Code TAG (MCT) Decision Tree is highly recommended prior to completion of the SBAR form(s). If completed, please submit the MCT Decision Tree form along with your completed SBAR.

Complete Sections II and III of the SBAR. Section I is to be completed by MDH staff and Section IV is to be completed by the AUC.

Medical Coding TAG Decision Tree Form

In order to streamline and expedite the SBAR review process, the AUC Medical Code TAG utilizes the MCT Decision Tree in its decision-making process for consideration of SBARs under the TAG's review. The MCT also requires SBAR submitters to use the form to ensure accurate and timely SBAR responses. The MCT Decision Tree form can be accessed from the AUC website at: http://www.health.state.mn.us/auc/forms.htm or by clicking on the link below in Step 1 below.

Step 1: Complete an MCT Decision Tree for each SBAR issue. Completing the MCT Decision Tree will enable a more thorough explanation of the SBAR issue(s) and prevent omission of critical or significant information.

Step 2: Fully complete Sections I and II. Incomplete or unclear analysis of the issue may cause unnecessary delay in the AUC response to the SBAR.

Section I

1. Provide contact information for person submitting the SBAR. Additional contact information may be required for the subject matter expert if different from the person completing the SBAR form.
2. The additional contact information is completed when the SBAR is being submitted on behalf of another individual who should also be notified of the AUC TAG meeting when the SBAR will be considered and who may or may not be a member of your organization.

   Please note: There may be a need to ask additional questions in order to clarify understanding of the issue as stated in the SBAR. The SBAR submitter and subject matter expert should be in attendance or available during the AUC TAG meeting and will be notified of meeting details at least one week prior to the SBARs' scheduled review date.

Section II

1. Provide an SBAR short title for your issue.

2. Describe the issue, using descriptive and concise language and/or examples as appropriate, and by answering the questions outlined below:

   - **Situation**: Describe the type of problem or issue, e.g., coding or clarification/interpretation. What is the current business practice and why is it a problem or an issue? Would the continuance of the practice result in non-compliance of federal (e.g., CMS guidelines) and Minnesota administrative simplification rules and regulations?
   - **Background**: In explaining the pertinent history of the business practice, state how it is used within your organization or within the industry today. What is the negative impact of the business practice if not addressed by the AUC?
   - **Assessment**: Be specific and provide as much detail you feel is required to convey or explain why this issue should be addressed by the AUC. How would a change to this business practice benefit health care administrative simplification in Minnesota?
   - **Recommendation**: What are you proposing as the solution to this issue that will benefit the health care administrative simplification in Minnesota or improve standardization of the administrative simplification process in Minnesota?

Step 3: Submit the completed SBAR(s) and MCT Decision Tree(s) to the AUC via email at: health.AUC@state.mn.us.

Email address: andrea.agerlie@state.mn.us
Phone number: 651-431-3159

Section II – SBAR information (Concise and specific description of the issue to be addressed stating the Situation, Background, Assessment, and Recommendation)

SBAR Issue Title: C&TC Developmental and Social Emotional/Mental Health Screenings

S	**SITUATION** – Describe the current business practice(Please describe the problem or issue to be addressed: A Developmental and social screening, as well as an emotional/mental health screening are C&TC screening components. DHS requires providers to use a standardized screening instrument for the developmental/social screen as well as the emotional/mental health screening. A new U modifier has been developed to differentiate billing for an autism screening. See below.
B	**BACKGROUND** – Explain the pertinent history of the business practice (How does this work today): See below for outline of proposed coding and U modifiers to differentiate these C&TC services.
A	**ASSESSMENT** – See below for outline of proposed coding and U modifiers to differentiate these C&TC services.

R

RECOMMENDATION – What are you recommending, including any known timing that needs to be considered:

C&TC instructions will be updated with the following information with an effective date of: 7-1-2015, pending AUC approval.

Child and Teen Checkups (C&TC)

[1] Recently, AUC voted to change 96110-UC to 96127 for the following;

Bill the developmental and/or mental health screening on the same claim as other C&TC services. Use:

- CPT code 96110 for a developmental screening with a standardized instrument
- CPT code 96127 for an emotional/mental health screening with a standardized instrument

You may bill for both a developmental and a social emotional/mental health screening on the same date of service, on the same claim.

[2] A new U modifier has been created to differentiate an Autism screening being performed at the time of the C&TC.

DRAFT DRAFT DRAFT DRAFT DRAFT DRAFT DRAFT

Screening for Autism in Toddlers

Providers are encouraged to provide an autism specific screening only after they have used an approved developmental and social emotional/mental health screening instrument during the last year. Approved screening instruments for children under six years of age found on the *Minnesota Interagency Developmental Screening Task Force* website, including a list of All Instruments at a Glance (PDF).

When performing an autism specific screening, a standardized screening instrument must be used according to the guidelines of the developer. Without the use of a standardized screening instrument, reimbursement for autism screening is included in the payment of the E&M code used for the C&TC visit.

When an autism screening is completed in addition to a developmental screening using a standardized instrument for autism, bill for the autism screening on the C & TC claim using:

- 96110-U1, with 1 unit of service.

Section III – AUC Response (Include date SBAR recommendation was reviewed and approved by AUC TAG; coding issue addressed or SBAR issue title; whether TAG accepted or rejected recommendation requested in SBAR; explanation or basis for TAG decision and SBAR response will be placed in recommendation grid or companion guide):
