Dear Fellow Member:

The rapid growth of our membership roll for 1903 is already taking almost the entire issue of the Horticulturist and makes it necessary that we should discontinue sending them to any except to those we know definitely are at some time during the year to renew their membership. The January and February numbers have been sent you in the belief that you would remain with us, and we should be glad to continue sending them if it were possible. The March number, however, cannot, we regret to say, under the circumstances be sent except we hear from you definitely. If not convenient for you to remit the fee now, please state this, and it can be sent at any time during the year. If sent before April 1st, you will be allowed to select two out of the twelve lots of plant premiums you will find noted on page 4 of the enclosed folder, and the 500
