Dear Sir: I thank you for
sending me a copy of the
Miner's Horticulturist for
July. I notice a few
errors in the report
of my remarks, page
286. & somewhat regret
that I did not have a
chance to revise them.

Sincerely

Dear Sir: Yours of the 10th rec^d and I
am much gratified by your expression
in regard to the report.

I expect that a few copies will be
bound & if you fail to get me in course
of a month, I hope you will let me ^{know}.

I am to be absent a few weeks but
will try to be at the meeting.
If Mr. Berg has not a copy of your report
I will write for one. Yours truly

Friend Latham I think there is more to learn at the experiment station than any other place - & would think most of the members would prefer to meet there. Of course Mrs Morrison's is more accessible - and it was certainly an enjoyable meeting held there before - the station would be my first choice - we ought to hear from all those irrigation berry growers. We have been considerably hindered in our work with natural irrigation this spring wish you would have some one tell us how to have a little growth when we need it -

Yours truly

Friend Lattoun

I presume you are right about the price of "Aid." though I really thought it was 20⁰⁰ in fact, was sure of it - but the more I think of it, the less sure I am - and it looks very much as if I would be in for that other five

We do not get out a Wholesale list - our retail lists have to be up so can allow about 1/2 for agt + fr so if there is any thing you can use in our list would calculate to discount this list about 75% or at least will make price right

Your favor with seeds

only need thanks.

About the ~~ad~~ it is good. but don't think
I can stand over 2000. You know that was
to occupy quite a little more than 2 space - in fact
it was nearly $\frac{1}{2}$ space deep & across the page which
would be nearly 3 space - you said at the time it would
be nearly 2500 worth of space at usual rate of 900 per single space
the ~~ad~~ in last issue is deeper $\frac{1}{4}$ to $\frac{1}{2}$ an inch than
I would expect for the 2000. This is as I
understand it. if not in accordance
with your remembrance of it - just
cut it to where you can afford to
for the amt agreed upon & all will be well

Yours truly

Friend Latham

I remember when
marking 1st & 2nd premiums. That Mr Harris
did not have ^{according to entry sheet} a seedling entered that corresponded
to the one we decided to have 1st premium
but the entry card said seedling & Harris
name on it. & Mr H. showed us the
fine quality of his apple & I suppose
why I did not find such a seedling
of his entry - that it was a mistake
in entering it. Now if that
was a seedling that had been exhibited
at State fair as you say -
then it would be left out
& the Putnamore seedling would come
1st & Jewell nursery 2nd
There was surely no Sweet seedling
entered & 1st premium - it was a large,
flat, green, subacid, apple - that
we thought was best - am sorry
I did not refer the matter to you at the time
in place of supposing there was an error in entry sheet. Yours
J.P.A.

From reports think there is
no use shipping apples at present
will be better later I hope yet
we are getting about 60 to 75¢ per bu
at present if we have some nice fruit
I will do best I can to get you
some for fair but really younger
trees would likely furnish larger fruit
Come down then you can see if you
want it - J.P. Schreiner

Friend Latham

We have been looking for
a line from you since Wednesday
saying you would be here Friday
but no word came. Still we thought
you might be on yesterday morning train
& sent to depot for you, but with
no better success. Did you not
get my line Tuesday saying we
would be ready for you? - I, as
you did not come or write that is
the only conclusion I can arrive at
I wrote you Tuesday ~~to~~ come
& bring Mrs Latham. Could I have
misdirected the letter? I don't believe it
but there is some hitch somewhere -
So we will keep looking for you
till you come - Come any time
only let us know a day or so before
hand so we will be sure to get the letter
& know when to meet you -
Yours truly
J. P. Andrews

P.S. It looks now as if we might
have more apples than our home market
demands, how are Duchers selling in
Wpls & where would be the best place
for a good fair price — we could
send a few bushels every day to some
retail store put up in baskets & have
them fresh through the season
want have such a crop as I was ago:
but a good fair crop and now
is a good time to see the apples & don't
forget me expect to see you & Mrs G. soon —
next week would be better than this week
fruit will show up better & in fact still better
about the first of August — but come
when most convenient if apples
are all gone well still have plenty
of work & lots of weeds to show
you — but come now
while the apples are on — I want
to take a trip out to see some seedlings
about 8 or 10 miles & will wait till
you come — Mrs. P.

Come along -
Bring Mrs Latham, It will do you
both good to get out in the country
and live on coarse country fare
a while - we will look up Mr.
Brower who by the way is a printer
by trade, a deaf mute, who may
know something about running a
daily paper, because he started one in
this little town & failed, but I did not
suppose he was the man who wrote
the FSH yet I was certain when I saw
it that it was some one who got his theory
of hardiness of Mr. D. N. Arbo -

Please let me know as soon as you
decide what train you will come on
so I can meet you at depot

Yours truly
J. P. Andrews
