Friend Latham

Yours recd & noted

Would feel to leave the matter of placing  
the Gileon fund into the Gideon fund  
with those who are better acquainted with the  
wants of the state experiment station & the  
property in question.

I have not been there since 1870 & would  
be a very poor judge of this matter.

It seems to me the site of the old orchard  
at the state farm is not desirable &  
the amount of ground where the young  
orchard is planted is rather limited as trees  
will need to be added from time to time.  
Prof Green knows best about that & Mr  
Ellis & your self as well as Prof G  
know best what there is there to buy.

If the location is so favorable that  
they can grow grapes to a state of  
perfection not attainable in any other part  
of the state I should think it too favorable  
for an experimental station to be the most

~~ST. PAUL, MINN.~~

DEC 14 1900

Best we can do, with what we have on the string, is to get you a few snap shots and the officers elected by monday or tuesday morning.

We have Wests' article that was read in joint session and Dr. Leonard has all the otheres. Possibl he will give you a report as secretary of the Minnes Bee-Keepers' Association.

Truly yours,

H. G. Acklin.

Friend Lattin

Will try & help out  
on the discussion of paper as you  
request - but supposing the paper  
covers the ground so thoroughly  
there is nothing left to say what then

About the time of our meeting  
there is to be the annual meeting of <sup>Carving</sup>  
Co. here in Faribault & I want to be there  
consequently I can not be sure about  
this though the paper you assigned  
to me can do that & if not that can  
send it in.

Yours truly  
J. P. Andrews
