Mr. A. W. Latham,

Dear Sir, I renewed
my membership at the time of the
Dec. meeting, sending the money
after waiting about a month, and not
hearing from you I wrote you a card, you
then responded by sending two letters
alike each containing membership cer-
tificate, and now I have pl. 2 books
reports for 1900. If you don't want one of
them back, I will give to a new member, that
I will try to get this yr. yours truly H. E. Lawson

Dear Sir:-

Enclosed herewith we hand you draft for \$1.00. The magazines have not shown up yet. We had the Magazine for the year 1899 I think but did not get the bound volume. Ought we not to have it? Think the subscription was in name of the Henry Lake Sons Co., or R. P. Lake.

The \$1.00 mentioned above is for the 24 Magazines containing article on wealthy apple.

Yours truly,

Dear Sir; Extra copies
of Jan. number received as stated. Also
the annual report. Thanks.

California is rejoicing in the
prospect of an abundant rainfall this
winter - a prospect already realized to a
seasonable extent. I am trying to buy
ten acres of good English Walnuts in
bearing. Very few, having good orchards, are
willing to sell unless for a fancy price,
\$600 to \$1000 per acre. With best wishes

Dear Sir; I think you did very well considering the subject matter and I thank you again for the courtesy of your suggestion and for the finish of your work. I should like to obtain half a dozen extra copies of the magazine containing it if possible.

I called on Mr. Underwood at his brother's in Los Angeles, but did not find him. A few days later, however, he called on us in Longbeach and we enjoyed the call very much.

Very truly yours

Friend Latham:

I send you today underseparate cover some copy, and will have the balance out in short order. For the past two weeks I have had a furuncle, in other words a boil upon my right hand which I had to have tied up and my fingers were so swollen that I was incapacitated from running the machine. There was more discussion the first day than on any other day afterward. I think one third of the discussion of the whole session took place the first day.

Kindly send me a check for \$15. Wife wants to go to town Wednesday to buy the kids some shoes and mittens and pants and shirts and caps and waists and rubbers and leggings and socks and some other things.

Yours very truly,

I have not received any money or receipted Bill. I was uneasy during the session on acct of leaving my daughter sick, & greatly desired to get away as early as possible, & I left as soon as I got the certificate. Only to be 2 minutes too late for the train, not having time to draw mileage. I wanted more time for a special talk with you, but as you say, I could see you rushed all the time.
Hope to meet you at more leisure, in the near future

A. W. Latham, Esq.,

Dear Sir; I enclose
herewith the copy you so kindly requested
long time ago. You said I need not ap-
pear as the author. I don't want to, but I think
it will be rather hard on the printer's devil to
make him responsible for it. If you have any
idea of adopting it yourself I hope you will edit
it without mercy. You asked also for a
picture of my residence. I have taken the
liberty of sending instead a scene from
~~our~~ ^{our} residence as being far more interesting
and quite as characteristic of my place of
abode as the residence itself. I beg to assure
you that the picture represents a scene actually
visible any day in July and August from our
front door. I would suggest that the
inscriptions now on the picture be obliterated
for copy. In case you wish to print auto-

P. S. We would like the picture of house returned when you are done with it. C. Y. L.

information I should state that myself and wife are the only Lacy's in the family but my wife's mother and niece are living with us. All our pictures of the house have figures of other persons than the family and the two figures in this picture do not belong to the family at all. However, I consider it the best of the three pictures we have.

Please remember me to Mr. Elliot and through him to Mrs. Elliot if you meet him. I will try and meet Mr. Underwood when I go to Los Angeles and thank you for mentioning his presence there.

With summer clothing it is too warm for comfort in the sun in the middle of the day. An overcoat is a welcome addition at night. I fancy this would not correctly describe your weather this month.

Very truly yours

C. Y. Lacy.

at hand and contents noted. I regret that
the ocean view does not meet your approval as a
substitute for picture of residence suggested by you.
It seems to me that it would be a remarkable
residence indeed that could ^{claim} to be more interesting
than waves breaking on the shore of the ocean and
I am not a water enthusiast either. Add to this
that our house is not remarkable and you will
see I had some small reason for tendering a
substitute. I send you a picture of the house and
yard herewith, but I am not able to believe
that the subject is worthy of reproduction in the
pages of the Horticulturist from any point of view
and if you should finally incline to the same
notion I hope you will feel entirely free to leave
it out. I am not able to comply fully with
your request as to including the family. For your

My dear Sir,-

On my return from the east I find yours of the 21st, in which you call my attention to the program on Thursday afternoon as being memorial hour, and you ask me if I would be willing to speak ten minutes on that occasion soon after the session opens, on the Life and Work of the Late Major Wilcox. I would comply with this request most willingly if it were not that I am obliged to leave here on the 2nd for Chicago to attend the Live Stock Exposition. We have sent five head of cattle, twenty four hogs and two sheep to contest for the prizes offered by Clay, Robinson & Co. to be competed for by the Agricultural Colleges and Stations. As the showing of fat steers begins Monday afternoon it necessitates my going at this early date, and I will be obliged to remain during the week. I would suggest that you ask Mr. S. M. Owen to take my place in the matter. He has known Major Wilcox for many years, and was familiar with his work, and I am sure would do the subject justice. It could only be a pleasure to talk of a man who possessed the high order of intelligence and fine qualifications of Major. Wilcox.

Regretting exceedingly that I cannot comply with your request, I am,

Very sincerely yours,

Wm. M. Liggett

Dear Sir:-

Enclosed I beg to hand you copy of an article written by myself on Ginseng Culture which I hope you will agree with me will be of the greatest interest to your readers and I trust you will see fit to use it in the columns of your paper.

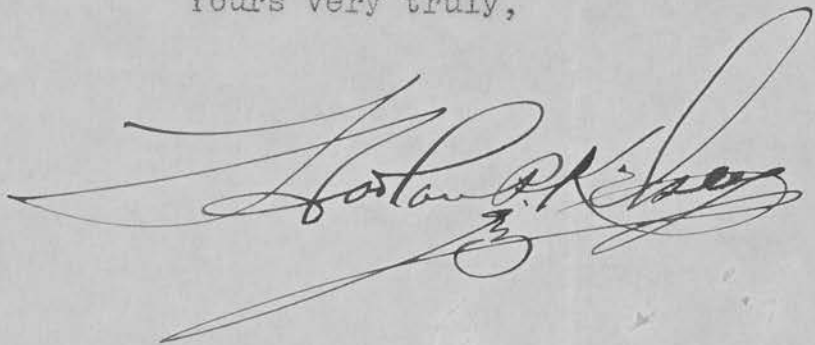

So many unreliable and misleading articles have been written recently on this subject that it seems only right someone should try to remedy the injury thus being done, particularly as there is such an extraordinary interest being shown in Ginseng by farmers and horticulturists throughout the United States and Canada at the present time.

My copyrighted circular is enclosed herewith and any additions or changes you may care to make in this short article for the benefit of your readers (if you use it) will be satisfactory. I am sending ^{copy of} this article to certain other agricultural and gardening papers at the same time but it has not been published before. If you publish it or any other information on the subject I will greatly appreciate a copy of your paper containing such article.

Further if you wish me to write a special article for your own paper giving fuller details I shall be glad to do so. Hoping to hear from you by return mail,

Yours very truly,

Dear Madam:-

In your favor of the 22d inst., you renew your request for me to meet your society at its annual meeting:

It is impossible for me to make an engagement so far in advance. I shall be so busy at that time, that I cannot tell now whether I could meet an engagement then or not. I am sure that I am not sufficiently posted in horticulture to say anything that will be of any use or profit to your society on that subject. I am working on a series of exercises for our rural schools that will have for its purpose the making of much of the farm work that is now a drudgery to farm children, pleasing and attractive; and, if successful in this work, will be glad to lay before your society the exercises suggested for your criticism and suggestion.
