Dear sir I have been holding
off so as to find out whether I
could exhibit my fruit but
I am disappointed I have not
one sound apple in my regard
it is to bad the apples are all
falling off the are so wormy
the ditches are about all of the
trees now and other apple are
forming suit Please excuse me
this year I shall try to spray
my trees next year and see
what I can do I will likely
be at the fair if ever

Parker I Date June 25th

Mr. A. W. Latham Minneapolis Minn.

Sir:

I am a member of the M. H. S. No 468. I want to begin, on a small scale though at first, with a plantation of fruit and shade trees on land partly joining the Missouri River. I have been a little disappointed in seeing so many failures in planting trees right amongst my acquaintances. I have now tried hard to get all the information contained in books and bulletins about the business. I find that on the planter's side care and watchfulness and patient work are the essential prerequisites to success. But above all there must be procured good sound stock true to name. Our society is and can be very helpful in starting a beginner.

I should like to have your latest folder. Also let me know where to buy reliable seed from for fruit shade and ornamental trees. My brother who is very enthusiastic

about trees asks me whether "Bismark apples"
have been tried in the North West. He came
last year from Germany where he had worked
for an orchard man. I have seen it mention-
ed in a seed catalogue. I did not like
the language of the same and I have little
confidence in it. If you have any old
literature, I always thankfully accept it.

Very Respectfully yours

Dear Sir:

Some time ago I sent you two new members for the Horticultural Society. There is a premium for securing two new members viz. Prof. Green's Vegetable Gardening. I certainly made an effort to secure Messrs. J. J. Pringle of Hurley SD and Rev B. Weter of Salem SD. I think the said book might prove very valuable to me. I did not get it yet.

DODGE COUNTY, in area, is one of the smallest counties in the state—is located in the southeast central portion, and is one of the richest of agricultural, stock raising and dairying sections in the Mississippi Valley. It has a population of 14,000 and contains six banks, representing a responsibility of about \$2,000,000. Over three-quarters of the bank deposits belong to farmers.

MANTORVILLE AND KASSON are located 2½ miles apart, in the east central portion of the county, Mantorville being the county seat, with a population of 800 and is the terminus of two branches of railway, the Chicago Great Western and Chicago and Northwestern; two express companies, the American and Wells Fargo & Co. Inexhaustible limestone quarries of the finest quality are located here. Kasson is on the Chicago and Northwestern railway and has a population of 1,200; it is a thriving town and here are located some of the best mercantile establishments in the southern part of the state.

Dear Sir:-

Could you send me the last report also the magazine - I do not think I have rec'd any of this year's issue - and let me settle that and the ad. soon as spring delivery is over. Am pressed for money at present.

Last winter I sent you a picture of my strawberry patch, but failed to send an article to go with it. Just lately I rec'd the picture, but it was returned to my former address, Genoa.

I have sent an article to the "Farmer" with the picture and if the article is suitable you could use that in connection with the picture.

Will you please change my address for part of my mail still goes to Genoa, Minn.

Respectfully yours
