Friend Latham - your last with
reference to special premium for best
peck of Wealthy is all right if the
rest go into it on other kinds. The Wealthy
should have a good premium as any
other. make it 5⁰⁰ or 10⁰⁰ as you
think best to range with the rest
your letter was mislaid

Yours truly

Friend Latham - Yours recd

I should think your idea of extending
premium offer on sealing apples to
Wis is just right. Think if it excepted
one or two tiers of counties on the East &
3 or 4 on the South no one in this state
would object to it - ^{or perhaps better} 1 or 2 hundred miles from
_{the main line would be better}

Say I am not sure as I can be up to
winter meeting so you had better get a better
man to write up Blue spruce & if I come
you can set next some other job sweeping
the hall or any thing.

Yours very truly

Friend Latham - Replying to your favor
of 14 would say I should think to increase
premium on late winter apples 25⁰⁰ which
would make the total seedling premium
100⁰⁰ then spend some money blowing
all over the U.S. & Canada about
the big seedling premiums & the \$1000⁰⁰⁰⁰⁰
that is waiting for some one to pick it up.
Should think county papers & in fact
most others would do something in this
line gratis. This would be a good place
to put some of that money the state appropriates
we can not be too particular about the
hardiness of trees to which we award premiums
than fruitfulness quality size & appearance
But after all I don't know anything
about this any way so Goodbye Jno. P.

Dear Sir:

In reply to your favor of the 10th inst inquiring in regard to the horticultural society. The enclosed folder will give you considerable information in regard to this society. The membership fee is \$1.00 per annum and you receive the bound volume of the report of the previous a year, about 500 pages, and also the monthly magazine for the year. I think this little folder will answer your questions that you would like to ask about the matter. The information you want as to grafting fruit trees etc. is very fully given in a little book issued by the professor of horticulture at the experiment station, Prof. Green, which is entitled "Amateur Fruit Growing." I can furnish this from this office for \$.50.

Hoping to hear from you further, I am,

Very respectfully,

Dear Mr Latham

Dear Sir

I am sending you today
a part of a Cottonwood limb most
of my Cottonwood have died from it.
And also a fine Ct Crab apple tree
in Regina Crab tree was about ten
years old and had had fine crops of
fruit for the last 4 or 5 years
also some maples we think here it
is wood pecker but I have never seen
any on any place will it be the
Cottonwood however kindly keep it.
They in your next meeting and advise
me. My crop of straw cherries
is good and as large as any I have
seen on the market
we had a very dry spring but have
lots of rain now and every thing
is looking good

Yours Very Truly
H. Anticknap
