Dear Sir,

I am in receipt of your favour of the 8th instant. I can assure you I was much disappointed, when I called at your Office, to find that you were out of the City. Friend Latham

Many thanks for yours of the 12th.
It's no wonder your hair is getting white with
1400 unruly boys to look after - I can excuse you
for all delays - would not kick if you never
got around to me. You need rest and a drink
from the Big Sioux which I have just put up
for you. I picked my Big Sioux nearly 14 months
ago & they are yet sound and good. Our State has
made no appropriation I'm told for an exhibit
at St Louis. So I think I'll keep my fruit
as Mr Somerville would say "for my own smoking".
If I'm not at the Fair near its opening - will try to
call at your stall about 38 years from the day that
the "Winn. Fruit Growers Association" opened up.
The health of Big Sioux is better than when I last
wrote you. The winter has been fine - & a good outlook
for fruit. Love to all - Sam Buons. *Mosias*

Friend Lathrum,

Have been waiting to see if I could not manage some how to be with you at your annual meeting next month - before answering your most excellent letter of Sept 14th. Am sorry to learn that our ranks are thinning so rapidly - but am happy to know they go down as the Carqueror dies - in a most noble fight! You ask "will you be there with Big Sioux"? The wind storm that carried off miles of R R track - almost in sight of our house - nearly ruined the Big Sioux - with its enormous load of fine fruit - half grown - it has not grown any since. But I gave Sioux to a neighbor who has fine fruit & has given me a plate for St Louis. Dont look for me next month - but hunt for me at St Louis - when will you set up dont fail to let me know, as I am anxious to be there at that time.

(2)

Am sorry that I cannot attend your next meeting -
but I went north 2 yrs ago & again this year
& was gone 40 days - & now it will take me
till next year to "Hatch up" & get ready for
St Louis. "Death loves a shining mark"
The big Sioux was the only tree on our
ranch of 107 acres that was injured by
the storm - our fruit never looked better.
Were I to attend your next meeting - and was called
on to answer to the toast "The Minn. State Hook-Society"
It would run somewhat like this - See next page

Dear Sir:

Your letter of Dec 30
duly received; have also received
the reports; they are very interesting
and I enjoy reading them very
much, as there is nothing I take
more interest in than trees, have
been planting trees up here on the
prairie for the last twenty five years;
was educated in forestry in Denmark,
and I can see by the reports that
the Horticultural Society is right
in line with european ideas of forest
preservation. Am sorry that I did
not belong to the society long ago,
but the honest fact is, that living

CANBY, MINNESOTA, _____ 190

out here on the frontier I never heard much of the Horticultural Society, and never saw any of your reports, always had an idea that it was principally devoted to the raising of vegetables &c.; however when we finally had a farmers institute here in Canby in 1900 it did not take Mr. A. H. Bush more than two minutes to get my membership fee, after he showed me a couple of your monthly reports, and as I have just taken out a life membership you will be sure and have me with you till I die. I think that if our western people had a better idea of what the society is doing and

CANBY, MINNESOTA, _____ 190

what advantages it offers, there is a great many would be glad to join it.

I did not get the reports for 1887 and 1889, if you have them I would like to get them, so as to have a complete file from 1880.

did not get the report from 1903 either, but probably you are aware of that.
