 I found that some tender varieties  
 of apples are a little on the top  
 branches discolored but not  
 enough to hurt but my yellow

Friend Catham:

Your letter of 16<sup>th</sup> inst. received. Mr. Wm Walder or Rev. Wm Walder got a member of the S. M. Society and I wished that you would allow ~~to~~ him the premises as he is a good man and probably understood it so.

Mr. Taylor speak at the institute at Dassel and Mr. A. W. Trew and Mr. Henry also speak very highly of him and think that he would make a good man for the Institute and after this I formed my judgment then I know Mr. Taylor as a ~~good~~ man. I am glad that our office escaped that fire. In my judgment all the hardy trees will go through this winter alright. The Peerless is hurt on some places and probably some other tender varieties will get a black eye ~~over~~

My theory is, if it hold out this  
winter, that an apple tree adapted  
to Minnesota climate will go through  
any winter, providing we have  
plenty of moisture in the ground.

I send you a good list of new  
members from here and all  
book as you, what I have here  
we did send <sup>2 pkt.</sup> some a head to  
Edgerton. Yours very truly

F. Yankton

P.S.

We had a big meeting here

Friend Latham:

We just got here. A hard weeks work is over and another one begins. We had very large attendants and crowded Halls so much so that often as many as a 100 people turned away that they could not get a room to stand and as the the Halls were poor ventilated it was hard work to speak. By Saturday night I was all wore out, but shall pound away at it again this week I think that I did not sent you the names of the member from Harmony, which I enclose now at Brownsdale we got no members and at Wells I got one and I left a set of books with the Post master Mr. J. Friend Coltham I am sorry to say that I have not the faith of Mr. Wilfert I have faith in some things when I have ground for that my faith is not in vain. People at Wykoff told and  
 books given out when Mr. Moor  
 came and announced the S. M. S.  
 and so the people liked to join  
 both Societies, but you have to  
 charge the book to the S. M. Society  
 and I told Mr. Moor so. As you  
 have noticed that I was 2  
 fruitgrowers a had one was  
 from a renewal and one from  
 representation of Overtona. We  
 have to take the members in  
 such a hurry that we seldom  
 have the time to ask of renewal  
 or new member. I expect that  
 you have the Sugar Loaf Mountain  
 by this time, I am little afraid of the  
 local Societies, that they will have  
 not the push is needed to make  
 us

a success. The S. Minnesota has trouble  
now about getting a meeting, let  
us keep the stanght as much as

send you some money without  
paying for the check.

Yours of 10<sup>th</sup> just received. I can handle from 10 to 20 sets of books in the box I bought at Minneapolis and we check them on the train. I <sup>did</sup> give to Mr. Moor 2 sets of books which you have to charge to the S. Minnesota Society. Mr. Wedge hamed my Sweet Apple last fall. I expect Mr. Wedge here this morning in hat F. Dear Friend:

Your letter of Jan. 24 received this morning and as always glad to hear from you. I am well now but I was very bad off at Glenese. I had a supper at St. Paul which did not agree with me and I got so sick on the train that I thought I would not get alive home again. I do expect that my orchard and my seedling come out of this winter alright. The trees went in to winter with a good store of moisture. If fruit bloom comes out alright I will have a good crop of Yalumba apple. I am very sorry that the other fore has no horticulturalist as the work is very much needed
