Dear Mr. Latham:-

I am in receipt of your very kind favor of May 29th also a copy of your report for which accept my thanks. I am sorry indeed that you have so few as I know many of our members would appreciate a copy if they were available. Our report will be out soon and I have put you down for ten copies which I will send by express.

In regard to your summer meeting I will not promise anything. I may come although I think it is rather doubtful. I have been away from home so much during the last two months that I must catch up with my work here and besides I have come to dread the sight of a railroad train having travelled nearly six thousand miles in the past few weeks and would like to have my feet on dry land for a little while.

Thanking you for the kind invitation, I remain,

Very truly yours,

Dear Sir:-

Your favor of the 12th inst. to hand. I am very sorry to say that I have no cuts suitable for illustrating the paper which I prepared for you. In fact the paper was prepared without reference to cuts. It is of course poor policy to ^{have} ~~refer to~~ cuts which are not referred to in the text. If I had a little more time I might be able to prepare a suitable cut but think the article is complete without it. If I should prepare a cut it would of course be necessary to make some change in the text which would not keep your records altogether straight. I think you had probably better print the paper as it was originally read.

Thanking you for your interest in this matter and regretting that I have no suitable cut.

Dear Sir:

Your favor of the twenty-second is at hand. I never have been very much in favor of the seed distribution proposition myself. In its inception, it was all right, and I have no doubt now that in some instances perhaps on the frontier and in the more sparsely settled portions of a State like our own, it is of some service; but, so far as taking the matter up is concerned, I have troubles enough of my own this winter, and they more than keep me busy. We are in the midst of a long and protracted struggle over the rate question in which the committee of which I am a member is taking an active part, and that, in addition to my own committee work, takes all my time, so I will have to be content with the statement of my general views on the matter.

Yours very truly,

Dear Friend:-

Your favor received and in reply will say that I would most seriously object to you or any one else selling plates of those photographs. We will gladly pay you any price you may ask for them, although we have several now.

Frankly speaking, I do not think you have done us justice in the way you handled the photos we sent of the strawberry field and Mr. McVeety's orchard. The trees photographed of the McVeety orchard were bought of us and Mr. McVeety began working for us the year after he bought them and has been with us ever since and on that account, do not think that Mr. Taylor of Howard Lake should get the credit of it as he certainly did on account of the way this photograph is placed.

Another thing, you had printed under the photograph of the strawberry field that it belonged to T. E. Cashman of Owatonna, Minn.. Now while I am Pres and Mgr. of this nursery and own nearly 2/3rds of the stock at the same time that strawberry field belongs to the Clinton Falls Nursery Co and their name should have appeared under that plate and it might have helped us a little in the sale of stock, had it appeared that way.

I would not say a word about this Mr. Latham, if it were not for the fact that the Jewel Nursery Co has been allowed in the past to do considerable advertising through the columns of the Horticulturist. I feel, however, that you have done this thoughtlessly and half regret saying anything about it, however, I am thankful that you let us know the plates are for sale.

If W. L. Taylor was the type of man that Mr. Wedge, Mr. Underwood or Mr. Mitchell is, I would not say anything about it anyway but he is not and I have no desire to give him any free advertising at our expense.

Very truly yours,

Thos E. Cashman

Dear Sir:†

Your favor to hand and in regard to the photos will say that I would be only too glad to have you reproduce them and use them any time you see fit but do not want any one else given that privilege for we have some competitors that are just about crooked enough to erase our name and pan the picture off as theirs, if they could get hold of it; however, I know it is in good hands when you have it. In regard to our letter heads will say that we have been running them since early last fall and am very glad you like them. It was taken from a photo of our buildings. We have our own printing press now and are in shape to get out all sorts of literature on short notice. I enclose report of the apple trees budded on Pirus Baccata as per your request.

Dear Sir

Being a member of this society
I take the liberty of writing you for
some information I would like to
know when your next northern trial station
is located and who is in charge?
If you have no station as far
west as Rowan County and the society
come to locate one there I would
be pleased to have it located on my
farm one mile south of Pargo. I own
1440 acres three of which I farm
I am much interested in this work I
now have 250 apple & plum trees growing
and about 10,000 forest trees. Have ordered
for spring 400 apple & plum 12,000 forest trees
and a large lot of Russian willows
Cummings - birch - evergreen ect ect ect
Will set out 5 acres in the spring. I put my

Dear Sir,
The February Horticulturist at hand and
am pleased with the way the Dictum of
Wm. Knobel and his worthy son shows up.
I can use a hundred copies and
envelopes if you care spare them. I
enclose \$1.00 for the half ton. Will
you kindly send me the names of
those owning the Horticulturist at this
place. We are planning a little meeting
and do not want to miss any one
interested. I send you under separate
cover two photos of which I would like
to get half tons. Kindly send them with
with the pictures you have of the Hierarchy
Steady berries and I will remit the full
price for these half tons soon as you
advise me what the amount will be
and if you wish to use either the
berries or the apples in the Horticulturist
would be pleased to have you do so.

Dear Sir:-

Yours of Feb. 12th has not been answered as I have been spending the past month in California. I am very much obliged to you for the information given by Mr. Roy Underwood. I have been looking this matter up to some extent and think we should give the dust spray a good trial. If possible I will visit some large fruit farm where they are using them sometime this season.

Again thanking you, I am,

Cordially yours,

Dear Sir

Yours of Feb 6th at hand. dont see how
I can get any views at present suitable to go with
my paper on blight. Blight savages ^{from last season} would not show
much on a picture taken now unless the blight
was all cut away. So Wood has the worst blighted
orchard of any I know of. views taken there after
the foliage came out would be all right. but then
it would be too late to be of any use to you.
There is no badly blighted trees in my orchard.

The farmers Institute was held at the place the 8th inst
and got pretty well acquainted with Mr Schultz.
Mr McConnell the Supt. called me to the platform
twice during the afternoon. it did not hurt much either.
I noticed the audience gave me the closest of attention.

I was much flattered at the high compliment which
Mr McConnell publicly gave me on three or four
occasions throughout the day. - prospect good for crop of
apples. but Strawberries & Raspberries look poor.

Dear Sir :- Mpls Minn

I am sending under separate cover two specimens of the apple before referred to. The larger one is the more typical while many are more pale than either of the specimens. As my neighbor has several of these trees they must be propagated but he fails to remember of whom he got them. His trees are about 10 years old. I would like to get trees of the variety if I knew where to obtain them. The whole crop is in general good condition at present. Neighbor says they are a seedling of the Malinda. Yours etc R. E.
