Dear Sir - I am sending you a few
seedling apples for ^{your} inspection and would
like to know what steps I shall take to
bring this apple into public favor I have
sent some nursery Co. sample apples & they
said the apples were worthy of propagation
and wanted me to send them signs but
I can not send them signs and let them
test the hardness of the tree and still hold the
control of the tree for if I let the nursery men
get a few signs then they could go ahead and
sell the apple trees of this kind under a name
they chose to give it
I was told by a party whom was with
the Institute who took my name as
a member of Minnesota Horticultural Society
that the Society would test the
hardness of the tree and if the tree proved
to be a valuable one I would get what it
was worth
I have only the one tree but have planted

a few a gallon of apple seed and expect a good
a large number of these apples this winter
this tree is truly is a heavy bearing tree
one crop in 2 years this low year it had
a few ~~two~~ two barrels of apples and it
holds its fruits the best of any apple I ever
saw the wind does not blow the apples off
the tree before they are ripe and it a very
hard wind to shake any of them off the tree.
should you wish me to send you more apples
I will do so.

these apples have been kept in a small warm
dry cellar and I think if they would have
kept much better if they had been
kept cool.

I do not know how long these apples
would keep for me have always used
them up before they spoiled and never tested
them as to how long they could be kept
I will try and answer any questions you
may wish to ask regarding these apples
Very Respectfully J. H. Allen

Yours asking

about a photo of apple pickers
&c - We never had one taken
& in your next you want
me to look over last years
program & I have. You
cant improve on it if you
depend on my suggestions that
sure. Lots of ~~thin~~ lots of
work. How are you. Have
you been out to the new farm
this summer: well it dont feel
much like summer yet

Very truly

Went May 909
to the Secretary of
the Horizontal Society
St Paul & Wood Life
to register in the apple
contest the year 1907
& planted 50 seeds
all Dutch but of my
One raised in Hubbard
Co and this Springs
planted 100 seeds all
of Paton's growings
all grow on the form
of Red Wm Arrowwoods
~~from~~ in Meeker Co
this State

Now, if there is
any thing more
Please let me now
& will go in the
fruit growers and be
one among many
I am doing a great
work in the fruit
business in Hubbard Co
I have a pound tree
from seed that is as
hardy as any Wild

Dear Sir:--

Yours of the 3d inst. enclosing the bill that I sent you for two negatives and prints amounting to \$2.00 received. Will say that the bill is for the making of the negatives and prints for Mr. Kohler. The subject was the exhibit of the different apple grafts. I believe Mr. Kohler said that the expense was to be charged to the Horticultural Society. If this is not satisfactory, kindly let me know.

Yours truly,

Dear Sir:-

Yours of March 1st in reference to the enclosed bill for literature sent you is at hand. The publications in question were sent you in response to your request.

We regret that the funds of the Association will not permit us to exchange with Societies of the class of which you are Secretary, much as we appreciate the value and purpose of their organization. The Association has made it a rule not to establish a precedent by exchanging with other organizations. We therefore trust you will favor us with a check for the enclosed bill.

Very truly yours,

Dear Sir:--

Enclosed herewith I hand you check for \$11.00 together with application of William Harrison of the Torrey Building, Duluth, Minnesota, for one year's membership, and of John Uno Sebenius of Duluth, Minnesota, for life membership in the Minnesota State Horticultural Society.

Mr. Sebenius's office address is the Wolvin Building.

I think Mr. Sebenius will be able to do some good work for us this year as he has a fine ~~farm~~ within the city limits of Duluth much on the same line as the Loring Farm at Lake Minnetonka, and has a number of very good fruit trees.

If there is anything in the experimental line that he could carry on I am sure that he would be glad to do so.

Yours very truly,

Asst. Land Commissioner.
