Mr. A. W. Latham,

Minneapolis, Minn.

Dear Sir:-

On the 30th of August you asked for the loan of the cut opposite page 109 of my 14th Annual Report. I understood you were in a hurry for it and on the 2nd of September I informed you that I had requested Mr. Penniman to send it to you. I see you have not yet used it. Kindly inform me when you purpose doing so, as I cannot loan my cuts for an indefinite period, being liable to lose sight of them.

Yours truly,

*C. C. Andrews*  
Forestry Commissioner.

*Recd 10.23.09*

Public opinion has moved steadily towards a just appreciation of the value of forests. The fundamental idea of forestry is the perpetuation of forests by use. \*\* The forest reserves should be set apart forever for the use and benefit of our people as a whole, and not sacrificed to the short-sighted greed of a few. All of the reserves should be better protected from fires.

The forests are natural reservoirs. By restraining the streams in flood and replenishing them in drought, they make possible the use of waters otherwise wasted.

The preservation of our forests is an imperative business necessity.

First Annual Message.

A. W. Latham, Sec'y,

My Dear Sir,

In response to your favor of 7<sup>th</sup> Inst. I wish to heartily & sincerely thank you & Capt. A. H. Reed for your courtesy in placing my name on the roll of ~~long~~ life membership of the Minn. State Hort. Society. (I have personally expressed my gratitude to Mr. Reed) I shall surely & certainly pay the remaining of the fee, \$5<sup>00</sup> in due time, would like to hand it to you herewith but cannot conveniently.

I feel sorry to "drop out" the past few years for Minn. is my native state & I feel a pride in being ~~one~~ a member of its large Hort. Society, but it has been said that "all is well that ends well" so I'm going to call & believe it all right.

Inclosed you will find 25¢ stamps to pay for my dinner June 29/09, for I intend to be there at the summer meeting of our society. Am trying to get my brother, E. R. Austin, Montevideo, to join me also, - wish you'd write him - send Mr. Moyer after him - he ought to be there - is just the place for such as he.  
Very truly yours - L. E. Austin

Friend -

Think your arrangements are all right your premium list ought to bring out a good show. Couldn't just see why you make the premium on "any named variety not included in above list" (which is generally some inferior thing that is not in general cultivation) twice as much as on the best standard varieties. Perhaps though there is a reason & may be a good one that I don't see. I am very green in the show business.

By observation a few years noting the time between flowering & fruiting one ought to be able to guess pretty near the date to set the meeting still the changeable weather would have a lot to do with it. Will try & be up to the meeting & will bring along my 1/4

Yours truly
