Dear Sir:-

I have the honor to transmit herewith copy of Mr. Swinborne's report of his examination of the books of account of the Horticultural Society.

Your attention is called to Mr. Swinborne's comment on the mingling of your personal funds with those of the Society and I would recommend that in future you carry two separate accounts, depositing to the credit of yourself as Secretary the funds of the Society only.

Yours very truly,

Dear Friend,
When your letters were rec'd, I
was away in Florida, and since I came
home have been over-looked - in regard
to apples - our crop was very poor - almost
a failure - nothing good enough to
show. In another letter you say I am on
the program for "Aster Growing" - I think
you could have made a better selection than
me, as I am in no way qualified for a
writer or speaker. I will do the best I can.

Dear Mr. Latham:

Replying to yours of the 30th. It will give me pleasure to attend your winter meeting. As to the subject for a little paper, I am wondering how this would do, -The Canning of Truck Crops. I would not want over 15 minutes.

We have put in a small commercial outfit here this year at a cost of \$150.00 that will handle about 1,000 tins per day, and find it very satisfactory. I believe the surplus of a great many of the truck crops could be profitably disposed of in this way and it would also help flooding the market towards the close of the season.

Dear Sir:

I am very much interested in the horticultural work of this state, particularly from the soils standpoint, and if close at hand, would like to have a copy of the last report of the State Horticultural Society.

I would also like to become a member of this Society if possible.

Dear Secretary Latham:

I have yours of the 28th ult. and will be very glad to be present at your winter meeting and give a talk on the subject you suggest, if the matter can be arranged with our State Society. If you care to do so you might drop a line to the President of our Society, M. J. Graham, Adel, Iowa, regarding the matter and some time during the summer I will make it a point to see either him or Mr. Greene about it.

I have just been examining the various fruits on some recent trips over the State. I find that the raspberries and blackberries are killed at least to the snowline and in a good many parts of the State peaches are in bad shape, both trees and fruitbuds. The cherries are injured some, tho not seriously, I think, and the apples appear to be in good condition.

Very truly yours,

A. T. Erwin.

Dear Mr. Latham:

I have your request for a paper on the diseases of oak in Minnesota. I will be glad to comply with your request. I do not know just what you mean by a short paper. I would want about fifteen minutes at least, and not more than twenty minutes for the paper. I can assure you, however, that when I say fifteen minutes I mean fifteen and not fifty. I realize that it is important for you to know exactly how much time will be consumed. Kindly let me know if this is satisfactory.

Dear Mr. Latham:

I thank you kindly for your invitation to visit your Society again and give a little talk along the line of improving the farmstead. It is always a pleasure to meet your growers and if the matter can be arranged I am sure I shall be glad to do so again. Other things being equal, I would really prefer to attend a summer meeting this time, as one can see more of the outside world. Where will you meet this year and is it the custom for the other State Societies to send delegates to the summer meetings? I have a very good set of lantern slides on this topic which could be used to advantage I think.

Dear Friend:-

Your letter of the 6th, inst, to hand a few days since, Having had some extras, has detained in answering your letter until now,

You may send me 500 folders with our name & adress as presented by the---
----- Nursery, We will use them to the best advantage to our Society,

All well & the good blanket of snow will no doubt bring our stock
in the field thru the winter in good shape,

What do you think the effect of this below Zero weather will have on
the tender apple trees topworked & planted thru this northern section?
I am not growing any just now, Had some several years ago & all died,
Our tenderest Apple on the place, I think is Red Astrichan & they are
living pretty close to the Hib, only in warmer or milder quarters,
Wishing You a prosperous Year,

I am Fraternally Yours.

W H Eddy
