County Maps. Commissioners Palmer & McFarlane were appointed a committee to see that Mr Corson who made New County Atlas Maps for the County receiving his pay without being approved, to have him compair said Maps with the Register of deeds so they can be certified to by the Register of deeds.

Resolution

Legislature Whereas our State Legislature is asked to pass a special law requiring the Board of County Commissioners of Hennepin County to survey and locate where not now located five County Roads leading from Minneapolis in different directions through the County and requiring said roads to be worked to some established grade and requiring that all moneys appropriated by the board for the making improvements of County roads shall be expended only on these roads and whereas we believe that such a law would unreasonably and unnecessarily limit and prevent the proper control and discretion which the board of County Commissioners should have over the making and improvement of roads

Therfore Resolved by the board of County Commissioners of Hennepin County that we ask the delegation representing this County in the legislature of the state to oppose any such legislation, Mr Co Auditor was instructed to send a Copy of the above to the Hennepin Co delegation

Chairman of the committee appointed Mar. 1.
1875 to examine into and report upon the
petition of Neil McDougal and others for the
change of Highway running into more than
one town and not within the limits of any
incorporated city made the following report.

To the Board of County of Commissioners
of the County of Hennepin and State of Minnesota

The Committee appointed to examine
the proposed change of a highway as stated
in the petition referred to in an order of
appointment, respectfully report that the said
highway was proposed to be changed as follows
to wit:—

April 5th 1875

To the Board of County Commissioners of Hennepin County and State of Minnesota

Report of the committee on the claims of James Mc Margaret Jane Davis.

The committee appointed to examine the claim for damages for a highway passing through the lands of James Davis and Margaret Jane Davis, would respectfully report, that we did examine into the subject matter of said claims and also viewed the route over which the road passes and from the evidence before us we have found no records to show that the road was laid out according to law or included in a Road District in the Town in which the same is situated during five years next preceding the 1st day of April A.D. 1874 and that the papers on file does not contain a discreption of the land for which such claim is made, with sufficient certainty to identify the same, a written plain enough to be read or understood. And that the said intended road is not of sufficient advantage to the County to warrant the paying of $250 to said Claimants as the road is not traveled as a public Highway, but only for the privat convenience of Mr. Davis and a few of his neighbors. And in view of all the facts in this case the committee would recommend that the said claims be rejected.

Given under our hands this 7th day of June A.D. 1875.

Hon O. P. Whitcomb present.

Hon. O. P. Whitcomb State Auditor appeared before the board and Examined the list of tax abatements made previous to June 1st 1875.

Commissioner Wilson reports on the Osseola Bridge

Commissioner Wilson from the committee on Roads and Bridges reported that the Town of Minneapolis proposed to do all other work on the Osseola Bridge of the County would put in the abutments. Upon motion the whole matter was referred to the Committee on Roads and Bridges with directions to advertise for proposals for building the abutments contract for the work and have general charge of the same.

Charles Clark addresses the Board

Charles Clark addressed the Board on his application for an abatement rejected at last meeting.

Commissioner Edwards from the committee appointed to examine into and report upon the indebtedness of this County to the State Reform School made the following report.

Report of committee appointed on Reform School

To the Board of County Commissioners of Hennepin County the State of Minnesota

The Committee appointed by your Board to examine the claims of the State Reform School against this county for the years 1873 & 1874 amounting to $5776.27 would most respectfully report, that we have examined the laws under which the claims are made and also obtained

June 21st 1875.

from Mr Rehldoffer the Superintendent a Statement of the amounts due the State for the years named, we find that the laws of 1873 required the State Auditor at the end of each year to cause the amounts due from each county to be entered upon the tax duplicate of said counties and collected and paid into the State Treasury the same as other State taxes, by virtue of this law we find that Hennepin county has levied a tax of 7/100 mill on each dollar of valuation on the tax duplicate of 1874, giving the State when collected $4683.83 leaving a balance yet due the State Treasury from this county $1082.44 which amount according to the provisions of the law of 1875 requires the State Auditor at the end of each year to make out a full and detailed account with each county that has had children committed to said State Reform School, then making it the duty of the County Commissioners to set apart from there County revenue fund a sufficient amount to meet said claim. The provisions of this Act is intended as far as applicable to apply to the amounts already due the State for the years 1873 and 1874.

As this Act provides for the collection of these claims at the end of each year it does seem as if the State Auditor in making his draft for $5776.27 upon our County Treasurer has evidently done so without knowing that the County had made provisions for the most of said claim, and that the law will not sustain his action in the premises. Your committee therefore not wishing to raise any objections to the prompt payment of what this county

June 21st 1875

owes the State, would recommend that the board set apart the sum of $1082.44 from the County Revenue fund, when the State Auditor draws on the County for that amount according to the provisions of the new law of 1875.

And your committee would further recommend that the Superintendent of said State Reform School should be requested by this board to as soon as practicable discharge all the boys from this county who have given evidence of reformation and good behaviour as their example might be more respectful at home, than to remain in said institution at the expence of the County merely to gratify the vanity and caprice of some of its leading managers who think that the faculty of training children is exclusively concentrated in them

Given under our hands this the 21st day of June AD 1875

The Board met pursuant to adjournment
Called to order by the Chairman
All the members present.

The committee appointed Nov. 1875 to examine into and report upon the petition of Mary Jane Klemm and others praying for the location of a highway from a point on the Minn & St. Louis R.R. near Hopkins Station to a point on the St. Paul & Minn. road, so called, made the following report.

To the Board of County Commissioners of Hennepin County and State of Minnesota.

The committee appointed to examine the proposed location of a highway as laid in the petition referred to in your order of appointment, would respectfully report that we did at the time and place named in said order meet and examine into the subject matter of said petition and also the remonstrance from the Supervisors of the Town of Richfield. And from the evidence before us are fully of the opinion that the petition is not of sufficient validity to warrant the laying of the proposed road, as the proper notice had not been given to the public when the petition would be presented to the Board of County Commissioners, nor does said petition set forth understandingly the point of beginning, course and termination of said proposed road. And the notice posted purporting to be a correct copy of said petition establish a point on said line of road in Section 31 Township 116 Range 21 in the Town of Bloomington, which is about six miles distant from the point designated in the petition,

And in view of all the facts in the case we would recommend that the petition be dismissed and the committee discharged

Given under our hands this the 8th day of November A.D. 1875.

Tuesday December 7th 1875.

The Board met pursuant to adjournment
Meeting called to order by the Chairman
All the members present.

The County Attorney returned the papers in the Mary Jane Glenn and Ewing road case with the following report.

Minneapolis Minn. Dec 7. 1875.

To the Board of County Commissioners of
Hennepin County

County Attorneys Report on the Glenn & Ewing road case

The law requires that notices of intention to present petitions for changing vacating & laying out county roads, be given by posting up in three public places in each Town through which the road passes at least thirty days prior to the time of presentation the same to the Board a copy of the petition to be presented and also notice of the time when & the place where said petition will be presented to the Board. The papers presented by Mr. Ewing & others at your Nov. meeting contained proof by affidavit that copies of petition were

posted, but no proof that notice was given as to time & place of presenting petition.

In this respect the papers are faulty.

But the law requires that when the Board is satisfied that notice has been given as required by law, it shall appoint a committee &c, and if such committee become satisfied that legal notice has not been given, justice to the Board & to tax payers would seem to demand that they make as little expence as possible and report their discovries to the full board without delay for otherwish a large bill of expense might be made, and any one person objecting to the road and appealing to the Court could reverse any order laying out the road in question. Where however the defect is only a formal one, I think it may be cured by subsequent proof satisfactory to the Board.

Respectfully Yours
(Signed) Jas. H. Laurence
Co. Attorney.

The Committee appointed Nov. 1st 1875 to examine into and report upon the petition of Mary Jane Glenn and others praying for the location of a highway as proposed in said petition made the following report.

Report of the Committee appointed Nov. 1st 1875 on the petition of Mary J. Glenn & others for the location of a highway

To the Board of County Commissioners of Hennepin County and State of Minnesota

The Committee appointed to examine the proposed location of a highway as stated in the petition referred to in your order of appointment would respectfully report that we did at the time and place named in

said order met and examine into the subject matter of said petition and also the remonstrance from the Supervisors of the Town of Richfield. And from the evidence before us are fully of the opinion that the petition is not of sufficient validity to warrant the laying of the proposed road as the proper notice had not been given to the public. When the petition would be presented to the board of County Commissioners, nor does said petition set forth understandingly the point of beginning, course and termination of said proposed road.

And the notices posted purporting to be a correct copy of said petition establish a point on said line of road in Sec. 31 Town 11 Range 21 in the Town of Bloomington which is about six miles distant from the point designated in the petition. And in view of all the facts in the case we would recommend that the petition be dismissed and the committee discharged.

Given under our hands this the 8th day of November A.D. 1875.

signed { D. Edwards, H. Willson, J. H. Mitchell } Committee

On motion the report was accepted.
