The Special Committee to whom was
referred the matter of the Suchanek
Ditch, so called, made the following
report:

Minneapolis June 4th 1887

To the Board of Commissioners
Hennepin Co

Gentlemen

Your Committee
appointed to investigate the necessity
and proper location of the Ditch or
Water Drainage referred to in the Suchanek
et al Petition do hereby state, that they
have given the matter a thorough and
careful investigation & coincide with the
route as reported by the Re-viewers for that
purpose & are also thoroughly convinced
that if the said Ditch were in use to day,
it would drain some 300 acres of land
and would also benefit the surrounding
dry land & would be very beneficial
for the sanitary condition of the country
adjoining.

And we furthermore believe the
objections of the M & M R R are entirely
without foundation, but on the other
hand would be a benefit to the said Co
in so much that it would save the Co
considerable expense as they are legally
compelled to keep all water-courses

Monday June 6th 1887.

open, and we find that the culvert on Lot 3. Sec 9 where the County Surveyor located the proposed ditch, to run through, is entirely closed by the filling in of sand & dirt which had been placed there to make foundation for the driving of piles to sustain the trussel work.

And furthermore we find sufficient fall to drain that part of the country & open the same locality for better use. For as it is now, you might say it is valueless & if the said land should raise in value by locating the said ditch it must naturally be a benefit to the Co, whereas the land remaining in the condition it is now in, is you might say no value to any one.

Taking into consideration the above facts, your Committee do respectfully recommend the passage of said petition & that it be given immediate attention.

Under your resolution

Monday September 5th 1887.

of July 30th 1887 I have made such investigation looking to the apprehension of criminals as the means at my command afford. The machinery of the law has been diligently put in motion "to have any and all persons engaged in said matter" (the matter set forth in your resolution) in such a way as to make them criminally liable to deal with according to law." The result I present herewith: It seems to have long been the custom of the County of Hennepin in repairing its roads to divide the expense of such work in equal proportions with the towns through which the highways proposed to be improved or repaired pass. In accordance with this custom the Board of County Commissioners on the 4th day of October 1886 upon motion of Commissioner Chouen appropriated \$180⁰⁰ for the improvement of certain roads in the Town of Hassan, conditioned upon the appropriation by the Town of a like sum. A claim for the amount appropriated by the County was afterwards presented to the Board which claim bears the approval of Commissioner Chouen and H. B. Henry, Chairman of the Board of Supervisors of the Town of Hassan. This claim was allowed by the Board of County Commissioners, a warrant for the amount drawn, dated November 4th 1886, paid to the said H. B. Henry on the 10th day of February 1887, and by him paid into the Town Treasury of Hassan 2 days later to wit: February 12th 1887 to the credit of the road fund and the Town Treasury now shows funds in at least double said amount from which the amount \$180⁰⁰ can be drawn and used as desired.

In this I can find no criminal. No embezzlement, larceny, breach of public trust or other felony or misdemeanor,

has been committed. The whole transaction is without fault, and appears to have been conducted in a proper business-like and honest manner.

Respectfully submitted
