From the County Auditor
To the Board of Commissioners of
Hennepin Co. Minn.

Gentlemen:

A Committee of the Common Council of the City of Minneapolis called upon me about one month ago with a verbal claim that about \$9000.00 of penalties which have been apportioned to the County Revenue Fund during the past 8 or 10 years should have been given to the City Minneapolis, the Library Board and the Board of Education of said City. I

asked them for a statement of their claim and have received the enclosed which is very incomplete. If they have any claim at all, and from the hasty examination which I have had time to give it, it is erroneous. I refer it to you that you may take such action as seems necessary and right, to protect your funds.

Respectfully,

From the Committee on Roads & Bridges:
Gentlemen

Your Committee met May 27th 1890 according to appointment in the Town of Brooklyn to witness the trial of Road Machines. There were present the following Machines: The American Light Champion and the Hilpatrick. After witnessing the work of both Machines and noting the different points and capacity of each one, we would report that there is great merit in both Machines, and believe that by the use of a Road Machine on the several roads of the county, that better roads will be the result, and at the saving of a large percentage of cost of maintaining the same, and we recommend that each town provide itself with a Road Machine as a matter of economy.

County of Wennekin

At a meeting of the Board of County Commissioners of said County, held May 5th 1890 a copy of the report of the Committee appointed by us at our last session, to examine the road hereinafter named, having been duly returned, by which said report it appears that the said Committee met at the time and place designated in our order of appointment and examined the highway proposed to be changed, viz:
