To the Honorable Board of County Commissioners:
Gentlemen:

Your Committee on Ways and Means to whom was
referred the matter of the proposition of Gordon
Bright relating to the service of papers in criminal
cases have given the same careful consideration

Monday February 15th 1897. Continued

and beg leave to report as follows:-

That we have taken the views of the County Attorney, Mr Peterson, upon said proposition and find them adverse thereto, for the following reasons, in which ^{your Committee} concurs:- First, It implies the creating of another office, the incumbent of which would at times be compelled to employ several assistants in order to meet urgent demands for speedy service; Second:- It, also, implies the invasion of a domain of official service which a long established custom has awarded to the Sheriff ^{and} the legality of which invasion is not without question; Third: In view of the ample means at the command of the Sheriff for the rendering of the service named we believe that the public interest will be best subserved by leaving such service to his department. Your Committee therefore deem it not advisable to accept the proposition of Mr. Bright.

I regard the moral influence which a suitable person in constant association with the inmates of our Jail might exert over them as a potent agency in securing their reformation. From the Board of County Commissioners of Hennepin Co. to the Hon City Council
Gentlemen:-

The case of the Board of County Commissioners of Hennepin Co. vs. the Citizens Bank of Minneapolis, Meier, Chas. A. Sovey, E. S. Woodworth, R. D. Russell, W. F. Thompson, S. W. Edwards, W. A. Barnes, W. J. Griswold, and Walter M. Carroll, stands for trial at the April term of the district court. This case was brought by the Board of County Commissioners of Hennepin Co. against the sureties on the bond given by the Citizens Bank of Minneapolis for the protection of the county funds. At the time of the assignment the amount of money on deposit in the name of the county treasurer was \$34,119.05.

This amount has been reduced by the payment of several dividends by assignee in the sum of \$9,894.50. A further dividend has been declared and the county is entitled to \$5000 in addition. There now remains about \$20,000 still due the county upon this claim.

The defendants offer to pay the county in full settlement of all liability upon the bond the sum of \$10,000 which would result in a net loss of about \$10,000 upon the original claim. We are informed that of this \$10,000 the city's interest amounts to about \$7,000 and that the county would be compelled to bear the remaining loss of \$3,000.

We would therefore recommend to your honorable body, that you appoint a committee for the purpose of conferring with a like committee appointed by the Board of County Commissioners as to the advisability of settling this claim and other claims of a similar nature.

Respectfully submitted,

Chas. Wilkins

of a settlement with the Citizens Bank and other claims of a similar nature.

Adopted; and the Chairman appointed Commissioners Lacey, Barnard, and Wilkins as such Committee.

A petition was received from Byron Sutherland and others asking the Board to take immediate action under and by virtue of an act of the legislature of the State of Minnesota entitled: "An act to provide for the establishment and maintenance of Uniform heights of water in the Navigable Lakes of this State, in order to improve Navigation therein or to promote the public health or welfare, and to that end to provide for acquiring and condemning property and doing all such other acts as may be necessary"; and approved April 2^d 1897; to establish and maintain a uniform height of water in Lake Minnetonka. Received and placed on file.

Commissioner Ryberg offered the following resolution:
Resolved:

That in the judgement of the board there is occasion for the board to consider the question of establishing a uniform height of water in Lake Minnetonka, and upon such consideration the board deems it necessary for the improvement of navigation in such lake, and the promotion of public health and welfare, to establish and maintain a uniform height of water in such lake, and that proceedings to that end be taken at once, in accordance with law; That on Wednesday, April 7th 1897, at 2 O'clock in the afternoon, this Board meet for the purpose of fixing the height at which the water in said lake shall be maintained, as near as practicable, and for the transaction of such other business as shall regularly come before it.

Adopted.

A petition was received from the town of Eden Prairie asking for an appropriation of five hundred dollars to aid the said town in maintaining a bridge which needs immediate attention and for such other road work as the Board of County Commissioners shall deem necessary. Referred to the Committee on Roads and Bridges.

Chairman Board of County Commissioners

Wednesday April 7 - 1897.

The Board of County Commissioners met pursuant to adjournment and was called to order by the Chairman.

Members all present except Commissioner Egan

The Chairman announced that the meeting was called for the purpose of considering the question of fixing a stage of water at Lake Minnetonka

Geo. W. Hooley advocated the maintenance of the present established stage. It is now 10 inches below benchmark established. Recommends dam at present place, with addition of flush boards 6 to 8 inches high

H. M. Carpenter = Has not objected to present benchmark. A dam at foot of Grays Lake would not injure some 3,000 acres of land which is now in danger, and the cheapest point to construct a dam is at that point.

The chairman asked if any one present had any objections to maintaining the height of water at the present benchmark. No one objected.

S. L. Gale = From Breezy point and Cottage Wood was heartily was heartily in favor of the present benchmark.

E. J. Phelps agreed that the present benchmark was best for all the interests of the Lake

Byron Sutherland said that the Lake is now 10 inches below the benchmark

There is some danger in touching the present dam that the County will again reinstate an old contract and become liable. He favored a dam above the present one at the outlet of Grays Bay.

O. P. R. Champlin and E. S. Williams both now-residents own the shore rights which can be had for a trifle

Larrington Phelps is satisfied with the present benchmark as a proper stage for the water of Lake Minnetonka.

He thinks present dam can be maintained so as to answer all practical purposes.

7081 Wednesday April 7 1897. continued.

+ Under the Act of 1873 Minnehaha Creek was made a public highway and was declared a Navigable Stream. There is danger that some one may bring up that fact as ground for damage in case the Commissioners endeavor to locate a dam at the outlet of Gray's Bay.

+ W. S. Howen says that the present dam is about the same height as the Narrows were before the bed of the creek was cut down under the Act of 1873.

Geo. W. Loby, having been asked, said there is 35 inches average evaporation in Lake Minnetonka between April 1st and November 1st.

Mrs. L. A. Austin stated that he is satisfied with the present bench mark, but would object to any raise above that point.

To the Honorable Board of County Commissioners:
Gentlemen:

In accordance with your directions I have made survey for repairing the approach on the Hennepin County side to the Crow River Bridge at Hanover. I have not as yet had time to make plans or estimates for doing said work but will endeavor to complete the same prior to the 30th of the present month. Roughly I should say it would cost from 3 to \$500. to put in a stone retaining wall something in the nature of an abutment to repair the wash out. Piling could be put in which at best would be a temporary expedient.

Respectfully Submitted

E. J. Abbott

C. Surveyor

Monday May 24 -

1897. Continued.

To the Honorable Board of County Commissioners:
Gentlemen,

In accordance with your instructions I have examined the site of Wash out etc across Elm Creek near Humphreys. Without going into a detailed estimate I am satisfied that it will cost about as much to replace the old wooden Bridge in the former place as it will to build a plate girder span at the proposed location which is some 300 ft further north.

At the proposed location I estimate as follows,

Two Stone Abutments Approximately 125 cu. yds. Masonry @ 3.25	406.25
One 42 ft. plate girder span all steel except the roadway plank	375.00
2000 cu. yds. excavation @ 15¢	300.00
Total	1081.00

The way bids have run on the Dam I should judge that that the price which it would be able to contract the work for would be in the aggregate \$250. less than the above amount.

If let by Contract I recommend that bids be asked for in two parcels, First, for the excavation and Masonry, and Second, for the Iron Work erected complete.

Respectfully Submitted

E. T. Abbott. Co. Surveyor.

To the Honorable Board of County Commissioners:
Gentlemen,

I am informed from what I consider a reliable source that the down stream Carsson of the Dayton Bridge has settled over four inches. If this is true it has happened since I made the examination heretofore and is a matter requiring prompt attention. The result of this will be (if the information is true) to break or abnormally strain the rivets in the top lateral system, also to "buckle" a part and throw an unusual an unprovided for strain upon another part of the "Eye bars" in the lower chord.

Settling of this kind could go to such an extent as that some heavily loaded team would be precipitated span & all into the River, entailing not only the loss of the bridge upon the County, but a healthy damage suit besides.

I suggest that prompt action on the part of your Honorable body be taken regarding this matter.

Respectfully Submitted E. T. Abbott. Co. Surveyor.

Honorable Board of County Commissioners
Gentlemen: At your meeting on the 8th inst. we had before your honorable body an estimate of material and labor furnished on the Hanover Bridge which you refused to pay on the grounds that it was not according to contract. When we figured on the work, we figured that there should be monthly estimates paid. We have the original sets of plans and specifications which we figured on. Now we claim that your County surveyor changed these specifications after we had furnished our bonds and signed the contract which he had no right to do without our consent. We now renew our demand this day for an estimate.

County of Hennepin }

At a meeting of the Board of County Commissioners of said County, held Aug. 16 - 1897 a copy of the report of the committee appointed by us at our last session, to examine the road herein after named, having been duly returned, by which said report it appears that the said committee met at the time and place designated in our order of appointment and examined the highway proposed to be changed viz: - Beginning in the center of the Perkinsville road so called and at the center of Section 22 Township 118 Range 23. Thence running East on the East and West Center Section line of Section 22 and Section 23 Down and Range aforesaid until said Center Section line intersects the Quarter Section Cor. in the East Section line of said Section 23; where said proposed change is to terminate. Said point of termination being in the center of said Perkinsville road. We have assessed the damages sustained by reason of the changes of said road to the lands over which the same passes and to the owners thereof, as follows: -
