The County Attorney reported in the matter of the communication of Ephraim Sipe that the Judicial Road laid out across Crow River near Rockford Station was laid out according to law and all steps appeared to have been regularly taken.

The point raised by Mr. Sipe - that the decision was signed by only one Judge is of no consequence because there is only one Judge in the District. In his opinion the road is a legally laid out road and the County can safely expend money in building a bridge thereon.

A communication was received from the Supervisors of the Town of Excelsior making application for an appropriation from the County Treasury to be expended on the County Roads in said Town.

The County Attorney submitted the following communication

Minneapolis, Minn. May 2nd 1898.
To the Honorable Board of County Commissioners
of the County of Hennepin

Gentlemen:—

You have submitted to me the following questions:
First.—Can one or more ^{members} of the Board of County Commissioners, when not in legal session, enter into a valid contract with any person on behalf of the County.

Second.—If an agreement is made with any person by one or more of the County Board when not in session, can such an agreement be ratified and made binding on the County by the subsequent action of the County Board in regular session?

Third.—What is the best method for the Board to pursue in making contracts, so that they may be binding on the County?

The First question I shall have to answer in the negative. In support of that proposition I cite the case of Bentley against the County of Chicago, reported in a decision of ^{our} Supreme Court, in 25 Minn. 259. I quote the Syllabus which is as follows: "A contract of employment, made by a single County Commissioner with a physician for professional services to be rendered to a sick pauper, entitled to relief from the County of such commissioner, is unauthorized by the provisions of General Statutes Chapter 15, and not obligatory on the county."

The second question I shall have to answer in the affirmative,

Minneapolis, Minn May 2nd 1898. Continued.

and call your attention in this connection to the case of Schmidt against the County of Stearns, reported in the 34th Minn. page 11. I quote the following from that decision: "And we are unable to see why, if in any particular case it should be made to appear that expenses reasonably necessary were incurred by one of the commissioners in endeavoring to arrest the spread of the contagion, the board might not either authorize such expenditures in advance, or thereafter recognize, ratify, and pay the same under the powers given them by the act above referred to. The Plaintiff's claim was thus approved and allowed in part, and he does not complain of the action of the board. Their ratification would so far validate what they might have authorized."

1 Dill. Minn. Corp. §463, (385)

People vs. Swift, 31 Cal. 26;

Dubuque College vs. District Sp., 13 Iowa 555."

In regard to the third question I would say that owing to emergencies that might arise in properly caring for the interests of the County, I would suggest that whenever a committee is appointed from your Board to take up any certain line of action, you pass a resolution which shall be broad in its terms and give the committee power to act for the Board in such a way as may best serve the interests of the County. There is no reason why the Board cannot authorize in advance a committee to make certain contracts and incur certain liabilities that will be binding upon the County. This I think covers the points submitted to me by you.

Yours respectfully

Jas. A. Peterson
County Attorney

Commissioner Egau, offered the following resolution:

Resolved:

That the Bond of James Donahue Treasurer of the Town of Plymouth, for road appropriation with Charles Schube and Fred Webb^{as} sureties be and the same is hereby approved.

Minneapolis, Minn. June 20th 1898.

To the Honorable Board of County Commissioners of the County of Hennepin Gentlemen:-

In response to your request for an opinion as to the law regarding the question whether or not the County Commissioners have a right to appropriate money to villages, to aid such villages in the construction, maintenance and repair of highways within the village, whether such highways be County roads or Village Streets.

I find under Section 1846, General Statutes for 1894, that the County Commissioners have general supervision of County roads and

Minneapolis, Minn. Monday June 20th

have power to appropriate such sums of money from the County Treasury as they think advisable for opening, vacating and re-surveying or otherwise improving such roads, not exceeding in any one year, the sum or issue of one thousand dollars to each five hundred thousand dollars of assessed valuation of real estate in such County." This leaves all county roads under the entire control of the Board of County Commissioners. The fact that a County road extends through a village is only incidental and if the County Commissioners deem it necessary to improve any County road they have the power to appropriate such sums of money as they see fit not exceeding in any one year, the sum or issue of one thousand dollars to each five hundred thousand dollars of assessed valuation of real estate in such County, and such sums so appropriated will be spent under the direction of the Board of County Commissioners themselves. And if the villages shall be fortunate enough to be situated on a County road that the Commissioners intended to improve, then they would be benefited by such appropriation as for example the village of Golden Valley; in appropriating the six thousand five hundred dollars to improve Lake Street Boulevard, the Commissioners appropriated said amount under Section 1846 of the General Statutes of 1894; the village of Golden Valley received no appropriation whatever; the fact that they received the benefit of such improvement being only incidental on account of their location on said County road. The law is explicit in conferring authority upon the County Commissioners to appropriate certain sums of money to towns, but there is no provision for any such appropriation to villages, and I am clearly of the opinion that such was never the intention of the legislature, or they would have made some such provision.

Respectfully Submitted,

John T. Jones
Asst. Co. Atty.

The following communication was read

Minneapolis, Minn. June 20. 1898.

To the Honorable Commissioners of Hennepin Co.

Minneapolis, Minn.

Gentlemen:

Acting upon assurance from Commissioner Ryberg that your commission would probably be willing to accept a large flag from the school children who are contributors to the Journal Junior, a weekly supplement of this paper, the matter was submitted to them, and we take much pleasure in being able to say that the flag will be ready for raising on the Fourth of July, if it is agreeable to your honorable board to accept it, and to provide that staff from which to float the national colors. We ask this permission to bring the matter to your

attention in order that you may take action upon the proposition at this time, sufficiently in advance of the date indicated July 4th, to insure the erection of the Staff when needed.

It has occurred to the Journal also that in case this offer of a flag from the school children meets with your approval, it might be a good plan to arrange for a suitable demonstration in connection with the flag raising on July 4th. The Journal would undertake to make these arrangements, providing speakers and music and other proper accessories, if your honorable board will erect a small speaker's platform upon which formal exercises may be conducted. Believing that the time is opportune for emphasizing the significance of the flag, and honoring the Stars and Stripes as a national emblem, we submit this suggestion, hoping for your favorable consideration.

Respectfully,
Minneapolis Journal
