X In addition to the work done in the field, there has been during the past 3 years, about 100 miles of roads profiled, and on which grade lines are ready to be established.

These roads have in many cases, wherever practicable, been connected with the Section lines.

Such work is however done only at the convenience of parties working in the field and is consequently

February 3rd

1902. (Con.)

disconnected and only temporarily monumented.

In view of the great importance to the County and the Farmers of having every Road properly located I would recommend that you authorize me to keep a party on such work during the coming season.

The cost of such a party would be about \$200⁰⁰ per month or about \$10⁰⁰ per mile, and I am satisfied the results would justify this expenditure.

Iron monuments should be established at every section line intersection, and at all angles, so that future surveys would be comparatively simple, and boundaries of highways could be easily, and cheaply determined, thus avoiding a great many complications that are bound to arise from uncertain road lines.

X In view of the fact that we will continue to use a large amount of gravel on our County Roads, and that information is very limited as to location and value of gravel pits, I recommend that you authorize me to employ a suitable force to make "Borings" in different parts of the County wherever such material may be required.

Without such knowledge we are liable to haul gravel several miles and afterward discover suitable material much nearer the work.

We are well started on an era of Good Roads in this County, and I trust you will continue to take all necessary steps to make Hennepin County, not only the pioneer in all measures looking to that end, but as well, a model for other parts of the State.

The encouragement this office has received from the Chairman of your Board, and the Committee on Roads and Bridges in our efforts to establish a good roads system has been favorably and heartily commented on by many of our citizens, and your continued assistance will be highly appreciated.

Very respectfully
Geo W. Cooley
County Surveyor.

Office of Public Examiner, State Capitol.
St Paul, Minn., April 26, 1902

In re. Examination of the Office of the }
Clerk of Court, Hennepin County }
Board of County Commissioners of Hennepin County,
Minneapolis, Minn.

Gentlemen:-

Pursuant to your request for a special commission in the above matter, I appointed Mr. James E. Jenks of St Cloud and Mr. W. C. Pinkerton of Minneapolis, special examiners to make a thorough investigation of the condition of the office. This work was begun February 17th last and is

May 5th 1902. (Con.)

now completed. The special examiners have from time to time reported the progress of their work and it is now my pleasure to transmit to you the substance of these reports.

This office has never before been carefully examined. Certain irregular usages have become established by long years of practice. To some of these your attention has already been directed. The correctness of others has never been questioned until now.

Mr. Davenport, when Clerk, formulated a series of group charges covering the various combinations which were common; e.g. \$1.77 was charged for the entry of a default money judgment. This group is made up of 19 different items. In some instances all 19 items are properly charged, but in the majority of cases this group is 50¢ in excess of the fees allowed by law for the services actually performed. What is true of this group is true of all the other groups. Captain Tirill following Mr. Davenport, used the same system. When Mr. Dickey came into office, he was put on a salary but the fees were not changed by the salary law, and Mr. Dickey, apparently thinking the groups to be correct, continued to make use of them.

It follows that during this entire time the fees charged have been to a certain extent in excess of the fees allowed by law.

No large personal liability attaches to Mr. Dickey in this matter because as shown by a careful checking of the monthly reports to the County Auditor during his entire term, all fees charged under this group system, have been turned over to the County as charged and collected, except \$32.09, a clerical error in footing.

Since the only persons who might have claimed this excess are estopped by having had their day in court, from claiming it at this time, it was not considered necessary to determine exactly its amount.

This practice has been discontinued pursuant to an order from this department, taking effect April 15th, 1902.

Another irregular practice has grown up in the matter of making returns to the Supreme Court.

I quote from the report of the special examiners of April 5th in regard to this matter.

"General Statutes 1894, Sec. 6135, provides that 'the Clerk shall transmit to the Supreme Court a certified copy of the judgment roll, or order appealed from, and the papers upon which the order was granted, at the expense of the appellant.'"

The provisions in the Hennepin County fee bill for such services are as follows:-

May 5th 1902. (Con.)

"For certified copies of orders, seven and one-half cents for each folio."

"For every certificate, ten cents."

"For certified copies of the minutes of a trial, when requested, seven and one-half cents per folio."

"For copies and exemplifications of record and of pleadings, seven and one-half cents per folio."

The practice in making returns from Hennepin County is as follows:- If a copy is made in this office, seven and one-half cents per folio and ten cents for the certificate, is charged. This is correct. If, however, a printed paper book is brought in, no folio charge is made, but a flat rate of one dollar an hour for comparing is charged. There is no authority for such a charge and either a folio charge must be made or no charge at all.

We have checked the returns to the Supreme Court from this county for the period from March first, 1897 to March sixth, 1902, with the following results; Total number of returns, three hundred ninety (390).

Returns figured at 7½ cents per folio,	\$ 9295.19
390 certificates at 10 cents,	39.00
Total amount legal charge,	\$ 9334.19
Total amount charged by Dickey	1861.00
Deficit,	\$ 7473.19

Mr. Dickey cannot be held for this amount for the reason that he did not actually make the copies, L.S. 1894 Sec. 5585.

The only question is whether or not in view of the fact that the revenues of the office belong to the County, Mr. Dickey has the right to make up his return by comparing the paper book furnished by the Attorneys instead of making the copies in his own office and charging the folio rate.

This matter should be referred to your attorney in order that the practice in the future may be determined.

No Clerk's fees are charged in any case in which either the State or County appear as a party. This is correct when the disbursements fall upon the County, but when the County is the prevailing party, the Clerk's fees should unquestionably be collected from the losing party.

The special examiners checked the appeals by Hennepin County for three years and found during that time three cases in which \$33.13 Clerk's fees should have been collected, as the County was the prevailing party.

It would seem also that in criminal cases when appeals are taken to the Supreme Court the Clerk should receive fees for the returns, unless ordered by the Court to make such returns without fees. This has not been the practice but it is impossible to determine how much should have thus been collected for the reason that there is no way of telling how many returns would have been made on orders.

May 5th 1902. (Con.)

I call your attention to these matters so that the practice in the future may be changed.

The matter of garnishment cases referred to Mr. Dickey and his deputies has been carefully checked for four years.

Of the vast number of garnishment cases commenced, comparatively few go as far as a disclosure.

No fees are allowed the referee except for evidence taken. During the four years last past disclosures have been taken in but 248 cases. Of these 10 were taken by Mr. Dickey personally, 201 by various deputies, and 37 by outside attorneys. The total legal fees for all the disclosures amount to \$170.16. Whatever money was collected was kept by the person taking the disclosure.

I quote from the report of Mr. Jenks under date April 16th. "In my opinion neither the deputies, nor Mr. Dickey, can be held for moneys collected by the deputies, who were made referees in these garnishment cases, because they were clearly acting as individuals, and not as the Clerk of the District Court.

The situation is different, however, in the cases which Mr. Dickey reported. Five of these were returnable before "C. M. Dickey, Clerk of the District Court," and were taken and signed by him as Clerk. The other five were referred to "C. M. Dickey, Clerk of this court" and although signed "C. M. Dickey, referee", I think he would be responsible for the fees none the less. The legal fees in these ten cases amount to \$11.00.

None of these disclosures appear charged on the register, and none of the money collected has been turned over to the county.

The practice of referring garnishment cases to the deputies in the Clerk's office, is no longer followed, it having been discontinued by Mr. Dickey's request, as we are informed."

As the matter of information furnished the abstract companies is now pending before the Supreme Court, it was not deemed wise to devote much time to this matter.

Relative to other judgment searches, the report of April 16th says; - "We have checked the judgment searches made for other parties than the Abstract companies since 1896. We find that but very little of this work has been done, presumably because the reports for the abstract companies practically cover the field. In most cases the fees have been collected and turned over but we find 17 cases in which the fees amount to \$22.15, which have not been reported to the county. For this amount Mr. Dickey is in my opinion, personally liable."

Several other matters are touched upon in the final report of the examiners, as follows; -

May 5th 1902. (Con.)

"We have checked all fines, bail money and other money deposited in court. All bail money has been disposed of in accordance with proper orders, except \$500. which is on hand. All fines have been paid over to the treasurer. All moneys deposited in court, under Section 856 Gen'l Stat. 1894, have been paid out on proper orders, except \$4021.45, which amount is on hand, \$3382.87 in certificates of deposit, and \$638.58 in the First Nat'l Bank to cover checks already drawn in the matter of the American Savings & Loan Ass'n.

These certificates of deposit all draw interest at the rate of 2% if the deposits remain 6 months or more. The interest thus collected is retained by Mr. Dickey unless the party depositing the money claims it, in which case, it is turned over to him upon an order secured from the court.

In my opinion this is a personal matter between the depositor and Mr. Dickey, in which the County has no interest.

We have carefully checked the items of 1% commission on moneys deposited in court and find it properly charged, collected and reported except in 31 cases. In 4 of these cases \$600⁰⁰ was deposited in lieu of bonds in civil actions, and in my opinion such cases hardly come under the provisions of section 856 Gen'l Stat. 1894, although there may be some question as to this. The deposits in the other 27 cases amount to \$11,651.00. In none of these cases is the 1% charged. In some of these cases, the money was paid pursuant to an order of court directing that the clerk receive it without the 1% commission provided for by the statute. This section of the statutes, after providing for the deposit of moneys goes on to say: "The Clerk of said District Court shall be entitled to receive a commission of 1% on every dollar, for receiving and paying over money which may be deposited with him said percent to be paid by the party depositing the money."

Under this provision I question very much whether any Judge has a right to order any money paid to the clerk under this section without the 1% commission.

In a fee office, the Clerk may waive it if he wants to, but in Hennepin County the commission belongs to the County and in my opinion Mr. Dickey is personally liable for the \$116.51 of commission of these deposits, for he should have collected it.

Mr. Dickey is holding \$40.00, the commission on a deposit of \$4000.00 which has all been paid out. He states that the reason he has not turned this over to the County is because there is some question as to whether it belongs to the County or the receiver. It was a straight commission and it seems to us that without any question, it belongs to the County and should be turned over. This \$40⁰⁰ is on hand in currency in the vault.

May 5th 1902. (Con.)

It happens many times a day that persons come to the office and ask for certain information, as for example: whether certain parties were married at a certain time; whether a divorce has been granted, or whether a judgment stands against a certain party. This information is looked up by Mr. Dickey and his deputies and given to the inquirers without any charge whatever.

It would seem that the section of the fee bill, which reads "For searching the records or files in his office, if a copy is not required, 15¢," was intended to cover this very class of services, and that under a strict construction of the fee bill, all such information should be charged for, and if charged and collected, it would amount to a large sum.

The enforcing of this provision, however, is not without its difficulties. Mr. Dickey says he gets many requests for this kind of information by mail. It takes anywhere from ten minutes to a half day to look these matters up. If he collects for such services from those calling at the office in person, he should also refuse to answer mail requests for such information, unless accompanied by the regular fees. There are five to ten of these mail requests made daily. Mr. Dickey argues that if he were to send cards demanding such fees before answering the letters, it would cause delay and annoyance, for which the office might be justly criticised.

We have carefully checked all refunds due attorneys up to Jan. 1st, 1902. These cannot be figured exactly, as the amount necessarily changes every day, as refunds are paid out and new deposits paid in. The amount thus shown by the books to belong to attorneys is \$3523.62.

The cash actually on hand kept by Mr. Dickey to cover these refunds \$3560. This money is kept in currency in the vault and it is not deposited in any bank.

Mr. Dickey estimates, and we think it a fair estimate, that at least \$1200. of this money belongs to attorneys, who have removed to some other state or county, or are dead, and will probably never call for it. We would recommend that such legislation be enacted as shall provide for turning all deposits uncalled for after a certain time, say 5 years after notice that the case is closed, over to the county absolutely.

In many instances papers are filed or some service rendered by the clerk after the deposit fee is exhausted.

This, in my opinion, is clearly contrary to the provisions of the fee bill, Sec. 5542. Gen. Stat. 1894, and the clerk is personally responsible to the county in such cases.

The total of these items amounts to \$775.50.

May 5th 1902. (Con.)

Mr. Dickey has, however, made good \$684.84, leaving him now responsible for but \$90.66.

We have also checked the monthly reports to the County Auditor and find them correct, except that they are short in totals \$44.94. To partially offset this, there is over addition \$12.85, leaving a total shortage of \$32.09.

Prior to Jan. 1st, 1902, it was practically impossible to balance the cash in this office. At that time, however, a new system was inaugurated, and since then the books have been well kept and it is possible to determine the exact condition of the office at any time since that date.

April 15th, we took a balance off the new books showing business to the close of April 14th and counted the cash on hand, finding it correct to a cent, \$683.26, \$441.54 in currency and \$241.72 in the bank.

There are no fees charged in the criminal end of this office; except in habeas corpus cases, where the party is not in prison, as for example, in proceedings to obtain custody of children after divorce; and in cases of conviction, and sentence of a fine of a certain amount and costs.

In these fine cases, we find the Clerk's fees taxed as in civil cases, are paid when the fine is paid. This is correct, except that the fees as taxed are in excess of those allowed by law. In the habeas corpus cases, we find, except in two instances, that the deposits and the first charge are reported by the criminal deputy to the bookkeeper. Subsequent charges, however, have not been reported.

We checked three years with the following results:

Twenty one cases.

Deposits credited	\$ 33.68	
Deposits not credited	4.00	
Total Deposits.	37.68	\$ 37.68
Charges reported	\$ 17.58	
Charges not reported	23.25	
Total Charges	\$ 40.83	40.83
Deficits in deposits	4.00	
" " charges	23.25	

These matters should be reported and the fees turned over to the County.

We also find that the criminal court minutes are behind for practically a year. This should not be so, but the work necessary at this end of the office is more than possibly can be done by one man. Mr. Royce is, we believe, an exceptionally competent man, and his records are in beautiful shape, but no matter how competent a man is, he cannot be expected to do two men's work.

We believe Mr. Royce should be given competent assistance, at least until his work is brought down to date.

May 5th 1902. (Con.)

It has been suggested above that the office needs at least one more man. We believe this result could be effected without the increase of the present force if the practice of the other counties of the State were followed in the matter of the forms of judgments. In this County the judgments are all drawn by a deputy in this office, who also see to it that all necessary preliminary papers are filed in proper shape. In Ramsey County and in fact every other county in this state, so far as we can learn, this work is all done by the attorneys in the case. If this is a proper subject for a rule of the Court, we would suggest that a rule be made establishing the general practice in this County. This would be no hardship upon the attorneys and would practically give Mr. Dickey the man he needs without increasing the pay roll.

The fees collected by this office do not equal the expenses of the office, including Mr. Dickey's salary by about \$550.00 per month and when fees are collected strictly in accordance with the fee bill, the shortage will amount to considerably more than at present.

The remedy for this, is in our opinion, an entirely new and carefully drawn fee bill. The present one is entirely inadequate to afford proper compensation for the services actually rendered. The fees provided are about one-third the fees received for the same services performed by clerks in other counties. A fee bill carefully drawn will not only remedy this shortage, but will simplify the work of the office, as at present a good part of one man's time is taken up in figuring fees and refunds and taxing costs.

We would recommend that such a bill be drawn and presented to the legislature at its next session.

On the whole, considering the vast amount of detail in connection with this office, we consider it to be in very good shape. The force of the office is well organized and efficient, and Mr. Dickey himself is an exceedingly competent man and does his full share of the work.

Mr. Dickey and his deputies have materially aided us in the examination by giving prompt and courteous attention to all requests for files and records, and by giving information relative to various matters when required. We appreciate also the assistance given us by the offices of the County Attorney, the County Auditor and the County Treasurer."

It will be seen from the foregoing summary that outside of the matter of furnishing information to the abstract companies, Mr. Dickey's personal liability is comparatively small, and I must say in justice to

May 5th 1902. (Con.)

Mr. Dickey that none of the errors reported by the examiners are in any way criminal. The worst that can be said of any of them is that they are careless.

Tabulated, the items for which the Clerk seems responsible, are as follows:

Short charges in re. appeals by Hennepin County (3 years)	\$ 33.13
Fees in garnishment cases referred to Dickey (4 yrs)	11.00
Fees in judgment searches not reported,	22.15
Commissions on deposits uncollected	116.51
" collected on deposits and not reported	40.00
Fees on filing papers, etc. uncollected	90.66
" collected in habeas corpus cases but not reported, 3 yrs.	23.25
Errors on reports to County Auditor, short addition,	32.09
	<u>\$ 368.79</u>

Hugh R. Scott, Esq.

County Auditor, Minneapolis, Minn.
Dear Sir,

We are in receipt of specifications for awnings wanted by you for the Court House.

We can refer you to C. J. Stoigaard of your City, or H. G. Neal or St Paul Tent and Awning Co. of St Paul, either of whom we think would attend to this matter satisfactorily.

Yours very truly
Geo B. Carpenter & Co.

The Board of County Commissioners of Hennepin County, met at the Court House, in the City of Minneapolis, at 10 o'clock A.M. pursuant to law.
Members all present.

Minutes of June meetings read and approved.
Communication from E. A. Zimmerman in regard to Enchanted Island Bridge, was read and presented by C. Phelps. Referred to Committee on Roads & Bridges.

Monthly Reports from the County Auditor, Register of Deeds, Registrar of Titles, Clerk of District Court, and Overseer of Poor Farm, received and ordered placed on file.

The following request read and ordered incorporated in the minutes:

To the Honorable Board of County Commissioners, Hennepin County: E. P. Sweet, M. W. Nash, A. J. Smith, F. E. Barney, J. B. Ryberg, Gentlemen:

In the delinquent personal property tax collection for the year 1901, I beg to submit to your Honorable body the following statement.

On account of not having sufficient help allowed me to perform the duties in the Sheriff's office, am sorry to state that I have not been able to make collections as required by law, am running the Sheriff's office now with a force of 10 regular deputies and one extra man taking care of juries, a few days ago found an old stub of a check book from the former Sheriff and noticed that in 1899 in the month of May he had 13 deputies on his pay roll. Now we are all aware of the extra work that has come to the Sheriff's office on account of the many jury trials these two months past, am doing everything possible but cannot keep up the work and my deputies are working harder than has been the custom in former years; it is day work and night work with them and little rest.

Have requested the Judges of the District Court to make an order permitting me to appoint extra Deputies to assist me, but under Section 7, Special Law 1902, they claim that appointment of additional deputies can be made only in a case of an emergency. In a communication directed to me by one of the Judges of the District Court please note as follows: "The fact that the Legislature did not provide for enough deputies to carry on the ordinary business of your office does not come within the provision of the Statute authorizing a Judge of this Court, in case of riot or other disturbance

July 7th 1902. (Con.)

requiring additional deputies to keep the peace or in case of emergency to appoint additional deputies. It is not an emergency, but simply due to the fact that the Legislature did not properly estimate the amount of business to be transacted."

Have collected now nearly \$1500⁰⁰ back taxes which has been principally paid on notices sent out as per blank herewith enclosed.

For the reason stated would ask that you kindly grant the Sheriff's Office force an extension of at least six weeks to enable them to complete the tax collections.

Yours very respectfully
J. W. Diegel. Sheriff.

July 7th 1902. (Con.)

Minneapolis Minn. July 1st, 1902.
 To the Honorable Board of County Commissioners,
 Hennepin County.

Gentlemen:- I beg to make a semi-annual report on contagious diseases.

The different Town Boards, mostly by my orders, quarantined 309 persons, for Small Pox, 34 for Scarlet Fever and 2 for Diphtheria. I am positive that we have had in different parts of the county, from 50 to 100 cases of small pox, and the same amount of scarlet fever and diphtheria, which were never reported to either this, or the State Board of Health; such conditions should not exist so near as large a City as Minneapolis.

So far as I can ascertain, this has been the first Board of Health, Hennepin County ever had, and there is always more or less trouble in the beginning to get people used to such strict quarantining and proper fumigating.

We have had an epidemic of small-pox in Greenwood with 44 cases, Independence 28, Coconaw 20 cases, and Minnetrista 103 cases; Scarlet Fever, Hopkins 32 case reported, but not half what they have had.

By the order of this and the State Board of Health, the blame will be put where it belongs: There is gross negligence somewhere, just as long as Hennepin County is negligent in the control of contagious diseases, Minneapolis will be effected, and the barriers cannot be made too strong around this City.

Our epidemic of small-pox this year is due to the slack condition of Carver, and some other neighbouring Counties. The law says that County Boards shall, or must pay all bills for the control of contagious diseases, but it gives your Board of Health no power whatever.

Since Jan. 1st we fumigated 103 dwellings at a cost of \$700.; that is, \$467 for the work, and the balance for Formaldehyde.

Hennepin County had 309 cases since January 1st, and the City of Minneapolis had 308 cases in the same time, and 92 cases in February, when the cost of their Formaldehyde alone was about \$400.; the reason I mention this, is that there is some complaint as to the fumigating bills, but this is the most important part of our work.

Since Jan. 1st, I have made 81 calls in 19 different towns, and have done an enormous amount of correspondence.

Yours respectfully,

J. M. Kistler, M.D.

Chairman, Board of Health,
 Hennepin County

Minneapolis, Minn., Aug. 4, 1902.

The Honorable Board of County Commissioners.
Gentlemen:

The County Auditor informs me that the appropriation for "Contagious Diseases" is exhausted, and that there are bills incurred for the controlling of contagious diseases in excess of the appropriation, which are still unpaid. That Dr. J. M. Kistler, Physician for the County Board of Health, informs me that these bills were incurred in excess of the annual appropriation for contagious diseases, by reason of an epidemic of small-pox and scarlet fever in Hennepin County during the last year, which more fully appears by his report to your honorable body of recent date. Owing to the above facts, I advise you that under the law of this state, this is an unforeseen emergency, and that you are justified in voting money from the "Emergency Fund" to the "Contagious Disease Fund" in sufficient amount to meet these obligations.

Very truly

C. L. Smith.

The Board of County Commissioners of Hennepin County, met at the Court House in the City of Minneapolis, at 10 o'clock A.M. pursuant to adjournment.

Members present - Commissioners Nash, Ryberg and Mr. Chairman.

Absent, - Commissioners Barney and Smith.

Communication from C.E. Faulkner, President of the Minnesota State Conference of Charities and Corrections, relative to their annual meeting to be held at Rochester in November, read and ordered placed on file.

Communication requesting that the rooms recently vacated by the Park Board be set aside for the use of the Probation Officers of this County, read and referred to Committee on Public Grounds and Buildings.

Communication signed by L.S. Gillette, requesting the Board to see that a better system of lights be maintained at the Ferry on the Narrows, Lake Minnetonka, read and referred to Committee on Lake Improvements.

Hearings were had on the Petition of Simon Gelle, for change of School District boundaries, and on the application of John Hegerle to sell intoxicating liquors in the Town of Minnetonka.

The following affidavit was read and ordered incorporated in the minutes:-

A. J. Edstrom, being first duly sworn, says that he is the Post Master at Quamba, Minn.

That he got in the elevator with Sam Westrom of Quamba, Minn. on August 19th 1902, at 3²⁰ P.M. and asked to be taken to the tower, and the elevator man, (whom I since have learned to be Mr. McMeely) said, "I suppose you will give me a nickel a piece."

In reply I said, "I suppose you are getting your wages, I do not know of any charges." He then said that he did not have to run up to the tower unless we had a pass.

Mr. McMeely then opened the elevator door at the 3rd floor and told us we could get off. I got off and tried to get to the tower by the stairs and a janitor told me there was no stairs to the tower; that I would have to get a pass of the Engineer.

August 25th 1902. (Con.)

In hunting for the Engineer, I met the man at the cigar stand, who told me I did not need a pass.

We got in a second time, Mr. McMeely got on at the second floor and took us up to the 3rd floor and he there asked for a pass. I said we did not have to have a pass. He said, "If you are so sassy and know so much, you can get off." We got off at 3rd floor and went down stairs, got passed and then went to the tower.
