Minneapolis, Minn., January 1st, 1907.

To the Honorable Board of County Commissioners
Of the County of Hennepin, Minn.

Gentlemen:-

I herewith submit a report of the work done through the office of the County Surveyor for the year 1906, in accordance with Chapter 164 laws of 1905.

On January 15th, 1906 I was elected by your Honorable Board to the position of County Surveyor left vacant by the resignation of Geo. W. Cooley. Taking up the reins where he laid them down, I have accomplished the following with the funds on hand.

During this period I have had to contend with the element, and many bridges, culverts and roadways have been washed away, and the emergency act fund had to be resorted to.

Bridges.

Concrete

During the past year I have built two (2) concrete bridges, one in the Town of Orono and one (1) in the Village of Edina. The Bridge in the Town of Orono situated between Markville and Long Lake has an 8 foot opening and takes the place of the old trestle bridge which has been a menace to travel there so long. In placing this Concrete arch to drain the meadows and the overflow of Long Lake. I decided that the new concrete arch of 8 feet would handle all the water that would accumulate on the water sheds and drainage in this vicinity. This bridge has reduced the entire length of the old bridge by 78 feet and makes it a permanent work. The total cost of this bridge was $695.00 to the County.

Bridge No. 44: This bridge is situated on the Minnehaha Creek at Edina Mills. During the early summer freshets the bridge and dam at this place was carried away. A contract was let for the erection of a combination bridge and dam. The total cost of this bridge and dam was $2,645.00 of this the County of Hennepin pays $1,322.50, and Hon. H. F. Brown pays the balance.

The fills on either end has not been made as yet but should be made

before the Spring thaws, as there will be great danger to the present unsupported structure.

The steel in the bridge on the original site was removed to a point about 600 feet below the present structure where another bridge was washed out, and now makes a permanent bridge for the Village of Edina the same being done without cost to the County.

Bridges Continued.

Wooden Bridges.

The County of Hennepin has erected two wooden bridges one in the town of Minnetonka across the Minnehaha Creek. This was made to make road No. 73 complete from Hopkins to the Cedar Lake Road at Christies. This Bridge cost $425.00 and is a pile bridge and of good construction and completes the link.

Bridge No. 279. was erected upon the advice of the County Commissioners at Lake Independence and serves the purpose for which it was erected.

Iron Bridges.

During the past year there has been several Iron bridges erected which are a credit to Hennepin County.

Bridge No. 21 at St. Albans Bay is a steel swing bridge, on steel piers with a total length of 222 feet. The approaches have not been filled as yet but I presume that the same will be done by the Town and village of Excelsior in the early spring.

Bridge No. 23. This is over the outlet of Lake Minnetonka at Grays Bay and is 176 feet long including the two aprons of 20 feet each. This is built on steel cylinders filled with concrete and of such a height as will allow all the smaller crafts to pass into Grays Bay. Larger Vessels such as Dredge Boats etc., can get into the bay, by a change in the bridge which I caused to be made in a short time.

Bridge No. 261. This Bridge is situated at Champlin. I caused the old bridge to be removed and in its place, erected a steel girder bridge 44 feet in length at a cost of $599.00.

Bridge 262 in Dayton was erected of steel and is of a permanent nature and 34 feet in length, erected on steel piles at a cost of $650.00.

This covers all the bridges that have been erected by the County, besides this we have refloored and repaired Bridges No. 7-8, 19 and 55. This does not include the numerous bridges throughout the country where

the County has furnished the material if the Towns would haul and place the same.

Grading.

There were 5 contracts let for the year for grading, the work consisted principally in filling at bridges . All grading contracts were finished excepting Contract 292 grading on Road No. 73, and the contractors are now at work on the contract and will complete the work in the near future. The total length in grading was 1.88 miles.

Gravel.

There was 14 contracts for gravel completed, the total distance that was gravelled was 9.45 miles. There still remains 2 contracts for gravelling for the year 1905, which was let to P. Neuman but never finished, there has been about $300, paid on the same for gravel and Inspectors and the balance is in the hands of the Treasurer to pay the balance when the work is completed.

Culverts.

During the present year there has been furnished to the different Towns of this County, steel pipe for culverts the following amount; 3348 feet which equals 139 culverts, total cost of same $5,433.51 or an average of $39.09 per culvert. At the commencement of the year we had in stock 8 tons of Second hand pipe, and 1 ton of new pipe.

Lumber.

At the commencement of the year we had in stock about 60,000 ft from 1905 stock, and your Honorable body purchased 159,382 ft. at the first of the year. With the new bridges built and repaired during the past year this stock has been used so it leaves the County with the present balance

Painting Bridges.

In the early spring I secured a painting outfit, 3 men and a team and sent them in the country to paint some of the bridges that needed the worst. They painted 42 bridges of various length at an average of $11.13 per bridge, which was a great saving over the contract system.

Dredging.

During the year 1906 there was appropriated for the work on Lake Minnetonka the sum of $10,000.00 which was expended as follows:

Dredging Reefs and cutting Weeds	$9,562.75
Inspectors Salary	288.00
Work on Bridge at Mound	37.50
Mis. expense at Narrows Weather guage etc.	111.75
	$10,000.00

One of the necessary pieces of work that should be done in the near future, is the lowering of Minnehaha Creek at Oak Narrows. It could not be done during the past season for various reasons but should be done next year.

In conclusion I desire to thank the entire Board for the kindness that they have extended to me during the term of office and will make the following suggestions:-

Hennepin County has an area of 566 square miles, with a large

road mileage. A great number of Bridges and a vast No. of Culverts. The only way that I can see for Hennepin County to ever accomplish much in the way of actual Road Work is to first: Dispose of Bridge and Culvert proposition by making them of a permanent nature, and thereby saving the amount of money thus used in maintenance. With that end in view, I would call your attention to some of the matters that I think the most pressing.

Bridge No. 263 one mile North of Markville should be rebuilt. This is a small Bridge and the steel taken from Bridge No. 67 when that was enlarged can be had very cheap, and would be alright for this place. The approaches to bridge #21 at Excelsior should be filled as early in the Spring as possible. Something should be done with the Ferry at the Narrows. I believe a High bridge or a Bascule bridge could be built there. Bridge #38 at Minnetonka Mills is in very bad order, and should be replaced with a concrete arch, all the material except the cement and lumber for the forms can be had on the grounds free to the County.

Bridge 50 and 51 should be rebuilt. In view of certain contingencies that may arise, I would advise that these be rebuilt of wood another thing in favor of this is that the piles are already in place. The fill at Bridge #44 at Edina Mills should be made this winter, if this is not done the Spring freshets are liable to either damage or wreck the Concrete Bridge built there, and which is wholly unsupported. Bridge #65 over Lake Amelia is another wooden bridge in bad order, and should be rebuilt of wood for the same reason, as Bridge No. 50. Bridge #8 on Cedar Ave should be repaired in the Truss.

Bridge #277 at Lake Independence should be rebuilt, Bridge #54 at Lake Classen should be rebuilt.

I believe Hennepin County should at least spend $10,000 in Steel Culverts during the coming year, as they are badly needed, and under the arrangements the County has with the Town Boards, they are the best investment the County has ever made.

Again thanking you for the courtesies extended to me,

I am very respectfully yours,
W. E. Stoopes County Surveyor.

On motion the Board adjourned until Monday Jan. 14th 1907 at 10 o'clock A. M.

The several Commissioners addressed the Board in eulogy of Commissioner Hamilton.

Whereas, Our friend and associate on this Board, the Honorable S. D. Hamilton has been removed by death, and

Whereas, we are so greatly impressed at this time by our thoughts of the invariable careful, able and painstaking attention to the duties of his position, even at times when the condition of his health would have caused one less conscientious to neglect them; and

Whereas, we are mindfull of the broad judgment, impartiality and justice with which he discharged his duties and the kindliness and consideration which he always extended to all with whom he came in contact; and

Whereas our hearts swell and eyes fill at the recollection of our personal relations with the man, his pleasant ways, his cheerful disposition, his attractive manner, his loyalty, honesty and all qualities which made him a man one was proud to call his friend; and

Whereas, we are at this time overwhelmed with the loss of this man, our friend and associate; and

Whereas, our sympathy goes out to his wife and all his dear ones who mourn today. Now therefore,

Be it Resolved, That this Board do refrain from the transaction of any business during this day and request that the heads of the various departments of Hennepin County do close their offices during the afternoon, that the flag be hung at half mast over the Court House; and Be it Further
