Whereas, The graveling contract was entered into on the assumption on the part of the County and the contractor that the designated pits contained the necessary gravel for doing the work as designated on the plan, and

Whereas, Due to the mutual mistake of fact as to the existence of the gravel in these pits the work of graveling cannot be done within the terms of the contract.

BE IT THEREFORE RESOLVED, That the engineer in charge of the work be and hereby is instructed to direct A. Guthrie & Co. the contractors that due to the conditions above indicated only such graveling is to be done as may be done in conformity to the contract, that is, from such of the designated pits as have not failed and from these pits on such portions of the road only as were to be covered from each such pit as shown on the original plan.
