Gardner representing the Civic and Commerce Association read a letter from said Association. And the following persons addressed the Board relative to the merits of different kinds of pavements. County Commissioner Ferrin, County Commissioner Anderson, R. H. Benham, County Commissioner Cook, County Commissioner H. A. Montgomery County Commissioner Waddell, County Surveyor E. E. Terrell, Dan E. Richter, K. C. Schmidt representing Chas. L. Pillsbury Inc. Engineers.

Commissioner Ferrin offered the following resolution:

Be it resolved that the following reply be addressed to the City Council of the City of Minneapolis with reference to the resolution adopted by that body Friday, March 10, 1922 in regard to the Rockford Road contract;

This Board does not favor concrete for paving for the same reasons that the City Council apparently does not favor it; namely:

(a) That due to the extremes of temperature in this climate this type of paving is not adapted to our uses .

(b) Experience and observation have convinced us that the excessive cost of maintenance due to cracking and bulging occasioned by the action of frost and heat more than offsets the cheaper original cost.

This Board respectfully calls the attention of the Council to the fact that very little concrete paving has been laid by the City Council in recent years. On the other hand the Council lays the most expensive type of paving namely, creosoteblocks; that the Council is arranging to lay 80,000 square yards of creosote block paving this year, the equivalent of the yardage in the

Rockford Road contract at a price of $5.00 per square yard, while concrete can be laid for approximately $2.15 per square yard,or less than half, and bitulithic can be laid on the basis of the County's contract on the Rockford Road at $3.70 per square yard. In other words, concrete can be laid by the city on the same area $228,000 cheaper than creosote blocks and bitulithic can be laid $102,000 cheaper.

This Board respectfully inquires of the City Council why the Council insists that this Board lay concrete pavement, a type practically abandoned by the city as useless, on arterial highways leading into the City which are in realty but a continuation of the city streets and the first introduction to the City of travelers entering, while the Council lays upon the taxpayers the burden of creosote block paving at a cost of more than double that of concrete and a cost of $1.30 per square yard more than bitulithic.

The Board addresses this to the Council not as a criticism of the actions of the Council nor with any desire to cast aspersions on the integrity of the members thereof, but solely in order that the problems of both may be better understood by the public. On the other hand, the Board sympathizes with the City Council in its unfortumate experiments with paving in the various parts of the City and invites the Council to closely inspect the County Roads that have been surfaced with bitulithic, some of which have borne the heaviest traffic of our busy highways for over seven years and are in as good condition as when laid and without one cent expended for upkeep.

The question was on the adoption of the resolution, and the roll being called there were: three yeas and one nays, as follows:

Babcock, to divert to Dakota County $20,000 from the 1923 State Aid allotment to Hennepin County and such other portion of said allotment as shall exceed the allotment for this year($66,000) and that this Board also release said Dakota County from all claims in connection with that portion of the Lyndale Avenue Road heretofore completed, on condition that Dakota County immediately let a contract for grading, and gravelling if necessary, the extension of Lyndale Avenue Road from the intersection of the Lyndale Avenue Road and the Dodd Road and State Aid Road #6, to the Scott County line, running in a southerly direction where it will connect with the Twin Lakes Road, so called, running southerly to Faribault to a point where it intersects the Jefferson Highway or State Trunk Highway #1, and provided that Dakota County agree that in the event that said road shall subsequently be designated as an additional State Trunk Highway and a refundment of the money expended in its improvement be had, the portion of State Aid diverted to Dakota County by this resolution shall be returned to Hennepin County, and provided further that Dakota County shall agree to divert to Rice County from Dakota County's 1923 allotment of State Aid a sum of money equal to such sum as Dakota County shall receive in excess of $10,000 under this resolution, if Rice County shall make arrangements to complete said road to Faribault.
