Resolved, That the report of the Committee be accepted and adopted.

The question was on the adoption of the resolution, and the roll being called there were: five yeas and no nays, as follows:

Alexander, yea Heffelfinger, yea Morse, yea Noot, yea Mr. Chairman, yea

And so the resolution was adopted.

Commissioner Heffelfinger offered the following resolution:

Whereas, Hennepin County operates under a law making it compulsory upon the City of Minneapolis and the various towns and villages of the County to take care of those of their citizens who are in need of food, fuel, and shelter, and

Whereas, it is our opinion that these subdivisions of the County are amply able to meet this obligation,

Therefore, we believe that it is not necessary to incur the extra expense and extra burden on the taxpayer that an extra session of the legislature will necessitate. It is our opinion that nothing of practical value will be accomplished by such extra session, and that it would be far better that Hennepin County's share of such extra session expense be given to the needy direct.

We believe that it is better to stop talking unemployment, and instead urge that it is time to get down to work and manufacture merchandise that can be sold when confidence is restored. Confidence can be restored only when the investing public (whether it be the man with \$500 or \$100,000 to invest) is assured that taxes will not continually go up and make all investments a farce. We know that it is the duty of public officials to provide food and shelter where it is necessary, but after that has been done they should also give serious consideration to the effect present acts may have as a mortgage upon the future.

Consideration of the foregoing facts prompt us to state, as our opinion that under no circumstances should an extra session of the Legislature be called if such session is to be called only for the purpose of dealing with unemployment and public relief, and that a copy of this resolution be forwarded to the Hon. Floyd B. Olson, Governor of the State of Minnesota.

Commissioner Heffelfinger offered the following resolution:

Whereas, We believe the Hennepin County Board was the first political body in Minnesota to start reducing taxes. Protest meetings all over the State prove that tax relief is absolutely necessary. In fairness to the people of the country, taxes must be reduced by the Federal as well as local government. The only way to reduce taxes is to spend less and we urge that you work along that line. That a copy of this resolution be forwarded by wire to Hon. Thomas D. Schall and Hon. Henrik Shipstead, United States Senators and to the Hon. W. I. Nolan and Hon. Godfrey C. Commissioner Ferrin offered the following resolution:

Whereas, the Board of County Commissioners and the County Board of Tax Levy of Hennepin County, have for the past five years been able reduce the County Tax Rate; and

Whereas, it appears that the present conditions make it most necessary that a careful watch be kept on all public expenditures with the most economic method possible used in transacting public business in all County Departments with the object in view of a further reduction in the County Tax Rate for the year 1933, thereby relieving the burden on the Taxpayers of Hennepin County; and

Whereas; this can be most successfully accomplished with the help and co-operation of all County Departments;

Therefore be it Resolved; that we, the Board of County Commissioners request the heads of all County Departments to give us their help and co-operation through the year 1932, and make it possible to accomplish these things, as we believe it more necessary than ever before, and

Alexander, yea Heffelfinger, yea Morse, yea Noot, yea Mr. Chairman, yea

And so the resolution was adopted.

Commissioner Heffelfinger offered the following resolution:

Whereas, the Board of County Commissioners of Hennepin County are keenly aware of the fact that the tax burden locally is becoming unduly onerous to all tax-payers; and

Whereas, the Board knows that the issuance of bonds for both necessary and unnecessary purposes in the past is one of the principal reasons for the present high local tax rates; and

Whereas, Their own experience in reducing the County rate from \$7.83 per each thousand dollars of assessed valuation in 1926 to \$6.90 in 1932 convinces them a definite plan continuously lived up to will effect a reduction in the tax burden;

Now, Therefore, Be it Resolved, In order that a proper and guiding precedent may be established, that the present Board of County Commissioners goes on record:

First, to the effect that they are absolutely opposed to the issuance of any more bonds until the present outstanding bonds have been paid; and

Secondly, to the effect that as long as they are in office they will work, not only to keep the present county rate from going higher, but to use every means within their power to effect a continuous reduction for the next several years.

The Board believes that both of these objectives are reasonable and desirable from the standpoint of the tax-payer, and the Board pledges itself to use every means within its jurisdiction to see that both objectives are attained.

The question was on the adoption of the resolution, and the roll being called there were: five yeas and no nays, as follows:
