Mr.
County

Dear Sir: Re; Federal Aid Secondary Projects.

For your information we are transmitting herewith digest of rules and regulations and memorandums pertinent thereto relating to the improvement of secondary or feeder roads under the Act of June 16, 1936.

A memorandum dated February 13, 1937, provides that 17.7% or $123,729 of the 1938 allotment of secondary funds to Minnesota may be used on the State highway system. Deducting this amount and the amount set up under Section 7 for Highway Planning Projects leaves $566,677 available for the fiscal year 1938 for federal aid secondary projects off the trunk highway system.

Federal funds made available for construction of any secondary or feeder road projects in a county must be matched with an equal amount of county funds. In accordance with the provision under Section 5 the county will also be required to provide for the necessary right of way, surveys and plans. In case the County Highway Engineer cannot handle this work this department would have to be authorized to make surveys and prepare the plans at the county's expense. Engineering costs on construction will be included in the cost of the project to the extent indicated in Section 5.

In accordance with Section 3 it is required that no project shall be undertaken which does not provide for surfacing or stabiliztion of the road-bed which shall be reasonably satisfactory for the traffic served since this department has no satisfactory means of providing for stage construction under an agreement for future surfacing.

Since the state wide studies referred to in Section 4 are not completed, projects will be limited to secondary or feeder roads for which we can now certify that they will be a part of the system or group of secondary or feeder roads to be selected later under the provisions of Section 4.

The following route(s) shown on the attached map of_____ County ha__ been selected as being eligible for Federal Aid Secondary projects.

_____

_____

_____

In determining the allotment of federal aid secondary funds to be made to each county the basis used by the Bureau of Public Roads in determining federal allotment to the States has been used. In this system the area, population and road mileage of the county as compared with that of the State is determined and the sum of these percentages is divided by three to give the percentage to be used for each county in determining its apportionment. On this basis the appropriation to be made to_____ County will be_____% of the total federal aid funds available. Assuming that the federal funds available in the next four years will be four times the allotment for 1938_____ County will receive a total allotment during this four year period of$ 165988.00

A minimum of $7000 of federal aid for each project has been established as a general rule. In order to hold this minimum_____County will be entitled to_____project(s) with federal aid of $ 82994.00 as a total allotment for the calendar years of 1937 and 1938 on the highway(s) indicated above.

The minimum wages to be paid on federal aid secondary projects will be those specified by this department for other federal aid projects in your section of the State, as shown on the enclosed schedule.

In case the County Board of_____County is unable, under the conditions outlined above, to use all or any part of the federal funds above indicated during this two year period such funds will be made available for use by other counties during this period.

In order that this department may know which counties will use federal funds during the calendar years of 1937 and 1938 return of the enclosed resolution is required. If this resolution is not received by_____,1937, the above federal funds will be made available for other counties during 1937 and 1938. This resolution covers federal aid secondary funds for two years.

Digest of Rules and Regulations for Carrying out the Provisions of Section 7 of the Act of June 16, 1936 (Public No. 686 74th Congress) which Relate to the Improvement of Secondary or Feeder Roads in Accordance With the Provisions of the Federal Highway Act.

Definition.

Section 1. "Secondary or Feeder Roads" shall mean roads outside of municipalities, except that this shall not be construed to prevent improvements into or through small municipalities when such improvements are necessary for continuity of service.

Initiation of Projects.

Section 2. All projects under this Act shall be initiated by the States and submitted in the same manner as other Federal-aid projects, and all such projects shall be subject to all of the provisions of the rules and regulations of the Secretary of Agriculture in effect for administering the Federal Highway Act, as amended, except such provisions as are inconsistent or in conflict with these rules and regulations.

Application of Funds to Projects.

Section 3. The funds apportioned to any State under the Act shall be applied to projects essentially rural in character.

A secondary or feeder road project shall be undertaken in not less than 50% of the counties of the State in the expenditure of the combined funds authorized for the fiscal year period 1938 and 1939.

No projects shall be undertaken which do not provide for a surfacing or stabilization of the roadbed which shall be reasonably satisfactory for the traffic served. Grading and drainage as first stage construction may be accepted: Provided, The State highway department will enter into a satisfactory agreement for future surfacing or stabilization of the roadbed.

Selection of Projects.

Section 4. Each State highway department shall undertake the selection and designation of an initial system or group of secondary or feeder roads for construction or reconstruction, based upon their relative importance as determined from factual data secured from State-wide studies for the planning of a complete highway system provided, however, that prior to the selection, designation and approval of such system or group of secondary or feeder roads, projects may be approved for construction if it is reasonably anticipated that such projects will become a part of such system or group.

Surveys, Plans, Specifications, Etc.

Section 5. Surveys and plans, specifications and estimates for all projects in each State shall correspond to the character of the work contemplated and shall be in sufficient detail to show the quantity and kind of work involved and shall be prepared under the immediate direction of the State highway department without reimbursement from Federal funds. The State highway department, however, may utilize the services of well qualified county engineering organizations, acting under its direction, for the surveys, preparation of plans, specifications and estimates, and for the supervision of construction for any project. Construction engineering and inspection charges reimbursable with Federal funds shall be limited to any necessary costs incurred and to the salaries of individuals directly employed on the project.

The design requirements for alignment and grade for secondary or feeder roads shall be consistent with the topography and the purpose to be served by the improvement. The minimum graded width of roadbed from out to out of shoulders shall be not less than 26 feet in easy topography; not less than 24 feet in rolling topography; and not less than 20 feet in mountainous topography with a greater width than the 20 foot minimum on through fills. Where roadbed slopes are flattened to 3 or 4 to 1 the minimum graded width in easy topography may be reduced to 24 feet. Abbreviated plans may be accepted when the character of the improvement warrants, provided they are in sufficient detail to show the quantity and kind of work involved.

Methods of Undertaking Work.

Section 6. Whenever feasible and practicable the contract method shall be followed in performing work.

Highway Planning Projects.

Section 7. One and one-half per cent of the amount apportioned to the State has been programmed for highway planning projects.

Maintenance.

Section 8. Project agreements for secondary or feeder road projects shall provide for the maintenance of such projects by the State to the extent permitted by State law; otherwise, the State shall submit, in the form prescribed by the Secretary, an agreement for such maintenance with the county or other political subdivision responsible therefor: Provided, however, no project contemplating maintenance by a county or other political subdivision shall be approved if any road previously improved with Federal funds under the provisions of the Federal Highway Act, as amended and supplemented, which the said county or other political subdivision has agreed to maintain, is not being satisfactorily maintained as determined by the Chief of the Bureau of Public Roads.

Whereas, it appears from a letter addressed to this Board by the Norwegian-American Athletic Club, Inc., that on the occasion of the North West Ski Tournament to be held February 3, 1935 south of the intersection of County Road No. 28 and Trunk Highway No. 5 there will be considerable traffic congestion on the roads in that vicinity, particularly County Road No. 28 south from its intersection with Trunk Highway No. 5, and

Whereas, it appears that proper regulation of such traffic will be necessary to prevent congestion and accidents in that place,

Be it Resolved, That the County Highway Engineer be authorized and directed to close County Road No. 28 to general traffic from its intersection with Trunk Highway No. 5 to a point approximately one mile south thereof at the time of said tournament, making proper arrangements for the accommodation of necessary travel in that vicinity by detours or otherwise, so as to furnish adequate control of traffic with a minimum of inconvenience to the public.

The question was on the adoption of the resolution, and the roll being called there were: five yeas and no nays, as follows:

Commissioner Youngdahl offered the following resolution:

Resolved, That the report of the Committee be accepted and adopted.

The question was on the adoption of the resolution, and the roll being called there were: five yeas and no nays, as follows:

Alexander, yea Ferrin, yea Morse, yea Youngdahl, yea Mr. Chairman, yea

And so the resolution was adopted.

Commissioner Youngdahl offered the following Committee Resolution:

Whereas, Trustees of Pillsbury Academy, an educational institution located at Owatonna in the County of Steele, have recently acquired property in Hennepin County, upon which exemption from taxation has been claimed and duly rejected by the Commissioners of Hennepin County, and

Whereas, it appears that property on which exemption has been claimed will again be claimed for exemption despite rejection of the claim, and

Whereas, it appears that the property in question was transferred to the Pillsbury Academy in consideration of an annuity and shared income agreement with a so-called donor, and

Whereas, it further appears that full information as to the nature of this annuity and shared income agreement, which is of vital importance to this committee and this board, has not been divulged despite frequent assurances from trustees of Pillsbury Academy that this information would be made public, and

Whereas, it further appears that neither the assessor for the city of Minneapolis nor the attorney for the city of Minneapolis has been successful in securing such information, as was directed by the city council of the city of Minneapolis, and

Whereas, it has been made to appear to this committee that action has been stayed in such inquiries because of unofficial assurance of members of the trustees of Pillsbury Academy that trustees have not in fact accepted properties in question and do not intend to accept such properties, and

Whereas, it appears that, contrary to the above assurance, trustees and/or their agents have directed to be made and have made certain improvements upon the premises of properties claimed by trustees for exemption, and

Whereas, full information as to these transactions is urgently required by this Board and by its Attorney for protection of the public interest and,

Whereas, it would appear that the committee created and appointed by the House of Representatives of the State of Minnesota has full power to secure information in this matter but has taken no action to secure such information

under power of subpoena and oath,

Now Therefore, be it resolved, that this Committee hereby memorializes the special investigating committee of the House of Representatives to proceed without further delay to fully ascertain the facts of this transaction and to reduce such facts to public record by the questioning of proper persons under oath.

The question was on the adoption of the resolution, and the roll being called there were: five yeas and no nays, as follows:

Alexander, yea Ferrin, yea Morse, yea Youngdahl, yea Mr. Chairman, yea

Attest: A. P. Erickson

County Auditor

Minneapolis, Minn., Wednesday March 27th, 1935.

HENNEPIN COUNTY, MINNESOTA.

The Board of County Commissioners of the County of Hennepin met in the Court House in the City of Minneapolis at 9:45 o'clock A. M. pursuant to adjournment.

Members all present.

A communication from E. J. Pearlove, Comptroller, to W. W. Heffelfinger, Chairman of the County Board, relative to the annual report on examination of the books and affairs of the County of Hennepin for the year 1934 was received, read and referred to the Committee of the Whole.

An annual report from E. J. Pearlove, Comptroller, reporting on the examination of the books and affairs of Hennepin County for the calendar year 1934, was received and referred to the Committee of the Whole and ordered placed on file.

Commissioner Morse from the Committee of the Whole presented the following report.

To the Honorable Board of County Commissioners:

Gentlemen: Your Standing Committee of the Whole to whom was referred the matter of seed loans has given the same careful consideration, and begs leave to report as follows:

In a joint meeting in which practically all the town and village organizations were present and in which our County Commissioner body was represented by all members of Board, a motion was put through by this informal body deciding to depend on Federal seed loan instead of proposed state seed loan.

This was decided as under state loan there might be a question of legality of our warrants or bonds issued by the County and besides with the Federal loan already organized it is our belief that the Federal organization can at this time give the best service and it is our belief that all counties in the state would be ahead if they worked out their seed difficulties with the Federal County Committee and that a copy of this report be forwarded to the Hennepin County Delegation in the State Legislature.

Whereas, a joint delegation from the Village of Robbinsdale, Village of Crystal and Township of Plymouth appeared before the Board of County Commissioners on March 18, 1935.

W. R. Ambrose as spokesman for said delegation addressed the County Board relative to the condition of a highway commonly referred to as 36th Avenue North

(being an extension of 36th Avenue North, Minneapolis) and which highway extends through said villages and into said township; that said address was particularly directed to the condition of the Great Northern Railroad Company's bridge over its right-of-way on said highway in said village of Robbinsdale; and

Whereas, the Board of County Commissioners agreed to meet with said delegation on said highway to inspect the same, and that said Board and said delegation did so meet on March 19, at 11 A. M. and made an inspection thereof; and

Whereas, said County Board found that said highway extended through a considerable platted portion of said villages, resulting in heavy traffic upon said highway and over and across said bridge; and that by reason of such traffic said bridge is inadequate to carry the same; and

Whereas, the attorney for the Board of County Commissioners advised said Board that it had no jurisdiction over said highway and could not legally expend funds to improve the same; and that the construction and erection of an adequate bridge was a responsibility of said Railroad Company.

Now, Therefore, Be it Resolved, that the Board of County Commissioners request the Railroad and Warehouse Commission to take appropriate action to compel the said Great Northern Railroad Company to erect and construct a bridge on said highway over its said right-of-way suitable to carry the traffic on the highway.

Be it Further Resolved, that a copy of this Resolution be mailed to the Railroad and Warehouse Commission, and a copy to the Clerk of said township and the Recorder of each of said villages:

A Resolution Providing for the Issuance and Sale of Funding Bonds.

Be it Resolved, by the Board of County Commissioners of Hennepin County, Minnesota, as follows:

1. It is hereby found and determined that the assessed valuation of all taxable property in Hennepin County for the year 1934, inclusive of moneys and credits, was in excess of $400,000,000, and said County has an existing bonded indebtedness, exclusive of bonds issued for road and highway purposes, of not more than

$4,000,000, and said County is operating on a budget under the provisions of Mason's Minnesota Statutes of 1927, Sections 808 to 819, inclusive, and by reason of such facts said County is authorized to issue bonds for the purpose of funding its outstanding warrants and certificates of indebtedness under the provisions of Chapter 219 Laws of Minnesota for 1935.

2. It is hereby found and determined that by reason of tax delinquency and also by reason of the excess of the expenditures over which the Board has no control over the amount provided therefor in the annual budget a deficit has been created in the funds of said County.

3. Hennepin County has outstanding its certificates of indebtedness bearing date January 5, 1935, in the principal amount of $450,000, bearing interest at the rate of 1½% per annum payable at maturity and maturing May 31,1935 and each and all of said certificates are valid and binding obligations of the County to an action for the payment of which it has no lawful defence.

4. It is necessary and expedient to issue, and it is hereby determined to issue and sell the negotiable coupon bonds of Hennepin County in the aggregate principal amount of $450,000 for the purpose of providing money to pay and retire the said certificates of indebtedness at maturity.

5. Said bonds shall be dated June 1, 1935, shall be 450 in number and numbered 1 to 450, both inclusive, shall be in the denomination of $1000 each, shall bear interest at the rate designated by the successful bidder, and shall mature serially in order of their numbers in the amount of $90,000 on June 1 in each of the years 1937 to 1941, both inclusive.

6. The County Auditor is hereby authorized and directed to cause notice of the sale of said bonds to be given by publication of a notice of such sale in the Minneapolis Star, the Official Newspaper of said County, which notice shall be in substantially the following form:

Notice of Bond Sale.

Notice is hereby given that the Board of County Commissioners of Hennepin County, Minnesota, will meet at the Commissioners' Room in the Court-house in the City of Minneapolis on Thursday, the 23d day of May, 1935, at ten o'clock A. M., for the purpose of receiving and considering sealed bids for the purchase of $450,000 Funding Bonds of said County, consisting of 450 bonds in the denomination of $1000 each, bearing date June 1, 1935, bearing interest payable semi-annually at the rate designated by the successful bidder, and maturing serial ly, $90,000 on June 1 in each of the years 1937 to 1941, both inclusive.

Both principal and interest will be payable in lawful money of the United States at any suitable bank or trust company designated by the successful

bidder. The County will furnish the executed bonds and the legal opinion of Messrs. Junell, Driscoll, Fletcher, Dorsey & Barker, of Minneapolis, Minnesota, both without cost to the purchaser. Sealed bids may be mailed to the undersigned. All bids must be unconditional and accompanied by a certified check in the amount of at least $5000, payable to the order of the County, and to be forfeited as liquidated damages in event the bid is accepted and the bidder shall fail to comply therewith. The County reserves the right to reject any and all bids and to continue said sale.

By Order of the Board of County Commissioners.

Al. P. Erickson, County Auditor
