WHEREAS, the Hennepin County Board of Commissioners has before it a proposal to materially increase the taxes levied for its Road and Bridge Fund to the end that for a five-year period there would be a considerable increase in construction of county roads, and also substantial allocations from the Road and Bridge Fund to the City of Minneapolis, and

Whereas, this plan has many ramifications and complications which do not appear at first glance, now therefore

BE IT RESOLVED, by the Board of County Commissioners of Hennepin County, that the proposed plan be not adopted until the following conditions are met:

1. A binding agreement be concluded between the City of Minneapolis and the County of Hennepin, covering allocations to each governmental unit, for each of the proposed five years. (This may require legislation.)

2. A program of work to be done and projects to be undertaken, with reasonable cost estimates, be developed for each of the proposed five years.

3. The present 570 miles of county roads be classified into the following divisions:

a. Primary system: Those county roads which are of major importance in the support of traffic to and from the City of Minneapolis.

b. Secondary system: Those county roads which are necessary principally for intra-rural Hennepin traffic.

c. Tertiary system: Those county roads which are purely local, land-use roads.

4. Arrangements are made to finance the necessary construction on the primary system as so classified, by tax levies uniform on all property throughout the county; the secondary system is financed by taxes levied outside of Minneapolis, and the tertiary system be returned to the cities, towns and villages as roads which are purely local in character and use.

Commissioner Hanson offered the following resolution,  
and moved its adoption:

WHEREAS, The use of Trunk Highway No. 100 has increased to the point where it is hazardous for traffic using the highway to have existing many unprotected crossings and many openings in the center line dividing strip through which left turning movements can be attempted, and

WHEREAS, The elimination of many of these openings represents a rather drastic change which will affect the convenience of a relatively few adjacent property owners, and

WHEREAS, Such changes appear to be mandatory for the general protection of all traffic as well as the protection to those who will have to put up with these inconveniences,

NOW THEREFORE BE IT RESOLVED: That this Board of County Commissioners of Hennepin County respectfully request and urge that the Commissioner of Highways eliminate all openings in the dividing strip on Trunk Highway No. 100 between Trunk Highway No. 212 and Trunk Highway No. 52 where the intersections are not protected by automatic traffic signals or by a properly designed storage lane in which left turning traffic can await an opening to cross through oncoming traffic in the opposite lane.
