## HENNEPIN COUNTY LIBRARY BOARD

## Policy Relating to Library Buildings

During the 1967 legislative session the Hennepin County Library had requested legislation to accomplish a 23 year program of library service, which included bonding authority. The legislature complied with all of the requested legislation with the exception of bonding authority and instead authorized one mill for building new facilities and the acquisition of facilities. The lack of bonding authority created the need for an alternative method of financing the scheduled construction of the new facilities and the acquisition of existing facilities in accordance with the standards and long range plan as proposed by the Library Board.

After a series of in depth meetings with the communities concerned, and taking into consideration their needs, the Library Board has adopted the following policy and recommendations for approval by the Hennepin County Board of Commissioners.

#### 1. ACQUISITION OF EXISTING FACILITIES

The Hennepin County Library Board recommends purchase of the following existing community facilities: St. Louis Park, Edina, Richfield, Brooklyn Center, Excelsior and Wayzata. The reimbursement for these facilities includes building, land, landscaping, and parking lots. Reimbursement will include the above costs, less federal grants and donations and will be completed in a period not to exceed 15 years with 5 percent interest (to compensate for the municipality's funding of the building). An initial payment of \$7.00 per square foot, not to exceed \$100,000 will be made to each of the municipalities listed above.

#### 2. LEASE OPTION

In the event any of the aforementioned communities do not agree to the sale of their facility, the Library Board recommends that the county offer an alternative proposal of leasing. Such lease offer to be for a period not to exceed 10 years with the option to terminate the said lease by mutual agreement upon one year's notice. A lease arrangement would include all costs of maintenance including heat, light, janitor services, and grounds and parking lot upkeep.

#### 3. CONSTRUCTION OF NEW BUILDINGS

The Library Board recommends that the county offer to participate on a grant basis to provide funds for those communities which desire and are in need of a community library and which meet the standards and building program schedule set forth by the Library Board. This offer is contingent upon the willingness of the community to agree to the eventual ownership of the library building by the County of Hennepin. If this offer is accepted, the county will reimburse the municipality for its equity in the facility. For 1968 construction, the maximum reimbursable cost per square foot is \$24.00, less federal grants and donations.

-2-

Policy on  
Library Buildings

## 4. LAND

The Library Board recommends the following alternatives concerning land acquisition for library buildings:

- a. The community may contribute the land
- b. The county will purchase the land owned by the municipality for no more than the cost to the municipality
- c. The land be leased to the county at \$1.00 per year for 50 years with the option of renewal by the county. If the lease is not renewed the land would revert to the municipality
- d. The county will purchase the land initially.

## 5. BASIC LONG-RANGE PLAN

The basic long-range plan adopted by the Hennepin County Library and the Board of Hennepin County Commissioners has established a priority schedule for the construction, acquisition or replacement of library buildings for the period 1968-1985, based on projected population density. This schedule is dependent upon fund availability and serves as a statement of priority for construction of new buildings.
