Upon written approval of the Director, an appointing authority may reinstate a former probationary employee to a position in his former class within one year of the date of resignation or expiration of leave of absence. A former permanent employee may be reinstated to a position in his former class within two years or the equivalent of his length of service to a maximum of five years. MAR 23 1971

Commissioners Hanson, Lindgren, Olson and Provo offered the following resolution and moved its adoption:

WHEREAS, the space problems of the County government are growing more critical by the day, placing excessive and undue burden on the judicial and administrative processes, and

WHEREAS, the projected population growth of the County over the next three decades will direct additional services and responsibilities to be added to functions already performed by this jurisdiction, and

WHEREAS, the inflationary spiral and accelerating construction costs are eroding the total funds available for Civic Center construction (Engineering News Record data shows a 12.2% construction cost increase for the past 12 months), and

WHEREAS, continued delay in the commencement of construction will only serve to reduce the value of present and projected finances by forcing a severe reduction in required space, and

WHEREAS, the Civic Center project has been under discussion and review for several years with repeated validation by SUA, Inc. and others of the County's space needs, and

WHEREAS, the Board has been urged by many civic and community groups to commence early construction, and

WHEREAS, Master plan studies and similar civic developments around the Country demonstrate that an undertaking of this magnitude stimulates quality construction surrounding a Civic Center which will create a genuine focal point in downtown Minneapolis not to mention the additional tax revenues that the Project will generate, and

WHEREAS, significant cost reductions have been recommended to the Board of County Commissioners by Construction Management Services, Inc.,

MAR 23 1971

NOW THEREFORE BE IT RESOLVED, that this Board commits itself to a building design of the 17 story twin tower structure with an expansion capability to 23 stories. This design will embrace the following approximate totals

713,000 square feet of tower space  
178,000 square feet of public space  
56,000 square feet of mechanical space  
251,000 square feet of garage space

as identified by the January 8, 1971, letter of Construction Management Services, Inc., (hereto attached.)

BE IT FURTHER RESOLVED, that the budget for the construction undertaking for use by the architect, the construction manager and other allied professionals be set at \$41,400,000 (\$45,000,000 less fees).

BE IT FURTHER RESOLVED, that this Board agrees to and approves Phase I of the architect's work as identified by the agreement dated August 29, 1967, further the Board approves and ratifies the letter of the County Administrator to John Carl Warnecke & Associates dated February 6, 1970, further that this Board reaffirms the purpose of the April 28, 1970 resolution setting aside funds in favor of the architect for design and specification development as evidence of its continuing intent to proceed with the project, and further that John Carl Warnecke and Associates be directed to complete the working drawings and bid documents as contemplated under the Agreement dated August 29, 1967.

BE IT FURTHER RESOLVED, that the claim of John Carl Warnecke and Associates in the sum of \$679,022.61 be accepted and further the Finance Director is hereby authorized to expend said sum from the Building and Equipment Fund.

BE IT FURTHER RESOLVED, that the attached contract with Construction Management Services, Inc., be approved and explicitly that Construction Management Services, Inc. complete Phase I and proceed with Phase II as specified by said contract, and further that the Finance Director be authorized to set aside the sum of

\$250,000 from the Building and Equipment Fund to pay claims submitted by said firm.

BE IT FURTHER RESOLVED, That this Board directs Construction Management Services, Inc., to assume complete coordination of the Project directing the various timetables to be subscribed to by the Architect, SUA, Inc., and other allied professionals as well as the timetable for the bid and construction process.

Commissioner Robb moved that the question be divided.

Chairman Provo ruled his motion out of order and indicated that the resolution could be amended.

Commissioner Robb moved, seconded by Commissioner Hanson, that everything be amended out of the resolution except the first paragraph of the enacting portion.

The vote on the motion was as follows:

HANSON	NAY
OLSON	NAY
LINDGREN	NAY
ROBB	YEA
CHAIRMAN PROVO	NAY

Motion not carried.

Commissioner Robb then moved, and it was seconded, that the resolution be laid over for 60 days because it has not had adequate scrutiny.

The vote on the motion was as follows:

HANSON	NAY	ROBB	YEA
OLSON	NAY	CHAIRMAN PROVO	NAY
LINDGREN	NAY		

Motion not carried.

Mar 23, 1971

The question was then on the adoption of the resolution, and there were four YEAS and one NAY , as follows:

LINDGREN                   YEA

ROBB                        NAY

Mar 23, 1971

Commissioner Provo offered the following resolution and moved its adoption:

WHEREAS, The program plans for the new proposed Hennepin County General Hospital, as summarized in Chapter Two of the Booz, Allen and Hamilton Phase III-A Report, represent more than a year of in-depth planning by hospital staff, consumers, and other health providers, and have been reviewed by the Citizens Health Advisory Committee which, at its January 22, 1971, meeting, unanimously approved and recommended the program plans to this Board for approval and implementation; and

WHEREAS, This Board, on February 23, 1971, stated that the new Hennepin County General Hospital will contain no more than 500 beds within 500,000 square feet of space; that this Board will pursue joint planning with the Metropolitan Medical Center; and that this Board will submit its plans for approval of the Metropolitan Health Board before beginning construction of the new Hennepin County General Hospital; and

WHEREAS, This Board has acquired three blocks of land immediately east, southeast and south of the present hospital; representatives of the U. S. Department of Health, Education and Welfare, on February 17, 1970, found this site satisfactory for the future Hennepin County General Hospital; the block immediately south of the present hospital would be most advantageous to the County for construction of the new Hennepin County General Hospital; and, inasmuch as the Metropolitan Health Board has, in the interest of conserving the community's health dollars, prepared guidelines for the development of shared facilities and services with the Metropolitan Medical Center, the location of the new Hennepin County General Hospital on the block immediately southeast of the present hospital would best meet the Metropolitan Health Board guideline; and

WHEREAS, This Board supports the construction of an efficient and effective high-standard facility within the present limitation of funds, the use of accelerated construction and construction management are necessary to expedite the construction of the new Hennepin County General Hospital and require architectural development of the total facilities for the new Hennepin County General Hospital; and

WHEREAS, It is important, to expedite the decision-making process in the construction of the new Hennepin County General Hospital facilities, that a building committee be established;

NOW THEREFORE BE IT RESOLVED, That this Board approves the program plans for the new Hennepin County General Hospital, as developed by the hospital staff, consumers, and other health providers and summarized in Chapter Two of the Booz, Allen and Hamilton Phase III-A report, and authorizes the staff and architects to proceed with implementation of the program plans within the constraints of the number of beds and square footage established by this Board; and

MAR 23 1971

FURTHER, That the blocks immediately south and southeast of the present hospital be designated as the site of the new Hennepin County General Hospital core facilities to be constructed, facilitating co-development with the Metropolitan Medical Center and also permitting effective utilization of existing Hennepin County General Hospital facilities; and

FURTHER, That this Board directs Medical Facilities Associates architects to begin immediately to develop total plans for the new Hennepin County General Hospital facilities within the constraints developed by this Board, such facilities to be of high standard and not compromising the quality of the programs; to utilize the accelerated building process and construction management as part of the construction process; and that the funds available be utilized for new construction; and

FURTHER, That this Board establish a seven-member building committee to act in a day-to-day decision-making capacity in the construction of the new Hennepin County General Hospital in behalf of this Board, subject to the review and approval of this Board, and authorizes the Chairman to appoint the members of this Building Committee.
