Re: Handball court development at Arlington-Arkwright Park

Dear Mr. Ryan,

The Park chapter of the City of Saint Paul Comprehensive Plan identifies six major strategies to guide future development, operations and maintenance of the Saint Paul Parks and Recreation system. One of these strategies is to Promote an Active Lifestyle. Your proposal to develop outdoor handball courts in Saint Paul aligns with this strategy of the City of Saint Paul's Comprehensive Plan.

Since the initial conversation between the Parks and Recreation department and your East Side Youth Handball Development Committee, a suitable building site has been identified at Arlington-Arkwright Park. Arlington-Arkwright Park is an active recreation park with existing baseball and soccer fields, tennis and basketball courts and a new skate park.

The Parks and Recreation department is pleased to offer to support the fundraising efforts of the East Side Youth Handball Development Committee in order to build handball courts at Arlington-Arkwright Park. Your point of contact within the Parks and Recreation department going forward should be Bryan Murphy at bryan.murphy@ci.stpaul.mn.us or 651-266-6411.

Respectfully,

Christopher B. Coleman
Mayor
