1922

Patients admitted with, Scarlatina and Measles.

[illegible]

Patients admitted with, Diphtheria and Measles

1922

Pts. admitted with Scartatina who developed Measles.

Male	Female	Admission	Discharge	Death	Time in Hospital	Antitoxin	Complications
	1	5/24-22	6/29-22	-	36 days	-	Tenia Jonmans, Furuncle head

Pts. admitted with Diphtheria who developed Measles.

[illegible]

1922

Patients admitted with Measles who developed Scarlet Fever

[illegible]

Patients admitted with Measles who developed Diphtheria

[illegible]

Patients from General Depts. who developed
Variola, Diphtheria or Scarlatina.
