REMARKS: Was accidentally killed at 1414-E. 38th St. while at work digging a cess pool. The place was very sandy and after having dug down about 8 ft. he attempted to tunnel in order to run the sewer pipes through to the next shaft. He had not curbed the shaft he was working in. He stooped down to the bottom of the shaft and just as he so did the sand caved in and covered him completely. This happened at 1:20 P.M. He was dug out at 1:32 P.M. Artificial breathing and Pulmotor was used but to no avail. His companion Carl Coll. 2927-16 Ave. S., was the only one with him. Mr. Steile was the foreman. They were employed by Clauson & Sons, plumbers, 1709-E. Lake St. Mr. A.C. Galbraith, 1414-E. 38 St., a neighbor working in the garden heard the call for help and ran to Mr. Coll's Assistance. He did not see Mr. Steile as the sand had already covered him completely. The Fire Dept. was called and assisted in digging him out. He was taken out in the knee chest position. Dr. Roan investigated case.

REMARKS: Theodore Huckins is father of deceased.
He states that the child had had a hard cold about one week; was coughing & wheezing & nose was running. They didn't think child was ill enough to need a doctor. Dr. Ailing who attended the mother in confinement, was the first to notify Coroner's office; he said he was called but the baby had been dead for about an hour before he got there. The family is not a Christian science family, nor had either father or mother been ill.
Baby died about 7 A. M.

The body shows no external sign of injury, except that the tissues of chest are slightly emphysematous. Hard to determine presence of fractured ribs.

REMARKS: Admitted 1:15 A. M. today by Dr. Leavenworth to Dr. Hares' service. Brot by police Ambulance. Died at 2:05 A. M. today. Chas. E. Fiske, employed by the Mpls. general electric co. reports that he answered a "trouble" call at corner of 22nd ave. & 2nd St. N.E. at 12:55 A. M. today & found the body of a man on the pavement at the foot of a telephone pole. He went with Levins to the hospital. Levins was employed by Tri. & State Tel. & Tel. co. The theory is that deceased was doing some repairing & needed more electric power so he opened the night circuit on wiring put in by the genl. elec. co. He must have made a new circuit for the current burned the palmar surface of the middle finger of his right hand, & the flexor surface of index finger of left hand. He had on no belt, and fell 31 ft. 5 in. to the pavement striking on his head. He sustained fracture of his frontal bone; bleeding from mouth & nose. Later: Mr Doll of the Plant Dpt. of the Tri. State Tel. & Tel. co., says he can't understand how Levins happened to be using wires of the genl elec. co., for the telephone wires are nearly 5 ft. below the genl. electric wires. The telephone co. has a contract with the genl. elec. co. to use their poles in some cases. Mr Fiske with the General Electric Co., says he had to be at work at 22 ave. & 2nd St. N.E. at 1 A. M. in order to move the wires, because a house was being moved & it could not be done during the daytime. The same hour Levins was to be there to move the telephone wires.

The latter owned the house & lived with Mrs. Hamburg & her son. The men slept upstairs & the woman downstairs. The door bell rang & Clauson came downstairs, turned on lights in dining & living rooms & opened the door. Thos. says he heard some one call "hands up," and then a struggle followed by three or four shots. Between the first two shots Clauson called "hey" "hey" then after the third he yelled to Thos Tom, oh Murder, get a doctor quick. Tom got downstairs & saw Clauson fall to the floor, but did not see the assailant. Mrs. Hamburg saw the back of the man, but not his face, & would not recognize him if she saw him again. Dr. McDonald was called. Three bullet wounds were found; one under right clavicle, one to the left of sternum about in 4th interspace & a third which entered the scalp on top of head & went again. Clauson & his wife had been separated 2 years. The Hamburgs rented of him & he lived with them.

REMARKS: Accident occurred about 5:15 A. M. The crew, J. McDermot, conductor, Ernest Chadwick, engineer, Wm. Myers & Flemming, brakeman were switching cars. Two cars were left on the main track while the engine was backed onto a sidetrack (Bartman's) to get another car. Flemming was to disconnect the two cars from the engine, & to set the brakes, and Myers was to open the switch But the brakes apparently were not set, for the cars moved south on main track, and as the engine was backing onto the sidetrack, engine & cars met, and Flemming who was riding on east side of rear of engine, was caught between ends of car & engine by the bumping beam on the car supposed to be stationary. Meyers was on the right side of rear of engine, so was not caught. The two cars had been left standing about 2 car lengths from the switch about 60 feet. The engine was backing at speed about 5 miles per hour. The impact of engine & car apparently sent the two cars north on main track about 70 feet, for a great deal of blood was found at a point 70 feet north of the switch on main track. The legs were torn from the body & later picked up. The trunk was carried on end of the car on main track. Mr. D. P. O'Rourke supt of the Van Patch line of shops, went with me to scene of accident. Accident occurred near Nicollet ave. & 60th St. So.
