REMARKS: This girl became pregnant sometime in Feb or march. Early in april she informed the responsible man, Henry Jebram, of her condition. He later about may 10th engaged Dr. Carl A. Lindgren, 1025½ Nicollet ave. to produce an abortion. The Dr. required 75.00 for the work & demanded most of it in advance. For 10 days or 2 weeks, he treated the deceased with pills but without results. On May 27th at 5 P.M. he did some manipulation within the pelvis. At 7 P.M. the fetus came away but the placenta was retained. This took place at 1315 Stevens ave., where the deceased was living with another woman, Mary Archambault. May 31st, Lindgren removed the placenta with instruments in the presence of Mary Archambault the roommate. Thereafter the patient became very ill with chills & fever. The "doctor" came 2 or 3 times a day & gave her pills & typhoid. June 21st paralysis of left lower extremity developed. On that day Dr. F. E. Murphy, La Salle Bldg. was called in consultation. On June 22nd the patient was moved to the home of Berger at 3034-40th Ave. So. Did not get any better, but finally died there on July 6th. Lindgren took it upon himself to send the body to undertaker Melnick before notifying the relatives of the death. Freda Lofgren had three married sisters in the city but did not associate much with them. She was seen upon a few occasions during her illness by her sisters. The "doctor" was interviewed a number of times by the sisters & brother-in-law. Jebram visited the girl a number of times during her illness & also interviewed the "doctor" who assured him that the patients condition was not at all serious.

C. H. Engen, brother-in-law, requested the investigation.

A post mortem was held with results as recorded in the autopsy records. The principle findings were acute vegetative endocarditis on mitral valve & thickening of one portion of the endometrium.

Witnesses - Mary Archambault, 1315 Stevens ave., roommate; Henry Jebram, 829-8th St. So. moved to Mound, Minn. - Baptist assembly; C. H. Engen, 908 East Lake St., brother-in-law; Henry Loether, 925-20 ave. So.

REMARKS: Mr. Becker had been operated at the University Hospital some weeks ago - probably a prostatectomy. Came home 3 days ago. Has been despondent since coming home - spoke of selling property. Slept alone last night - wife was in his bed-room & rubbed his legs at 11 P.M., last time he was seen alive. Found this morning by his wife at 6:45 A.M. lying on lawn at side of his house & below a third story window. Body was lying on ground with throat & left wrist deeply incised - clothed excepting for shoes & coat & vest. Shirt soaked with blood. An open bloody razor was found on the ground just two feet from the head. There were blood stains on the side of the house as if streaked by bloody hands in falling. The bed room of deceased opens into a short hall-way. At the end of the hall-way there is a window opening out upon a short space of roof. Bed room is on 3rd floor - bed had been used. The gutter at the edge of roof contained about half a litre of blood. There was no blood about the window or inside the window. In the gutter lay a folded vest containing a letter written by Mr. Becker to his lawyer. The letter clearly intimates the intention of taking own life. Apparently Becker climbed out of window onto the roof & there cut his throat & left wrist. After bleeding for a time, he fell from the roof to the ground.

REMARKS: About 9:30 P. M. July 11th, this boy together with two friends entered a pool room on or near E. Hennepin. At 12:30 they left the pool hall together with the proprietor – E. P. Biegler, and went down town where Donahue purchased three bottles of an intoxicating "medicine" called "Tiko". They all drank a considerable quantity of this & then proceeded to the rear of Donahues home where his father had a number of small garages rented. Donahue pried the lock from one of the doors of a rented garage & with the help of the others backed the contained car out & turned it around by hand. This was about 1:40 A. M. July 12th. A neighbor saw them trying to start the car & called the East Side Police Station. Two officers started out for the place & on the way met the 9 gun squad of that station & enlisted its aid.

The officers arrived just as the boys got the stolen car started on University Ave. & caught them in the next block & ordered them to stop. They stopped the car but three of them fled. They were ordered several times to stop but did not do so – several shots were fired into the air but they did not stop. Finally officer Lemieux fired at Donahue with one of the shot guns carried by the squad & dropped him at the side of the house at 316 University Ave. S.E.

The ambulance was called and Donahue was brot to the Bengal Hospital at 2:25 A. M. & admitted by Dr. Cosgriff with diagnosis of gun shot wounds of abdomen & lumbar regions, on left.

At 5:34 A. M. patient died.

The post mortem examination showed 9 bullet holes of entry in lumbar & gluteal regions posteriorly – 6 on left & 3 on right. There was only one hole of exit anteriorly. There was much extended hemorrhage. The peritoneal cavity contained much blood – the intestines, stomach, mesentery & omentum showed many perforations. Six buck shot were recovered.

Donahue was said by his father & friends to have been mentally deficient.

Witnesses: P. Hiers, Jeb Biegler, Walton & Ogier – East Side Station; Mr. Donahue, (father) 224 – 4th St. S.E.; Mrs. Ann Donahue, 316 University Ave. S.E.; D. L. Hills, 116 – 6th St. S.E.; E. P. Biegler, 526 – 3rd Ave. S.E., two of the four boys involved.

She was alone in home today from 12 noon until her husband came from work at five P. M. At that time he found the house locked. He got in thru a window & found his wife dead in a small rear attic - There was a half empty 2 ounce bottle standing beside her. There were blood-stains on the floor leading from another room to the attic. The body showed a small fresh cut in the bend of the left elbow.

REMARKS: The baby fell yesterday bumping its head severely, but seemed to be entirely well thereafter until this morning. Fell again this morning, but played around afterward. About 8:30 was playing w/ its brothers shoes when it cried as if frightened. Mother picked her up but since she seemed to be alright placed her on the floor again. The baby walked about 10 feet toward (west) door & stood. Cried out again. Mother again picked it up - the baby promptly went into convulsions & died a few minutes later.

7-25-20 - Subsequent notes - H. Helbing, 529-5th St. So., a time came on this day to fix a drain at the corner of the second story of the the morgue. He found the a strip of tin (or that iron) running along the outside of the wall of the second story was charged with electricity, & he refused to do the work. The tin strip is so arranged that it covers the threshold of the door leading from the kitchen to the back roof.

Later in the day Cecil Williams, 2812-32 ave. So. received a severe electrical shock when stepping from the kitchen to the roof. The step in front of the door is covered with a tin, which on investigation is found to connect directly with a grounded pipe. The wiring at the corner of the building lying directly on the above mentioned strip of tin is defective. It was on this ~~on this~~ strip that the baby was playing when it first cried out, after the mother had fondled it replaced it on the floor it ran back to the step & stood with one foot on the tin of the step & the other on the tin of the threshold when it apparently went into "convulsions" became stiff & died.

The baby was barefooted at the time.
Post Mortem examination revealed no lesions of any kind.

REMARKS: This man registered at the Glenwood Hotel as Wm. Hoff- City at 10:35 P. M. July 27th. About 8:30 A. M. July 28th the maid looked into his room to make up bed. Hoff was still in bed & complained of being ill. About 9 A. M. Geo. E. Kent hotel clerk went to the room. Hoff was in bed & said that he had severe cramps & wanted a doctor - had eaten some candy which he feared had been poisoned. Kent went to call doctor, came back an hour later & found Hoff on floor at foot of the bed dead.

The man was lying on the floor with all joints extended excepting elbows & fingers. The elbows were flexed acutely & the hands clenched. There was a rope lying under the left leg. There was a candy bag under the bed & a strychnine bottle partly emptied in his coat. There were stains of chocolate on the bureau scarf & a powdered white substance on the floor in front of bureau similar to the strychnine.

Apparently he had filled his candy bar with strychnine at the bureau - replaced the bottle in his pocket (it was wrapped up) gone to bed, eaten the candy & thrown the bag under the bed.

A man answering to the description of Mr. Hoff had been to two undertaking establishments a few days before (J. Warren Roberts & Gleasons) with a story that the wife of a friend had disappeared - at Gleasons he asked to be directed to a nerve specialist whom he could employ for his friend - at Roberts he asked for information concerning methods of committing suicide saying that his friend had now disappeared also & that he feared both the friend & his wife had committed suicide. Chemical analysis of stomach contents showed presence of strychnine.

REMARKS: This woman with two others (Mrs. Tony Johnson & Mrs. W. R. Clark) were waiting at the Brookside station for an outbound 9:30 A. M. car. The station in which they sat is on the left side of the double tracks - in order to signal the car, one must be on the right side of the tracks. The car can be seen approaching about 1300 feet. The Motorman slowed as he approached the station then seeing no one waiting, speeded up his car again to full speed. He saw the women on the left side but that they were waiting for the inbound car. When the car was 200 feet away (according to the motorman) two of the women started across. Mrs. Clark ran & got across - Miss Phelps followed without Mrs. Clark's knowledge & against the warning of Mrs. Johnson. The car struck Miss Phelps & flung her 50 feet where she struck a post & fell to the ground. Neither Mrs. Clark or Johnson know exactly what happened - cannot give a clear account. Both say that they all saw the car approaching. Mrs. Clark thinks she got across in time to signal the car & had so signalled.

The Motorman threw his car into reverse & applied the air brakes. The car stopped five or six hundred feet below the crossing.

The autopsy show multiple fractures of ribs & long bones & a fracture at the base of the skull. The pericardium & diaphragm were ruptured - the liver, spleen, & kidneys fractured.

REMARKS: On evening of Aug 9th this woman took his supper to her husband at his station #3 about 5 P. M. & told him that she was going to Harriet to hear the band. She went there & (unknown to her husband) met Eric L. Nygren, 2157 Dayton ave. St. Paul by appointment at 8:45 P. M. Nygren is a married man. She had known him for some time - had been in his home & he in hers (Mr. Drews is a fireman & when on the night shift is of course, away from home - Did not know of the time Mr. Nygren was in his home)

Mr. Nygren & Mrs. Drews went canoeing in a park canoe (#37). They had a bottle of whisky (since 1908) from which both drank. At about 11:45, according to Nygren, they were sitting on the same seat in the canoe when she made a sudden move & the canoe capsized. Both fell into the water. She pulled him under but he managed to get him up to the canoe. She slipped off & pulled him down again. He got back with her. This happened twice. The 3rd time she let go of him & went down. He reached the canoe nearly exhausted. He looked for her but could not find her. He walked all the way around the lake. Got home at 2:30 & tried to tell his wife but could not.

He left morning he engaged a lawyer T. A. McMeekin, 804 Commerce Bldg. St. Paul. The lawyer went with him to the Ramsey county coroner in the afternoon & reported. The coroner communicated to Dr. Seashore.

A park police saw the couple near the floating band stand after 11 P. M. when all canoes should be in. His impression was that the man was trying to "love her up" & she was resisting. The canoe rocked dangerously. Upon seeing the policeman they moved the canoe around the float.

The body was found floating in the water by two boys about 2:30 P. M. Aug. 10th (Dale Hegg - 2814 W. 37th st. & Eugene Hobart - 1104 Girard) close to the floating band-stand. The canoe half filled with water was found in the morning 150 feet east along the shore. The pair empty whisky bottle was in the canoe.

Mr. Drew said that his wife was a good woman & an ideal mother - not at all inclined to be wayward and never went out with other men.

Autopsy - much blood stained froth in the lungs & bronchi - stomach contents smelled of alcohol. There were small abrasions about the introitus vagina. (The husband had had intercourse not later than Aug 6th)

Chemical report -

Stomach } Ethyl alcohol present - chloral methyl alcohol - formalin absent.

REMARKS: This woman has lived with her daughter at 1075–14th Ave. S. E. for 18 years. This summer she has been alone while the family was at the lake – she refused to go to the lake. Her son-in-law came home nearly every day to see her. Was in on the 11th & she was well – tried to call her over the phone on the 12th but could not get an answer. Came in this morning & found her dead on the floor in her own room.

The body lay on the floor with the head & shoulders under the foot of the bed & the feet close to the bureau – a rocking chair was overturned beside the body. A comb lay on the foot of the bed – a hair brush lay close to the right hand – two plates of teeth lay close to the head. There was vomitus on the floor where the face fell. The body was only half clothed – the clothes were soaped with urine.

She had evidently been stricken with apoplexy while combing her hair preparatory to dressing.

REMARKS: This man was a student-brakeman who came into the Soo Line yards last night in a caboose with A. N. Hanson (conductor). The caboose was placed on track #4 with a number of others. The crew continued to occupy it. Track #5 held 14 or 20 freight cars needing repairs. At 11:45 P.M. Crooks stood between two of these cars awaiting - he stood outside the rail directly the stream between the rails. Hanson stood 15 feet away beside his caboose. Just at that time five more cars were "dropped" in on that track by a switch locomotive. The cars between which Crooks was standing were shoved together without warning of any kind (the slack in the strings of cars was all taken up) & his head crushed between the end-sill on #9479 & the bottom ladder iron on car #22578. He was instantly killed. The draw-bar on car #9479 was missing - hence the cars came directly in contact when pushed together.

The body was held upright for a distance of 10 or 15 feet - then when slack came was dropped across the north rail. Hanson pulled them away before the wheels crushed him.

The body lay between tracks 4 & 5 with the head towards the west and about 15 feet east of the wet urine spot. The ends of the two cars between which he was caught, were about 25 feet east of the body - car #9479 having moved appreciably its own length toward the east. The head lay in a large pool of blood with blood running from the nostrils & both ears - the skull was badly comminuted - the scalp was lacerated behind the right ear & brain tissue extended from the laceration. There were contusions on the anterior aspect of both shoulders.

There was blood & brain tissue on the end-sill of car #9479, loop #22578 was the last car in the string - #9479 was next last - & was at the east end. The new cars were dropped in at the west end.

Engineer - Mr. Crooks. Switch-foreman - Mr. Baker.

At 5:30 P.M. Mr. Halvarson came home & found his wife dead in the sewing room. Her body was lying against the bed supported by the throat against the edge of the bed & the anterior aspect of her thighs & knees on the floor.

Examination revealed lividity over the face & throat & some cyanosis. The trachea seemed depressed – there was a considerable space behind the supra-sternal notch. The isthmus of the thyroid was enlarged the larynx somewhat flattened. The trachea was not readily palpable but seemed flattened.

Apparently she had gone into one of her siegures of epilepsy & asphyxiated because of her position with the throat pressed against the edge of the bed & bearing the weight of the upper portion of the body.

REMARKS: Deceased found by D. A. Sylvester, landlord, at 4 P. M. Reported at once to Police department & to Coroner's office. Mrs. Sylvester notified bad smell apparently coming from deceased's room & had her husband go up & find out. Mr. Sylvester let himself into the room with pass key, a yale lock.

Frank Colwell & Arnoldy, detectives, were present, but hadn't looked over things, till Drs. Hobbs came.

Description of room & body – Body lay on floor on its left side, head under edge of dresser, knees drawn up to belly; dress & shirt up to waist, leaving right leg, thigh & buttocks exposed. Only two articles of dress on her, a dark skirt & a red coat & sweater. Maggots swarmed over body & floor. Head & features were unrecognizable because black from settled blood & from pressure of position. Fearful odor in room. Dark fluid, undoubtedly blood, under body & over side of room, directed to corner of room because floor sloped. At the morgue, when body placed on table, blood came from vagina; the vagina probably the source of blood in room. Cloths, blood-stained, were on floor of room, near body; also fecal matter. The bed showed some disorder, but no blood was visible on sheets or mattress.

The room is equipped for light house keeping; a small gas plate & a commode with dishes & cooking utensils being at one side of room. No medicine found except a 2 oz. bottle of castor oil & an empty bottle whose prescription number showed Dr. Sharp as the prescribing doctor on May 31, 1920; had contained lactated pepsin & bismuth subnitrate.

Statement of Mrs. Sylvester, landlady – Deceased engaged this room afternoon of Sept. 25, paying down 2.00 on a/c. Returned at 11 P. M. that night. Mrs. Sylvester says her only once after that, she thinks the afternoon of Oct. 2 or 3 that is the Saturday or Sunday previous to the time body was found. She was walking toward the house with a boy, who looked to be younger & shorter than deceased.

Statement of Miss Luella Deen, who has front room at 80 So. 13th St. – Coming up the stairs to her room one evening about a week before deceased was found, she spoke to Miss Ameson, whose door was open. Miss Ameson remarked that she was very lonesome; & Miss Deen told her to come into her room some time & play cards; but Miss Ameson never came. On Monday Oct. 4, Miss Deen thinks it was, she found a hair net outside Miss Ameson's door, & tapped on the door. Thinking the net belonged to Miss Ameson. She heard a noise & some one was running in the room, & called out to Miss Ameson that she had a hair net.

About 4 P. M. she left home saying that she was going to visit a friend (Mrs. Harder 1605 Stevens ave.). Instead she purchased 1½ cents worth of carbolic acid at a drug store - according to her own story - & went to the General Hospital. When outside she drank the phenol & then walked into the receiving department & told Dr. Eisenberg what she had done. This was at 5:30 P. M.

Dr. David Eisenberg - The patient stated that she had to pay 1½ cents worth of carbolic acid because she was despondent.

A stomach tube was inserted & the stomach washed with sodium sulphate solution. About two quarts were used. The first to return smelled very strongly of phenol - the last smelled but faintly. The girl lived about an hour, then died while the doctor was still working on her.

The body shows no external signs of violence - the lips, tongue, buccal mulous membranes, & gums all show severe phenol burns.

The job was to run water into the house at 2722 - 18th ave. So. Morrison had dug a hole some eight feet deep next the side walk to get at the pipes, when the deceased came about 4:30 P. M., he went into the hole to finish the digging. The hole was walled up with two doors propped apart by stout boards.

Morrison thinks the deceased must have bumped into one of the props, because suddenly the side caved in upon the deceased. Morrison called to him & Brandt answered "For God's sake ~~quick~~ hurry up & dig". Morrison dug until exhausted & so did another man but the earth plowed in from the sides as fast as they dug. Finally the fire department was called to recover the body. Brandt having died in the meanwhile.

REMARKS: This boy, the next two cases, and Lenas. Dupont of 1053-23rd ave. S.E. & Archie Theroux, 1040-22nd ave. S.E. were playing in a sand-pit at Winter & C St. N.E. where the City Park Board was procuring sand for the building of a boulevard when a slide of sand occurred which buried all five of them. Four were completely buried & one Archie Theroux was left with only his head free.

These five lads had agreed when they left school to come back to play in the sand after going home to change clothes. They had been forbidden by their parents, teachers, neighbors and workmen to play in the sand pit at any time. They met at the pit just as the workmen were leaving, procured three hand shovels from beneath the steam shovel & began to dig into the bank where the steam shovel had been working. The bank here was 12 or 15 feet high & averaged nearly perpendicular having a curve in it as described by the arc of the steam shovel. About 5:30 just as they were getting ready to go home, Stanley Burris groped a root & gave it a jerk. A slide followed which buried them all.

A second later there was a crash & the boy had been run over by the right rear wheel.

According to the driver he had sounded his horn some distance down the street & the deceased had looked around and had seen him. The deceased had a little playmate with him named Joseph Olsen who lives from 76 – 8th ave. N.E. This little fellow says that he did not hear the horn at all & is sure that the deceased did not. REMARKS: About 1:30 P.M. while driving toward Minneapolis along the 6th ave. No. road, this man and his car rolled down a 10 or 12 foot embankment, no witnesses of the accident have been found.

Shortly after 1:30 P.M. Chas. Schaffe & Frank Bryer discovered the wrecked car lying upside down with the driver beneath. They rolled it over on one side & found that the driver was dead. They reported to the sheriff's office.

The body is lying on the right side with the head bent forward in the wreckage & top. The feet are still near the floor of the car & higher than the head. The position indicates that when the car was directly upside down, the body must have been supported on the back of the head and shoulders against the ground with the seat pressing against the buttocks & holding it firmly in this position. The face is deeply congested & cyanotic.

The body is that of a very heavy man - it is heavily clothed.

Examination reveals the fact that the white collar worn is so tight that a finger is slipped inside only with great difficulty. The collar (stiff) is somewhat crumpled.

The skin of the neck at either edge of the collar is whitened & furrowed as from pressure. There are petechial hemorrhages beside both furrows. The tongue protrudes slightly - no other injuries found.

REMARKS: Deceased was lying on the bed, naked, covered by bed spread & blanket. Apparently she had taken a bath when she was overcome by lack of oxygen, & was helped to bed or carried there by her husband, who shortly died himself. There was water in the tub, turkish towel on floor was wet, her clothes & nightgown were on the floor of bathroom. The gas under heater for water tank was burning when Mrs. Barnes went into the room & the water in tank was boiling. Mrs. Barnes called Mrs. Swedell, living at 3109 – 4th St. S. E. who with her father D. Alden, went into the room when gas burning. Mr. Alden turned off the gas from under the water. Mrs. Alden turned off electric lights.

Mr. & Mrs. Bare both deceased moved into place at address above about Sept 1, 1920. C. C. Smith, owner, says that the gas range there goes with the house. Mrs. Bare did not want to use that gas range, because she had one of her own – a combination coal & gas range. Her husband disconnected the stove pipe formerly connected with the house gas range, & connected the pipe to his own range, – leading it to the chimney hole. Both Mr. & Mrs. Bare continued to use the house range to heat the water for the baths; the exhaust from this burner was carried directly into the kitchen, & not connected with the other pipes or with the chimney. Two weeks before this accident (the death) occurred, Mrs. Swedell says Mr. Bare called her to the rooms, because his wife was sick after taking a bath; the heater was going that time. Mrs. Barnes living over deceased says she got up in the night, before finding deceased, & opened her windows because she felt so sick, because the air was close.

Mrs. Nellie Bare, living at 792 Sunfew ave. St. Paul, is mother to Raymond Bare & came to address above before Dr. Hobbs left.

REMARKS: About 1:30 P. M, this woman was run over by auto # Minn, 313032 in the following manner.

The deceased was crossing Nicollet on 3rd St. from the west side toward the east. The car driven by Elmer Hanks – 2536 Park Ave. was driving along Nicollet toward Washington ave, at a moderate rate of speed. When about two thirds of the way across the deceased saw the car coming, and instead of continuing her course in which event according to witnesses she would have been safe – she attempted to stop & run back. Her feet slipped & she fell on her back directly in front of the machine. The left front wheel passed over her abdomen. The car almost stopped & she rolled or was rolled out of the way of the rear wheel before it could pass over her. The driver drove his car around the corner on 3rd St. out of the way and stopped.

The above story is given essentially the same by the witnesses Pierce, Smith and Eckman. The husbands story differs in that he states that the car struck the deceased and knocked her down before passing over her & that the driver was going entirely too fast.

The deceased was brot to the General Hospital in ambulance #1 at 1:50 P. M. She died at 2 P. M.

REMARKS: The deceased was injured by a truck (motor) on Nov 18th at 12:30 P. M. in the following manner

The deceased was crossing Hennepin on 5th St. going toward 1st ave. No. Immediately in front of him walked Ed. Tolin (witness) & immediately behind him walked (witness) Marion W. Steel & wife. REMARKS: This woman with her two sons, was brot to the General Hospital at 7:40 P. M. Nov 21-1920 and admitted by Dr. Ellison with a diagnosis of Illuminating gas poisoning.

According to the sons, they all retired about 11:30 P. M. on Nov. 20-1920. The mother slept in one room while the sons slept in an adjoining room. The door between the rooms was open.

At 6 P. M. the next evening, a neighbor, Miss McLeall, knocked at the door but received no answer. The police were notified. They opened a window, climbed in and found the three unconscious in gas filled rooms.

The boys recovered consciousness shortly after reaching the hospital. The mother never again became conscious but died this morning Nov 26th at 4:30 A. M.

The son Hans Olson made a sketch showing the relation of the gas fixture to a near by shelf & clothes rack. He thinks that his mother accidentally opened the jet.

He ran out to front of car & found Kroll lying to south of south rail, clear of the car track. His head to the southwest. He told Gustafson that he thought his leg was broken & that he would bleed to death. Both Helen & Dahl heard Gustafson calling & went to rear of their car, then helped carry Kroll into the Riverside car. Injuries: Laceration thro right side of scrotum, extending down inner side right thigh; also laceration into right side of pelvis; compound fracture of right femur; fracture of pubic bone. Then Mr. Peters noticing an Oak St. Car standing on the near side of 15th ave. headed west, started diagonally across the intersection to reach his car.

According to Smyithe an out bound Como car was just in the act of turning from 4th to 15th. When Mr. Peters had proceeded about 10 feet, a delivery truck belonging to the Wpls. Dry Goods Co. driven by H. H. Tolman, 2714 Polk St. N.E., came suddenly & swiftly around the rear end of the Como car & struck Peters so forcibly as to knock him some little distance & entirely clear of the auto when this had come to a stop. Smyithe does not venture to say how fast the auto was traveling.

According to the driver there was no other car or auto at the intersection at the time of the accident other than the aforementioned Oak St. Car. He states that he was driving six or 8 miles an hour when he saw the deceased & that the deceased ran directly against his radiator. He was practically stopped at the time of the accident.

REMARKS: This man sent his family to Minneapolis last May intending to follow them shortly. He told them (wife & daughter) that he had purchased a house on Humboldt ave. In Sept., he came to the Nicollet Hotel where his family stayed to remain until the house was ready. Since then he has been postponing the moving on some excuse or another until this evening. The hotel bills were paid regularly until Oct 24th, since then he has paid nothing. He claimed intimacy with high officials of the telephone co. for which he worked.

Investigation showed that the house he had purchased is occupied & owned by another family who do not know the deceased. Mr. Lane a man belonging with the Northwestern Telephone Co., whom the deceased said was going to give a dinner for him in the new home on Humboldt ave., this evening, has been in California for some weeks.

At 5:30 P.M. this afternoon, the deceased complained of a diarrhea which had continued for several hours - also of a severe pain in the back of his head. He went to the drug store down stairs & got some Bromo-Seltzer. He came back to his suite, lay down, began to have violent pain in his head - had some peculiar motions, similar to convulsions & died about 6:15 P.M.

Autopsy revealed an area of softening on the right side of the brain in the posterior part of the temporal lobe.

REMARKS: The deceased has been employed by The Russell Grader Co. for five or six years. This morning he was helping to unload steel from a flat-car by means of a boom derrick.

He was helping to steer a bundle of steel to the desired spot when the ~~when the~~ derrick carrying the bundle, collapsed behind him. The king-pin at the top of the mast, slipped from its socket & the mast & boom stick fell to the ground. The boom stick struck the deceased on top of the head.

His scalp was lacerated over the vertex & the wound forming a roughly star shaped lesion. The skull was bare over an area some six or seven cm. in diameter. He bled from the nose & mouth.

Carl A. Gustafson, factory supt., was responsible for the condition of the derrick. It had been passed by the state inspector a number of times & was not to be in good condition. It had been standing for five years. There was a collar on the king pin held by two set screws. Its purpose was to prevent the attachment of the "stiff-leg" from slipping over the top of the king-pin. The state inspector has the collar. The king-pin shows a fresh groove which apparently was made by the set-screw. The collar had evidently slipped off & the "stiff-leg" thus released at the time of the accident.

Widow opposed to an autopsy.

She was brot to the hospital by Dr. Ellison & admitted with a diagnosis of crushing injury to chest & suspected fracture of spine. She died at 11:35 P.M.

J. H. Levin - subsequent statement - Car skidded about a length and a half. Does not think he was going over 15 miles.

H. E. Gerrish - was driving north following Levin. Did not see the accident but heard Mrs. Levin scream & stopped to help them. Thinks the car skidded about a length & feels sure that auto could not have been going over 15 miles. Feels sure that it was an unavoidable accident.

REMARKS: The deceased has been ailing for 7 or 8 months with high blood pressure, "nervousness" and mental disturbances. She had threatened a number of times to destroy herself by jumping from a window. She herself feared insanity. She was admitted to the General Hospital Dec 29, 1920 at 2:05 P.M. on the service of Drs. Morrison & Vail. At 7:10 A.M. today, she climbed thru the window of her inside room on station 3, to the porch. She crossed the porch & opened a window wide enough to crawl thru and jumped to the sidewalk below. She struck on her head and fractured her skull badly. The only eye-witness was Mrs. Mary Muskowitz a patient on the porch. This patient awoke, saw her opening the window asked her what she was doing & receiving no reply & seeing her start to climb thru the window screamed, jumped from her bed & tried to hold her. She was too weak however and the deceased fell.

The night nurses on duty were Miss Ellen Erickson who was sitting at the desk just outside Mrs. Baker's room – Miss Cleveland who was in the kitchen at the time & Miss Catherine Hahn, night supervisor – who was on station 4. Miss Erickson heard Mrs. Muskowitz scream & ran to the porch but was too late to prevent the fall.

The deceased was carried into receiving by an orderly & an ambulance driver. She was dead when reached by Miss Hahn, the first to reach her while lying on the sidewalk

REMARKS: Admitted by Dr. W. L. Crowell at 12:30 A.M. Feb 20-1921. Died at 12:45 P.M. today. Was conscious till death. Dr. Crowell states he could smell alcoholism on his breath, & has word from 3 friends of deceased that he had been drinking during the evening. He was picked up from the street car tracks on Washington ave. So. near 13th Ave. & carried into the store of A. H. Nord 1307 Washington ave. So. It is said to have been picked up by Walter Ahlberg, 535 Sibley St. & Arthur Engholm, 289 Stinson St. both of St. Paul. It is a question if anyone witnessed the accident. Although Chas. Miller, 4301 Nokomis Ave., reports seeing a man who caught on a street car along side the car he was on shortly after midnight, same night deceased was found. Miller was on his way home on an owl car; was seated on front left side of car about to turn south on Cedar ave., another car headed down town was standing along side. A man walked around the rear of said car & seemed to Miller to get caught in some way to the car. It started & deceased was rotated between the two cars. Millers car then started-neither motorman nor conductor seemed to realize anything had happened. A woman, Selma Larson, 3126 E. 52nd St. is said to have been on the same street car as Miller.

Investigation by the claim department of the St. R. R. Co. shows that members of crews of the two cars mentioned above, has no knowledge of an accident occurring night when deceased was hurt.

REMARKS: A Mrs. Alexander living at Belmont told the janitor Carl Schneider that there was a bad odor in the storage basement. About 11 A. M. the janitor found a dull red valise in the storage room of basement, near one of the brick supports of the building. In it was a decomposing fetus. Mr. Schneider notified the manager Mr. Gould, and the proprietor Mr. Ben Schneider. Then called in a patrolman, name not ascertained.

REMARKS: The deceased was struck by an automobile on April 8th while crossing the street near the Holmes school at 3rd Ave. & 45th St. S.E. The injured boy was taken to the Fairview Hospital where he was cared for by Drs. Mann & Hvene Pene. Operated by Dr. Mann on April 9th admitting diagnosis - "skull fracture, intradural hemorrhage, intra-cerebral hemorrhage, laceration of cerebrum." Died April 12th at 3:10 P.M. Not reported to coroner until after autopsy - Dr. Mann then reported. Death Certificate to be signed by Dr. Mann. Unknown woman called on April 13th saying that the boy had died.

Horace J. Peters, 1037 - 12 ave. S.E. - Driver - was driving a Reo car on 5th St. going toward Central ave. at 8 or 8:15 A. M. April 8th, a milk wagon was standing on east side of 5th Ave. As Peters came opposite wagon, a child who had just purchased a bottle of milk ran from behind the wagon & directly in front of the auto. Peters turned quickly to avoid him and in passing struck a dump wagon. The right front fender struck the child (a boy) & knocked him down. The horses pulling the dump wagon shied & broke the wagon tongue. Peters jumped out & stopped the horses. In the meanwhile, Wm. Wells picked up the injured boy & started for the hospital. After a few moments, however, the boy seemed to be alright & Wells gave him a dime for another bottle of milk & sent him to school. Peters thinks his car traveled 30 to 40 feet before he stopped.

Statement of Wilson Wells - Wells was driving 30 feet behind Peters at the time of the accident. Saw the deceased begin to run around a milk wagon standing at the right hand curb. He had just purchased a bottle of milk.

Peters car veered sharply to the left as the deceased appeared from behind the milk wagon. Car struck him with the right front fender & traveled then across the street where it struck a dump wagon.

Wells stopped, picked up the injured boy (crying) and started for the hospital with him. After going a block the boy declared he was not hurt. Wells bot him another bottle of milk, gave him a dime & allowed him to go.

It is said that the injured boy returned to school where he remained several hours, at the end of that time he collapsed.

REMARKS: The following story is told by Mrs. Wm. Kearns, 1309 East Hennepin & her husband & Mrs. Thom. Price who lived downstairs below the deceased.

The deceased & her husband did not get along well & the former stated proceedings for divorce & went to live with her mother on April 25th 1921.

This morning about 10 o'clock Mrs. Brose came to the place where the deceased was living (Roberts Shoes, 1621 E. Henn.) & asked her to come home for lunch at noon in order that they might discuss & settle their differences peaceably. Mrs. Brose consented & walked home with Mrs. Kearns whose advise she asked. Mrs. Kearns told her to call for help in case Mrs. B. broke (mistreated her) & left her at her own door. This was about 12:10.

Mrs. Price who lived below the Broses saw Mrs. Brose come home & just at the same moment heard Mrs. Brose upstairs cross from the front window to the rear of the house. In a few moments she heard loud talking. Hearing real trouble she ran to the Kearns home & asked them to call for the police & come to help her. Meanwhile Mrs. Brose was heard to scream. Mrs. & Mr. Kearns ran back with Mrs. Price. Mrs. Kearns reached the head of the stairs just in time to see Mr. Brose on his knees in the bed astride his wife who was helpless on her back. He was threatening her with a revolver. She was heard to plead saying "Frank don't shoot me. I'll live with you!" He replied "You'll have me arrested" & with that he shot her in the head. Mrs. Kearns stated down the stairs with her husband & Mr. Price. Two more shots followed in rapid succession.

When officers McCormick arrived, both were still living. He sent for the General Hospital ambulance. Both were dead when the ambulance arrived.

The bodies lay side by side in bed when found. The woman on the left & the man on the right. The revolver was held in the man's right hand with the muzzle enclosed by the fingers of his left, which were powder burned. It contained three empty cartridges & one loaded one. The calibre was 38.

There was a perforating wound in the left side of the woman's face just below the zygoma and about an inch & a half anterior to the lobe of the ear. It was about 1½ cm. in length & gaped about 8 mm.. There was a powder burn surrounding the wound which was about 2 cm. in diameter.

A wound of exit was found in the hair slightly above & about an inch posterior to the right ear. Brain tissue was seen and the blood in the hair. There was profuse bleeding from the mouth.

The single pillow in the bed showed a scorched area fully 6 inches in diameter with a bullet hole in the center. Under the pillow against the mattress lay a flattened bullet.

REMARKS: The deceased was injured in a freight elevator in the following manner according to two eye-witnesses Myron L. Derby, 1906 - 3rd Ave. So. & R. B. Boothroyd, 219 - 5th St. No,

Derby was talking to the deceased as the latter stepped into the elevator & started it upward. The elevator is a slowly moving type. No gate in front. Derby turned as the elevator started. He had not proceeded over 20 feet when he was startled by the fall of some large iron hooks carried by Boothroyd who was walking toward the elevator. He turned just in time to see the body of the deceased drop down the elevator shaft to the pit, 30 feet below.

Boothroyd proceeding toward the elevator, saw the body of the deceased, back toward him, hanging over the front of the elevator floor. The elevator was already almost even with the ceiling. Apparently the deceased was hanging by the left hand, from the elevator control. As the elevator disappeared upward the body dropped. There was no outcry altho the deceased kicked.

He died about 30 minutes later at the General Hospital.

The head was very badly crushed especially on the right side. The right eye was missing & the brain substance partially extruded. Apparently it had been caught between the edges of the second floor and the floor of the elevator - there was blood on both.

Time of accident 9:10 a.m.

REMARKS: The deceased had been out of work since January. His brother knows of no signs of mental depression, however, & the neighbors & friends had noticed no mental depression.

He was last seen on June 18th at 11 P. M. by Alice Dybeg a neighbor. The family with whom he roomed had been living at the lake recently - he was alone at the time of his death. A family living upstairs had not seen anything of him for a number of days & investigated - their name is C. J. Olson.

Olwen Hanson, 1223 Spring St, & L. S. Johnson, 1223 Spring St. removed a door by taking off the hinges & found the deceased lying dead on his bed in his bed room just off the kitchen. His body was clothed only in a suit of B. V. Ds. & was badly decomposed & swollen beyond recognition. The doors were all locked on the inside & the windows closed. A shoe hung from the key in the kitchen door. A rug lay rolled at the foot of the bed room door. The gas jet was turned on only about 30°. The room was full of gas. Suicide is strongly suspected but because of the condition of the jet & statements of the brother concerning his mental attitude a diagnosis of accident is made.

The body was too badly decomposed to admit of autopsy.

Niles, attorney, 2226 Eaton ave. St. Paul, Paul A. Preus, 129 Macalester ave., St. Paul, & a Mr. Pope, were present when deceased complained of his illness. He vomited violently 2 or 3 times, then a doctor, Dr. M. W. Lyons, Temple Court was called. After repeated lavageing, Dr. Lyons had deceased taken to Eitel Hospital. Dr. Lyons says that deceased told him that he had taken the same medicine that Judge Steele took last year. At the Hospital deceased said no one had advised him to take the medicine; this statement made when he was asked if a doctor had told him to take it for x-ray examination.

Mr. Geo. H. Niles says that deceased had been working under great mental strain; was worried about some business deals, and a few minutes before he appeared ill he had seemed confused

A later connection with Mrs. Turrittin's widow of deceased, brings out the fact that on the morning of the day of the fatal illness deceased had left word for his stenographer that he would be late as he had to go to a doctor for a thorough examination of his stomach
