REMARKS: accident occurred about 1.45 P. M. Nov 18, 1921 on the Great Northern track #2 at Broadway & Central ave's, about 200 feet East of viaduct over track #1 on Central ave. Deceased was pinned under a box car which had been knocked off the track by a Great Northern passenger train, pulled by engine #1073. This passenger train is known as No 2304 934 on the short division. Engineer Benedict, 1401 Ann Ave. So. Minneapolis, was the engineer and Otto Sueber, 1703 - 24th St., Superior, Wisc. was the fireman on the passenger train. Deceased was performing his duties as switchman. His foreman was James Sullivan, 1111 - 16 Ave. S.E. An investigation conducted Nov 19 showed that the accident occurred as followed. Great Northern passenger train was going east on track #2. Just before reaching viaduct Engineer Benedict slowed down his train by applying air brakes. He then released brakes and when he was about 4 car lengths from switch X, he noticed switch was open & again applied brakes trying to stop the train. The brakes had not had time to recharge & did not hold train. Engineer Benedict also states that brakes had not been working properly since he left Duluth. Switch X being open, passenger engine went thru open switch & struck middle car of 3 standing at frog on track #3. Middle car was demolished and knocked over to track #4. Deceased was coupling up these cars on track #3 while the switch engine was several hundred feet further East on track #4 doing some switching. This was yard engine #835. Sullivan, deceased's foreman, states that deceased was between track #3 & 4 coupling up the cars which the engine was to pick up in 5 minutes. Deceased was pinned under the front end of the rear car on which he was working. His head & chest were crushed. There were 13 cars on the passenger train. The switch X which was open should have been closed. The last train to use this switch was the St. Paul Transfer train consisting of about 90 cars. E. R. Emerson, 1716 Cedar St., St. Paul was engineer on this train - Engine #805. He said that his train pulled through in the usual way & at the usual rate of speed. In the vicinity of the accident, the train passed through 4 switches. This train was going west & passed switch X about 12.55 P. M. Wm Braback, 731 E. Lyon St., St. Paul states that he closed switch X in the usual way. Braback was switchman on rear of St. Paul transfer train. M. W. Keppel, 708 Simon St., St. Paul was foreman of switchmen on St. Paul transfer train. He states that he saw Braback throw switch properly. He states that he was standing on rear platform of train. Both Braback & Keppel admit that they failed to throw the other 3 switches in the vicinity of switch X in the proper manner but that 1 some section men threw 3 switches & 2 others. They insist, however, that switch X was properly thrown. Keppel claiming that a section man, J. A. Matt, standing on rear of a 500 Size transfer train, Engine #96 saw Braback throw switch. J. A. Matt when interviewed by Mr. Barnes states that he saw neither Crew throw switches involved in case. Blanks 3rd Mtg. R. R. (Yellow book) Causes of passenger trains. Pencil sketch diagram showing course of St. Paul transfer train. H. C. McDonald, 741 Iglehart St. N. W., assistant yard master states that no orders were issued governing 10 switch. Switch X points St. Paul transfer train passed. Conductor on passenger train was C. A. McDonald, 3 people were injured in train.

Prosecution investigating Story of Braback, Keppel & Matt. Defense counsel present. Braback, Keppel & Matt, switchmen, called before Grand Jury. Nov 29th. Grand Jury finds no indictment against Braback, Keppel & Matt. Railroad officials present.

REMARKS: Deceased died Mar. 10 at 11:45 a. m. - He was brought to General Hospital from 1127 Marquette by amb. j't admitted Mar 9 at 11:05 a. m. H. H. by D1, Hansen C diagnosis of illuminating gas poisoning to service Med. a. j't - D1, Bayard (intern) - Wife, Mrs. Alice Comerford, interviewed at office. She states that she saw her husband on March 6 when she went to St. Paul to visit some relatives. She returned home Mar 9 at 9:45 a. m. and found her husband unconscious in bed & the room filled C gas. Deceased had a cold on his chest when Mrs. Comerford left home on Mar. 6 & had purchased some patent medicine at the drug store and gone to bed. Deceased was last seen on Mar. 7 by Mrs. Albert Anderson, the land lady. On Mar 8 about 3 P. M., the records of the gas Light Co. Mpls. in service Dept. show the the gas was turned off at 1127 Marquette for repairs at 1127 Marquette. This information was obtained from C. McQuine of the gas Co. - Mrs. Comerford advances the theory that one burner of a gas plate in the room where deceased was found was turned on & had a self lit burner torch for the light in the room was out, being turned on & not lit because the gas Co. turned the gas out thus putting out the light when the gas was turned on again, it was not lit. This theory is supported by Mrs. M. Stiff 1127 Marquette. Mrs. Raymond Anderson, 1127 Marquette, who came into room right after Mrs. Comerford entered room states that tubing was pulled out of gas pipe & turned on as far as possible, also that gas for light was turned away on. Deceased was taken out of room by Mrs. Stiff & Mrs. Albert Anderson where he was found by General Hospital, D1, Hansen,

REMARKS: Same as previous case.

Father of deceased lives at Stevens Point, Wis. His name is Swancutt — Keyes had his name changed to Keyes when his mother married the second time. Deceased's room at Curtis Hotel is locked up.

Ewald Eichhorn, 751-8 ave. So. interviewed — Mr. & Mrs. Eichhorn moved into their apartment which is just in front of Mr. & Mrs. Harold Hanson's about 2 weeks ago. On Sunday afternoon, April 30, Mr. Ewald Eichhorn, Mrs. Ewald Eichhorn, Miss Virginia Kwapick of 751-8 ave. So., Mr. Harold Hanson, Mrs. Mary Hanson & Mr. John Keyes went out to take Harriet together about 1 P. M., before leaving the Eichhorns apartment Mr. Hanson & Mrs. Keyes went down to 6th ave. So. & Washington & bought a pint of liquor which they took upstairs, Keyes at Mrs. Harriet, Mrs. Hanson acted very angry at Mrs. Keyes and Miss Kwapick, she told her husband that Keyes & Miss Kwapick were too stuck up upon her. The party returned to 751-8 ave. So. about 9:30 P. M. Mr. & Mrs. Hanson went to their room. Mrs. Hanson accused Hanson of putting his arms around some other woman & was angered & jealous and came into Eichhorn's apartment and began to abuse Keyes. She called Keyes a "dutch son of a b——" This made Keyes intimated and he said he would get her for calling his mother such a name. He returned to Curtis Hotel for awhile & soon came back & sent away by the Eichhorns & Miss Kwapick. When the Eichhorns returned they found that Keyes & Mrs. Hanson had been arguing again & the police had been there and had quieted them. About 12 o'clock Keyes returned to Eichhorn's apartment and had a "rifle" and a revolver in his hands. He said that he had 6 or 7 drinks and that he was going to get "Mary" now. He flashed his revolver and said "You are 3 shots for her & 4 for Mary". Mr. Eichhorn, Mrs. Eichhorn, & Miss Kwapick heard him make this statement and saw the gun. Eichhorn took the gun away from Keyes but Keyes again found it and left the apartment. Eichhorn then took his rifle & Miss Kwapick to a hotel for the night fearing developments. Keyes got to Hanson's apartment & pounding himself against the door when it was partially opened by Mrs. Hanson who rapped. Hanson states that Keyes pointed the gun at Mrs. Hanson, saying "Now, I'll — you" and fired. Hanson threw himself between them just as Keyes fired again. When Hanson turned around & saw Keyes fired. Keyes had the revolver at his right temple & fired. Hanson states that Keyes was a drinking man. He first met him a year ago & was drunk. A gun was found in Keyes room at Curtis Hotel, but the manager of the hotel states that he knows that Keyes had 2 guns.

REMARKS: Dr. E. G. Swanson notified Coroner's office. Deceased was found dead, lying on floor of his room, by his wife & son at 7:10 P. M. Deceased lay on his back his feet slightly apart, hands on abdomen. In front of him was a table; on the table lay a revolver, clip containing several cartridges; also a small oil can & a barrel cleaner and a .45 revolver. On breaking this we found one empty cartridge. Deceased was dressed, but in his shirt sleeves. Over the left chest the shirt was torn as if an effort had been made to relieve pain in chest. No powder marks appeared on the skin by wound of entrance which was 4 cm with 3rd interspace on left side. Wound of exit appeared in back, slightly below level wound of entrance and near mid line of body. A bullet was found in the leaves of a book in a shelf opposite the table on which lay the gun. Deceased was careless in handling his firearms, according to Dr. Swanson, who was a friend to deceased. The wife & boy both state deceased was happy & had no reason for self killing. The chances are that deceased was about to clean the barrel forgetting that a bullet still remained in the gun and may have been preparing to squirt thro the barrel when in some way his finger came in contact with the trigger. J. M. Griffith, 2220 Hennepin ave., a friend, says deceased handled his guns carelessly. Mrs. L. A. Baldwin living in same house, 2219 Dupont So., states that there was no domestic unhappiness

REMARKS: A. R. Ade, Deep Haven grocer about 6:30 P.M. — saw deceased in Kronicks auto by the roadside, & notified Geo. Stuard, deputy Sheriff. Sheriff Brown notified coroner's office. Deceased was on seat of car on right side partially leaning over against right wall of car — in rigor mortis, his head on a bundle of clothes. A 22 revolver was picked up by the roadside 150 yards North from where the auto stood. A 22 Cartridge was found on car seat. Sheriff Brown says 2 empty cartridges were in the revolver chamber — a bullet wound, very small was under left nipple, in 5th interspace, the skin being powder marked. Bullet passed thro shirt & under shirt. The auto was in gear & the switch turned as if car was going.

A conversation with C. Lipkins, general manager of Mpls. Kronicks revealed fact that deceased had been drinking of late, had been short in his accounts; on Wednesday, the day before he was found he had shown his revolver to a woman in Hopkins, who identified the gun shown her by a deputy sheriff picked up near deceased, as like the one Hawkins showed her.

Lining to deceased's right hand pants pocket was partly inside out, as if turned out when he pulled the revolver out of his pocket.

R. tracks at Buchanan St. N.E. & Broadway - A N.P. engine going North west #1579 struck the Pierce Arrow truck it was crossing the R. R. tracks going North. Officers J. P. Franks & Serg. Geo. Hensler East Side Station went to scene of accident. Dr. Franzen attended deceased at St. Barnabas Hospital. He catheterized patient & found the urine bloody. Deceased was employed directly by Holland & Hlynn who were in turn excavating for J. C. Brophy & excavating Co. Deceased had been so employed for 3 months by either for J. C. for High School. Mr. Brophy gives the following account of fatality which he says: Deceased was driving a Pierce Arrow truck heavily loaded with material, going North on Buchanan St. N.E. as he approached the N. P. R. tracks his truck was badly creeping up a slight incline south of R. R. tracks. He was well over on the right side of the street & when on the R. R. tracks he figured his truck over toward the left to avoid heavy mix on north side of tracks. When he had almost cleared the main track, the right side of his truck was struck by a N. P. R. R. engine going northwest. Truck was carried along 60 to 80 feet on cow-catcher of engine till it struck a freight car standing on siding to right of engine. Deceased apparently was thrown from the truck by impact of truck against this stationary freight car and was lying on his back on the ground near freight car. Mr. Brophy reached deceased just after he landed. Emergency ambulance took him to St. Barnabas Hospital.

Mr. Brophy says that the N. P. engine was a week east of the Broadway railroad crossing when the truck was just getting onto the Buchanan St. railway crossing. That is the R. R. engine was several hundred feet east of the Buchanan St. crossing and was going at rate of speed about 10 to 15 miles per hour. Brophy said engine did not slow up even when it struck the truck.

Deceased was conscious till death. As Mr. Brophy reached him he said he thought he would get free & safe, but that when the truck struck the freight car the impact threw the truck from under him feet.

Statement Walter Ryan, engineer, was on 2 14000 # engine taking engine to North Town Iron repair shop St. Paul. Did not see truck till it struck the gondola. Heard fireman say he was afraid they were going to strike a man. He put on brakes reversed engine - but engine slided 3 or 4 feet before it stopped. He whistled for Johnson St., for Broadway, then an extra whistle for Buchanan. Saw deceased after truck struck gondola. Whistled again when fireman hollered. Speed 8 to 10 miles. Was about 30 feet from Buchanan when fireman called out was on right side of engine.

Statement of E. J. Stevens, fireman. Engine was within 40 feet of Buchanan St. when he saw deceased was going to cross R. R. tracks. He called to engineer. Engine was stopt with cab even with east end of gondola. Had been with N. P. for 7 years.

REMARKS: Death occurred at 7:30 P.M. at home of W. E. Gordon, where deceased had been since Sept. 25, 1922 for treatment for supposed cancer of left side of back. Dr. J. B. Perkins, Leamington Hotel, had attended her for five days because of a diarrhea. This doctor is associated with the so called Erickson clinic at 816 Nicollet ave., an organization which electrically treats cases of paralysis & deafness. Deceased, however, did not have any electrical treatments, but insisted on having W. E. Gordon, who is unlicensed, apply a salve he uses in so called treatments of cancer. Theodore Teske, husband, of deceased says that 1 year ago Mr. Gordon cured a sister of deceased who had a cancer. Doctors in St. Cloud told Mrs. Teske she had a benign tumor; Dr. Perkins in Mpls. told her the growth was not a cancer, & advised its removal. Dr. Noonan was called & was at the address where death occurred when Dr. Hobbs arrived. Detective Marxen was present. L. H. Monte, with the Erickson was present.

REMARKS: Admitted Dec. 9, 1922 by Dr. Watson about 2:30 P.M. Died today at 2 P.M. No one knows just how accident occurred. The manager of the Athletic Club Mr. E. D. Morrison says he had just stepped off the elevator on main floor. He had started to walk away when he heard screams. He saw the bottom of the elevator, which was stationary between lobby & 2nd floor. Leon C. Warner of the Warner Hardware Co. & Mr. Morrison both state the door of elevator was closed. Deceased was found within the elevator cage, entire body inside, & door closed. She could give No clear explanation of accident. – Supposition is that she involuntarily started elevator which fairly jumped upward – probably the door was open wide enough so that when she stepped off her feet one leg protruded thro the door, getting caught between floor of elevator & ceiling; but she could pull herself back. Abrasions on left arm & thigh would indicate she was caught at level of arm & was dragged. Elevator stops as soon as hand is removed from lever.

REMARKS: Deceased died in Emergency Ambulance on way to St. Marys Hospital, Mpls. from Lowry Ave. N.E. & D.M. tracks. The Ambulance arrived at Hospital at 11:17 P.M. Deceased was a patient of Dr. Webb. Deceased was injured in Hadley yards of D.M. Railroad in Anoka County. He was a switchman working on Hadley yard switching crew - Engine #96. The crew was made up of the following men who have been interviewed. Engineer:- Earl Dristrig, 323 Johnson St. N.E. - Fireman:- Al Nelson, 713 Pierce St. N.E. - Foreman of switchmen:- D. W. McCormick, 3301 Grand Ave. - Switchman, Peter Tisch, 557 University ave. N.E. The accident happened at 10:45 P.M. Track No. 9 had been filled & car & engine pushing 6 cars was to back cars into track #8. Deceased was standing on foot board at front of engine. Switch No. 8 had been lined up but 9 was still opened, so cars were pushed into track 9 again instead of track 8. This caused a bumping of cars already on track 9 & those being pushed by engine. Deceased had apparently released pin coupling engine & 6 cars being pushed. The sudden impact of cars on track #9 - those being pushed by engine threw deceased between coupling of engine & car where he was found by McCormick & Dristrig. Dristrig had thrown switch 8 properly but no one had thrown 9 as should have been done & accident would have been avoided. Deceased was put on engine & taken to Lowry ave. N.E. where he was taken by Emergency ambulance to St. Marys Hospital. Examination of deceased showed that his chest was crushed, ribs from 7 & below on both sides being comminutely fractured. There was also a puncture wound into right chest cavity on 7th rib. Spine in mid dorsal region - the back was broken about 10 to 12 dorsal vertebra. It being possible to double deceased over. There was bleeding from nose & mouth.
