REMARKS:

Deceased found dead in bed at 11:40 A. M. by Chas. Schriver, son of proprietor of rooming house at address above, Fred Schriver. Deceased worked mostly for the Waldorf Paper Produce Co., as stock handler. He retired at 9 A. M. leaving word to be called at noon. Room in which he was found dead is directly over a room which was being fumigated for bed bugs with hydrocyanic acid. Proprietor of firm doing the work is H. V. Smith, 1602 University Ave. S. E. Mr. Smith states that no one was on 2nd floor when he started fumigating, that he carefully ordered that no one should be allowed in any rooms upstairs on 2nd floor. Mrs. Fred Schriver told Dr. Hobbs she told deceased not to sleep in his own room but to take either the room in which he was found dead, or a front room on 2nd floor. The floor at front where the hot water pipe enters bedroom upstairs, where deceased was found does not fit tightly about pipe, and it might be the gas fumes penetrated thro this hole about the pipe. A pungent odor pervaded all the corridors & rooms upstairs. Detectives J. W. Delong & Chas. Van Rieken were present when Dr. Hobbs talked with Mrs. Schriver. Patrolman Chas. Peterson & Fred Olson also were present. Mr. Smith states he has been in this fumigating business 8 or 10 years & never had a similar accident. Dr. Hobbs reported case to County attorney Olson April 2-1923.

Mrs. A. Conny, in Apt. #4 directly below room occupied by deceased, called janitor Chas. Lindrud to find out why water was coming thro her kitchen ceiling, at 7:30 A.M. today. He entered apartment above & found the faucet at sink open & the water all over the floor. As he turned around he saw deceased under the kitchen table, without clothes, his body charred in places. He notified police department & officers John Staulo & Larvin answered. The facts probably are these: Deceased in lighting the gas range got his arm near enough the blaze to ignite his bath robe, which flared up & burned quickly. He rushed to the sink for water but was unable to check the flames. Then he squirmed along the floor getting as far as the table when he collapsed. Mrs. Hayes is visiting in Spencer, Iowa for about one week. A coffee pot, was on the gas range, still warm when officers arrived. Soft ashes were on top of range & on tray under the burners. Ashes were on the sink and on floor - no trace of kind of cloth being positively visible. - Diagram of room in little book.

Young, Supt., 116 Malcolm St. S.E., Mike Matosky, 144-16 Ave. N.E., helper, heard some peculiar noise in the gears and the beams. - was only a few feet away from deceased. - He noticed something wrong so he threw off the switch & stopped the machine. Deceased was then found in the gears - stump of left arm wound around shaft - nothing wound tight in both pinions. It seems as if his overall jacket had been caught & in that way pulled him into the gears - and it appears as if he was taking a sample from the opening just beneath the gears - his scoop was lying by the opening. He had gloves on his hands & was wearing overalls. Stump of arm was wound tight around shaft below the two small pinions. Head and face up against big gear furthestmost away from door - face and face bones partly torn off.

REMARKS: About 1 P. M. Carl Nygard of 5222-4th St. No. saw him (the deceased) drive up into his yard. Nygard was coming to do some repair work on a pump for the deceased. As he (Nygard) came into the yard near the house he saw the deceased lying on the ground with his head bent clear over. He was still jerking & gasping as Nygard straightened him out but did not show any other signs of life. Nygard went to find some water but found him still as he came back and he notified neighbors Mrs. Merengarton who called the sheriff's office. Deputy sheriff Spooner was there when I arrived and gave some information. Mrs. Merengarton had seen him as he drove past her place a few minutes before very drunk and cursing and using abusive language. The wagon had struck a tree - part of wagon box broken - and this jar evidently threw him off the wagon. A brother Albert Manikowski at 14th ave. & 4th St. N.E. was notified.

REMARKS:

Dr. Hoaglund was called about 9 P.M. & advised that the boy be taken to Swedish Hospital. The history showed that 4 weeks ago the boy fell off a bicycle & bruised his right hip. Two weeks ago he had to go to bed. Drs. Dart & Darling saw him before Dr. Hoaglund & they felt that muscle bruising was the trouble. Symptoms of a toxemia developed. Apparently from the autopsy, the injury had no relation to the leukemia. Fred Bruckelmeyer is the father.

REMARKS:

Deceased was found lying on the sidewalk in front of 403 Washington Ave. So., Lenox Hotel, by a man (name unknown) who took him to General Hospital in his car. Admitted to Hospital at 4:20 A. M. He was unconscious and had a laceration of scalp right hand and left elbow. Never regained consciousness and died at 5:25 A. M. Admitted by Dr. Mer Kent and put under the service of Dr. Rosenfield. His brother Oscar Soderlund made the statement (corroborated by clerk in the Lenox Hotel) that Carl Soderlund had been drinking "moonshine" heavily for a couple of weeks; that he had been out of his head and had delirium tremens nearly all week and that his brother, Oscar, had kept close watch over him since Thursday trying to get him sober up as they were going back to work for Burnbarden on Monday. Oscar had taken him to General Hospital yesterday and the Dr. gave him some pills to keep him quiet. Saturday night he said he was feeling better and told his brother Oscar to go to sleep and both lay down on the bed. When Oscar awoke the police were in the room and told him that his brother had been found on the sidewalk + was taken to the hospital. The brother was arrested, but later released.

REMARKS: Left General Hospital on July 31, 1923 against the advise of attending staff doctors. Had been in Hospital since July 22, 1923. Had hemorrhages from gums & nose & hemorrhagic symptoms over body. Had an accident July 4th while riding motorcycle; rear tire came off and he rolled over several times striking on right hip and back of head. Not unconscious at any time but dizzy. Dr. Fahr attending physician states that history showed symptoms of disease before accident, that accident had nothing to do with disease or cause of death - only coincidence. Had been treated by chiropractors before coming to hospital. Was in dying condition when he left hospital & was taken home.

REMARKS:

The deceased was in her usual mood yesterday and walked out to Minnehaha instead of going to her sister as she had planned. She stopped in on her way home and bought a 1 oz bottle of carbolic acid. After supper she sat down and read out of the hymn book before going to bed - got up just before 6 this a.m. and started to prepare breakfast - a few minutes later she came running in to her husband threw herself over him in bed and told him she had taken poison. She told him to call her brother-in-law John Sievertson who roomed upstairs at their place and call the doctor. After this she was unable to speak any more. Her husband gave her milk to drink and what he thought would help her for the poison. John Sievertson went to call General Hospital and ambulance arrived at 6:45. Efforts to get a stomach tube down proved futile. She died at 9 a.m. In her purse was a note to her brother C. M. Solem - the note says: I am heart broken and can't stand it any longer. She had been sickly of late due to menopause disturbances and had been treated by Dr. Hvosly. She had never had any children.

Neighbors put out the flames with rugs. A gasoline salesman said the explosion may have resulted from friction, for the dress had fancy buttons on it. REMARKS: Accident occurred about 8:35 P.M. A taxi cab, red top, driven by Melvin Cain, 926-6 Ave. So. struck deceased as he was running diagonally across the street and the impact threw his head against the north curb, fracturing his skull into many pieces. Cain was driving West on East Hennepin Ave., at an ordinary speed & when he saw deceased ahead of him a few feet away he tried to avoid him by turning to the left. He jammed his brakes & the car skidded turning 1/2 way around, the back left wheel resting up on the curb. Deceased seemed to be about 3 to 4 feet from the curb when struck by front of car & the impact probably drove his head against the curb. Bone & brain substance were on pavement about the head. Deceased lay on his back, feet toward center of street, at an acute angle to curb. The driver M. Cain was taken to East Side police station where he was questioned by several police officers & by Dr. Hobbs. The brother J. T. Branfield of Anoka, Minn. is assistant steward in Hospital for Insane in Anoka.

REMARKS: Admitted Sept. 30-1923 at 6:15 P. M. & attended by Dr. Andine & Dr. Theo. Tennyson. Died at 6 A. M. today. Nurse in care Miss Florence Nelson, interne who saw her, Dr. Anderson. Her husband, Chester S. Nelson states that he & wife had been estranged for 2 mos. but had just effected a reconciliation; they had been out riding in his car & about 5 P. M. had returned home. He was tending their 8 months old baby, when she went into the bedroom off the kitchen to get their strong box; & later to prepare supper because he was going out on a business trip. He heard a sound like a gun report, then a cry from deceased. He rushed into the room & found her lying on the floor by the closet. He can not tell the position of the 22 rifle which had accidentally discharged & in fact didn't know she had the rifle there. She was taken in police ambulance to Swedish Hospital, where she repeatedly stated that the rifle was pulled off the shelf as she was getting the strong box. Asserted her love for husband & children. She has a boy 10 years old by her first husband, & 2 by this man, one 2 1/2 years & one 8 months old. Mrs. Nelson is in the insurance business. A small bullet wound of entrance is in left chest a level of 12th rib in line with apex of heart & about 4 in. below 4th interspace. Skin is burned & powder marked & has a very definite outline as of the end of the barrel - Is suggestion of the barrel being held directly against the skin. Efforts to probe direction of bullet unavailing. No wound of exit.

Death occurred at office of Dr. R. M. Sullivan 1502 Nicollet Ave. About 9 A. M. The child had a small gland abscess, left submaxillary gland, probably tuberculous. The father, Walter Connolly, brought her to the office to have it opened. Mrs. Sullivan, the doctor's wife, a graduate nurse of St. Marys Hospital gave her a few whiffs of chloroform thro a mask, about one minute of time & withdrew mask before Dr. Sullivan cut into abscess. The child jerked her foot as the knife penetrated abscess; stopt breathing at once. Stimulation with adrenalin & atropin directly into heart failed to resuscitate her. Only 3 persons were in office Dr. S. & wife & father of child. Deceased was lively & apparently free of any cold.

* Telegram sent to Alfred Jorgensen, 2618 No. Harding Ave., Chicago charges 62¢

REMARKS: Detectives Otto Wirtensohn & John Stavlo broke into basement rooms where deceased lived about 11:30 a. m. today. Deceased was in upright position in a chair beside a 3 burner gas plate, all were open, & also the gas light jet in ceiling was open. Rigor mortis was marked. Officers Seawell & E. Olson were present when Dr. Hobbs arrived. A bottle containing fluid of aromatic alcohol was on table. Deceased was well known by Mrs. Stieble, 1418-4th Ave. So. who states she never knew deceased drank liquor; that he was well as far as she knew. She states his real name is Peter Jorgensen & that he has money on deposit at a bank on Marquette Ave. Telegram sent to Alfred Jorgensen, a nephew, at 2618 No. Harding Ave., Chicago brings an answer that no other relatives are in U. S. & that he, the nephew, is unable to assume burden of funeral expenses. Deceased & Chas. Baltuff, the case previous, were together in deceased's room when found by officers at 11:30 a. m. today.

It is possible that Mrs. Baltuff had come into deceased's room & attempted to close off the gas, if it was overcome by the gas before he could help deceased. There is difficulty in accounting for the opened gas jets - if gas plate & light in ceiling along the line of adjacent. The question in diagnosis as to whether possibly cause of death is not suicide instead of accident.

Slight abrasions present over skin of right temple. Further inquiry reveals that deceased had to be helped across the street earlier in day because of dizziness. When he fell off the chair at death he bumped his head ^{very hard}, according to Mr. Dube's statement. Probably this fall accounts for the hemorrhage into muscle of right temple & beneath dura.

Report of toxicological analysis showed Carbon monoxide poisoning.

REMARKS:

Deceased was a S. M. switchman & according to Mr. Dayton, 216 West 32 St. foreman of crew he worked outside all forenoon & at 2:30 P. M. he asked to go home. Said he was to have a card party & wanted to go home & get ready. When wife came home at 3:20 P. M. deceased was in kitchen working with a violin. He had drunk some. After supper Mr. & Mrs. Geo. Gorman and Mr. L. S. Collins, 913-4 Ave. So. came & played cards to 10:15 P. M. After they had left the wife went to bed. Deceased sat in chair in front room & then laid down on couch. The wife came to him at 11:00 and found him dead. She notified Geo. Gorman, her son, at once & he returned in taxi before 12 M. Dr. Andine was called and arrived before M. The people upstairs say they heard deceased playing violin at 10:30 P. M. The house is lighted by electric. The only gas is stove in kitchen. No bath room except on upper floor. The deceased had always used alcohol & was always drinking some. The post mortem findings were that of C. O. poisoning but seems there can be no history of gas connected with the case. More probable due to poison in alcohol (see autopsy note). Dr. Andine says he died of "heart failure". Dr. Webb operated for hernia in Aug. 1923 & says he was in good condition.
