It appears likely deceased drove from St. Paul on St. Anthony trail toward East River Road and then crossed the River Road and hit 120 feet from edge of river bank - tops of trees were knocked off by the car. The drop off is sharp. Distance from edge of bank to road is 35 feet. Deceased could not have gone north on River Road on account of obstruction of two telephone poles on side of bridge. REMARKS:

Deceased was found dead lying on the floor of what looked to be a sitting room on 3rd floor, apt. 5, at 527-9 St. So. A roomer Hans Hagen, started to go to the bathroom at 10:30 A.M. today, + smelled gas in the hallway. He opened the door into room above + saw deceased on the floor; he stept into the kitchen, the door of which was open, + found all the burners open + unlighted, of the gas range. He turned them off + called the police dept. General Hospital ambulance also was called. Detective Kramer was present when Dr. Hobbs reached the place. Deceased lay on his back, his left arm was out of suit coat + overcoat + shirts unbuttoned; dependent parts of body were brightly pigmented pink. No rigor mortis present. Mr. Hagen told Dr. Hobbs that deceased slept with him night of Feb. 16-1931 — that frequently he came to the apt. + shared his bed; that he had known deceased 6 or 7 years, that he was out of work, was very quiet, + that he was drinking when he, Hagen, saw him late yesterday. Some one had said deceased was seen on 3rd floor around 4 A.M. today; he was not a regular roomer at this address, but none of the roomers could tell Dr. Hobbs where deceased lived. Mrs Clara Derrick is landlady for this building; Edward Peterson another roomer told Dr. Hobbs that Mrs. Derrick said deceased never roomed here, but that he came to the place often. Apparently more or less drinking is going on at this address all the time. A brother lives at Durand, Wis. + deceased formerly lived at Mabena, Wis.

On the right hand corner of elevator floor is a small pool of blood, on the inside of guard gate same corner is some blood and and a small piece of scalp tissue and hair; a board on gate at this point is freshly broken. The probability is that deceased from the 2nd floor was running the elevator up - Before elevator came to 2nd floor he opened the guard gate and was struck by the platform of elevator, knocked against the inside of gate + then swerved under the platform + dropped to the bottom. Likely he held the gate open with right hand and was attempting to stop elevator with his left when he was struck. His loaded truck ready for the elevator was near elevator on 2nd floor.

REMARKS: Deceased had entered General Hospital as a probation nurse on March 30-1931. Deceased lived on 7th floor in nurses dormitory. She was on her way to breakfast about 7 A. M. when she pushed the button for the elevator. When the elevator came to her floor she opened the door, but the elevator kept on going up and evidently she did not see that the elevator had gone by & stepped into the shaft and fell to the bottom.

Marjorie White, a maid stated to coroner that she had pushed the button on 8th floor for the elevator and shortly afterwards she heard some one open the elevator on the floor below and then there was a noise & a commotion. Marjorie White became so confused she could not remember whether the elevator reached the 8th floor or if it stopped between 7th & 8th floors. Dr. Walter Brinkman was the first doctor to get to the deceased. Orderly Clarence Prudon and orderly Harry Lenhardt carried deceased to receiving ward where Dr. Brinkman attended her until she died about 7:30 A. M. Miss Harshage, instructor told the coroner that deceased stated before she died that she came alone to the elevator on 7th floor pushed the button opened the door when the elevator came to her floor, stepped in but the elevator was not there & she fell to the bottom. Miss Barbara Thompson, Supt. of nurses accompanied the coroner when he made the investigation at the hospital. Mr. Hulenman the engineer showed how elevator doors could be opened when it came to the floor even though the elevator was signalled from a floor above.

Deceased had a compound comminuted fracture of pelvis on right side. Wound about 1½ in. long slightly below poupanta ligament. Several pieces of pelvic bone protruding. Deep wounds on both sides of vulva. Deep wound inside of left thigh extending the whole length from poupanta ligament to knee — Compound comminuted fracture here of left femur. Fracture of both tibias & fibula about midpoint. Fracture of right arm midpoint. Deep wound on outside of left thigh about 3 in. long from which bone was protruding. Unable to make out a definite fracture of spine. No blood from mouth, nose or ears.

Deceased was lying on the cot on her abdomen, as if asleep. Gas was escaping from a gas plate in a closet opening from room in which deceased lay. Dr. Hugo Miller attended the ambulance, & told Dr. Hobbs deceased was dead when he arrived. Capt. Craige of the Rescue Squad told Dr. Hobbs that Fred Krentgian was in charge of the squad, & he reported that the pulmotor was employed after Mildred was laid on the floor. - to no avail. A letter addressed to a girl friend of deceased was found on the dresser, & opened by a member of the Rescue Squad; then handed to Officer Pritchard who delivered same to Dr. Hobbs. REMARKS: Mrs. J. J. Wood, wife of the proprietor of a grocery store at 5357 Emerson ave. No. & Humboldt ave. No., told D. Hobbs that a driver for Jno. Sexton Bakery stopped at her place & called up the police & fire dept., telling them to proceed to address because gas was noticeable. This was about 7:15 A.M. today, & this driver, Warren Larson, had just come from deceased's grocery store, where he couldn't raise anybody & he smelled gas. Capt. Enright of #6 Fire Sta. rescue squad, with his helpers responded & used the pulmotor in vain. A nephew to deceased, S. D. Gotchy, 5411 Bryant ave. No. in the meantime was notified & he broke a bedroom window where deceased was seen sitting in a chair & pulled him out. Nothing deceased to lawn of H. D. Waldron (across street). Deputy sheriff John McGuire, Capt. McGuire & Pittredge reached deceased's home about same time as Mpls. Gas Co. employee A. B. Emerson & Tom Jalma. Pa got more. John McGuire & the gas men went into the basement together, where one of the gas men turned off the main pet cock. Gas was escaping from an open end of the service gas pipe to which the gas meter had been attached but from which the meter had become separated. The meter was apparently pulled out from both its attachments i.e. the service pipe & the house pipe or so-called riser pipe. The meter had been attached to these two pipes by brass coupling - i.e. a brass union. The service pipe was unsupported for a distance of perhaps 4 or 5 feet. Gravel had been dug out from under it. Hence there was considerable weight dragging on the meter. However the house-pipe was held up to the floor joists by small chains. D. Hobbs & Det. Sgt. Hall, 5727 Emerson ave. No. told D. Hobbs that about the middle of April he had helped deceased attach a recently bot gas range to the house gas pipe. He said that Mr. Strout went into basement & shut off the pet cock of which gas pipe at that time. Mr. Knoll had not been in the basement at all. Deceased looked almost completely dressed. Firemen had laid him on the bedroom bed, where D. Hobbs viewed. Bright cherry pigmentation of skin was present, but no rigor mortis. Two girls, Nellie Gilbert & Ida Bates were rooming at deceased's, both worked in the store, occupied an extra bedroom. Their bedroom door was closed. Mr. Gotchy helped them out. Both were sick & had headache. D. Lindine was called. He told D. Hobbs deceased was dead when he arrived. Nellie Gilbert told D. Hobbs that she turned off the oven-burner of gas range. Apparently no gas was escaping from this source. The very first outsiders to get to deceased's were deputy sheriffs Sullivan & Thompson. A divorced wife Mrs. Della Strout lives with a son at 2533 Polk St. No. Strout; another son Owen at 1400 E. 73rd St., Chicago, Wm. H. A brother Wm. H. Strout lives at 5710, Logan ave. No. This brother saw deceased yesterday when he signed O.K. Both the girls mentioned, saw deceased at 11:30 P.M. this night. Deceased tried to get a mortgage renewed recently, but was turned down. These girls had been living at 5409 Fremont No., but moved because house was too small.

REMARKS: Deceased was burned to death at 2 A. M. in a conflagration that partly destroyed home of deceased's grandparents. Deceased when found by members of St. Louis Park fire department was lying on bedroom floor near the door leading to hallway. Deceased had apparently attempted to escape. According to grandfather Fred Rako, who escaped from burning home, he was awakened by barking of boys dog. Mr. Rako sprang up to find house afire; he attempted to gain entrance to deceased's room but flames cut him off. Mr. Rako called to wife, ran downstairs and out of doors. Mr. Rako rushed to get a ladder placing it beneath deceased's window, but could not rescue deceased because of flames coming from deceased's bedroom. Officer A. F. Hagey, St. Louis Park; William Johnson, 5503 France ave and Percy Repath, 56th & Normandale Ave. were first on the scene. They found Mr. Rako running about yard crying for someone to save deceased. Officer Hagey, together with Johnson & Repath attempted to rescue deceased but found it impossible because of fire. About this time the St. Louis fire department arrived. Mother and father of deceased out visiting friends during evening, had not returned when house caught afire. According to Mr. Rako about a month ago, defective wires leading to electric range caught afire, this was immediately put out. Superficial examination made by Fire Chief Earl Sewall St. Louis Park in presence of Dr. Flagstad, showed that fire apparently had not started in the kitchen; Electric range intact. Fire had apparently started between dining room and kitchen - cause was undetermined by this examination

REMARKS: Deceased was found dead in bed at 8 a. m. today by his wife's 2 sisters, Miss Florence Garvey & Mrs. E. Fogg, 1933 James ave. So. These women were anxious about Mr. & Mrs. Smith for 2 reasons: first Mrs. Smith because of her age, was very nervous, 2nd, the recent tragic affair of their son Lindsay Smith who embezzled a huge amount of money, had made the parents very depressed causing loss of sleep & appetite. These women let themselves in by the front door of the duplex, using their own key. As they went upstairs they smelled gas; the door into the apt. was open about 4 ins. They say the gas odor was strong; they went thro the house to the kitchen, where they saw Mrs. Smith, unconscious, lying on her face in front of the gas range. One burner was open & unlighted; a tea kettle was on the burner containing a little water; near Mrs. Smith's head was an empty hot water bag & its cap was on Mrs. Smith's left little finger. They turned off the gas & moved Mrs. Smith over in front of the back door for more air. They looked into the bedroom not far from kitchen; deceased was lying in one of twin beds, pillow on his left side, an opened book in his hands, his glasses on & the reading light at head of bed lighted. He was dead. Dr. R. D. Mattheson was called at once & told Dr. Hobbs he got there at 8:14 A. M. today. With the help of Mr. Garvey & Mr. Fogg Mrs. Smith was carried to a bed. Her condition is serious. In addition to the hot water bag lying beside Mrs. Smith, were 2 matches, whose blue tips were broken off. Mrs. Fogg & Miss Garvey told Dr. Hobbs that two windows in the bedroom used by Mr. & Mrs. Smith were open; that other windows thro out the apt. were partly open, & that doors into each room were open. They opened all windows of the apt. as wide as possible. Dr. Hobbs was told that Mrs. Fogg found the book she found by deceased's hands; on a small table near deceased's bed. Dr. Mattheson removed deceased's spectacles. The covers of Mrs. Smith's bed were thrown open back; both Mr. & Mrs. Smith were in habit of reading in bed. Apparently Mr. Smith had died without a struggle. Mrs. Smith had a bath robe on & over her night gown. Mrs. Fogg said that the bathroom door was closed & bathroom light was on. Deceased's bed was apparently 15 to 18 feet from the gas range; kitchen door & bedroom door both opened into a corridor. Diagram of arrangement of rooms attached in small book.

Inquest was held on Sept 29 & 30 & Oct. 1st, 1931.

REMARKS: Deceased was found dead at 2:10 P.M. seated in a marsh along Minnesota bottom 300 yards off of reservation. According to Major Lovewell deceased at times had spells in which his mind became as a child's mind and he would wander away. Sept. 26-1931 deceased became lost after attending a moving picture show. At 5:30 P.M. Sept. 26-1931 he was seen near pistol range at Fort Snelling by a Corporal guarding this region. At 8:30 P.M. deceased appeared at a bachelor's hut on river bottom and inquired his way back to the fort. Deceased was told direction and informed to pass thru a certain gate. When deceased did not appear, Colonel McKnight, son-in-law with whom deceased was living organized searching parties but they did not find deceased that evening nor the next several days - until Oct 1-1931 when Corporal Taylor from the Fort came upon deceased half seated in a swamp about 100 yards from Fort Snelling gun club. According to Major Lovewell deceased apparently had had difficulty in unlocking gate and had wandered up along fence in an effort to find a way back; in so doing had wandered into swamp, - tracks in swamp indicated deceased had wandered about a great deal as tho confused and seeking a way out. Dr. Lovewell's opinion was that deceased had become exhausted and sat down to rest. No evidence of foul play.

Deceased viewed at O'Halloran & Murphy's Mortuary.

REMARKS: Deceased found by Wife Mrs. Sanders at 8:45 A.M. half seated & lying on front seat of Hupmobile Sedan B114-944 in garage at rear of his home. According to Mrs. Sanders, she last saw deceased alive at 5:30 A. M. when deceased closed windows of her room and told her not to turn on the furnace. Mrs. Sanders stated that she arose about 8 A. M. – ate breakfast and then went upstairs to arouse her husband. She found door to his room closed and upon going into room he was not there. On the desk in his room was a check book with a check made out to her by deceased on Oct. 17. Close by was an envelope containing two letters from the Krippendorf Dittman Shoe Co., Cincinnati, Ohio, addressed to Mr. Sanders – One was dated Oct. 1 – the other Oct. 14. These letters were written by Mr. O'Brien, Vice President of Co. – Letters discussed the matter of Mr. Sanders work. Deceased had been layed off two weeks ago. According to the letter his business had been rather poor. Mrs. Sanders then aroused her son George Sanders and then she rushed out to garage. She found latch unlocked but the door almost completely closed. The garage was filled with smoke-fumes, the ignition [illegible] upon examination by Dr. Flagstad several gallons of gas in tank. Son, George Sanders Carpe into garage and lifted deceased from right hand side of front seat where he was slumped over, into yard. Ambulance and pulmotor squad called – deceased dead. No other entrance or exit to garage except thru double doors of car entrance. Garage single car type.

According to son, exhaust gasket – Lopez – Fatzer was about to put new one in some time ago. New gasket found on bench. No evidence that deceased had trouble with car. Mrs. Sanders stated to Coroner deceased worried about being out of work – somewhat discouraged. Holes by Dr. Callerstrom – Autopsy held at Johnston's by Drs. Clawson & Callerstrom – son interviewed by Dr. Callerstrom – It is possible that as deceased was attempting to start car in the garage that the lead pipe gasket and possible the doors of garage closing by the wind caused him to feel overcome by gas, so he attempted to get out of car – he possibly turned off the ignition but did not get far enough to the right side of front seat when completely overcome. Death Certificate signed by Dr. Callerstrom.

REMARKS: Admitted to St. Marys Hospital at 3:45 P.M. Oct 20-1931 to care of Dr. J.E. Hynes. Died today at 11:10 A.M. Last night Dr. Hynes & Corbett operated finding a ruptured descending colon. Accident occurred about 2 P.M. Oct. 20-1931 at the plant of the archer-Daniels Midland Co., on 29 ave. S.E. near University ave. S.E., in the linseed press room. Harry Hartley, 6308 Bloomington ave. was using the compressed air hose to clean accumulated dust & dirt off a large heater. Deceased was pushing a small truck loaded with linseed cakes by Hartley & some of the dust fell on him. Playfully he grabbed the hose from Hartley's grasp & apparently pointed it toward Hartley, who started to run away. Deceased dropt the hose & went on & unloaded the truck. He was returning with the truck & when opposite Hartley he suddenly jumped to the side of his truck & bent his body, his head toward the heater, his buttocks toward Hartley who had lowered the hose. Deceased pushed VS the metal & open end of the air hose, the end apparently resting directly VS his anus, his overalls only between body & hose. Quickly he straightened up, his face showing sign of great pain, holding his hands across his abdomen & exclaiming that he was in severe pain. Hartley helped him to another part of the pressroom & helped him remove his overalls. There was considerable blood in his overalls. He dressed & was taken to Dr. Hynes' office near by & then to St. Marys Hospital. This pressroom is hot & the workmen all wear only overalls & are bareboso. Hartley was taken unawares when deceased turned his body toward the hose. There is 80 # pressure of air in this hose. The end of the hose is fitted over a 3 foot long metal pipe, whose open end diameter is that size of a pencil eraser. No hole was provided in the overalls. Deceased & Hartley were the best of friends. V. Holmquist, 2012-3rd St. So. witnessed the accident. Herbert Cullkins, Supt. of this plant lives at 3031-34 ave. So. Dr. Hobbs interviewed Mr. Hartley & Mr. Cullkins & V. Holmquist.

REMARKS:

Deceased was found at the bottom of a ft. elevator shaft by T.L. Fox, an A.D. 7 messenger, just before 6 A.M. today. Deceased was employed by the N.W. Consolidated Milling Co. for many years, & now for sometime as night watchman. Every ½ hour he was supposed to ring in the A.D. 7 office; at 5 A.M. he did not ring in. Mr. Fox waited 15 minutes, this being a rule, then hurried to the Mills, & after looking here & there, found deceased at bottom of elevator shaft. The elevator was not even with basement floor, being up about 6 in. Bottom of shaft is about 3 feet below basement floor. Fire & police dpts. were called. Fact whether deceased was moved by anyone of firemen or police not ascertained, but Dr. Hobbs found deceased lying partly on his left side on shaft bottom; more or less mud is on floor bottom, & the front of deceased's trousers were partly covered with mud. Considerable blood was found by the head. Left cheek was in mud; a pair of glasses was found about 3 to 4 feet from the body. His watch had stopt at just after 5:30. Supposition is that deceased may have been on second floor, & noticed that it was a bit late for ringing in at 5:30, & hence have hurried. The elevator probably was higher than 2nd floor; he reached for the cable & lost his balance, falling to shaft bottom, but after having started the elevator down.
