He is associated with Dr. Geo. Dunn. He told Dr. Hobbs that deceased at times was almost violently insane, + much of the time mentally depressed. His first that was that she had committed suicide. However conditions in kitchen point toward accident. One burner of gas range only was open, + unlighted. A double boiler was over this burner, the upper part containing milk; considerable water was found on tray below the burners; an egg broken into a saucer was on the oven top; potatoes were near by, partly pared. Geo Sieh, husband, told Dr. Hobbs that his wife often made an egg nog. Apparently water boiled out of double boiler, putting out the flame. Both front + back doors were unlocked, + door between living room + kitchen was open. Officers Hartley, + Eastis were present.

REMARKS:

Deceased was last seen alive by C. E. Eklund, 1083-17th ave. S. E. who spent the night with her until sometime after 2 A. M. April 8-1932.

Deceased was found by Maurice Jiesmer, 1524 Morgan at about 12:15 P. M. April 8-1932 when he returned from school. Maurice Jiesmer is a son of the deceased by a former marriage. Deceased was married and divorced twice. For the past ten months deceased has visited with John E. Eklund. For the past few months deceased has wanted to marry John E. Eklund although E. Eklund stated that he has tried to discourage her. Early in the evening of April 8-1932 E. Eklund and the deceased went for a ride in E. Eklund's car. They had some lunch after the ride. E. Eklund stated there was an iron box on the table full of papers. There was also a will which E. Eklund stated was opened by the deceased a short time before he left. E. Eklund also stated that when he left there was no odor of gas in the house and no flames on.

On the afternoon of April 7-1932 the deceased was in Heinrichs Funeral Home and asked the price of caskets. She told Frank Schwartz who talked to her at the funeral home that she may need two caskets.

Maurice Jiesmer states that when he went to school on the morning of April 8-1932 he did not talk to his mother as he thought she was sleeping. When he returned from school he noticed the smell of gas and found his mother in a different position than when he went to school. There was one jet of a small stove under a coffee pot which apparently had boiled over quenched gas. One window was open the others closed. A stairway downstairs was open. Deceased was on a cot on the right side dressed in night clothes.

Maurice stated to Coroner Seashore that he felt the pulse of deceased beating when he came home & opened window — about 2 P. M. 2 ladies came over — one lady thought deceased was dead & called undertaker — Asst. Coroner Smith.

REMARKS: Deceased was found about 9:15 A.M. today by a maid Irene Erickson, & his sister-in-law Mrs. I. Rubenstein. Deceased was lying on his right side, on garage floor, on left side of Nash auto. Two truck drivers happened to be near by, V. J. Archdale, 2816 E. Lake St. & H. Krause, 2805-30 ave. So. & they called the police. Officer W. A. Anderson, Detectives Wm. Lehmeyer & Weibe responded. General Hospital Ambulance & Fire Squad (pulmotor) also came. Deceased was removed to grass outside the garage, where efforts with pulmotor were of no avail. Mrs. Gross, wife, told Dr. Hobbs that deceased left the house about 6:05 A.M., as he was in the habit of doing. This garage has no windows; the doors were closed; ignition was on but motor stopped. Both Ambrose & Krouse reported to police that the air was heavy with exhaust odor. Dependent parts of body showed bright red pigmentation. Autopsy held at request of relatives. Later: V. J. Ambrose, evening of May 6-1932 told Dr. Hobbs that he was making a delivery for the Crowley Fouse Co. near the Gross residence shortly after 9 A.M. on May 5-1932; that a woman at rear of the Gross home, 439 Tarrymore Ave, called to him excitedly & asked him to go into the Gross garage, that Mr. Gross probably was in there & needed help. He called to Krouse who also was making a delivery near by, to come & help him get a man out of garage. He had opened the small door which was in one of the double doors of garage & had seen deceased on floor; the air was terribly full of gas, he states; together the two men first pushed the dead man out, then carried out deceased & laid him on the grass. Ambrose said he could not state for sure if the auto doors were closed or open; but he saw no signs of deceased having been at wheel or in the car.

The partner in business with Mr. Gross phoned the house shortly after 9 A.M. to see why Louis had not come to work. Mrs. Gross said he left about 6 A.M. The maid & Mrs. Rubenstein went out & saw the car still in garage. Mrs. Gross expressed herself as believing that deceased was very sleepy when he went out. Deceased probably started car with & realizing he had not opened the doors; then got out to open them & was overcome by the gas.

REMARKS:

Deceased was found by his daughter Myrtle at 7:30 A. M. today on floor of garage at left side of auto, near the front of car. She called Dr. Sandt family physician, who made a call then notified Dr. Seashore. Deceased left early yesterday A. M. for Hutchinson, Minn. on business. His daughter Myrtle had a party at the house last night; guests left at midnight. At 12:30 A. M. Myrtle that she heard the auto come into garage, but that nothing more of it. At 2 A. M. Mrs. Beckwall waked up thinking she smelled gas. She went to kitchen & found no gas jets open. Mother & daughter told Dr. Hobbs that deceased for 15 years had occasional attacks of unconsciousness, - symptoms suggestive of Epilepsy.

The left side of Motor hood was open; a screw driver & a pair of pliers were on running board; Deceased's right shirt sleeve had a fresh grease spot on it. An extension electric cord & bulb were on floor under the car. Deceased was in marked rigor Mortis, and dependent parts were brightly pigmented red. One leg was under the running board, the other knee was bent; the body was partly supported by side wall of garage. This garage is under south side of house. It is possible that Deceased had an Epileptic attack while he was working on Motor; then inhaled Carbon monoxide gas & died. Later: The Aetna Life Insurance Co. conducted an autopsy, the day after death, 6/17/32; D. E. T. Bell found a brain tumor.

REMARKS: Dr. Cudine notified Dr. Seashore of the death which occurred at 4:30 P. M. today. In absence of Dr. Cudine, Dr. Beekman was called to see deceased by parents, Mr. & Mrs. Willis Hamilton. He first saw her Aug. 7-1932 at her home; saw her daily till Tues, Aug. 9 when Dr. Cudine returned. Dr. Beekman diagnosed peritonitis & so told the parents who were loathe to believe him. Dr. Cudine verified the diagnosis; he made a vaginal examination but used no instruments. Deceased denied everything, except that she had been exposed to pregnancy, & that she had missed 4 periods.

Kenneth Swanson, 3014-4 St. No., sweetheart to deceased, told Dr. Hobbs that on Saturday, July 30-1932, deceased told him she was pregnant & that she had bot a catheter & was going to use it. Frequently before this she had threatened to kill herself because she felt so sick; but Swanson insists she never told him she was afraid she was pregnant. He urged her not to do anything, but they would get married at once. On Monday Aug. 1-1932, at night Swanson saw deceased & she told him she had used the catheter that morning & that she was flowing & had a pain; she wouldnt let him call a doctor. Swanson is positive that no doctor or midwife had anything to do with this abortion.

Two nurses were on the case; neither was able to get deceased to talk about her pregnancy. When Dr. Beekman first saw her, her temperature was 103.

Dr. Cudine was unable to get admission from deceased that she had aborted herself. Swanson was his only source of information.

REMARKS: Deceased was found dead, seated in his Cadillac auto, in closed garage, at 8 A. M. today by his brother A. A. Wyman, 2770 Thomas ave. So. Dr. Geo. Schmidt was called & pronounced him dead. Mrs. Wyman, wife to deceased, last heard & talked with deceased about 10:30 P. M. last night. He was more or less in the habit of taking a ride in his car before retiring. This morning Mrs. Wyman went to deceased's bedroom & found the bed had not been slept in. She phoned for A. A. Wyman who came over at once. A maid Ida Carlson in employ of the Wyman's for many years told Dr. Hobbs that the door of the garage were shut when she was in back yard this A. M. before 8 o'clock and before she knew that Mr. C. C. Wyman was dead. Mrs. Wyman told Dr. Hobbs that deceased had been depressed lately, but he seemed to feel well. Dr. Strackauer 7 years ago removed a portion of his colon because of Carcinoma & did a Colostomy.

Deceased was sitting behind the steering wheel, overcoat, hat & gloves on, hands in lap. His chin was dropt to chest, slight amount of saliva & mucous coming from his mouth. No odor of gas was noticeable. Dr. Hobbs was told by A. A. Wyman & Dr. Schmidt that three doors of auto were open & that the rear left door was unlocked. That is the way Dr. Hobbs found the doors. The gas tank contained approximately 10 Gal. gasoline. Rigor Mortis to marked degree present & dependent portion of body showed light pink pigmentation. Ignition was off when Dr. Hobbs examined as to the garage large door folds inward when open; this door was closed but not locked. The single door of garage was closed & locked. A. O. Peterson, chauffeur for 13 years to Wyman's, told Dr. Hobbs that deceased nearly every night before retiring went either for a walk or a ride.

REMARKS:

Deceased had been committed to the work house on Oct. 31st for being drunk while driving. He had been sentenced to serve 45 days in the work house. Dr. David Ellison of Health department had given deceased an injection of 1 CC of bismuth salicylate on Nov. 9th for lues. He had complained to an inmate, Jimmy Dale, that he had a terrible headache. Sat. between 5 + 6 P.M. he consulted Dr. Lockwood who found deceased with a slight sore throat and prescribed a gargle for him. His temperature was normal so Dr. Lockwood did not think he was very sick. About 3 P.M. Nov. 13 while in bed he called out to Jimmy Dale + said he was feeling so bad he was dying + to get a doctor. Mr. Dale went for an officer and came back in one or two minutes when he found deceased on floor. It appeared to him that deceased had suddenly gotten out of bed and had struck and cut his head on the toilet bowl. There was a small pool of blood beside the bowl. Officers Jean Durand + James O'Meara came immediately. He was placed on the bed.

Above information was given directly to coroner by Dr. Lockwood secretary. Dr. Sitar told coroner he saw deceased when he was placed on the bed + that he helped to give him artificial respiration, but he died almost immediately

REMARKS:

Deceased lived upstairs at the home of her brother E. J. McNally. She usually got up late, but when her nephew Raymond McNally could get no response from her about noon, he put a ladder up by her south window, saw her lying on the floor; he opened the window & the C. L. Palmer, 3032 Pillsbury ~~Pillsbury~~ ave. went into room thro the window. There was a gas plate with two burners on a stand at one side of this room; J. S. Welch, 3032 Pillsbury ave. turned off both burners; one was lighted & there was over it an auxillary heater; the other burner was unlighted & open & a small amount of gas was escaping from it.

Deceased fully dressed lay partly on her left side; her head to the north. Marked rigor mortis was present & dependent parts were bright pink in color. The electric light in center of room was on when she was found; shades at windows were up.

At 12:30 A. M. today C. L. Palmer says he looked out his window & there was no light on in this room. He lives next house upstairs, north.

No history of illness or mental depression.

Supposition is that inadvertently she opened the second burner & the escape of gas was so gradual that deceased did not notice it. The amount of free gas in the room could not have been great, otherwise there would have been an explosion from ignition of the first lighted burner, the burner on the left.

Dr. A. L. Arnold was at house when Dr. Hobbs arrived. General Hospital ambulance, fire squad had been there; officers Howe & S. W. Anderson were present.

REMARKS: Deceased was found dead by his wife at 7:30 A.M. today. His body was propped up VS the garage double door, inside the garage, on the left side of his auto, frozen. The Sheriff's office was called; deputy sheriffs A.X. Schall + Wm. Schlund went out. Schall found the ignition of auto turned on, + he turned it off. The gas tank was empty. A jack was under the left hind wheel, the wheel was up off the floor and a tire hand punch was attached to the air stem. Left side of engine hood was open. The double garage door was closed + padlocked. The small door of garage, east of double door was unlocked but closed. Both front doors of auto were open when car is parked + doors closed, in order to get to left side of car one would need to climb thro the auto from right to left side. Dependent parts of body showed bright pink pigmentation. Almost entire body was frozen. The door of garage kept deceased from falling backward. He was last seen about 2 P.M. yesterday, Dec. 30-1932 by Joseph Kvid a neighbor, who saw deceased drive into the garage, but didn't see him again. Between 11 + 11:30 A.M. yesterday Dec. 30-1932, deceased took his wife to the farm home of her brother Wm. Andrle, then returned to his place of business in Hopkins. At noon yesterday his brother Theodore Bren, who works for deceased, quit work for the day; deceased was in the shop talking with some one. Dr. Lichs of Hopkins, saw deceased on the street about noon. Deceased was to go for his wife later in afternoon - When he did come her brother Wm Andrle took her home about 6:30 P.M. yesterday. An uncle Geo. E. Bren came over later in evening when deceased didn't return - no one looked in the garage. For past 2 years deceased has complained occasionally of stomach symptoms but has not consulted a doctor. His wife said she had urged him yesterday to have his battery charged + to get more gasoline. Apparently deceased was adjusting the chain link on the rear drive wheel, for the wheel was jacked up; & the motor was not running.
