REMARKS:

M.A. Olson, living upstairs at 4249 Abbott ave. So. returned home at 6 P.M. today. His wife said that a lot of gas was coming from some place. He had a key to the lower flat & let himself in. He found deceased lying on the floor, fully dressed, partly on her right side, her glasses still on, and her body partly against the lower cupboard, on south side of kitchen. He noticed that one burner of gas range was partly open & unlighted; this he turned off. He also noticed that the pilot light was not working. He called Dr. Rueben Erickson who came, & who notified Dr. Hobbs.

Mr. E.H. Schoenmann, husband, reached the house at same moment Dr. Hobbs came.

Deceased was in marked rigor mortis and dependent parts showed bright pink pigmentation. A chair was standing close to the dining-room-kitchen swinging door, in kitchen. Deceased may have been sitting in this chair, when she became gassed & fell forward & sideways out of chair.

Dr. Flemming, who has attended deceased for some years & who saw her a few days ago, states that she was a cheerful & sensible woman — as far as he knows, not mentally depressed. Mr. Schoenmann left the house before 8 A.M. today & states his wife was in good spirits. No note was found. No towels or clothes were at the sholds. A teakettle was over the open & unlighted burner, but no water was on tray below. In all probability deceased did not notice that pilot light was not lighted when she turned on the gas.

Deceased and his mother arrived from California by auto 2 P.M. today.

He was visiting his sister, Mrs. C. J. McCarthy 4369, Thielen Ave. At 9:30 P.M. he asked his sister for gum, then left the house. He had been to his own home next door as light in basement was lit. At 10:15 P.M. the mother and Mrs. McCarthy searched for him and found him seated at the wheel of auto "Hup" in the garage. He was slumped over and dead. The engine was running & garage thick with gas fumes. Mrs. McCarthy is not certain about the lights of the car. She says the doors of garage were open but she is not certain to what extent. It is a double garage & the other doors were closed. They called C. D. Gulbrandson, 4377 Thielen ave., who came & stopped the motor. He is not sure about the lights. Others to arrive were Ds. R. M. Pedersen, C. Oslin, L. E. Alwin, C. W. Johnson and Caroline McCarthy (17).

Deceased had earlier in the evening mentioned that he was going to drain his car as it had froze the evening before. It is the mother's opinion that deceased was attempting to run the car out to drain the radiator.

REMARKS:

Patrick Devine, at address above, in another apt. heard deceased & Richard Kerr quarreling during the evening today. About 10:30 P. M. Devine said he heard a pistol report and heard deceased say "for gods sake dont do that Dick." Then almost immediately afterward he heard a second report; and then heard a groan from Mr. Kerr. Mr. Kerr called to Devine & he went into the room occupied by the man & woman. Deceased had a wound in her left chest, bleeding badly; Kerr was leaning over a small table at the bedside. Devine called police dpt. & officer A. C. Kyhn was the first to respond. Kerr was a policeman & known by Kyhn. Kyhn asked what had happened & Kerr said "she shot me & killed herself."

General Hospital was called & Mr. Kerr was taken to the hospital.

Deceased lay on the bed on her right side, in her nightgown. A wound of entrance was just below her left breast, the skin burned & slightly powder marked. A wound of exit was found 2 in. below the right acromion process, 5 in. to right of vertebral column.

Deceased & Kerr had roomed here several weeks. History of much drinking & considerable quarreling. Deceased had been divorced from her former husband, Knutson. Detective Geo. Hensler took the 38 revolver to police headquarters for finger printing. Coroner's decision for homicide in this case is partly based on following facts: (1) Revolver was found on under shelf of small table at head of bed. It is very improbable that deceased could have placed gun there after first shooting Mr. Kerr & then herself. (2) Kerr groaned & called for Mr. Devine after the second shot was heard.

A visit from Mrs. Ethel Penstad over at 3101 E. 9 St.

REMARKS: Deceased was found by his son Arnold, Jr. about 4:30 P.M. today. Arnold has his own Ford car which was parked alongside the garage at his home. He had just come from Central High school & started to fill the radiator, when he heard the Cadillac motor running in the garage. He opened the door at east side of garage & entered; it was so hot in there that he ran thro' garage to open rear double garage doors. Then he saw his father hunched over an auto wheel in the So. west corner of garage. He pulled him outside & started working on him, at the same time calling to his sister Eddie & Elsie's friend Marguerite Jackson, 3909-10 Ave. So. to call ~~General Hospital~~ Ambulance, fire squad & police arrived; pulmotor was used to no avail. Deceased dependent parts of body were pigmented pink. Ignition of car was turned off by Arnold, Jr. after City physician came. Officer Howe told Dr. Hobbs the radiator was so hot he could'nt hold hand on it. The extra wheel in garage was leaning vs. So. wall of garage & deceased's forehead had a curved indentation, as if it had been vs the brake drum edge of this extra wheel. His hands were greasy; a tool kit lay on right running board & both sides of hood were raised. A screw driver was on floor where deceased was found. An overcoat was spread on garage floor alongside left side of Cadillac. Arnold, Jr. told Dr. Hobbs he ~~Dont~~ didn't know how tightly shut the double doors were. Wind might have blown doors shut. One window, small & at east side of garage is nailed tight. No lighting facility is in garage. Mr. A. B. Wirth, owner of Star Tool Co., deceased's employer told Dr. Hobbs that he saw at 10:30 or 11 A. M. today complained of feeling sick, & looked bad. He left the shop to go home. He was seen on the front porch at 1 P. M. today by a neighbor C. Mayer, 3648 Clinton ave. One of deceased's daughters, Elsie, who keeps home for the family, was off on a hike & ~~dident~~ didn't know her father had come home. Deceased has had steady employment & has been well & happy as far as his children know. His wife, a helpless invalid, is in an institution in Indiana.

REMARKS: Dr. Gordon notified Coroner's office that deceased was hot to General Hospital in a private car & was dead upon arrival. This was at 12:41 A. M. today. Deceased was about to graduate from the University of Minn. and was majoring in Entymology. She was doing well in her studies & was anticipating getting a position after graduation. At 11 P. M. tonite her father Caleb Corser returned home & found deceased almost asleep on the davenport. He urged her to go to bed, but she demurred because she was preparing for a hard examination for next day. However, she apparently prepared for bed, & set her alarm clock for 3 A. M. Mr. Corser retired & had no more than fallen into a deep sleep when he was awakened by deceased who said she had swallowed Cyanide. He gave her whites of eggs; she vomited then became unconscious. Mr. Corser took her to General Hospital in his own car.

She was interested in insect & bug study & used Cyanide for killing them. After Mr. & Mrs Corser returned home from General Hospital, he went into deceased's bedroom & found that Jeanette had not been in bed, but the covers were turned back. A glass with small amount clear liquid was on floor at the bedside. A small brown 2 oz. empty bottle was on the dresser. Two test tubes & another glass were in the kitchen. These Mr. Corser rinsed out, but later showed to Dr. Hobbs.

Her professor at the University told Dr. Seashore that she was a fine student; her parents say that she was always happy & much interested in her chosen studies; & she apparently had planned to rise at 3 A. M. next day to study.

REMARKS:

Deceased was brot into Mpls. General Hospital in a yellow taxi about 3:05 P. M. When he came into the hospital Dr. Fritzell pronounced him dead. He was brot from 1003 – 6th ave. No. by Frank Brudvick who lives at that place. Brudvick told the coroner that deceased came to his place night before and stayed all night. In the morning he left and came back shortly, when he was intoxicated. He asked for a cup of coffee + something to eat. A short time afterward Brudvick heard him moan in another room and he found deceased with an 8 oz bottle of liniment which belonged to Brudvick. There was an odor of the liniment in the room and from deceased's breath.

Brudvick states he sent for the General Hospital ambulance 3 times. Finally he called a taxi + brot him to the hospital + deceased died as they arrived at the hospital.

Brudvick thinks deceased took the liniment by mistake, thinking it was moonshine. The liniment carried No. 140911 – Dr. Fawley – 1-8-32. Bottle had been filled at Veterans hospital. Coroner was told by hospital it contained oil of Gaultheria. Brudvick produced the bottle + it was brot to the morgue – 8 oz bottle – half full. Brudvick states he got bottle from a veteran "Art New" in order to rub on Brudvicks injured knee, but that the bottle was almost full when last seen.

REMARKS:

Deceased was found dead by his mother Mrs. H. E. Cleator about 10:50 P.M. today. He was lying partly on his right side, his head & shoulder supported by a trunk; his feet were to the west; he was dressed except for coat & vest, a rifle was on the floor by his right side, the barrel pointing to east, a block parallel to body & end of barrel about level with middle of chest. Mr. Cleator picked up the rifle & found an empty shell in it. Efforts were made to reach Dr. Holt, family physician, but when found he couldn't come in a hurry because his car had been stolen. Dr. Froelich was called about midnight & came at once. He notified Co. morgue, & Dr. Hobbs talked by phone with Dr. Froelich giving permission for the body to be taken to undertakers. Body viewed at & visited by Dr. Hobbs. A wound in right temple was found about 2 in. forward from ear, with a small area of powder marked skin about it. Some bleeding from ear, & a very small ecchymosis of blood in upper right eyelid.

Mr. & Mrs. Cleator with John, & daughter Eleanor, had had dinner at home of Mrs. W. S. Cleator, 1601 Fremont Ave. No. Deceased & Eleanor left late in afternoon to go to a movie; they went home at 7 P.M. Wm. rebuilt the fire in living room stove; they ate popcorn & visited till about 8 O. pt. when Wm. went upstairs. Soon at 8:15 Eleanor went up to her room, & as she went by the other bedroom door she saw deceased standing in his underwear. She said it was early to go to bed, & he said he had to go to school next day & was tired. She went downstairs & turned the radio. Shortly after 8:30 P.M. she heard a thump, but didn't think anything of it. At 10 P.M. she went to bed. The door into deceased's room was closed. When Mrs. Cleator went upstairs, before she turned on the light she saw deceased lying on the floor, & screamed for her husband.

On the trunk was a canvas bag in which was camping duffel - frying pan, canteen, compass, fishing tackle, & other articles. Deceased's father told Dr. Hobbs the gun rod was there too, but Dr. Hobbs did not see it. Wm. was in the habit of going to bed without putting on the light. He had told Eleanor he wanted to go hunting; he often got out his camping outfit & put on his work clothes & with his rifle would parade about the house. He entered Roosevelt Institute in Sept this year, was happy in his work & was doing satisfactorily. Eleanor & he many times sang together. Occasionally he was blue because of the depression, but no more than anyone else.

Query: (1) It seems possible that deceased may have been holding his rifle with barrel toward his head, & have slipped accidentally discharging trigger. (2) Insufficient motive for anything but accident. (3) May have been cleaning rifle; position of gun rod points to this possibility. (4) Was in habit of getting out his hunting & camping outfit.

Deceased was home alone. Husband and son left house at 7:30 A.M. and no one saw her alive again. Found dead at 4:05 P.M. by Mrs. Manuel Hedlund, 2209-11 ave. So. Mrs. Hedlund had gone upstairs to visit Mr. & Mrs. Howard Scroggins. She noted gas & Mrs Scroggins fainted and Mr. Scroggins was also affected. Investigating she found deceased seated on a chair in kitchen. Rooms "gassy", all windows & doors shut. The coil gas heater was burning. She turned it off. No jet lit on gas range. There was a flu pipe leading from coil to chimney but chimney was full of soot and pipe entirely occluded. Chimney did not reach the floor. Deceased had been washing clothes from a tub beside the range - water in tub was cold; body is rigid and some decomposed, so probably death took place before noon. Body is quite pink, fully clothed.

Mrs. Scroggins say she smelt gas at 10 A. M. and was feeling headachy from it.
