He was last seen alive at 2: 30 P.M. today by Arthur Paulson, weigher, when he was making his rounds oiling. The deceased did not show up after working hours, and Mr. Paulson investigated. The machine was running but Mr. Paulson stopped it.

The place of accident in the mill was alongside a cat-walk beside the conveyor belt, 85 feet from the ground. No one actually witnessed the death. It appears most likely that deceased attempted to pass through to the other side of the machine when his clothing caught in the revolving axle. Other workmen arriving on the scene were Leslie Melos, Enoch Sundblad, E. A. Rasmusson, and Supt. V. A. Shea, 2741 3rd Avenue South.

The body was removed to the Hennepin County Morgue and examined. The body is badly mangled, the chest is crushed, and the internal organs injured.

REMARKS:

The deceased was brought by ambulance to the Deaconess Hospital January 12th and admitted at 11 A.M. He was attended by Dr. Sawatzky. The admitting diagnosis and treatment at the hospital was for phenobarbital poisoning. House physicians were Drs. John Anderson, Jacobson, and Kantala. Death occurred at 2:50 A.M. today. The body was taken to Enger Funeral Home and an autopsy was held.

Miss Ella Pearson, an aunt, was interviewed and stated that on the evening of January 11th the deceased was to a party at Mrs. W. Erickson's home, 3725 24th Avenue South, and that he left there at 10 P.M. and drove away in his own car. When she arrived home at midnight, the deceased was not in; and she does not know when he arrived. The father, Ernest Pearson, 5820 Drew Avenue, stated to the doctors at the hospital that the deceased had been with Merle Fossland and other companions until about 3 A.M.

At 8 A.M. Miss Pearson found the deceased in bed in a somewhat stuporous condition. There was a bottle having contained one thousand 1½ grain phenobarbital tablets, but now empty, in the bathroom. It had been removed from her room without her knowing it. In reply to her questions the deceased said he had not taken too many. She does not know definitely how many tablets were in the bottle, but there were "quite a few". Soon after that, the deceased lapsed into complete unconsciousness. His breathing was labored, he was cyanotic, and his body completely relaxed with no response to any reflexes. He continued in this state until death. Deceased had complained of a cold and pain in the chest, and had been taking aspirin tablets. The autopsy revealed an extensive pneumonia.

and some tablets on the floor.

It appears probable that pneumonia was coming on, and the deceased was sick and took an overdose of phenobarbital.

On the afternoon of January 17th there was an interruption in the electric service having to do with a switch, and the deceased was testing the wires and the switch when the wires contacted some metal and a flash of fire occurred. The deceased suffered burns of face, hands, and back. He was taken by ambulance to the Abbott Hospital and admitted at 3 P.M., January 17th. Death occurred at 7:45 A.M. today. He was attended by Dr. McGandy.

REMARKS:

According to the husband, Melker Arvidson, the deceased had told him she was 3½ months pregnant and that she would not "go through with it", but would kill herself. He obtained a hard rubber catheter from Peterson Drug Store at 27th and Lake Street, and inserted this into her womb and blew into it. The deceased went into a convulsion and died a few minutes later. The husband called Mrs. Harry C. Pangborn, 5624 32nd Avenue South, who called the Minneapolis General Hospital. The ambulance arrived after death which occurred about 8 P.M.

Officers Conroy and Patrick were present.

Deceased's husband had hidden the catheter, but when the deputy coroner arrived, he recovered it from beneath the icebox on demand. He stated that deceased had on several occasions aborted herself with "slippery elm bark", but that this new method was supposed to be less dangerous. Examination revealed that the pregnancy was probably in its sixth month.

The husband plead guilty to performing the criminal abortion and was placed on probation.

REMARKS:

Mrs. McGill told Dr. Arnt Anderson that the deceased was an employee of the University Laboratory, and that he has brought alcohol home on several occasions for drinking purposes. The deceased has not been well for a couple of days and has been drinking from an Ehrlenmeyer flask containing fluid which, according to Dr. McCartney, smells like sweet spirits of nitre.

According to Mrs. Helen Finsrud and Mrs. Emma Larson of the same address who were with the deceased at the time of death, he turned blue, moaned, and died. Dr. Arnt Anderson was called but arrived after death which occurred at 2 A.M.

In a statement to the coroner's office deceased's brother, Frank S. McGill, 2629 West 43rd Street, stated that there had been an explosion in the laboratory on Wednesday, January 22nd, liberating chlorine gas. On checking with Walter A. Carpenter, 3933 Pleasant Avenue, who worked with the deceased, there had not been any explosion but that some chlorine gas had escaped in a distilling process and that he had opened the window and they went back to work in ten minutes. No ill effects were noted by either, but, he said, they thought they were "coming down with the flu".

According to the report received from Dr. Gerald Evans of the University of Minnesota, the analysis made of the fluid drunk by the decedent also the specimen of urine shows methyl alcohol. See report on file.

There were some skid marks and a hat on the sidewalk, and fragments of the body were strewn along the tracks to the end of the wye. The rest of the body was on the front end of the left rear truck of the car. According to John Anderson, morgue keeper, there was an odor of alcohol on the body.

REMARKS:

The deceased worked for Pufahl & Son Foundry Company, 33rd Avenue and Talmadge Southeast. It was his first day at work. He came to the foundry at 7:30 A.M. and was put to work on a freight elevator at 8:30 A.M. The elevator runs from the basement to the first and second floors. The deceased was coming up from the basement with two wheel barrows and was to stop at the first floor but failed to stop. When half way between the first and second floor he probably attempted to escape from the elevator and tried to jump when he was caught between the elevator and the second floor landing. His feet were hanging down; his chest and head were up. Ray Meyer, 311 21st Avenue South, who was working 40 feet away on the first floor, heard the deceased yell and rushed to the elevator and cut off the switch stopping the elevator. The deceased being new on the job apparently became confused on the mechanism and as the elevator did not stop acted involuntarily.

Sheldon Pufahl was interviewed on the scene of the accident and stated that he talked to the deceased a few minutes before and that he had detailed Arthur Entner, 1900 Central Avenue, a relative of the deceased, to instruct him as to the operation.

The deceased was immediately rendered unconscious and was taken to the Abbott Hospital by ambulance and admitted at 10:15 A.M. He was attended by Drs. Nelson and Hultkrans. Death occurred at 11:55 A.M. The body was taken to the Hennepin County Morgue and examined. The right chest is crushed. There is extensive air in the tissues of the chest. The lower jaw is fractured.

No one actually witnessed the accident.

REMARKS:

The deceased registered at the Nicollet Hotel as Herb Carlson, Fargo, North Dakota, at 9:30 P.M. last evening. He asked to be called at 10 A.M. today. The maid could not get a response, and called the management who called the police. The coroner was called at 11:15 A.M. The deceased was found slumped over a bedside table, dressed in underwear. Several notes which he had written mentioned his wife and a man named Dorn. Ten Nembutal capsules, a glass containing solution, and a one-ounce jar of solid extract stramonium were found in the room. Officers Thomas and Martinson were present.

Apparently this is the sequel to a shooting which occurred at Clark's Corners in Anoka County last evening in which Dorn was shot and brought to the St. Mary's Hospital.

The deceased had been treated for chronic morphinism by Dr. Goldman during Christmastime 1940, and since then has been taking Nembutal, Neurosine, and Vitamin B-1 preparation. A prescription calling for twenty-four 1½ grain Nembutal capsules was refilled on February 6th, 1941, by Wesley Odegard, pharmacist at Keller Drug #2, at Chicago at Tenth Street. Dr. Goldman stated that the decedent was operated upon for hemorrhoids some years ago.

He was found dead in his room slumped on a couch at 7 P.M. by Christ Flagstad, clerk, and Christ Brodahl, proprietor. The bed had not been used. The deceased was clad in pants and shoes. He had removed his coat and shirt, and his crutches were under his side. He had an artificial limb. His leg had been removed for osteomyelitis at the University Hospital in 1938. He was a patient at the Minneapolis General Hospital during November and December having been brought in by ambulance from 320 Cedar Avenue. She was brought immediately to the Deaconess Hospital by ambulance and admitted at 9:30 A.M. the same day. She was attended by Drs. Witham and Selleseth. X-rays were taken and case diagnosed intratrochanteric fracture of the left femur. No operation was performed. She was placed in a Thomas splint.

On or about December 12th, 1940, the deceased developed a paralysis of the left side of face and right arm. This apparently cleared, but she developed mental symptoms and at times was violent. On February 20th she developed a temperature and at 3:40 P.M. today expired.

Herman Barr, caretaker of the reading room, was the first to arrive on the scene of the accident. Mrs. A. B. Graham, chief librarian, reports that deceased was employed by the Science Library Association and that the Workmen's Compensation had been taking care of the hospital expense.

He later developed paralysis of his left leg and arm, and eye changes in his right eye.

On October 10th the skull was opened by Dr. Harvey Nelson at the Northwestern Hospital and a tumor was found. A section was taken and diagnosed a hemorrhagic tumor by Dr. McCartney. Later the deceased went to the Mayo Clinic where x-rays were made and he returned home early in December. Since then his health has been failing rapidly. Death occurred today at 3:20 A.M.

REMARKS:

The deceased had been home with her three children all night. The husband, a City fireman, had been working at the fire station. The son, George Jr., age 9, stated that at about 7 A.M. he was awakened by his mother and prepared for church. The deceased combed his hair in the bathroom after which he went into the front room. He was sitting reading the papers when his mother went into the bedroom of his two sisters. She closed the door, and immediately he heard the report of several shots. He ran out on the front porch. The deceased came to the door and asked him to come in and then she slammed the door shut. In a few moments there was another shot, and when he entered the house, the deceased was lying on the floor. He called the telephone operator and asked for the police at 7:29 A.M.

When the police arrived, George was seated in the front room clad in pajamas. The deceased was lying on the floor in front of the piano, the head toward the bedroom. She was clad in the lower part of her pajamas. By her side was a revolver. On the boy's cot were laid out his Sunday clothes, and on the bureau were the prayer book and contribution envelope. The deceased had been preparing to take the children to church.

The deceased had telephoned her husband at 9 P.M. March 22nd and asked him to come home as soon as possible to bring the children to church. The revolver was kept in the bureau drawer and also a sack of bullets. It is an old gun and belongs to the house. On the hall floor outside of the bedroom were found five empty shells. The deceased had reloaded three cartridges and used one on herself.

The husband stated he has noted nothing particularly abnormal or unusual about the actions of the deceased. At times she would be moody and depressed, but she never made any threats. There was never any suspicion of derangement. A year ago she was treated by Dr. McPheeters for varicose veins, otherwise she has not been to any doctor. Apparently the case is one of temporary mental derangement of unknown cause.

C Undertaker	Enger Funeral Home	Address	4247 Longfellow Avenue

REMARKS:

The deceased was a single man and has lived in a room at the rear of his grocery store for over ten years. This morning at 6:35 A.M. he was found dead by the Northland milkman, E. B. Borgen. The side and front doors were unlocked. The light was on in the bedroom but not in the store. The deceased was fully clothed--shoes, pants, and shirt. He was lying on his back crosswise on the bed on top of the bedding. He clutched a revolver in his right hand which was over his chest. There was no disturbance to anything in the room or the store. There was money in the cash drawer and in his pocket.

The deceased was seen in the store at 10 P.M. last night by William Morsefield, 951 Weeks Avenue Southeast, and also by Officer Joe Znacko at 10:10 P.M. The latter made some purchases but noted nothing unusual about the behavior of the deceased.

The body was taken to the Hennepin County Morgue. It is quite rigid. The bullet entered the meatus of the right ear and did not emerge. The deceased apparently shot himself while seated on the edge of the bed and then fell backwards across the bed.

E. E. Erkel, 2400 Como Avenue Southeast, filling station attendant across the street, arrived on the scene and claimed a bag of money hidden in a box under the counter. He left it there for safe keeping. He gave the deputy coroner a receipt in the presence of the police officers.

Mr. and Mrs. Henry Olson, 4937 31st Avenue South, old friends of the deceased, reported and showed to the deputy coroner a letter from the deceased received in their mail on March 26th. The envelope is postmarked March 25th. It is written in Swedish. Deceased stated that he was concerned about a payment of interest on a certain mortgage and that he would, as he looked at it, have to let the property go. He directs Mr. Olson to take care of his affairs and if there is anything left he can keep it. He thanks them and bids them farewell.

REMARKS:

The deceased registered at the Nicollet Hotel at 3:33 P.M. March 29th as Florence Pollock, 110 Seventh Avenue Southwest, Rochester, Minnesota. She was assigned to room No. 1146. As she had called for no service and as the house maid was unable to enter the room, an investigation was made by the assistant manager, Ralph Anderson, and others at 9:55 P.M.

The deceased was found dead on the bed. She was lying on top of the bedding clad in a house dress and slippers, but no stockings. On the bed table was an empty glass. The bottom of the glass was covered with a dry powder substance. On the dresser was a suicide note in which the deceased states she is about to commit a crime and requests her body to be cremated and not returned to Rochester. She enclosed a check of $100 made out to the Sunset Memorial Park Cemetery and requests that it be used for the disposal of her body. In a letter addressed to Mr. Donald Pollock, 525 East 21st, Brooklyn, New York, she states her intention and also "It is as if once there was in me both the good and the evil. The evil has dominated now for so long - the good is gone. Please try to forget that I ever was. I can accomplish no good for anyone." In her purse was a box containing one tablet of Rx No. 771743 from the Weber and Judd Company, Rochester. They report that the prescription was filled on June 8th, 1936, and that it was for six one grain codeine tablets. The deceased had also placed $3.50 and the hotel key in an envelope. This was delivered to the hotel and a receipt was accepted by the deputy coroner.*

The deceased has been employed in the laboratory of Dr. Arthur H. Sanford, 110 Second Avenue South, Rochester, Minnesota.

Dr. L. W. Pollock and Judge Vernon Gates stated that deceased was very temperamental and at times eccentric, otherwise they could not suggest no motive for the act.

The residue of powder in the glass was taken to Rochester, and under the direction of Dr. L. W. Pollock was examined. The analysis showed cyanide and boric acid.

Another car followed the Ross car and struck the deceased rolling him a few feet, and a third car also going in the same direction struck the deceased again. He was then lying on the south-bound streetcar tracks, feet on the tracks and his body toward the west. Death was immediate. There was blood on the pavement and the body was 23 feet south of this blood when the body was picked up.

The body was taken to the morgue and examined. The left ear is lacerated, and there is bleeding from it. There are bruises over the entire face. The chest is crushed with numerous ribs fractured on both sides. There is a large scrape wound 12" x 12" over the left hip. Both knees are bruised.

Jacob and Ila Butherus, 947 Lowry N.E., and their son Jacob were in a car back of the Ross car. They stopped their car on the north crosswalk of Second Avenue and saw the deceased walk onto the Ross car. As they stood there the other two cars passed them and they saw the cars strike the deceased. The Ross' and Butherus' were in the same party and had spent the evening at the Cactus Tavern at Lowry and Central Avenue. They were on their way downtown.

Newell Ross stated to the deputy coroner that his impression was that the deceased walked onto his car on the north crosswalk. The Butherus's say it was on the south crosswalk of Second Avenue.

The body of the deceased was identified by George Zlojatno and Mr. Goldman of the Old Age Pension Bureau. Officers McDonald and Wilson investigated.

REMARKS:

The deceased arrived home from duty at Camp Robinson, Arkansas, on Friday at 6 A.M. April 11th, and was due to leave on Sunday, April 13th for the Philippines for duty. He had seemed despondent and had lost thirty pounds in weight in a month. He went about his packing, and had drawn money for incidental expenses from the bank.

During his stay he was sleeping in an empty apartment in the building managed by his mother. He had lunch as usual with his mother, the maid, Nia Molikviski, Mrs. Holm and her two small daughters. Then the deceased went out at about noon and returned about 12:30 P.M. Nia went to make his bed at 1 P.M. and found him lying on the floor. She called his mother, a doctor, and the Minneapolis General Hospital ambulance. The mother came in and put a pillow under his head and took the gun in to her own apartment.

Mrs. Claudia Eklund, the mother, stated that she came in and found the gun at the deceased's side and only a couple of inches from his finger tips. The gun was given to Detectives Adam Smith and Bungert.

Major J. S. Jordan, staff officer of 1st Military Area with headquarters at 375 P.O. Bldg., stated that he was with the deceased on Friday, April 11th, and that he was not despondent but happy over his new line of service.

Papers found in the deceased's effects would tend to show that everything was in good order.

REMARKS:

The deceased worked for M. U. Bakke, 2222 Harriet Avenue. His work was to remove old wallpaper from the walls. For this purpose a small kerosene water heater was used to which an electric blower was attached from a plug. His scaffold was a board between two step ladders. A strip of partially removed wallpaper indicated that at the time of the accident he was apparently standing on this board and working in the ceiling. He had completed three hours of work. He came to work at 8 A.M. apparently in normal condition. He was last seen at that time by Mrs. S.M. McNamara whose room he was to decorate. She returned at noon. The door to the room was closed but she heard the motor of the stove running. At 2:35 P.M. she opened the door and found the deceased lying on the floor dead. Earl Pang, caretaker, Babe Costella, 1904 1st Avenue South, and the Minneapolis General Hospital doctors arrived on the scene. Officers Sorenson and Jacobson were present.

The deceased was lying on the floor his face and stomach down and his head in the corner. One end of the board was off the step ladder, and the other on a step and not knocked off. The window was opened two and a half ft. from the bottom, the door to the room closed, and the motor of the heater was running. Mrs. Elmer Pang, who lives in the apartment below, heard a noise of something falling at 11 A.M. The body was taken to the Hennepin County Morgue and an autopsy was held.

J. A. Hygrell, 4635 18th Avenue South, an interior decorator, stated that he has operated the same kind of machine and that he has had the experience of being overcome when working on a ceiling in a small room where the door was closed but the window opened.

James Zukanska, deceased's roommate, stated that he and the deceased were in a tavern and drank a few glasses of beer the evening of April 13th. They returned to their room and went to bed.

The deceased was employed at the Federal Reserve Bank. Orvin Ulvin, St. Francis Hotel, stated that he brought the deceased to work in his automobile at 8 A.M. May 7th. At noon he lunched with her at Snyder's Cafe and was to meet her at 6 P.M. at Jeubs Tavern, but she did not come. At 10 P.M. the deceased called for him to come to Jeubs. He found her intoxicated, and she complained of feeling badly. He understood from her that she had been out in the country with someone. He brought her home at midnight.

The deceased called her mother on the telephone at noon on May 7th and said she was going to a sorority banquet that night. Margaret Kennedy, a sister, arrived home at 1 A.M. and noted that the bedroom door was closed. This morning at 7:45 o'clock they found the deceased dead and called Dr. Ivar Sivertsen. The deceased was lying on the right side crosswise on the bed clad in a nightgown. Justain E. Simons, undertaker, arrived on the scene, and as the body was moved, a bottle containing 1/8 ounce of cocaine crystals was found. The bottle was new from the Merck Company and had contained 1/4 ounce of the crystals. The mother did not recognize the bottle, but thought it had come from Dr. Biornstad's effects. On the floor by the bed were some spilled cocaine crystals, and a glass of water was on the stand. It appears probable that the deceased poured the powder directly into the mouth and then drank water.

The deceased has been drinking more than usual lately and has complained a great deal of being despondent and ill.

There were no police officers present.

REMARKS:

On April 5th at 10:55 P.M. the deceased while on duty as a police officer was struck by an automobile at 5 Street and 4th Avenue Northeast. The car was going north on 5th Street and was driven by Larry Boyle, 514 4th Avenue Southeast. The deceased was knocked down on the street and was taken by ambulance to the Minneapolis General Hospital at once. There was a skinned area over the left elbow and discolored skin over the right ankle. His blood pressure was 186/96, pulse 80, and respiration 18. He complained of pain in the lower back. There was no paralysis.

X-rays were taken on April 5th and 6th and revealed a compression fracture of the first lumbar vertebra and also a fracture of the bone of the right thumb. The x-rays were interpreted by Dr. O. Lipschultz who suggested that further study was required to determine if the condition was an old or recent fracture. The deceased gave the history to Dr. Schafer of the Minneapolis General Hospital that he was struck by a car eighteen years ago and sustained a back injury. No x-rays were taken at that time but since then he has had a weak back. There has been no paralysis.

The deceased was transferred to the Fairview Hospital by ambulance at 10:30 P.M. on April 6th, and was attended by Dr. F. L. Gilles. He applied a body cast, but on account of sweat the deceased could not tolerate it. A Taylor Gothwaite brace was applied. The deceased was discharged from the hospital on April 12th, and went to his home. On the evening of May 19th he developed symptoms that Dr. Gilles diagnosed as delirium tremens. The deceased became incoherent, restless, and then unconscious. He did not regain consciousness. He was brought to the Fairview Hospital by ambulance and died at 3:10 P.M. today. The body was taken to the Hennepin County Morgue and an autopsy was held. There is a history of the deceased having been a constant user of alcohol for several years.

REMARKS:

The deceased had been helping his brother George Compton paper a room at 3501 35th Avenue South, which is owned by Mrs. Irene Paulos. She stated that they finished about 4:30 P.M. today. They wanted to get paid so she went with them to the Duck Inn, a tavern nearby, where she cashed a check and paid them, and then they stayed there. Miss Merna Putnam, who works at the Duck Inn, said that the brothers left there about 6:50 P.M.

Mrs. Clara Brabant, mother of Mrs. Paulos, stated that about 7:15 P.M. George Compton knocked on the door, then opened it, and dragged the deceased into the room. Mrs. Paulos came home. George Compton told them that he and his brother had had an argument and that he had struck the deceased. They tried to revive the deceased and then called the police at 8:17 P.M. The Minneapolis General Hospital ambulance arrived after death.

Officers McLaughlin and McGuire investigated for the police department.

George Compton later told the police that the deceased was subject to fainting spells.

REMARKS:

The deceased has worked at the above address for Arthur Baillif, Richfield Station, Route 1, since last November as a farm hand. Today he had been disking in a field 1/2 mile from the house and was returning when he stopped and talked to Mr. Baillif and then started down the road. He lost control of the horses. Mrs. Baillif heard the noise of the disk and saw the horses running and the deceased hanging tightly onto the reins. They both lost sight of the runaway itself, but when they got out in the yard, they found the disk up against a tree with one horse on each side of it. The deceased had been thrown from the seat and was straddling a brace with his head on the ground. There was a deep gash in the tree marking the place where the disk had struck it.

Deceased's entire skull was fractured, and there was blood coming from the wound of the scalp on top of the head.

REMARKS:

The deceased was single, and since the death of her mother in December 1940, has been living alone in this farm house. Her brother William Schrader, 1301 21st Avenue North, came to visit her at 1:15 P.M. today. The doors were locked so he called Ray Schrader of Osseo, and together they entered the house. The deceased was lying on the bed upstairs fully clothed and dead. Dr. Spurgem of Anoka arrived and pronounced death. On the stand was a glass half full of water and carbolic acid, also a glass tube. There were acid burns on her tongue. A pop bottle containing carbolic acid was on the sink in the kitchen, and on the kitchen table a suicide note in which she stated that she was nervous, could not sleep, and could not stay there any longer. It seems that since her mother's death she has been very melancholy and depressed. She had brought the Tuesday mail inside, but the Wednesday and Thursday mail was still in the mailbox. Evidently this act occurred Wednesday forenoon.

The deceased was last seen alive by the members of the family on Sunday, June 1st.

According to Private James Wirth, age 22, Company B. 701, M.P. Battalion, residence, Arlington, Iowa, he and the deceased met Dora Fraulini, age 19, of 5717 45th Avenue South, and Virginia Culbertson, age 19, of 5328 44th Avenue South, at 8 P.M. July 2nd. They went for a ride. The deceased had a bottle of gin from which they all drank. They stopped at the Town Pump, a tavern two or three miles out on the highway that crosses the Mendota Bridge, and danced and drank some beer. About 11:45 P.M. they left for a ride and stopped at the home of Virginia Culbertson, and the girls picked up their bathing suits. They then went to Nokomis Beach and the girls changed clothes in the car. They all started for the water. Virginia Culbertson stated that she swam out to the life guard tower and dove off. The deceased was about five feet outside the ropes when he called for help. Wirth got ahold of the deceased by his hair and tried to hold him up and Virginia Culbertson also reached him and tried to raise him. The deceased started kicking and going down again, pulling Virginia with him. She and Wirth had to let go to save themselves. Dora Fraulini was unable to swim and was inside the ropes. Dora and Virginia ran to the bathhouse to call the watchman, Albert Canfield, 918 University Avenue Southeast, but he was unable to swim and called the police and fire department who recovered the body at 1:15 A.M. July 3rd by diving in about 12 feet of water, 15 feet outside the ropes. The inhalator was used about fifteen minutes.

Virginia Culbertson and Dora Fraulini stated that they were in the water about five minutes when the deceased called for help, and that the deceased was not too drunk to drive the car. There was one can of beer in the Ford Coach, No. 490-052. The car was pulled in to the Temple Garage. The beach was dark. There were boats nearby, but no oars.

Mr. Gulck sent the deceased with his truck to Mendota about 3:30 P.M. July 5th; and when he did not return at midnight, he started looking for him.

About 4 A.M. today the deceased came home, put some groceries on the table, and said goodbye to his wife. Then he went out to the front of the lot, picked up something, and then went into the alley. Just as his wife approached, he put a shot gun to his head and shot himself. The deceased was lying in the alley with the top of his head entirely shot off. On his stomach was lying a Winchester single shot 16 gauge shotgun with one exploded cartridge in the chamber.

Officers Levens, Johnson, McGuire, and McLaughlin arrived on the scene.

The deceased had at various times been despondent and wished that he was with his dead mother. Two weeks ago he had threatened his wife Rita and their fourteen months old daughter, Virginia Katherine Schmidt.

The mother gave her address as 3352 36th Avenue South. The man said she was a maid taking care of children at 15 Fifteenth Street North. The body of the fetus was taken to the Hennepin County Morgue.

The case was turned over to police women for investigation. They reported that the mother stated that she had her last menstrual period in January and that she had done nothing to cause the abortion. She had had pain all night.

REMARKS:

The deceased was found at 10P.M. July 21st in the basement of 3541 Nicollet Avenue. He was unconscious and appeared to be in a deep coma. He was brought to the Minneapolis General Hospital in the police patrol and admitted at 10:24 P.M. July 21st. Death occurred at 2 A.M. today. Dr. Aikin of the Minneapolis General Hospital reported that deceased had a blood pressure of 220/120, negative spinal fluid, low spinal pressure, and slow pulse. The admitting doctor checked "drinking" on the admitting card. On admittance the deceased's temperature was normal, he was cyanotic, and his limbs were clammy.

On July 21st, 1941 the deceased worked for A. D. Kleinman, 401 Washington Avenue, owner of the building at 3543 Nicollet Avenue. Deceased had been sent by Mr. Kleinman to work on this building. He was to repair some cement work at the rear of the building and also carry up some pails of sand from the basement. The deceased arrived at 8 A.M. and parked his car at the rear of the building a few feet from where he was going to work.

Rene Bolke, 3320 Nicollet Avenue, waitress at the Hamburger Shop, stated that she saw the deceased come to work and that he did not appear just normal. She thought he staggered. He did not complain of being sick. She saw him working and mixing the cement. He was working near a brick wall and the sun was beating down on it. The day was very hot, the weather temperature 100° in the shade. The temperature against the brick wall where the deceased worked was excessive. The deceased carried three cement blocks from the basement and placed them in his car. At about noon she saw him lying on the seat of the car apparently sleeping. He looked sick. At about 3 or 4 P.M. she saw him lying on the wet sand in the basement apparently sleeping. She notified Kleinman who said to leave him. She returned at 9 P.M. and found the deceased still in the basement and called the police. She did not see him drink anything from the bottle.

CORONER'S RECORD

AXEL SWANSON Page 2 July 22, 1941

Vic Ritari, 609 40th N.E., proprietor of the Hamburger Shop, stated that he saw the deceased come to work at 8 A.M. and that he staggered. He saw him doing his work and thought that deceased appeared to be sick. The deceased was a heavy drinker and he thought at the time that the deceased was intoxicated, although he did not see him drink. Ritari also stated that he saw the bottle found in the deceased's car and smelled of it. It had a very stenchant, offensive odor. The police officer emptied the bottle.

Lloyd Hamilton, 4956 Logan Avenue South, barber, saw the deceased come to work and spoke to him at 9 A.M. and again at about 2 P.M. The deceased appeared to be sick. He did not see the deceased drink anything.

Police Officers O. M. Anderson and Julian F. Gerber reported to the coroner that they were called to this place and found the deceased in the basement apparently unconscious. His eyes were turned up. His breathing was deep and slow, and at times stopped breathing. They could detect no odor of alcohol. They found a bottle containing a foul smelling liquid nearly full in the car. Officer Gerber poured the contents out on the ground.

The automobile belonged to the Woodhead Ford Motor Company and they took possession of it.

The deceased lived alone in his own house. He worked as caretaker for the Farmers & Mechanics Saving Bank. Mr. Seim of the bank stated that he last saw the deceased on July 12th. Since July 15th there has been a check waiting for him, but he did not call for it. On July 22nd Mr. Seim notified the police.

Officers Palmersten, Wickman, and Eisenkramer investigated and found the doors to the house locked. They broke in the front door, and found the deceased lying unconscious on the kitchen floor by the door. He was fully clothed. In an adjoining room was a step ladder tipped over, a pool of blood, a hammer, a can of nails, a saw, and a strip of wood. The ceiling was being repaired with paper. Apparently the deceased had been on the ladder and had fallen. He got to the kitchen door and then collapsed. He had apparently been lying there for several days. The electric light in the room was lit, and neighbors had seen it lit night and day for several days.

The deceased was brought to the Minneapolis General Hospital by ambulance and admitted at 3:41 P.M. July 22nd. Death occurred at 11:40 P.M. today. Drs. Larson, Kiely, and Moos were the attending physicians. The body was brought to the morgue and an autopsy was held.

REMARKS:

The deceased registered for room 303 at the Hastings Hotel, 12th & Hawthorne, at 2 P.M. August 7th. She registered as Mrs. W. Daley, 1426 Allen St., Rochester, Minnesota. She paid for one day. At 9:30 P.M. the same day she called for ice water. Donald Spavin brought it to her room and she gave him a ten-cent tip, also remarked, "We need something like that now," it being a very sultry night. Deceased was then clad in her street clothes and had her hat on. She was smoking cigarets.

This morning at 12:30 the manager, Mr. Kenneth McCord, sent Donald Spavin, bellhop, to check if the room was occupied as it was not paid for. The door was locked on the inside and there was no response. He called Joe Glacier and they broke open the transom and could see the deceased lying on the bed. A large chair was against the door. Police were called and forced the door open. She was lying on her back on the bed, clad in a nightgown. On the right side of her neck lay a revolver, the handle close to her right hand. In the left hand she clutched five pennies, and on her left hand was a plain ring. There was an empty whiskey bottle near the bed. A douche bag was hanging in the bathroom. There was no evidence of any disturbance in the room. She had not been seen since 9:30 P.M. Aug. 7th.

The body was brought to the Hennepin County Morgue. There is a bullet wound at the outer edge of the right eyebrow. The wound is one inch long, ragged and charred, with powder marks 1½ inches surrounding the wound. There are three old operative wounds on the abdomen. On the left foot there is an old operative/traumatic wound, the entire outside of the sole of the foot and 2nd, 4th and 5th toes are missing.

On October 2nd, 1941 Theodore Yusi, 115 William Street, Port Chester, New York, identified the body as being his wife, Grace Edith Fallon Yusi.

REMARKS:

The deceased lived with his parents 1 3/10 miles northwest of Osseo. His mother saw him on the porch at 4 P.M. today, and at 4:45 P.M. she found him dead under a tree in front of the house near the edge of the highway. The deceased was lying on his back. Dr. St. Cyr of Osseo, arrived and the body was removed to the mortuary at Osseo.

The deceased had taken a 12 rung ladder from the shed and pulled it up into the tree. The foot of the ladder was about ten feet from the ground, and the top of the ladder rested against the fork in the tree. By broken branches the deceased had apparently left the ladder and climbed up higher into the tree. Forty-four hundred volt, high-tensioned wires run about three or four feet from the trunk of the tree and to the left of it. No one witnessed the accident, but as the burns were in the right hand, it is not probable that deceased reached out for the wire but that for some reason he fell against the wire and then grabbed it with his right hand. The fall may have been caused by contact with an electrified tree limb or he might have lost his hold for some other reason. Two weeks previous, the father, Frederick Jasmer, says the deceased mentioned that he was going up into the tree to inspect a couple of bird houses, and he was warned not to contact the wires. Deceased replied by saying, "I am not that dumb." The bird houses were lower than the top of the ladder where the deceased had been.

C. B. Swisher, Champlin, Minnesota, lineman for the Northern States Power, was out and inspected the wires. He stated that the branches can become charged by contact with a wire.

On Monday, September first, the police received a call from Floyd Maurer of Coverton, Minnesota, that a man had jumped from the Washington Avenue Bridge. Since then they have been dragging the river and recovered the body at 5:15 P.M. today 50 feet from shore in 12 feet of water directly beneath the south side of the bridge. Officers Tully and Roeger were present.

The body was tentatively identified by a fishing license which he had on his person at the time of recovery, and was later identified by his brother, Gust Clauson of Mound, Minnesota. Mr. and Mrs. Gust Clauson stated that they had not seen the deceased for a long time and that no one that they could find had seen him for a week. He had checked out of the hotel a week previously. They found that Ira Mathews, 910 6th Avenue South, had seen the deceased on Monday morning, and he said he was going to a doctor on Lake Street.

According to the police the deceased had been arrested on March 14th, 1940, on a charge of drunkenness. At that time he lived at 202 Hennepin Avenue.

According to Ed Saervold, manager of the hotel at 202 Hennepin Avenue, the deceased had stayed there on July 4th, 1941, at which time he was very intoxicated and had to be carried up stairs. He was given a room on the inside because Mr. Saervold feared he might fall out of the window.

They saw her put the car in the garage, close the the doors, and enter the house. This was the last time she was seen alive. The husband and Alt Westman were home at 1 A.M. but the deceased was not in so they went out again and did not return until after the body was found dead today. CORONER'S RECORD

McLAIN KRABY

Date November 5, 1941

A portion of flaxseed from this bin was sent to Dr. R. A. Gortner and Dr. W. F. Geddes, biochemists of the University Farm School, and they report finding that the sprouting heated flax had formed hydrocyanic or prussic acid.

Dec. 2, 1941.

McLain Kraby

A report from Dr. L. W. Foker, Director of Division of Industrial Health, Minnesota Department of Health, states that his department in collaboration with Mr. Owen E. Cunningham, Chief of Division of Accident Prevention, Department of Labor and Industry, has made a thorough investigation of this case especially as to the condition of the air contents in the storage tank. According to their analyses and findings, there was an insufficient amount of oxygen in these tanks to sustain life, and it is their opinion that the anoxemia, and not the hydrocyanic acid, was the predominant cause of death. The certificate of death was changed to conform with this report.

REMARKS:

Chester Shepard, 2567 Camden Place, and other workmen were working on a W.P.A. project at Buchanan Street between 15th & 16th Avenues Northeast when they found the bones of a human skeleton partly covered by earth. The bones were entirely free of any flesh. Some woman's clothes in a decayed and soiled condition were also found with the bones. The clothing was turned over to the police for further study and evidence.

Raymond F. Blount of the University of Minnesota reported that the skeleton is that of a female, and looks like one which has been weathering for some time, a few years. The bones revealed old healed fractures of 5, 6, 7, 8, and 9th ribs on the left side. (For other descriptions of the bones refer to Mr. Blount's report on file.) The case remains under investigation.

A piece of looped twisted wire was found near the neck bones.
