REMARKS:

The husband, Clarence, an employee of the Northern Pump Company, had left for work at 5:15 A.M. and left his family in apparently good health. Returning at 7 P.M. he found the decedent and their daughter both dead in bed. Mrs. Fred Gaedy, 3147 Pillsbury, had called on the telephone about 10 A.M. and Mrs. Clarence Lundsten at 3044 Pillsbury, had called about 3 P.M. Getting no answer they assumed that she had gone to visit her mother.

The house was heated by a gas heater situated in a small basement, which had an asbestos covered sheet metal jacket, which had ducts coming from it into the main floor, one situated in the kitchen and one in the living room. There was also a cold air duct coming from the living room and entering into the jacket. There was a four-inch pipe coming from the heater through a draft box, which led to a chimney at the back wall. There was a six-inch pipe extending thirty inches above the chimney which was capped by an improvised cap. This thirty-inch pipe was taken down by deputy coroner and had a three-inch coating inside and a cap of ice on top entirely covering the flue.

This house was purchased by Gaedy in June, 1941, from Albert C. Olson, 4154 Reservoir Blvd. According to Mr. Olson, he purchased this house from the D.C. Bell Company in April, 1937. In August, 1937, the gas company installed a gas living room heater. This installation was inspected and O.K.'d by the city gas inspector. In the fall of 1938 Mr. Olson changed the chimney to the west outside wall from the southwest slope of the roof. In September, 1939, he dug out the cellar and put the stove into the basement and installed a jacket around the stove. This work he did himself. The Gas Company inspected this installation but it was not inspected by the city. The gas company inspector thought it was a great improvement. The owner had had trouble with it before, but after it was moved it was all right. The gas company also installed a Handley Brown Mirror Shell automatic gas water heater in 1938. There was some odor of gas from the water heater so they kept the bathroom window open at all times. He says he had told Gaedy about the gas odor and suggested that a vent would eliminate it. In the fall of 1940 he put this green extension on the chimney because he was told that if he put this on he wouldn't have trouble with his pilots, which were going out automatically. He also had installed the

draft box in 1940. He said it worked fine and the house was always nice and warm. He had the gas company inspector there in the spring of 1940 who suggested that there should be an enameled liner pipe put into the chimney. Mr. Olson says he had had this inspected by the gas company several times a year and each inspector said it was a fine installation.

According to the gas heating inspector from the city building department, Mr. M. W. LaDuke, the installation was illegal, had been done by a novice, and had not been inspected by that office since its installation into the basement. Their inspection showed that the draft hood on the unit was loose and had been wired with stove wire.

According to Mr. Gaedy, he called the gas company in October, 1941, and asked them to go out and inspect it, and make any repairs that were necessary for this gas burner, and turn the gas on. The gas company installed a new fan in October and turned the gas on.

Sam Quincy, the salesman who sold the unit to Olson, says the house has been re-arranged and that he installed the unit in the living room and it was changed to the basement.

Ed. J. Menalis, Captain of Fire Prevention Bureau, 4525 Abbott Avenue South, was interviewed also on January 9th, 1942.

The bodies of the mother and the baby were lying in bed in the back bedroom, and the baby's body was lying under the mother's. There was a pinkish discoloration of both bodies.

REMARKS:

Jim Graphwol, a driver for the Superior Dairy, noted that lights had been burning in the deceased's house and that the newspapers had not been picked up for several days. He told Emery Nypen, 3560 Stinson Blvd., who told James Davis, 3535 McKinley N.E., and Alden Adams, 3007 Arthur Street N.E. They notified the police at 2 A.M. today. Officers Kammer and Langseth went up and crawled through an unlocked window and found the deceased and his wife dead and called the coroner's office.

The house is under construction. Only some partitions are up. They had put in a Cole's Hot Blast oil burning living room heater. He had put in a 6-inch stove pipe with a flue which went through the ceiling, then turned, and went 22 feet in the attic and out through a window. There was an elbow here and the pipe continued upward to the crest of the roof where it was capped by a black metal hood. There were icicles hanging fromthe elbow about 5 feet in length, and there was a great quantity of ice on the ground from the dripping from the elbow.

Building inspectors Butler, Flannery, and Menalis of the Fire Prevention Bureau inspected the house on January 12th and said that the elbow was one solid chunk of ice and that the deceased had fixed the damper so that gases could not escape as they should. This he did, they thought, to conserve heat.

The Wednesday, Thursday, Friday, and Saturday Minneapolis Times were lying on the back porch. Death probably occurred on Tuesday evening. The time is set because the lights were on.

The deceased was found lying on the floor in the bedroom clad in long underwear and a sweater. The wife was lying on the bed partially dressed. The bodies were discolored pinkish either from carbon monoxide gas or from freezing. They were last seen alive on Monday, January 5th, by the milkman.

REMARKS:

The baby was born out of wedlock to Muriel R. Johnson. She does not wish to give the name of the father. She stated she gave birth at about 3:30 A.M. January 12th in the bathroom of her apartment at 718 4th Street Southeast, and was alone in attendance. She stated the baby showed no signs of life,and according to her dates was a five month's gestation. She wrapped the body in a newspaper, put it in a laundry bag, and hung the bag in the closet of her apartment. The next day she was on duty as a nurse at the St. Andrews Hospital, but on January 15th entered the hospital as a patient.

Miss Ila Gulbranson, a nurse and roommate of Miss Johnson, found the body in the closet at 4 P.M. January 19th. On the suggestion of Miss Johnson, Miss Gulbranson placed the body in the incinerator outside of the hospital where it was partially destroyed by fire. Miss Gulbranson then realized her mistake and immediately notified her superiors, Miss Leonora Collatz and Miss Esther Wolfe. Miss Wolfe notified Dr. Callerstrom, Deputy Coroner, who arrived and removed the remains from the incinerator and had it taken to the Hennepin County Morgue. It appeared to be the body of a new born about 5 or 6 months gestation. The body was too badly burned to determine anything else. Miss Gulbranson declared it was a male and well formed. The body was decomposing.

A charge of failing to report a birth to the health department was placed against Miss Johnson by the police. Miss Gulbranson was released without any charge.

The deceased was found dead by the mother Mrs. William Frantz at 5:30 P.M. today. He was last seen alive by her when she lay down to rest awhile at 4:30 P.M. He was hanging by the neck from a shower fixture in the bathroom. The door was locked on the inside. When the deceased's brother William, age 14, could get no response to knocks on the door, the mother looked through the transom and saw him hanging. She called the caretaker who broke a window and cut the rope that let the deceased down. Dr. Karlstrom of 1600 West Lake Street pronounced death. The Minneapolis fire department rescue squad attempted resuscitation. Officers Sorenson and McHale investigated for the police department.

Upon being interviewed Mr. and Mrs. William Frantz stated on January 28th that there had been no family quarrels, that the deceased was never moody, and that he was a very happy child. They stated that on January 22nd Mr. Frantz and Billy went ice fishing and returned home at about 9:30 P.M. January 24th. The deceased's condition did not change and the next day Dr. Henry Peterson was called and had him removed to the hospital.

	CAUSE OF DEATH: Homicide			
	Place of Burial	Sunset Memorial Park	Effects delivered to	Arthur R. McCluskey, 3110 Fremont North
J	Undertaker	Sundseth Funeral Home	Address	By order of Mrs. J. D. McCluskey, Mother of dec'd.

REMARKS:

The deceased had been adopted when a baby by his grandparents, Mr. and Mrs. J. D. McCluskey. He had an argument with his grandmother because she would not give him permission to buy a car. At about 6 P.M. he went up into his room and got a rifle which he had bought last summer at a CCC camp in the northern part of the state.

The grandmother then went out to the drug store and asked Jack O'Brien, 3722 Girard Avenue North, to go to the house and dissuade the deceased from committing suicide. When O'Brien got there at 8 P.M., he found the deceased dead on the living room floor. A single shot bolt action Winchester .22 rifle was in his hands. He had fired two shots. One shot went into the baseboard across the room and the other into his right temple. There were four notes indicating suicide. O'Brien called the police and the Minneapolis General Hospital ambulance who arrived after death.

There was a wound of entry at the right temple about 2" above the right eye measuring 3/8" in diameter with a powder burn about it about 1" in diameter. There was blood and brain tissue exuding from the wound.

Officers Peterson and Berg and Reardon and Detectives Forestal and Lindholm investigated for the police department.

He was found today at 7:20 A.M. by Harold Besch, 5705 Blaisdell Avenue, and Franklin Rockow, 909 East 18th Street, fellow workmen in this building which is used as a warehouse by the Minneapolis Honeywell Company. The deceased had not been to school last evening. There was a note in the front seat of the car asking Harold to notify his brother James A. Shepherd. There was a hose taped on the exhaust pipe leading into the car by the right front wing shield opening. This building is not used as a garage and the deceased must have brought his own hose because there was none around according to A. N. McNeil, 3717 Clinton Avenue, the foreman.

The deceased had apparently attempted suicide about a month ago in his garage but was rescued.

REMARKS:

The case was reported to the coroner by Dr. Frank Hirshfield. He stated he was called to attend the deceased at 10:30 A.M. April 20th. The deceased was then in bed clad in pajamas. He was conscious and somewhat confused. The right arm appeared limp and paralyzed. There was a small abrasion and bump on the left forehead and right occiput. The wife stated to Dr. Hirshfield that on April 16th the deceased had come home not feeling well, had nausea, and vomited. He took a few sedative tablets. The deceased has been home since that date.

The deceased was brought to the Eitel Hospital by ambulance and admitted about noon on April 20th. He developed pneumonia and died at 1:30 P.M. today. The laboratory findings at the hospital were all negative. Dr. Ude reported that x-ray showed a possible linear skull fracture but not definite. It was thought that the deceased might have met with an accident although none was known.

The deceased stated to the house physician, Dr. T. J. Milton, shortly after admittance to the hospital that he thought he had slept too heavy on the right arm for too long a time. The paralysis of the arm might have been due to this pressure.

The autopsy findings were negative except for lobar pneumonia and toxemia. The autopsy revealed no skull fracture. Those present at the autopsy were Drs. Frank Hirshfield, Hannah, Hultkranz, Ulrich, and A. T. Baker.

REMARKS:

On November 23rd, 1939, the deceased, who was employed as salesman by the Healy Ruff Company, St. Paul, was involved in an automobile accident at 24th and Chicago Avenue. He was driving his car which in the collision was turned over. The deceased was brought to the St. Barnabas Hospital by ambulance and admitted about 3:30 P.M. He was attended by Dr. Homer Smith. He suffered shock and the x-ray revealed fractures of 5th-7th-8th-9th ribs on the left side. He was brought to his home by ambulance after six weeks and has been confined to his home in bed. His symptoms have been those of asthma, and he used treatments for his breathing difficulty continuously. Since December 1940, he has been attended by Dr. McFarland. Death occurred at 10 P.M. May 21st.

In hearings before the Workman's Compensation Referee it was brought out that the deceased had symptoms of asthma before the accident but was working at the time of the accident, and since then he has not been able to leave the house to work. The question for decision is what effect, if any, or to what extent did the injuries aggravate the pre-existing conditions.

REMARKS:

The accident occurred on 26th and Nicollet Avenue at 8:50 A.M. June 4th. The deceased had been on the south sidewalk of 26th Street and was attempting to cross 26th St. to the north side, a few feet east of the crosswalk. John L. Elliott(28) of 4404 31st Avenue South, driving a transfer truck belonging to the Elliott Transfer Company(his father) was going north on Nicollet and was making a right turn on 26th Street when he felt an impact. He looked back and heard someone call. He stopped at 60 feet.

The driver stated he did not see the deceased. Prints of the fingers and arm were on the right door of the truck and showed plainly where the deceased had contacted before being run over by the rear right dual wheel of the truck. Death was immediate. Edwin M. Tait, 4546 Wentworth, and Emil Winkelmann, 36 South 12th Street, were witnesses. Officer Bessner stated he talked to the deceased a few moments before the accident, and the deceased was then on the north side of 26th Street. The deceased had after that crossed 26th to the south side and was evidently returning when he ran onto the truck.

The body was brought to the Hennepin County Morgue and examined. The head bones are severely crushed. There is a straight deep gash extending from the middle of the forehead to the bridge of the nose. There is another gash on top of the head and brain tissue exuding. It is evident that the wheel ran over the head.

Officers Holt and Bessner investigated for the police department.

Mr. and Mrs. G. Benjamin, 2556 Aldrich Avenue South, stated that they saw the deceased and Elenore Gessner(16) of 7201 First Avenue South, at the Bottle Inn Tavern, 78th and Pleasant, around midnight. They left the inn at 12:20 A.M. and were driving behind an International truck loaded with cattle going east on Highway #5, or 78th Street, between 30 and 35 miles per hour. The truck is owned by Axel Lyon and was driven by Robert Lyon(20) of Dunnell, Minnesota. Outside of 1501 East 78th Street the truck ran into a Harley Davidson motorcycle driven by the deceased going in the same direction. Elenore Gessner was a passenger on the seat of the motorcycle.

Mr. Lyon stated he did not see the motorcycle, and there was a great deal of fire or sparks from the motorcycle as it dragged on the pavement. The first he noted was the girl passenger. Edward Carlson, Dunnell, Minnesota, was in the seat with the driver, but at the time of the impact was looking out of the side window.

The police taking measurements noted that the distance from the first point of impact to the rear of the truck where it came to a stop was 343 feet and 171 feet to where the body of the deceased was found which was in the center of the middle traffic lane. The body was removed to the curb by Dr. and Mrs. Gilbert Boettcher, 3319 East 50th Street, and Mr. and Mrs. Clarence B. Rhoten, 4824 39th Avenue South. Miss Gessner was picked up on the highway 21 feet back of the truck where it had stopped. She was taken to the Swedish Hospital. The motorcycle was rammed under the front of the truck and was removed with difficulty.

Thorwald Michaelson, 4830 Lyndale Avenue South, stated he saw the deceased a short time before the accident at the Bottle Inn. Others at the inn were Mr. and Mrs. Stanley Erhardt, Lorraine Gessner(19), and Charlotte Schultz(19). The deceased left the tavern at 12:30 A.M.

He stated the deceased was then preparing to retire. They own this house and had employed the Smith Exterminating Company to fumigate it. Relatives tried to get the deceased by telephone during the day but got no response. They telephoned some people in another apartment and asked them to investigate. Mrs. A. L. Christensen and Mrs. Evan Johnson entered through a window and found the deceased dead in bed at 5:30 P.M. She was lying on her right side beneath the bedding clad in a night gown. The body is pink and there is a dried froth about the lips and face. She had apparently died very quietly. The Minneapolis General Hospital ambulance and the fire department arrived on the scene. Relatives arriving on the scene were Chris Osland, R. E. Archer and wife, Mrs. Albert Pratt, and the husband.

George Sells, 4401 34th Avenue South, of the Smith Exterminating Company stated that the house was vacated and fumigation began at 5 P.M. June 24th. The fumigation ended and the doors were opened at 6 A.M. June 25th and remained opened and vacated all day. He returned at 6 P.M. June 25th for final inspection, and by the orange paper(litmus) test found it negative for cyanide. The occupants re-entered the house at 8:30 P.M. June 25th and also the deceased.

Officers Benzick and Squires investigated for the police department.

REMARKS:

The deceased was working on a cereal puffer gun when it suddenly exploded. Vernon Poulict, Rt. 11, Minneapolis, was operating the two other guns. At 5:30 A.M. deceased had relieved Clyde Kerrott, 4356 Fourth St. N.E., who had been on the machine since 3 A.M. and he says it was apparently in good condition.

According to Carl G. Christensen, an official of the company, the process is as follows: the wheat is put into the gun and sealed; then the gas burners are lighted and the gun revolves. The gas heats the gun and brings the steam pressure up to 250 lb. per square inch. Then the machine is turned off and the puffed cereal is poured out of the machine. The head is placed in babbitt lead which should blow out, and is therefore a safety device. There is also a coil connected to the gauge, which is also a safety measure.

The right side of the decedent's head is torn open from his chin to the top of his head. The skull was opened and the brain was entirely out of the head. There is a large cut in the right deltoid region. There is a second cut about six inches long in the right temporal region.

Later he was taken to the Minneapolis General Hospital. The others were taken to the St. Barnabas Hospital.

The deceased died immediately; and when the deputy coroner arrived, he had been removed from the car. The skull was severely fractured and there was bleeding from both ears. The lower jaw and face bones were fractured, and both legs were completely fractured at the mid femur. There was a cut on the right heel. There was an odor of beer in the mouth and blood. The body was brought to the morgue.

REMARKS:

The deceased was the estranged wife of Carl H. Proehl. They have had difficulties and he was under court order to refrain from visiting the deceased's home at 3432 Minnehaha Avenue. The deceased worked in the Twin City Ordnance Plant at New Brighton and was brought home in a car at 4 P.M.

Mrs. Myrtle Olson, 3436 Minnehaha, stated that immediately after the deceased entered the house through the front door, she heard loud talking and then the report of two shots. She telephoned Mrs. Vivian Singer, 3428 Minnehaha, who called the police.

Officers Casey and William Dilley arrived. Proehl shot at Dilley through the front bedroom wall. Casey went to the rear of the house by the kitchen when Proehl fired at him through the window. Casey returned the fire and Proehl was shot. He gave himself up and was taken to the Minneapolis General Hospital where he made the statement to the police that he shot her because he loved her.

When Deputy Coroner Callerstrom arrived, the deceased was lying on her back beside the dining room table with her head toward the kitchen door. A large pool of blood was by her head. Death had been immediate. The body was taken to the Hennepin County Morgue and an autopsy was held.

The deceased's hat was on the bed in the bedroom, and a necklace was on the floor in the front room. There was a full quart bottle of whiskey on the floor beside the davenport. When Proehl came home, he was seen to carry a paper bag likely containing the bottle. A few years ago he had inherited a sum of money and had been found through the Missing Heirs radio program. The estate was largely dissipated.

The deceased was enrolled at the defense plant as Marie Alice Kinney.

REMARKS:

The deceased was swimming in Lake Minnetonka at the Casino Beach, Spring Park. On the shore at the dock was an electric light pole with a lamp on top. A one inch pipe led from this pole to the shore line, and here the pipe had an "L" bend and ended abruptly. It had been connected formerly to a lighting apparatus but was not in use now. In some way this pipe and wire became charged with electricity. The deceased contacted the pipe and immediately dropped dead at 12:45 P.M.

Three boys from the dock nearby came onto the scene--Bud Sletterdahl, 5200 York Avenue South, Harold Laiderman, 1654 Thomas Avenue North, and Dave Olson, 4612 Caskle Avenue, Edina. Robert DeBusk, boatman, arrived on the scene and tried to remove the body but received a shock. He called Joe Korman who turned off the switch, but the body still remained charged. Another man then cut the wire at the pole. Henry Strong, Roy M. Dinehart, and Dr. Seifert, and also the Mound fire department arrived on the scene.

The light pole belonged to Mr. King of the hotel, and he had sublet it to Art Holden and LaMonte of Excelsior.

The deceased's father is Davis Badiner.

REMARKS:

The deceased was found dead by his wife Violet at 9:45 A.M. today. He was lying on a bed in the children's bedroom completely undressed except for a blue work shirt. There was a deep lacerated wound, 4" x 2½", on the left cheek in front of the ear. A large amount of blood was on the mattress and a large pool of blood on the floor to the right of the bed. A small pool of blood was on the floor on the left side of the bed and a smaller pool at the foot of the bed. The bedroom wall to the left of the bed was spattered with blood. There were numerous marks in the plaster and on the closet door from the impact of the shot. The shot had hit the door and penetrated the door panel. A .12 gauge, single barrel shotgun lay in the pool of blood on the right side of the bed. It contained one discharged shell. The screens of both windows were intact and in place, and old cobwebs showed they had not been removed recently. His blue overalls were lying on the floor on the left side of the bed, also his shoes. Three .12 gauge shells were found in the overalls.

The deceased had been married eleven years to Violet Andrle. They have two children. Due to domestic trouble the wife had been staying with her mother Mrs. Booth who lives one-half mile from Glen Lake. She had been there for the past week.

On Sunday, August 31st, the deceased was arrested at Wayzata for drunken driving and was released from jail at 4 P.M. the same day. At 7 P.M. August 31st Tony Sopke of Wayzata was visiting his mother near the deceased's home and talked to the deceased and thought he was sober. Andrle milked the cows, and Mrs. Andrle received word of this so she did not go to the home.

At 7:45 A.M. today a cousin, Joe Smetana, who lives near by, called Mrs. Andrle at her mother's house and told her to come and take care of the stock. She and her brother Gordon Booth and her son Howard(10) arrived at the home at 8:20 A.M. They milked the cows. At 9:45 A.M. the wife sent the son into the house to see his father. The boy returned stating his father was asleep. The wife then entered the house and found her husband dead in bed. She notified the Hopkins police.

Officer Johnson of Hopkins and Deputy Sheriffs H. Lawrence and Dave Maier were present.

REMARKS:

According to Mrs. Lulu Zinn, deceased's wife, the deceased went out about 3:30 P.M. September 2nd. At 4:30 P.M. she went to the garage and found him slumped over in the front seat of the automobile. The garage doors were closed, and the car windows were closed except the left rear window which was open enough to admit a vacuum cleaner hose that was connected with the exhaust pipe of the car. Mrs. Zinn called Charles L. Salem, 4352 15th Avenue South, who was near. He pushed the car out of the garage and removed the body from the car. He found the ignition on but the motor was not running then.

The fire department rescue squad was called and they tried for 1½ hours to revive the deceased, but without success.

Mrs. Zinn stated that her husband had rheumatism and arthritis for many years. She had advised him to go to the Mayo Clinic for a check-up, but he objected. He had consulted a Dr. Anderson in the LaSalle Bldg. There was no suicide note found.

Officers R. H. Peterson and Pospishil were present.

REMARKS:

The deceased had a nervous condition following an attack of chicken pox four years ago. She had partial paralysis of the right leg and arm. Regular massage was given since June 1942 with benefit. The father Hilding Skytte refused to give the name of the masseuse.

The deceased was in swimming on September 5th and afterwards seemed to have a cold. She complained of headache and spent September 6th, 7th, and 8th mostly in bed. On the evening of the 8th she had a fever and it was not checked. She was evidently very sick the morning of the 9th. The masseuse saw her and thought she had pneumonia. The father was notified and he arrived home at 11 A.M. and found her temperature at a 107.4 degrees. Later the temperature rose to 109 degrees. Attempts were made to get a physician but without success until Dr. Peterson arrived at 3 P.M. He found the deceased dead on arrival. Death occurred at 2:30 P.M.

The deceased had great difficulty in breathing, and froth rose into the mouth before death but it was not bloody.

An autopsy was refused by the parents, and they have no criticism of anyone. The body was viewed by the deputy coroner at the mortuary.

He was cared for by Mrs. Coolidge up to the last ten days when Mrs. Dithmore, a graduate nurse, was employed. The deceased was a Christian Scientist. Miss Morehead, a practitioner, was in attendance.

A chest x-ray was taken in April, 1942, by Dr. Frank Anderson, 2706 East Lake Street, and it revealed old scars in the lungs but no active tuberculosis. Dr. Roskilly referred the case. In May, 1942, a sputum sample was obtained by a nurse from the Board of Health. This was reported negative. During the latter days of illness the deceased passed blood from the rectum which was thought to be due to hemorrhoids. The family preferred that an autopsy not be held.

REMARKS:

The deceased died at 8:25 P.M. today from first and second degree burns of eighty per cent of the body surface. The University Hospital chart stated that in June,1942, she was a patient at the hospital with a diagnosis of senile phychosis and arteriosclerosis, and was uncooperative. In July,1942, she was transferred to the Rochester State Hospital for the insane. Recently her husband, Fred C. Meyer, removed her to his home. This was against the advice of the hospital physicians.

The deceased has been closely watched but today she was left alone for an hour. Her husband found her in the basement close to the gas stove which she had evidently tried to light. Her clothes were almost entirely burned off her body. She was referred to the University Hospital by Dr. Russell Heim.

The husband stated that she has never talked about suicide. He also stated that the gas stove was generated with alcohol, and he thinks she spilled alcohol on her clothing which was ignited when she attempted to light the stove. The stove was not burning when she was found.

He was advised to enter Glen Lake Sanatorium, but he refused. He remained at home with his mother. He grew gradually weaker, and at times fainted when he was on the toilet. He had a left black eye from a recent fall from fainting. He had no medical attention after the Lymanhurst check-up, although a visiting nurse called at times.

REMARKS:

The deceased was admitted to the Minneapolis General Hospital at 1:23 P.M. October 7th. He was brought from the basement of the Club Bar, 310 Marquette Ave. The deceased was unconscious on admittance and remained so until death at 1:45 P.M. today. There was paralysis of the right side of the face, and indications of paralysis of the right side of the body. There was also a hematoma of the left upper eyelid. The left humerus was fractured at the distal third. X-rays were taken of the arm but not of the head. This information was obtained from the hospital records and from Dr. Schulze, interne.

William Kromfield, one of the owners of the Club Bar, stated that about 12:12 P.M. October 7th the deceased entered the bar and inquired for the toilet. He was shown the doorway leading to the toilet and entered. A noise was heard and investigated. The deceased was found at the bottom of the stairway. He was assisted to a chair and answered questions with the word "sure". Attorney Dale Nordby was called and then Dr. John Feeney of 1227 Medical Arts Bldg. They then called the Minneapolis General Hospital ambulance.

Dr. Feeney stated he found the deceased sitting on a chair. He was unresponsive. The left humerus was fractured. The left eyelid was not then discolored and the pupils reacted to light.

The stairway has twelve steps between the top and the bottom. None is broken. There is a full length railing on the right side going down. A placard on the barroom side of the entrance door has this notice in large letters, "Gent's Toilet. Be Careful, Stairway". William Kromfield stated that there was no other person in the basement at the time.

Joseph Gang, 1116 West Jackson St., Bloomington, Illinois, a brother, stated that the deceased was a bachelor and had worked as a machinist for the N.W.R.R. at Winona, but now was retired and on a pension. He also stated that the deceased had been in poor health lately and that his vision was poor. He believed the deceased was seeking treatment for prostate trouble. An autopsy was performed at the morgue.

Officers LaCroix and Hillner investigated.

The fenders and running board on the right side of the car were badly damaged. The windshield was cracked in many places and fragments of glass forced outward. Car tracks then showed that the car gradually left the road toward the right, and 200 feet farther on, the car, then fully off the road, had hit another telephone pole and apparently had rebounded three feet. There were marks on the pole at the level of the front bumper.

Dear Mrs. Willows:

I am writing in response to your and your husband's letter of October 21, 1986, inquiring about the death of your mother, Anna Cecilia (Peterson) Nelson who died on October 21, 1942 in Minneapolis.

I reviewed the summary of the death investigation and your mother's autopsy report which are still on file in our office. The death was classified as being "probably" accidental. The fact and factors surrounding her death confirm that conclusion in my mind. The door was not secured and it appeared that your mother started the car and forgot to open the garage doors. It appears that she noticed that the car was running and shut off the engine. It appears, however, that she was overcome by the exhaust fumes before she could escape from the garage.

There is no mention of suicide in the Coroner's report and the circumstances certainly support the conclusion that the death was accidental. The note that was left in the house appears to have been routine and in no way can be construed as a suicide note.

I am unclear about the note you copied for me and included with your letter. In any event, neither that note nor the investigation would indicate any "foul play". I do not see how your mother could have been incapacitated and confined in the garage by another person. Rather, it is my conclusion that the death was accidental.

I hope this letter answers any questions you might have. If others remain feel free to contact me.

Sincerely,

Garry F. Peterson, M.D.. J.D.

Dear Dr. Peterson,

Endosed are Copies of an INQuiry and responses, To an Investigation into the death of my Wife's mother IN Minneapolis. The CERTIFicate states "Possible" suicide (or accident, I think) and this has Troubled my Wife over the years.

The signature also has been in Question as NOT the usual way Verner A. Nelson Normally signs, as recalled by LOIS A. (NELSON) WILLOWS, my Wife. Her Sister Marjorie recently stated that She Signed it. (Marjorie died oct. 3, 1985.)

Anna Cecilia (Peterson) Nelson died Oct. 21, 1942 IN Minneapolis IN a garage IN a Car ON 5308 Zenith ave. So., Minneapolis, Minnesota.

Verifications of any IRRegularities Will be greatly appreciated, And the Truth of the matter Will be a great Comfort to my Wife.

Thankyou Very Much;

REMARKS:

The deceased was the wife of Verner A. Nelson. She had been home alone during the day. When Mr. Nelson arrived home at 6 P.M., he found her in the garage lying on her back on the floor. Her head was near the door and the rear right wheel of the car. She was clothed in a coat, etc.

Mr. Nelson stated that there was no odor of gas, and the ignition was turned off. The garage doors were double folding doors. The door on the right was closed to one-half inch, and the single door on the left was open between six and seven inches. The deceased had left a note on the kitchen table to the daughter Lois which read, "Went out. Cook yourself an egg. Iron your cooking apron."

The deceased could drive the car herself and sometimes used it to go shopping. She was a psycho-neurotic and has been sick a great deal. At times she was quite melancholy. The body was taken to the mortuary and an autopsy was held. The pink color of gas poisoning was very pronounced.

The daughter Lois was home at noon and did not see the deceased. The deceased was very nervous and it appears that she started the car and forgot to open the garage doors. When it came to her notice, she shut off the ignition, opened the right door to the car and was going toward the garage door when she collapsed and later died.

Officers Williams and Nichols.

REMARKS:

On October 25th, 1942, the deceased and his son Robert, age 15, drove to Diamond Lake on County Road 49 to hunt ducks. They brought along a duck boat. Frank Holland, a milkman, early in the forenoon saw the car parked along the road with the two hunters in the car. About 11:30 A.M. he saw them eating in a restaurant at Rogers, Minnesota. The restaurant is operated by Mrs. Ethel Rorillard. Later that day and on October 26th Mr. Holland saw the same car parked alongside the road but no boat or hunters in it.

When the deceased and Robert did not return home, a search was begun by Deputy Sheriffs Schlund and Elmer Plonde and Game Wardens, George Poole and Ben Cohen and friends. Search of the lake continued without success until October 30th when Morris Page from an airplane located the boat. The searchers found the boat bottom side up concealed in a mass of floating bog. October 25th had been a very windy day and a mass of floating bog had collected near the south shore. With pike hooks the bodies were located. At 11:10 A.M. the deceased was recovered in six feet of water, 40 feet inland from the boat, by William Schlund, deputy sheriff, George Poole, game warden, and Amy Fissette of Anoka. John Higgins of Champlin recovered the body of the boy at 1:10 P.M. in six feet of water 75 feet inland from the boat.

There were no known witnesses to the accident.

REMARKS:

The deceased was a yard switchman employed by the Chicago-Great Western Railroad. He came to work at 3 P.M. October 31st. The deceased was probably hanging onto the side ladder of a boxcar which was being backed into a siding between two milling structures when the accident occurred. At 9:30 P.M. George D. Nelson, switchman, did not see the deceased at his post at Malcolm Street Southeast and immediately signaled "stop" with his lantern. He investigated and found the deceased's lantern on the ground with the light still burning and the body of the deceased. Mr. Nelson, Harry Bramer, engineer, 1269 James St., St. Paul, and Oscar Nordstrom, fireman, East Avenue and Case Street, St. Paul, stated that they did not feel any jolt to the train.

It was found that one boxcar had been derailed. The deceased was found 65 feet from the place of derailment lying beside the cars with his head toward the wheels and his feet out. The train may have gone over the right arm but not over any other part of the body. The deceased's lantern, hat, and broken glasses were also at this place. The derailed boxcar continued 65 feet farther on before it stopped. The cause of the derailment is undetermined. The distance between the boxcar and the wall is 2½ feet. It is probable that the deceased was squeezed between the journal box and the track frame of the boxcar in such a way as to receive his injuries. Nick Dellich, 2614 27th Ave. South, Minneapolis, a switchman, was on the rear boxcar and arrived on the scene, but could not give any explanation.

The body was brought to the morgue and examined by the deputy coroner. It weighed 180 pounds and was fully clothed. Injuries were as follows: Fracture of skull, crushed chest, compound fracture of right upper arm, fracture of right hip, fracture of nose and jaw, lacerated scalp, extensive bruises of entire face, lacerated left ear, and bruises to the left hip.

The right wrist had multiple slashes over the radial artery, and the left wrist had one deep gash over the radial artery. A razor blade was lying in the soap dish attached to the tub. There was a small clot of blood on the floor beside the tub. There was a suicide note on the wash bowl next to the tub which stated that he had already notified his niece Mrs. Nelson.

REMARKS:

The deceased was found dead at 1 A.M. today lying on the bathroom floor. Her head was turned toward the right side in a large thick pool of clotted blood. The left cheek, left eye, forehead, upper two-thirds of the skull and scalp were missing. The fragments were lying about the bathroom. The entire brain was absent from the head. One hemisphere was lying in the washbowl and part of the other in the bathtub. Smaller fragments of brain tissue were scattered about on the floor, walls, and ceiling, together with smears of blood. The base of the skull was fractured into several fragments.

The deceased's aunt, Mrs. Mae Wood, formerly of 5720 Normal Blvd., Chicago Illinois, stated she had lived with the Emmons for one month. Mrs. Emmons was an unbeliever in the hereafter and they had discussed the question. She also stated that the deceased was an avid reader of lurid magazines of murders, suicides, etc. At 11 P.M. the deceased and her husband went to bed while she retired on the davenport in the living room. About an hour later the deceased came into the living room and asked for a match. They both smoked. Then the deceased entered the kitchen, brought out food for herself and a glass of milk for each of them. The deceased talked and acted in a normal manner. After finishing the lunch the deceased retired to her bedroom. Some time later Mrs. Wood heard steps in the apartment and shortly after a sound as if something had been dropped. She investigated and found the husband in bed snoring but the deceased missing. She then looked in the bathroom and saw the deceased as described. Leaning against the washbowl was a .12 gauge, single trigger, double-barreled Ithica shotgun. She removed the gun to the closet floor and awakened the husband. The husband stated he called the police. Officers Jacobson, Sorenson, O'Rourke, and Uglem received the call at 1:22 A.M. and investigated.

The lower edge of the left cheek showed powderburns. Written with an eyebrow pencil on the washbowl were these words, "I've often wondered. I'll know(?)".

The deceased was taken to the University Hospital by ambulance and admitted at 12:20 P.M. November 17th. He expired five minutes later. The body was brought to the Hennepin County Morgue and an autopsy was held which revealed that death was due to carbolic acid poisoning.

Dr. C. W. Callerstrom, deputy coroner, and Mrs. James Stewart, daughter, of 821 Hawthorne Avenue, went to the house at Green Acres, Route 10, Minneapolis, and investigated. There was a class containing carbolic acid crystals on a trunk in the basement. There was also a razor blade on the trunk with which the deceased had evidently used to cut his left wrist. An electric plate in the kitchen was turned on, and the teakettle on it which was half full of water was boiling and steaming. A basement window was knocked out through which the deceased had likely gained entrance as the doors were locked. A suicide note to the son George was found on the dresser. The deceased stated in it that he was despondent and said goodbye.

The wife was interviewed and stated that there had been a great deal of domestic trouble and that she was suing for a divorce. She also stated that the deceased was mentally deranged at times.

The deceased had also written a letter to Mrs. Stewart stating he was going to end his life.

REMARKS:

The deceased lived in a trailer near the home of Frank McMullen, his son-in-law. He took his meals at his house. Frank McMullen left for work at 6:30 A.M. today. Mrs. McMullen slept late but heard and talked to the deceased about 9 A.M. He stated that he would prepare his own breakfast. The deceased often left the house to pick up odd jobs in the neighborhood, and frequently did not come home for lunch. She thought this to be the case today.

Later in the afternoon Mrs. McMullen was leaving the house to go to a store when she noticed the deceased's car. At 4:30 P.M. she investigated and found the deceased dead. He was lying anglewise on his bed with his feet on the floor at the edge of the bed. A .22 automatic Winchester rifle, stock and barrel apart, was lying on the floor about four feet from the outer edge of the bed. The canvas gun case and a brass cleaning rod were on the bed, and an empty .22 caliber cartridge was found on the floor.

The deceased was lying face upward. His spectacles were in place. Considerable mucous discharge had run from both nostrils, but it was not bloody, nor was blood found in his mouth. There was a small circular wound 1/3" in diameter in the middle of the sternum which penetrated through the sternum. A small amount of blood was found near the wound but none on the bed or on the floor.

The McMullens stated the deceased had been in good health. He did not worry and had a pension from the railroad.

The gun barrel must have been in its seat at the moment of discharge. To take the gun apart a screw has to be loosened, and then considerable force is needed to remove the gun barrel.

Deputy Sheriffs Thoralson and Primeau were on the scene.

REMARKS:

At 7:50 P.M. December 7th the deceased was served papers by Frank Lyman, deputy sheriff, for personal property tax that was due and was served eviction papers by F. C. Greenhalgh for non-payment of rent. The deceased was at home with his daughter Marian and listened to the radio at 10 P.M. He then went out to the kennels to feed the dogs. The daughter made coffee and sandwichs for him. She looked out of the window at 10:45 P.M. and saw the fire. She rushed out and saw the deceased lying inside of the kennel door on the floor, but it was too smoky to go in. She called Oliver Huff, a neighbor, who rushed over after calling the fire department. Huff pulled the deceased out of the door and carried him into the kitchen where the fire department used the inhalator on him. The deceased was seen there by Dr. Martinson and removed to the Wayzata Hospital where he expired at 6:10 A.M. today.

Fred Styner of the fire department helped Mr. Huff carry the deceased into the kitchen, and stated the same facts as Mr. Huff. He says it is his idea that the deceased tried to throw out the oil stove and collapsed.

Thor Thompson, special officer at Minnetonka Beach, stated the above facts but stated the daughter said the deceased was going out to "finish" the dogs. The door to the exercise pen from the kennel was open and the dogs could have run out.

Dr. Martinson stated he was called at 11:30 P.M. December 7th. The daughter stated to him the deceased had probably poisoned the dogs and then himself. He was told by the daughter the deceased was going out to "finish" the dogs. At 10:45 P.M. the daughter saw the fire and summoned the neighbors. Dr. Martinson stated he did not think that the deceased was overcome by the fire as he did not act like that. The deceased was in deep stupor; no eye reflexes. He was found in the front room of the kennel on his back. The door of the kennel opens into the pen so the dogs could have run out. The dogs were all burned in the kennel. The wife was in town working. The deceased was feeling badly about having papers served on him.

REMARKS:

Russell Medin, 2914 Colfax Avenue North, found the deceased dead at 1:30 A.M. today lying on his right side on the cushion of the front seat of the deceased's car where he had evidently slumped from the driver's position behind the wheel. The ignition was on, the tank empty, and the battery dead. The body was frozen. The front windows were lowered and the garage doors were locked on the inside. The small door for entering the garage has a spring lock and automatically locks when it is closed. The body could not be readily seen unless one stepped close to the car.

Russell Medin stated he put his car away on Monday evening, December 14th, and did not use his car until 4 P.M. December 16th. He then noticed a strong odor in the garage resembling gasoline. When he got outside, he opened the windows for ventilation of the car as he thought the odor came from his own car. He attached no significance to this odor. He had been asked by Mary Palmquist, the wife, to try to locate her husband. On December 17th and 18th he telephoned several taverns on West Broadway but without success. On December 18th she asked Mr. Medin to go on a search of taverns on West Broadway. This he did after completing a bowling contest he was in that night. Not finding any trace of the deceased at the usual taverns the deceased used to visit, he went home. After putting away his own car, on a hunch he took a close look into the deceased's car and found the body.

Holten Svendsen, superintendent of the Franklin Creamery, stated that the deceased has worked there for about two years and that he sometimes went on "sprees" when he would be absent for several days. He worked on December 14th and drew his check for $34.71. He did not report for work after that.

Mrs. Mary Palmquist stated that the deceased went to taverns frequently in the evenings and it often happened he would not come home for several days at a time. He would leave a tavern at closing time and go to the creamery where he would report for work at 3:45 A.M. Hence she did not worry about his absence from December 13th, when she last saw him, until his absence became too long. She made telephone inquiries of her own but without success. When she became really alarmed, she asked Mr. Medin to go out on a search. Mrs. Palmquist also stated that the deceased had not to her knowledge used the car since last Thanksgiving Day.

There was a pinkish color to the skin on the back and buttocks and scattered areas on the arms and legs.

Officers Wickenberg and Jaeck investigated.

At 11:25 A.M. today he was found dead by the housekeeper, Edith Skow. She and the son had come home late and had slept late. The deceased had shot himself through the chest.

The gun used was a single shot 45-70 Springfield rifle. The bullet entered at the left side of the sternum one inch above the nipple line and passed through the chest coming out through the right scapula. Then the bullet went through the ceiling under the bathroom and the copper casing evidently richocheted from the bathtub and reentered the kitchen through another hole in the ceiling.

The body was found lying in a pool of blood clothed in underwear, shirt, pants, and socks.

Officer Colton investigated for the police department.
