This case was called to the attention of the Coroner's office by the funeral director. There is a history that the deceased had been a bed patient for approximately ten years because of arthritis. She had been under the care of Dr. Ernest Anderson, and during the past two years Mrs. Proper, a nurse, has been in the home caring for the deceased. On December 14, 1945 the deceased was lifted out of bed and she sat on a chair. In some manner she fell off the chair and fractured her left shoulder. Doctor Anderson is of the opinion that the shock of the fall, etc., naturally hastened the woman's death. Deceased, a single woman, and her two sisters, both of whom are also single - Evelyn and Adelaide, made their home together at 2705 Bloomington Avenue.

The pilot light had been turned off and all four burners of the gas stove were on. The deceased had put a curtain over the opening to the rear sun porch, closed the door from the kitchen to the living room and put cloth around the doors. REMARKS: Social Security No. 475-22-6460

The deceased had complained of feeling ill since January 7th and had not worked since that time. Previous to that, however, he had received treatment at Veterans' Hospital for a cardiac and stomach condition. The family stated that the deceased had recurrent heart attacks which would leave him unconscious for varying lengths of time after which he would be all right. Recently he had complained of pains in his chest from time to time. He had been attended by Dr. D. A. McDonald, but had not consulted him for the past five years. He was found dead in his bed at 6:00 A.M. on January 10th.

The Deputy Coroner attributed the cause of death to coronary disease.

Later: Letter dated April 8, 1946, signed by Dr. George C. Hendrickson, Acting Chief of Service, Veterans Administration, Minneapolis, states that deceased had been getting phenobarbital over a period of years for his epilepsy. He had been taking grs. ½ ounce a day, which seemed to control his seizures. In view of the fact this man had received treatment for epilepsy at the Veterans Hospital and a definite history of the disease had been indicated, the Coroner felt that epilepsy was a contributing factor in the cause of his death abd the death certificate will accordingly contain this information. REMARKS: Social Security No.

The deceased had been employed as a teller at the Northwestern National Bank for many years up until about eight years ago. Approximately about eight years ago the deceased had sustained a head injury due to a falling tree. Since that time his eyesight had been impaired and he had, from time to time, suffered severe headaches. It had become necessary for him to give up his work at the bank. The deceased had consulted various doctors in the hope of securing treatment that would restore his failing sight.

Since March, 1945 the deceased had made his home with his brother-in-law and sister, Mr. and Mrs. Byron W. Blomberg, 3748-16th Avenue South, and their three children. It was stated that the deceased maintained an attitude of suspicion toward the people with whom he lived; he was always secretive about his actions. Frequently he would get into his car and go off on a trip without telling the Blombergs of his destination. At times he appeared to be very despondent about his condition.

The deceased had contemplated making a trip by automobile the morning of January 17th; it was assumed that he might be going to Salt Lake City, Utah to consult a doctor about his eyes. As was customary with him, the deceased had packed his personal belongings and placed them in his car. He left the house in the morning, apparently going to the garage. A little later, the deceased's brother, Captain Lynn Wickland of the U. S. Army, who also had been staying with the Blombergs for several weeks, went out to the garage and found the body of the deceased behind the steering wheel of his car, a 1941 Oldsmobile. A Colt Official Police, 38-gauge, revolver, belonging to the deceased, was in his right hand, the index finger through the trigger guard. There was a gun shot wound in the man's head. The body was found at 9:45 a.m. No note was found to indicate the man had intended to destroy himself.

The deceased had not consulted a doctor for a period of about eighteen months. Previous to that time he had gone to Dr. R. P. Neary for treatment of a nasal hemorrhage. He had been employed by The Commutator Co., 125 North First Street, for thirty-eight years; however, due to illness he had found it necessary to give up his job as a brass molder the latter part of June, 1945. He had complained of severe pain in his left chest. The presence of blood was indicated in his bowel elimination shortly before his death. The deceased expired in his bed at 10:38 a.m., January 22d.

Routine physical examinations were given the employes of The Commutator Co. from time to time by Dr. George E. Dunn, while x-rays were taken at the office of Dr. R. G. Allison. In line with such examinations, on January 24, 1938 x-rays revealed a mild fibrosis in both lungs of the deceased. Hypertension was indicated, blood pressure being 168/122. Other examinations were negative. One June 19, 1943 the results of examinations were normal except for the lungs and hypertension. Diminished breath sounds were apparent, although there were no rales; the heart was slightly enlarged; the pulse was irregular. X-rays revealed silicosis of both lung fields. The plates were sent by Doctor Allison to Doctor Sander in Milwaukee, Wisconsin for confirmation.

An autopsy revealed bronchopneumonia; pulmonary edema; and silicosis of both lungs.

REMARKS: Social Security No. 468-01-9952

The deceased, a heavy drinker who sometimes drank consistently over a period of three weeks, was admitted to the Minneapolis General Hospital at 11:08 a.m., January 29th in a semi-conscious condition. The landlady had noticed a light in a window of the deceased's room during the previous night. The following morning admittance was gained to the deceased's room and the man was found, apparently in a stupor. The room was in general disorder, furniture was overturned and dishes were thrown about the place. Possibly the deceased, under the influence of liquor, had thrashed about in the room and sustained a fall which resulted in fatal injuries. This, of course, is merely an assumption, since it is not known how nor when his injuries occurred. The deceased expired at 3:30 p.m., January 31st.

An autopsy revealed a right temporal skull fracture, subdural hemothorax, and abrasions and contusions of the scalp which bore out the fact the deceased had received fatal injuries in some manner unknown to the relatives of the deceased, as well as the hospital and the Coroner.

The deceased has threatened to end her life, and on Friday, February 1st she had turned the gas on in the kitchen in an attempt to carry out that threat. However, her daughter, Marion had discovered the situation in time to prevent her mother's death.

On February 4th Marion was worried about her mother and remained home from her work so as to guard her. About 8:30 a.m. the daughter became apprehensive and went to the basement, where she found her mother lying on the floor. She had slashed her throat with a butcher knife from the center of the throat to the right jaw. The butcher knife, a new one apparently purchased for the purpose, was lying on the floor. The woman was still alive and requested her daughter not to call for help. However, Marion called the Minneapolis General Hospital, also Dr. G. W. Callerstrom. She was still breathing when the doctor arrived, but due to loss of blood expired at 8:50 a.m.

The body was removed to the Morgue and later was released to a funeral director.

The child had been suffering from a cold. At five P.M. on February 9th, the baby's mother noticed that he appeared limp. She fed him at that time after which he seemed to be all right. At 6:30 P.M. the child was given a sulpha tablet. Later in the evening, the child was being held by his father when he suddenly became limp and expired. He had not cried or seemed irritable previous to this. The child's Mother called Dr. Benesh who in turn notified the Coroner's Office. This baby had been born at Deaconess Hospital with Dr. Louis Benesh attending. When the child was two months old he was in Deaconess Hospital for two days. He was also a patient at Minneapolis General Hospital for fourteen days due to a glandular swelling in his neck.

The deceased entered Lee's Restaurant, 119 Nicollet Avenue, shortly before four-thirty p.m., February 13th. He sat down on a stool at the counter, ordered doughnuts and coffee, then appeared to be ill and got off the stool and walked to the door. He fumbled with the door knob for a moment, then collapsed to the floor. When assistance reached him he was dead. Death occurred about 4:30 p.m. The body was removed to the Morgue.

There was nothing on the body to indicate the identity of the man. Efforts were made through the press and the radio to establish his identity. Also Old Age Assistance was contacted and one of the investigators, Mr. Wiltsie, of that department called at the Morgue but was unable to identify the man as being one of the recipients in his district. Mrs. Boyum, proprietor of Lee's Restaurant, stated that the deceased had been coming to her place off and on over a period of about ten years; however, she did not know the man by name nor whence he came. The body was taken to the Anatomical Department on February 18th.

REMARKS:

During the early evening of February 16th the deceased had gone to the Persian Palms, 111 Washington Avenue South. His landlady, Mrs. Harry (Eunice) Wood, age 39, of 2434 Hiawatha Avenue, was also there that evening, as was a neighbor, Mrs. Roosevelt (Bernice or Bonnie) Jackson, age 22, of 2430 Hiawatha Avenue. There was considerable drinking done at the place by the three, as well as various acquaintances who joined the group. Among those present was a former soldier, John G. Roll of Mott, North Dakota. It seems that Roll objected to the deceased's attentions toward Mrs. Jackson, and finally about 1:45 a.m. the two went out into the alley at the rear of the tavern. During the argument that ensued Roll struck the deceased, who fell to the ground. He lay on the ground, apparently unconscious, and Mrs. Jackson who had come out in the alley with some of the others began slapping the deceased to bring him back to consciousness, since she apparently assumed that he was under the influence of liquor. Detectives Noonan and Barry arrived at the scene and, believing the deceased to be intoxicated, called for the wagon. The wagon arrived with Kevelin and Bartosh in charge, and the deceased was taken to the basement of the Court House. However, upon driving into the basement it was noticed that the man was limp and his color was bad, so he was taken to the Minneapolis General Hospital where he was admitted at 2:32 a.m. Doctors Jensen and Gibbs examined the deceased at 2:35 a.m. and pronounced him dead.

The body was removed to the Morgue where an autopsy revealed a skull fracture, subdural hemorrhage and bruising of the brain.

REMARKS: Social Security No. 476-18-3370

The deceased's family had left home about two o'clock during the afternoon of February 17th. About four o'clock his sister, Barbara Jean, age 14, returned home from school and called to her brother as she passed his bed room, but received no response. She went to a neighborhood store and returned home about 4:45 p.m., and again she called as she passed her brother's room and, receiving no response assumed that he was not at home. During the evening Mr. and Mrs. Moss returned home and they, too, called to the deceased. Receiving no reply they also believed the young man to be out somewhere.

The following morning Mrs. Moss did not hear her son's alarm clock as was customary, so she went to his room to awaken him at 7:00 a.m. She found the deceased's body lying on the floor in a large pool of blood, the head and shoulders were under the bed and the balance of his body was lying across his .22 rifle. There was a bullet wound in the forehead and there was a bullet hole in the wall about four feet above the body where the bullet had penetrated the wall. It was believed that the deceased had probably shot himself some time between 4:00 and 4:45 p.m., February 17th.

A note found on the dining room table written by the deceased and directed to: "Dear Mom, Dad, Coral, Carl, Barb., Jack, Jim and Diane" stated that he was "tired of going on." He designated to whom of his family he wanted various items of wearing apparel, etc. to be given.

The child was playing on a swing apparatus in the yard of Mr. and Mrs. Paul Elmer, 5325 France Avenue South. Apparently other children with whom she was playing left to play elsewhere and she started to climb down to follow them. Apparently the strings of her bonnet caught on the crossbars and strangled her. The tragedy was discovered when Mrs. Elmer saw the child's suspended body on the side of the swing. Bonnie's mother was visiting Mrs. Elmer at the time and was about to leave for her own home. Efforts by Mrs. Elmer and her father-in-law, C. H. Elmer, 4228 Aldrich Avenue So. to revive the little girl were fruitless as were further operations by the fire department rescue squad.

The ladder was of the center-support type, similar to firemen's scaling ladders, with rungs protruding from each side of a central standard. (The ordinary ladder has side supports and rungs between.) The child's bonnet had caught on one of these protruding rungs. Death occurred at 2:15 P.M.

This case was referred to the Coroner's Office on March 1st. Dr. J. N. Giebenhain was summoned by the deceased's family. The doctor arrived after death had occurred, however, he signed the death certificate which, of course, the Minneapolis Health Department refused to accept.

Eighteen months previous to death this man has suffered a slight stroke and at that time had been attended by Doctor Giebenhain, who had not seen him since. On February 26th the deceased was shoveling snow from the sidewalk in front of his home when he suffered another stroke. He staggered into the house and collapsed on the kitchen floor. When Doctor Giebenhain, who had been summoned, arrived he pronounced the man dead.

About 8:30 p.m., March 1st, the deceased was walking across Hennepin Avenue, from the east to the west side of the street, and about 24 feet north of Second Street North, when he was struck by a northbound Bryant-Johnson street car. The car, No. 1824, was operated by Mrs. Dorothy A. Nelson, age 30, of 3344-36th Avenue South. The deceased apparently was physically handicapped for he used a crutch under his right arm, and his left arm had been amputated. Mrs. Nelson stated that she had stopped her car at Washington Avenue, where one passenger alighted. The semaphore was set for traffic on Hennepin Avenue and she proceeded on in the usual manner. As the car approached the intersection of Second Street it was noticed that the semaphore was "green" or go for traffic on Hennepin Avenue, and, therefore, the vehicle entered the intersection. When the motorette first noticed the deceased, she stated, he was about ten feet in front of the street car. She applied the brakes, but due to the "greasy" condition of the rails, the car slid into the deceased. The impact threw the man forward a distance of about 18 feet.

The deceased was removed to the Minneapolis General Hospital by ambulance, being admitted at 8:42 p.m. He expired the following day at 11:45 a.m.

The deceased, her parents, and a sister, Lucille, age 21, were passengers in a car being driven by the latter's fiance, Francis A. Vroblosky, age 22, of 1421 Hamline Avenue North, St. Paul. All five had attended the wedding of Gladys Weight and Roger Lindus at the home of Mr. and Mrs. Ernest Weight, 1687 W. Larpenteur Avenue, St. Paul, Saturday night, March 2d. They left the Weights' home about 2:00 a.m. Sunday and were on their way to the Linberger home in Montgomery, Minnesota when about 3:30 a.m. the car missed a Minneapolis, Northfield & Southern Railroad overpass and hurtled 65 feet to the railroad tracks below. At the time of the accident the vehicle was traveling west on Highway #5, about 800 feet west of the Cahill Road, at a speed said to have been between 45 and 50 miles per hour. The automobile missed the bridge by 23 feet and shot through a small space between a string of guard rails and a sand pile. Occupants of the car, with the exception of Lucille and the driver were asleep at the time of the accident. The car landed on the west rail about 30 feet south of the bridge, on its right side, pointing south. The deceased and her father were pinned beneath the car and apparently died instantly. Vroblosky, who was uninjured, climbed up the enbankment to the highway and summoned help.

Deputy sheriffs, other police officers and passers-by lifted the automobile from the victims after the crash. The bodies of the deceased and her father were removed to the Morgue.

Deputy sheriffs Mair and Lawrence, as well as officers Erickson of the Edina Police, Peterson of the Richfield Police and Schroeder of the Highway Patrol arrived at the scene.

Mrs. Linberger suffered a broken right arm and a fractured pelvis, and Lucille sustained minor injuries. Both were removed to the Shakopee Hospital, Mrs. Linberger later being transferred to Eitel Hospital for treatment.

The deceased was driving his car, a 1939 Chevrolet two-door coach, bearing Minnesota license No. 53-243, in a westerly direction on Highway #45 on Saturday afternoon, March 2d. The car of Lydon S. Stubbs, age 29, of Long Lake, Minnesota, a 1934 Chevrolet sedan, bearing Minnesota license No. 575-101, was traveling in the same direction as the Anderson car. It was stated that a trailer being pulled by Stubbs' car became uncoupled as the latter car was passing Anderson's on the highway and rammed into the latter vehicle. Or the trailer may have been struck by the front bumper of Anderson's car, since the deceased might have been "blinded" by the sun. The accident occurred about 5:00 p.m. Deceased sustained head injuries and was removed to Eitel Hospital, being admitted at 5:45 p.m. He expired the following day at 5:50 p.m.

The body was removed to the Morgue where an autopsy revealed a skull fracture and subdural hemorrhage.

The Sheriff's Office had not been notified of the accident until the following day, at which time deputy sheriffs Rosnow and Seviola made an investigation.

About 4:00 p.m., March 3d, the deceased and his brother, John, age 6, were playing in their home. The latter found a gun behind a door in the home and took it into the bath room and pulled the trigger. He stated that he did not know the gun was loaded. The shot struck the deceased in the neck. Mrs. Blechinger said she was in the kitchen at the time and heard the shot, but thought at first it was outside, then realized the sound was too loud. She ran into the living room and found the deceased lying on the floor in a pool of blood. She picked the boy up and ran with him toward the Frank Berg farm, one-third of a mile away. Mrs. Blechinger's screams for help attracted J. G. Beckman, 694 Stryke Ave., St. Paul, who was visiting at the Berg farm. Beckman took the boy from his mother and drove directly to the Post Hospital at Fort Snelling. Army doctors said the boy's neck was broken by the bullet. He was given four blood transfusions and then placed in an iron lung in an effort to save his life.

The deceased expired from loss of blood and shock at 2:55 a.m., March 4th.

The deceased and a companion, Richard Hyde, age 8, 5317 Colfax Avenue South, were on their way home from school for lunch and had engaged in a friendly snowball fight. They were on opposite sides of a large tree on Minnehaha Parkway, when suddenly the deceased ran out into the street in front of an approaching automobile. The car, a 1940 Ford coupe, bearing Minnesota license No. 301-573, was driven by Ralph B. Vandree, age 31, Antigo, Wisconsin. Vandree had been discharged from the Navy at Wold-Chamberlain Field at 11:00 a.m., March 5, 1946. E. C. Ward of 3215 Girard Avenue South, was a passenger in Vandree's car at the time of the accident, which occurred at 12:15 p.m., March 5th. The driver noticed the boys playing on the boulevard and when he saw the deceased run out into the street attempted to stop his car. However, the car skidded about eighteen feet on the slippery incline and the front bumper struck the deceased. The latter was taken to Abbott Hospital for examination and treatment, being admitted at 2:10 p.m.

Examination revealed no external marks on the body; the pupils were equal; pulse 50, however, there was a gradual drop in the pulse rate; blood pressure 130/80; a spinal puncture revealed the fluid to be clear. An x-ray showed a short linear fracture of the right parietal bone, posterior portion. At 3:00 p.m. convulsions developed and the deceased expired at 3:15 p.m., the same date.

REMARKS: Social Security No. 477-16-2670

The body of the deceased was found at 8:30 a.m., March 17th, by Emil Johnson, 27 Eastman Avenue, four blocks from her home. The body, which was nude, was lying face down, on the river bank near Eastman and East Island Avenues. The mouth was stuffed with dirt, twigs, grass and pieces of wood. One eye was badly swollen and there was a deep gash under the chin. Bruises on the lower part of the body were apparently caused by beer bottle caps having been pressed into the flesh, and the body was otherwise mutilated.

The body was removed to the Morgue where an autopsy revealed death was due to strangulation

The following police officers arrived at the scene: Eugene Bernath, Daughtery, Ridland, T. Cosgrove, K. Johnson and O'Rourke.

It was stated that the deceased's brother, Gordon Edwin LaLonde, age 25, of 185 East Island Avenue, a former U. S. Army paratrooper, and Mrs. Alice Schense, 127 Nicollet Street, a friend of the deceased, were at the murdered woman's home Saturday night, March 16th, and the three drank a quart and a pint of whisky. Between nine and ten o'clock Gordon and his sister left, apparently with the intention of procuring more liquor. Mrs. Schense remained at the Hickman home with the deceased's children, Russell, age 4, and Roberta, 3 years. However, neither the deceased nor her brother returned to the house.

The following morning Gordon Edwin LaLonde appeared at police headquarters and reported his sister (the deceased) was missing. He was taken to the Morgue where he identified the body.

The deceased's husband, Russell, age 30, is an army corporal in a hospital at Fort Lewis, Washington, where he has been recuperating nearly a year from battle wounds suffered in Germany.

REMARKS: Social Security No. 701-16-4680

In connection with the death of Dorothy E. Hickman whose nude body was found the morning of March 17th, when police were unable to find any new leads they went to the home of Mrs. Bella LaLonde, 185 East Island Avenue, around the corner from the Hickman residence, to question her son, Gordon Edwin LaLonde. The latter was brought to police headquarters by Detectives John McCarthy, Clarence Christiansen and C. W. Smith. Detective Inspector, Eugene Bernath, became suspicious when he noticed the man's hand was bruised and asked Gordon (the deceased) if he had beaten up his sister. "Maybe, but I don't remember," the deceased replied. He finally admitted that he recalled waking up about 3:00 that morning and hiding a dirty pair of trousers and a jacket. The detectives then took the deceased home where dirty and blood-stained clothing was found in his trunk. On the trip back to the court house the deceased wept and stated that "Eighty-seven percent of the men in my company were killed. I wish I had been too." When the car arrived at the court house the deceased suddenly jumped away from the detectives and pulled a .38 caliber pistol hidden in his clothing. "I'm not going to hurt you," he told the detectives, who reached for their own guns. "I'm not going to run away. I knew you'd get me." He then shot himself in the head before the officers could stop him. The deceased never admitted definitely that he killed his sister, insisting that he was too drunk to remember whether or not they had argued or fought the previous night.

The deceased's body was removed to the Morgue where an autopsy was performed.

It was stated that the deceased had served with the army in France and Germany and suffered wounds of both legs and an arm in the parachute invasion of The Netherlands. It was stated, also, that the deceased had been drinking rather heavily since his discharge from the army last December.

Deceased shot himself at 5:50 p.m., March 17th.

The deceased lived in a shack, alone, in the rear of the lot. About 5:00 p.m., April 4th, Howard Evers of 4928 Fourth Avenue South, a brother of the deceased, went to the latter's shack and called to him and the deceased answered by saying "Ya, ya." Howard, thinking that his brother was under the influence of liquor, did not insist on gaining admittance. At 2:30 p.m. on April 6th Howard again failed to gain entrance to his brother's place. And again about 11:00 p.m., April 7th, when he failed to receive response at the door, he called the police. Officers Klopfleisch and Kaufman responded, and the first named gained entrance by forcing a window on the east side of the shack. He found the deceased lying in bed dead. Minneapolis General Hospital was called and Doctor Ankner, who accompanied the ambulance, pronounced the man dead.

The door to the shack was bolted from the inside. Investigation revealed that the deceased apparently had gone to bed under the influence of liquor, and smoking. The bed clothes had caught afire and smouldered. The man's knee, feet and face were scorched. There was a strong odor of smoke within the place. The lights were on. The body, lying face down on the bed and tangled up in the bed clothes, was nude.

According to Howard Evers, the deceased had been drinking to excess for years, and on several occasions he had given him money to buy food, however, the deceased apparently always bought whisky instead.

Death was attributed to suffocation by smoke.

Detectives Uglem and Nordstrom also arrived at the scene.

The body was removed to the Morgue and later was released to a funeral director.

REMARKS:

Social Security No.

At 5:30 p.m., April 7th, Fred Tauche of 5949 Emerson Avenue South, decided to investigate an automobile parked in a gravel pit at 58th and Fremont Avenue South which he and a companion, Roger Borsheim of 5904 Emerson Avenue South, had noticed earlier in the afternoon parked in the same place with the motor running. Upon peering into the car young Tauche saw the deceased's body slumped over on its right side in the front seat of the car. He ran to the home of Mrs. Carl E. Nordquist, 5915 Fremont Avenue South and she called police.

The ignition was on, however, the gasoline tank was empty. A flexible hose had been capped over the exhaust pipe and then run through the trunk and under the rear seat, into the car so that the fumes from the exhaust would enter the car. A penciled note was attached to the gear shift lever asking that "this car be returned to 4757 Aldrich Avenue South."

The body was removed to the Morgue and later was released to a funeral director.

The deceased's mother revealed that her son had been worrying about his health for some time. He had planned to go to the Mayo Clinic at Rochester, where he felt an operation for a stomach condition was inevitable, however, he felt this ultimately would not prove beneficial. He had been losing weight at the rate of about five pounds weekly. He was of the opinion that his trouble was cancer of the stomach and he was very despondent about his physical condition.

Detective C. W. Smith arrived at the scene.

She was promptly taken to the Minneapolis General Hospital in an unconscious condititon, being admitted that morning at 9:24. About 3:00 p.m. she had a grand mal convulsion which lasted for about two and a half minutes and then she slept. From the history of this case, it is quite apparent that the deceased was an epileptic. The only physical sign indicated in the hospital was a watery nasal discharge; however, the child's mother stated that she had had a cold for about two weeks. There were no bumps on the child's head nor was there any bloody discharge from the nose or ears; the pupils were equal. The deceased expired at 8:00 p.m., April 9th.

The deceased's mother refused to give consent for an autopsy.

The deceased was washing windows on the eighth floor of the Plymouth Building at 8:00 A.M. April 12th, when he lost his balance and plunged to the sidewalk below. The body landed in front of the Plymouth Building entrance at 12 South Sixth Street. The body narrowly missed several persons on the street as it hurtled through the air, struck a parking meter and then hit the sidewalk in a head down position.

The deceased lived alone and had been a window washer at the Plymouth Building for about twenty years. He had been washing windows for about an hour before office employees arrived on April 12th. The deputy Coroner's investigation revealed that rivets in the back of the safety belt which the deceased was wearing had been pulled through the leather and a canvas section of the rear of the belt had been ripped through. Both sections of the belt, however, were still in the harness on the deceased's body.

The body was removed to the Morgue and later released to the funeral director.

This case was reported to the Coroner's Office by Dr. Robert R. Dickey on April 22d.

The deceased occupied a cottage at 5848-31st Avenue South. His daughter, Bertha, and the latter's husband, Benjamin Green, lived next door, at 5844-31st Avenue South. Mrs. Green, on April 20th, as was customary, took a tray of food over to her father for his noon meal. She entered the cottage at about 12:15 p.m. She found the deceased lying on his bed, his face was twitching. He expired five minutes later. Mrs. Green promptly summoned Doctor Dickey, the family physician, and upon arrival he pronounced the man dead. There was a note lying on a nearby table, written in Swedish, to his daughter, Bertha, signed "A. Nelson," which stated that he had many things to thank her for, however, he did not want to live any longer, and he was getting more helpless every day. A large, old-fashioned glass tumbler had been placed on the note; the tumbler was empty. There was a teaspoon lying on the table, also a 1/8 ounce bottle of white powder from which about a teaspoonful had been removed. The label on the bottle bore the following: Strychnine Merck (Strychnine Alkaloid) N.F. Powder.

The Coroner, upon being informed of this death, accompanied by Detectives Daughterty and Smith, went to the home of the deceased and investigated the case; and, since the body had been removed to the funeral home shortly after death, also went to the latter place and viewed the remains.

An autopsy was done and specimens, as well as stomach contents, were turned over to the toxicological chemist for analyses.

Wilbur Wright, colored, age 29, of 1849 East 24th Street, went to the home of Marvin O. Griffin, 20, 1606 Fifth Avenue South, where he found the latter and his wife and Roland Ash, age 22, and his wife, who are staying in the Griffin home. The three men left the house and, it was stated, visited a couple bars. Shortly before midnight they arrived at the Club Cafe Bar, 730 Fourth Street South, and Griffin telephoned his wife. Wright cut off the telephone connection and a row developed, during which the proprietor, Ben Harris, 3553 Forty-sixth Avenue South, told them to leave. Jack Harris, 3932 Twenty-eighth Avenue South, brother of the proprietor, forcibly escorted the men out of the place. Wright pulled out a knife, which Harris took away from him, and the men agreed to leave if Harris would return the knife. The three then drove to Fourteenth Street and Nicollet Avenue, however, Wright insisted upon returning to the Club Cafe Bar. As they got out of the car to enter the bar Wright took a .22 caliber target pistol from the glove compartment, whereupon Ash left the other two men and went to another nearby bar. Griffin and Wright entered the bar and the latter shot once at Jack Harris, missing him.

At that moment the deceased, his wife, his brother, Roy, Spring River, Wisconsin, and a friend, Stewart L. Garvie, 381½ West 7th Street, St. Paul, entered the bar, saw the man brandishing a gun and thought someone was jokingly staging a fake holdup. The deceased said, "Okay, my hands are up," and walked toward the bar. Wright shot twice, one bullet striking the deceased in the chest. The other struck Clayton Revak, 40, of 420 Eighth Avenue South, in the foot. Ben Harris threw a bottle which knocked Wright off balance, and then seized the gun. Other customers and the bartender, Albert Jahnke, 2308 Thirtieth Avenue South, joined in the melee, and one thrown bottle, going through the front window, struck Garvie, who had run outside. He was cut by flying glass. When police officers arrived both Wright and Griffin, who had been

At 10:15 a.m., April 25th, Conrad Lambkin of 2504-27th Avenue South, a friend of the deceased, entered the latter's barber shop. Since the deceased was not in the shop Mr. Lambkin walked to the rear of the place and in the lavatory found the deceased sitting on the toilet, dead. The body was fully clothed. There was evidence that the deceased had become ill and vomited on the floor, and had then gone to the toilet where he expired. Death had probably occurred about ten o'clock the previous night, and was attributed to a cerebral hemorrhage by the deputy coroner who made the investigation.

The body was removed to the Morgue and a brother, Dr. G. E. Wolf, a dentist with offices at 333 Metropolitan Bank Building, St. Paul, was notified.

On April 29, 1946 the deceased's safe deposit box in the Fourth Northwestern National Bank of Minneapolis was opened in the presence of John H. Person, Morgue Keeper; C. M. Jorgensen, president of the bank; H. L. Young of the County Treasuer's Office; and Albert E. Wolf, 108 Valley Street, St. Paul, a brother of the deceased. Doctor Harry Peterson had attended the deceased on December 22, 1945 and had not seen the latter again until the morning of May 1st when he was called to his home. On the second occasion Doctor Peterson ordered the man removed to the Minneapolis General Hospital by ambulance. Upon being admitted to the receiving room the deceased expired at 11:55 a.m.

It was learned from the deceased's family that Dr. George A. Lund, a chiropractor, had been giving the deceased treatments from time to time; however, he informed the Coroner that he did not feel that he should sign the death certificate since he had not seen the deceased very recently.

From the history of the case the Coroner deducted that an obstruction existed in the common bile duct, apparently metastatic. He had vomitted rather frequently for some time before his death and in all instances the fluid was black.

The deceased had formerly been employed as a shoe shiner and porter at the tailor shop of Harry Stathis, 227 Cedar Avenue; however, due to heavy drinking on the part of the deceased, it had been necessary for Mr. Stathis to employ someone else in his place. Mr. Stathis, it was stated, on several occasions had befriended the deceased and, when the latter had been arrested for drunkenness, Stathis had paid his fine.

It was stated by Police Officer Gustafson who investigated the case for the Coroner's Office, that at one time the deceased had been in good financial standing in the community. However, his wife obtained a divorce and the home at 3715 Fifth Avenue South, as well as a good-sized sum of money from the deceased. After that the deceased drank heavily and consistently. He was a friendly individual and was well liked by all who knew him.

He frequented Doonie's Bar, 1810 Washington Avenue South, and Mrs. Doonie Stevens, who operated the place, stated that the deceased had come to the tavern about 9:00 p.m., May 4th, and remained until closing time. As he was leaving the place, the deceased asked Mrs. Stevens for ten cents for carfare, which she gave him. Mrs. Stevens stated that the deceased had been drinking all that evening and was intoxicated when he left. The following morning, between 9:00 and 9:30, the deceased came to the tailor shop of Harry Stathis and walked to the rear of the shop, remarking that he wanted to rest there for a while. Stathis inquired where he had gotten his black eye (the right eye was swollen and discolored), and the deceased remarked that he had been in a fight the previous night. About 11:00 a.m. Stathis heard the deceased breathing with difficulty and went to his assistance. He expired at 11:15 a.m.

The body was removed to the Morgue where an autopsy was done at 10:30 a.m., May 5th.

Officers Gustafson and Russell were at the scene of death.

The body of the deceased was found floating in the Mississippi River at East 29th Street and West River Drive by some children shortly before four o'clock Saturday afternoon, May 4th. Police were notified, who in turn called the Coroner's Office. The fire department had also been called and firemen took the body from the water. The body was decomposing. Papers found on the body identified the deceased as a discharged soldier from Tacoma, Washington. A baggage check found in his pockets was dated April 21st. Also, train tickets found indicated that the young man had stopped off in Minneapolis en route to Chicago.

The body was removed to the Morgue where an autopsy failed to reveal the cause of death. However, a .22 caliber bullet, which had struck the deceased above and behind the left ear, had followed the skull and was lodged under the skin near the left eye. The bullet had not penetrated the skull. Specimens were turned over to the toxicological chemist for analysis, also to the laboratory of the Department of Pathology for microscopic analysis.

Officers at the scene were McLaughlin and D. C. Peterson.

Later: After completion of microscopic analysis, the pathologist made a diagnosis of gunshot wound of head as being the cause of death.

On Sunday, May 5th, he was intoxicated and was in a very nervous condition, therefore, his father called in Dr. R. M. Rosenwald who wrote a prescription as follows: Chloral Hydrate 30; Peppermint water 120; Directions - two teaspoonfuls every two hours as necessary. Mrs. Bender noticed during the evening of May 6th that one-half of the contents of the bottle of this medication had been consumed. The following morning at eight o'clock when she came downstairs she found her husband's nude body, sitting on the davenport, the head resting against the back of the davenport and turned toward the right. A pint bottle of whiskey, one-half consumed, was held in his right hand. Rigor mortis was fully developed and there was marked livores. Mr. Buchanan, manager of the Leamington Hotel, reported that the deceased had been found dead in room 616 at 2:05 p.m., May 9th, by Anna Stein, a maid at the hotel. The deceased, from Chicago, had registered at the hotel on May 5th at 1.16 p.m. It was noted that the man's watch was still running when his body was found, therefore, it was concluded that death apparently had occurred some time during the night. It was later learned that the deceased had had some prostatic trouble, also high blood pressure.

An identification card among the deceased's effects bore instructions that in case of accident or illness Foster W. Irish, Simpson Street, Evanston, Illinois, or 208 South LaSalle Street, Chicago, was to be notified. Therefore, the Coroner's Office contacted Mr. Irish in Chicago. Subsequently a telegram received by the Coroner's Office from Evanston bore the following instructions: "Have remains of Wiley L. Brackett cremated and await further instructions. The deceased was walking along Highway #12 apparently in search of aid after his car had been ditched while he was on his way to his home in St. Louis Park from Wayzata, when he was struck and killed by an automobile driven by Laurence Henry Lucker, age 27, of 1915 Humboldt Avenue South. The accident occurred at 2:30 a.m., Sunday, May 12, 1946, one-half mile south of Oak Knoll, Minnetonka Township. The car, a 1937 Ford coupe, bearing 1946 Texas license No. HJ 8647, was traveling east on Highway #12. According to Mr. Lucker, the deceased was walking with the traffic in the middle of the south lane of the three-lane highway, and that he suddenly loomed up in front of him and he could not avoid hitting him.

The deceased's father, Carey T. Hughes, age 78, living at Wayzata, had died Saturday and the deceased had gone to the family home that evening. He was returning from that mission when he was killed.

When the deputy coroner arrived the body was lying on the shoulder of the south side of the highway, face upward, feet towards the pavement of the highway. His hat was lying on the shoulder of the road sixty feet west of the body.

The body was removed to the Morgue and later was released to a funeral director.

REMARKS:

The deceased and a friend, Marvin Nielsen, age 16, of 2626 Pillsbury Avenue, had rented a canoe at the Lake Calhoun dock and paddled through the connecting lagoon to Lake of the Isles. The canoe tipped when Nielsen, who was lying prone in the boat, reached for his jacket. The two boys clung to the side of the boat, but the deceased slipped beneath the surface before help arrived. The Nielsen boy was rescued by two unidentified boys in another canoe after he had clung to the side of the overturned craft in cold water for several minutes. The accident occurred at approximately 5:00 P.M. on May 19, 1945 and police and a fire department rescue squad rushed to the lake and began dragging waters near the point where the deceased went down. The body was recovered the following day.

The deceased and his wife registered at the McCormick Hotel, 10 South Third Street, at 8:30 p.m., May 25th. The hotel clerk, Frank Johnson, stated that the couple showed no evidence of having been drinking. The following morning at 5:15 police officers Samuelson and Dallman cruising in a squad car at Third Street and Hennepin Avenue saw the deceased's body strike an awning on the hotel and fall to the sidewalk. He was nude except for a pair of shorts. His throat and wrists had been slashed. He gasped to the two officers "They got both of us!" An ambulance was summoned from the Minneapolis General Hospital, however, the deceased expired upon arrival of the ambulance at 5:25 a.m.

Investigation revealed the body of Helen Kapalin, the deceased's wife, lying on the bed in room 322 of the hotel, clad in her nightgown. An electric iron cord was knotted tightly around her neck. A laceration on the right side of her head had been made with the pointed end of an electric iron. The electric iron was lying on the bed beside her head. The pillows, bedclothes and the floor were blood-stained. Blood was smeared on the walls, a dresser and a mirror, as well as the window curtains. A Gillette razor blade, which the husband had used to slash his throat and wrists, was found lying on the floor. Four cigaret butts were in the wash bowl.

It was stated that marital difficulties of the Kapalins had increased after the husband's return from the army. There had been numerous quarrels between the two, principally due to Mrs. Kapalin's desire to frequent taverns, often times in the company of other men.

They had lived at the Stone Hotel before going to the McCormick Hotel, and had lived at other lower Loop hotels from time to time.

REMARKS: Social Security No.

During the afternoon of May 30, 1946 a party of four people left their homes in South St. Paul apparently with the intention of going to Waconia, in Hennepin County, on a fishing trip. The four were:Henry R. Latuff, 42, 200-1st Avenue South; Clara Opstad, 36, of the same address; and George A. Lenertz, 45, and his wife, Alice, age 44, of 220 Sixth Avenue South. Mr. Lenertz was driving his car, a 1940 four-passenger Chevrolet coupe, bearing Minnesota license No. 879. Mr. Latuff was seated in front with Lenertz, while the two women occupied the rear seat.

It was stated that Francis Thomas Lynch, age 27, of 1801 West 76th Street, Richfield, Minnesota, was driving his 1941 Dodge four-door sedan, bearing 1946 Colorado license No. 1-81524, east on Highway No. 5, when the car of Lloyd E. Lorenzen, 34, of the U. S. Naval Air Station, Minneapolis, also traveling east on the highway, started to pass him on the three-lane road. The Lorenzen car struck the left rear fender of the Lynch vehicle, veered across the center lane and crashed head-on into the Lenertz car traveling west in its own lane. The impact drove the engine of the latter car into the driver's seat. The front of the Lorenzen car, a 1940 Lincoln-Zephyr sedan, bearing 1946 Minnesota license No. 129-588, was crumpled against the passenger compartment.

Henry Latuff and Clara Opstad were killed instantly. George Lenertz and his wife, both seriously injured, were removed by Smith Ambulance to Swedish Hospital in Minneapolis, where the former expired at 5:20 p.m., May 30th.

Glen Lorenzen, 34, of 3016-47th Avenue South, Minneapolis, was a passenger in the car driven by his brother, Lloyd. The Lorenzens sustained serious injuries.

The deceased, a cardiac case under the care of Dr. Arthur P. Lapierre during the past four or five years, had been in St. Mary's Hospital a week before his death. Because of this heart condition the deceased had been advised by his physician to refrain from driving his car and to avoid over-exertion. On the morning of June 6th the deceased had left his place of business at Medicine Lake - a grocery store and restaurant, to go to St. Paul to purchase supplies for his store. George Peterson, age 17, of Medicine Lake, was driving the deceased's automobile. As the car passed the railroad crossing on Olson Highway at Glenwood Lake the driver noticed that the deceased appeared to be sleeping, and when the car reached Fifth Street and Hennepin Avenue the deceased slumped over in the seat. Becoming alarmed, Peterson stopped the car at Sixth and Hennepin and summoned a policeman. The latter called Minneapolis General Hospital ambulance No. 1, and the physician who accompanied the ambulance pronounced the man dead on arrival. The body was removed to the Morgue and later was released to the funeral director.

The deceased, who had retired from his work two weeks previously, left home early the morning of June 6th to go fishing at Fish Lake. He rented a boat and rowed out into the lake. During the morning Raleigh Rainbow, a resident at the lake, noticed the deceased fishing in a boat. A few minutes later Mr. Rainbow glanced in the direction of the fisherman and noticed that the boat was empty. He imparted this information to Ben Lucht, operator of the boat concession, who investigated and found a line from the boat which was fastened to the belt of the deceased. Thus, the exact location of the body, lying on the bottom of the lake, could be determined by following the line. A grappling hook was used to bring the body to the surface.

The body was removed to the Morgue and later was released to a funeral director.

Deputy sheriffs Fahey and Molander were at the scene when the deputy coroner arrived to make his investigation.

Elmer R. Janisch, age 27, son of the deceased, has an ice route, under contract with the Cedar Lake Ice Company. The deceased assisted his son in taking orders for ice and coal and making deliveries.

During the early part of the morning on June 19th ice deliveries were being made. Elmer was engaged in carrying a hundred pound cake of ice into one home, while the deceased was making delivery of 25 pounds to a house situated at 3449-16th Avenue South. Mrs. William Peterson, living on the second floor, noticed the deceased hoist the ice onto his right shoulder and walk toward the rear entrance of the building. In a few moments she heard the cake of ice fall twice and the ice tongs drop to the floor three times. Mrs. Peterson then went downstairs to investigate. She found the deceased leaning against the wall in the vestibule just outside the kitchen, - the first floor is occupied by Mrs. Peterson's mother-in-law, Mrs. J. W. Peterson, blood was spattered on the floor in the vestibule as well as the kitchen, and there was blood on the ice. The deceased was bleeding from a cut on the upper lip and blood was oozing from his nose. Elmer Janisch was summoned and when he saw his father's condition he went to get his truck to remove the man to a hospital. However, by this time the deceased had raised himself to his feet and, in a staggering gait, walked a distance of about ten feet, supporting himself by a fence, to the truck. Elmer drove his father to Swedish Hospital; he was admitted at 9:25 a.m., and was able to walk into the hospital.

His blood pressure registered 154/94, pulse 64. He complained about having a headache and a sore neck. A laceration of the upper lip required four sutures. A spinal puncture revealed a bloody fluid. Deceased was placed under the care of Dr. Arthur A. Wohlrabe.

Later at a hearing conducted at the Coroner's Office on July 2, 1946, Mrs. Dresel and Mr. Atkins stated that in their opinion the pieces of clothing had been a part of the bluish-green cotton-gabardine slack suit worn by the deceased on the day of his death. Deputy Sheriffs Vernon A. Lennartson and Eric Stephens, who worked on the case along with the Coroner's Office, were also of the opinion that identification of the deceased could reasonably be established through the clothing referred to.

On Sunday, May 21, 1944 the deceased had gone fishing with his wife's uncle, Willis E. Atkins, 2208 Oakland Avenue, age 41, in the Mississippi river just below the Coon Creek dam. The small motor-propelled boat apparently was guided too close to the dam and the surging water caused the boat to capsize. The deceased was thrown into the water and his body was swept downstream. Mr. Atkins succeeded in saving himself. The accident occurred about two o'clock in the afternoon. The body of the deceased was not recovered.

About 6:30 p.m., June 22, 1946, Charles and Gaylord Louden, 712 East Franklin Avenue, while fishing in the river at 96th and West River Road, in Brooklyn Township, noticed what appeared to be the remnants of a human body caught in the willows. The Sheriffs Office was called and subsequently reported the matter to the Coroner's Office. The Deputy Coroner and the Morgue Keeper met deputy sheriffs Quady and Eckdahl and the four proceeded to the place in boats. The torso, minus the head, arms and legs below the knees was reduced to almost a skeleton, since the flesh had sloughed away. Pieces of bluish green material, also something similar to blue denim adherred to the body. A narrow leather belt, measuring 32 inches, was attached to the body.

Mr. Atkins called at the Morgue and partially identified the bits of green material as possibly having been part of a bluish green slack suit the deceased had on at the time of his death. He was supposed to have been wearing a pair of blue denim overalls underneath the trousers of his slack suit on the day of his death. Mrs. Dresel, the deceased's wife, also partially identified this material as possibily having been pieces of material from her husband's suit.

This case was referred to the Coroner's office by the funeral director. Dr. David Eisenstadt had been called to the deceased's home. However, he did not arrive until after death had occurred. He signed the death certificate, stating "had not seen when alive." This, of course, necessitated making another death certificate, since the former would not be accepted by the Health Department. Dr. Eisenstadt had never attended the deceased. The deceased, having served in both World War I and World War II had been receiving treatments at Veterans Hospital.

It was stated that the deceased, while in the bar at the Athletic Club, on June 20, 1946, in some manner sustained a fall. Later, on the same date, Mrs. Clark was at the club for dinner, and she inquired of the checker at the desk if the deceased was in the building. The checker responded in the affirmative, stating that the deceased was in the slumber room, whereupon Mrs. Clark remarked, "Let him stay there. He knows I am going away." The following morning, in accordance with plans previously made, Mrs. Clark left for Roosevelt Lake, Emily, Minnesota, to spend a few days with friends. She returned home the following Monday - June 24th.

In the meantime, the deceased went to his home in Mound on Friday evening, June 21st. The next morning Mr. and Mrs. A. C. Meland of Spring Park, friends of the Clarks, knowing that Mrs. Clark was to be away for a few days, went over to the Clark place to feed the chickens. Mr. Meland went into the house and found the deceased sleeping. Again, on Sunday and Monday Mr. and Mrs. Meland went to the Clark's to feed the chickens, and found the deceased in bed sleeping and they assumed that he had been drinking. As stated previously, Mrs. Clark returned home Monday evening. The following morning, becoming alarmed at her husband's condition, she telephoned to Dr. A. E. Benjamin in Minneapolis, who advised Mrs. Clark to have the deceased brought to the Northwestern Hospital. Mrs. Meland drove Mrs. Clark and the deceased in the Clark car to the hospital. Time of admittance was 4:00 p.m.

The deceased remained in Northwestern Hospital, under the care of Dr. Edwin G. Benjamin, until Thursday, June 27th, and then was permitted to return to his home. Mrs. Meland drove the Clarks home. The deceased appeared to be somewhat improved until about midnight on Saturday. At this time he talked incoherently and rambled on about incidents that had occurred

REMARKS: Social Security No.

On Wednesday, July 3, 1946 the deceased was killed when she ran out from in front of a parked car and into the path of an automobile driven by Dix Asleson, age 21, of 4909 Dupont Avenue South. The car, a 1939 DeSoto sedan bearing Minnesota license No. 98-208, is owned by Mrs. William E. Brandow of 4909 Dupont Avenue South. After Asleson's car struck the deceased, it was stated, a wheel of an automobile traveling behind the Asleson car passed partially over her body. This second car, a 1942 Oldsmobile coupe bearing Minnesota license No. 89-100, was driven by Sidney Leff, 51, of 1805 West Lake Street.

Tire marks left on the deceased's body (left chest and abdomen), which apparently were made by the left front tire of Leff's car. (Pictures and tire prints were taken by Milton E. Winslow of the Bureau of Identification, Minneapolis Police Department, prove this to be the case).

The accident occurred at 12:25 p.m. on Emerson Avenue South, 114½ feet north of 35th Street.

Witnesses: Mrs. Robert Adams, Route 2, Wayzata, Minnesota, was sitting in a car parked in front of 3445 Emerson Avenue South; Al. Evanbeck, 3500 Dupont Avenue South, and Fred Nathanson, 3327 Emerson Avenue South, were on the sidewalk; Marietta Lyncy, 1884 Roblyn, St. Paul, was playing with the deceased at the time of the accident.

Officers R. H. Paradeau and J. Willar of Traffic Squad Car #16 arrived at the scene.

The body was removed to the Morgue and later was released to the funeral director.

Social Security No. 474-16-5431

The deceased and Denvy Doty, age 21, of 2910 Fourteenth Avenue South, both students of the National Radio School, had gone to the home of T. J. Casey, 3908 Kipling Avenue, St. Louis Park to string an aerial for an amateur radio station. The deceased had taken along his son, John, age three. Two poles had been put up for the aerial, which was to cross above the power line. The deceased tossed a wire over the power line, Mr. Casey informed the Coroner's office, and got no shock because he wore leather gloves and wasn't grounded. Apparently assuming that the power line was dead, he attached one end of the aerial wire to a pole, tied a rope to the other end of the aerial, tossed the rope across the power line and pulled the aerial down to him. The electrical charge that passed through his body burned a watch off his wrist, knocked off one shoe and severely burned his hands, face and neck. Mr. Doty attached a clothesline to the deceased's body and pulled him free from the wire. Attempts at reviving the deceased were futile. The accident occurred at 6:15 P.M.

The body was removed to the Morgue and later released to the funeral director.

The deceased, in the company of Marvin Killy of 3047 Cedar Avenue, had gone fishing on July 6, 1946 at Lake Minnetonka. When the men failed to return Saturday night, relatives notified the Sheriff's Office. Their boat, partly filled with water as a result of a rainstorm the night of July 6th, was found on July 7th. The motor had not been lifted, the anchor was in the boat, oars were in the locks and tackle had been taken down, indicating the pair had completed their fishing and were returning the craft to the rental dock. The body of the deceased was found at 12:45 P.M. on July 11th by Wilbur Palmer, 4909 Bryant Avenue South. The body was floating between Big Island and Gail Island. A torn piece of the deceased's shirt was found tangled in the propeller of their outboard motor, found attachedto the swamped fishing boat. That indicated, deputies believed, that the deceased must have fallen into the water and come afoul of the propeller, and Marvin Killy his companion, may have lost his life in attempting to save him.

The body was removed to the Morgue and later released to the funeral director. Deputy Sheriffs Lord and Mell.

While returning from a fishing trip on July 14th the deceased was struck and killed by a Soo Line train one mile west of Loretto, Minnesota. The deceased was walking in an easterly direction on the railroad tracks with a string of fish he had caught. He heard the train approaching behind him because the engineer saw him wave his arm into the air in a beckoning motion and then saw the man step sideways so as to be clear of the tracks. However, he undoubtedly stumbled or in some manner lost his balance and fell directly into the path of the engine. The body was carried forty paces from the place of impact and was lying face down beside the tracks. The accident occurred at 7:15 p.m.

The crew of the train consisted of - John Morin, engineer; P. R. Munton, conductor; Enger and Grosser, brakemen;and fireman Skrovan.

The deceased had nothing on his person to indentify him. However, later, H. T. Doepke of 2501 Fifth Avenue South, and L. Ries of 2018-18th Avenue South, as well as a cousin, George Roman, 417-22d Avenue South, identified him.

The body was removed to the Morgue where an autopsy was done on July 15th.

Dr. Stahr had last seen the deceased in November 1945, at which time the deceased had refused to continue insulin treatments, nor would she conform to a diet. This man was killed when the car in which he was riding missed a turn at Highway #7 and County Road 147, Minnetrista Township, skidded 90 feet and toppled over on its side. The driver of the car was John W. Robbins, 28, of 3928 Aldrich Avenue So., a cousin of the deceased who has been staying with the family. Third passenger in the car was Mrs. Virginia Marks, 27, of 813 Twelfth Ave. SE. The car was a 1939 Dodge sedan, Minnesota license #401-357.

The accident occurred at 2:45 A.M. July 30th as the car was travelling west. The driver, apparently unfamiliar with the road, came upon this sharp turn and could not make it. The deceased was thrown through the right door and pinned beneath the machine. Mrs. Marks and Mr. Robbins escaped with injuries. Attracted by Mrs. Marks' screams, Martin Geyer and the Reverend August Lutz of St. Bonifacius ran to the scene and futilely tried to extricate the deceased. Deputy Sheffiffs Charles Lord and Vince Mell, responding to their telephone call, were unable to lift the machine and they found it necessary to summon a tow truck.

The body was removed to the Morgue where autopsy examination revealed death to have been caused from asphyxiation due to pressure of automobile on chest.

The deceased, employed by the Creamette Company, 428 North First Street, as a riveter, was working on a sheet iron macaroni drying kiln that was being installed at the factory. He was riveting the metal parts at the top of the kiln, about fifteen feet from the floor, when he placed his right arm over an iron water pipe and his left shoulder came in contact with an electric outlet box from which exposed wires were hanging. The deceased uttered a cry as though in pain. Warren Barnard and Paul Strand, fellow-workers, carried the body down from the top of the kiln to the floor below. Ambulance No. 1 from the Minneapolis General Hospital, as well as the Fire Department resque squad was summoned. Adrenalin was administered by the physician who accompanied the ambulance; however, that as well as the efforts of the resque squad proved futile.

The accident occurred July 31st at 10:25 p.m. Death, due to electrocution, was instantaneous. A burn on the left shoulder indicated where the deceased had come in contact with the wire.

Officer Stalp was at the scene.

The body was removed to the Morgue where an autopsy was done.

On July 18, 1946 the deceased was admitted to Swedish Hospital with a history of exposure to carbon tetrachloride at the B. F. Nelson Manufacturing Company where he had been employed. The deceased was vomiting and complained of gastric pain when admitted and was hiccuping. His blood pressure was 150/110; blood-urea-nitrogen 130; spinal fluid was negative. He became badly bloated. There is a history that the deceased, employed as a maintenance man, for the B. F. Nelson Manufacturing Company, 401 Main Street, in the course of his duties washed belts, using carbon tetrachloride. Apparently exposure to this drug and the resulting absorption contributed to the cause of his death.

Mrs. Mitchell is a niece of the deceased. The deceased frequently went to Dr. Mitchell's (a Chiropractor) office and upon leaving always asked the former to take the amount of money necessary for his treatment. On Friday, August 2nd, the deceased called at the doctor's office and upon leaving shook hands with him and thanked him for all he had done for him and as usual proffered some bills and told the doctor he might as well take all the money since he would not need it. The deceased returned to the rest home and was last seen at supper August 4th. The following morning he apparently left the home early and went to the rive and jumped in. The body was found at 5:30 P.M. on August 6th by Donald Carlson of 1509 Fifth Street South. The body was removed to the Morgue and later released to the funeral director.

The deceased had returned from a visit Sunday night, August 11th, in Wisconsin. She lived with her son Werner R. Edlund, and his wife and their two young children, Barbara, age 8, and Jon, six. The following morning Mr. and Mrs. Edlund slept later than usual due to the fact that Mr. Edlund did not have to go to work that morning. Deceased arose about 7:30 a.m. and decided to prepare breakfast for herself and the children. Barbara took from the cupboard a package of oatmeal and handed it to her grandmother. After the oatmeal was cooked the three sat down and ate. The deceased had finished eating; however, the children had only partially eaten their cereal when their mother came into the kitchen to make herself a cup of coffee. She asked the others what they were eating and the deceased replied, "Oatmeal;" whereupon the younger Mrs. Edlund exclaimed "That's poison!" She awakened her husband and he telephoned the family physician, Dr. C. M. Larson, stating what had occurred. Doctor Larson told Mr. Edlund to take his mother and the children to Minneapolis General Hospital immediately. En route to the hospital both children vomited.

The deceased and her husband, David Getman, age 25, and Chester Bock, 33, 2733 Bryant Avenue South, were driving to Rochester, Minnesota, Saturday, August 3, 1946. David Getman was driving the car. The Getman car was traveling south on Lyndale Avenue South. A truck, loaded with sand, traveling in a northerly direction on Lyndale Avenue, crashed headon into the Getman vehicle. Apparently something had gone wrong with the mechanism of the truck, for it suddenly swerved to the left of the highway and into the path of the sound-bound car. Clem St. Martin of 2710 East 78th Street was driver of the truck. The accident occurred about 11:00 a.m. in front of 8700 Lyndale Avenue South.

The impact of the collision caused the deceased to be thrown out of the car. Both she and her husband were rushed to Minneapolis General Hospital in an Emergency Ambulance, being admitted at 11:41 a.m. The deceased was in a comatose condition. Examination revealed some blood in the left auricle; there was tenderness in the left frontal parietal region. X-rays revealed fractures of the lamina of the 5th and 6th cervical vertebra and a possible skull fracture. A spinal tap was done on August 5th and the fluid was clear. A laminectomy and decompression was done on the same date. The following day the deceased suddenly became cyanotic and oxygen was given. A tracheotomy was then done. On August 7th the deceased's blood pressure was 64/49; temperature 106°. Plasma was given. The deceased failed steadily from that time on, despite the fact multiple plasma and penicillin injections were given. Death occurred at 7:50 a.m., August 16th.

The body was removed to the Morgue and later was released to a funeral director. The deceased's husband would not acquiesce to an autopsy .

The deceased's mother stated that Daniel had awakened from his nap during the afternoon of August 21st, and a few minutes after he was up and walking around the house he was seized with an attack of violent coughing. He suddenly became cyanotic and expired at 2:15 p.m. Dr. J. H. Schultz, who had attended the deceased for about a month was called; however, the doctor pronounced the child dead upon arrival. The body was removed to the Morgue where an autopsy was done the following morning.

Doctor Schultz, who reported the case to the Coroner's Office, stated that he had first examined the deceased on July 20, 1946. Complaints at that time were fatigue, loss of appetite, occasional vomiting spells and cough. Examination revealed a red throat, marked difference in breathing sounds, nearly absent on the right and marked on the left, also some splinting of the right chest wall. His diagnosis at that time was possible intercostal paralysis, but more likely a chest condition or tonsillitis. The deceased was sent to Minneapolis General Hospital for an examination to rule out poliomyelitis. Doctor Schultz again examined the deceased on July 22d and agreed with the diagnosis of Minneapolis General Hospital, when he detected a typical asthmatic breathing. He was given a sample of Novalene as a therapeutic test for asthma. The doctor again saw the deceased on August 1st and the symptoms were the same as those of the first examination. Doctor Schultz referred the deceased to Dr. J. A. Myers, who took a chest x-ray and diagnosed his condition as asthma, with a small area of atelectasis or pneumonia on the right side. The deceased was put on Benadryl, with apparent clinical improvement. Doctor Schultz did not see the deceased again until after death had occurred.

The autopsy revealed the presence of half a peanut lodged in the left bronchus had caused a complete atelectasis, resulting in sudden death. However, examination showed the peanut had originally lodged in the right bronchus where it apparently had remained for several weeks. This area was inflamed, swollen and hemorrhagic, and the presence of pneumonia was noted in the right

lung. The pathologist concluded that the deceased had probably eaten peanuts three or four weeks previous to his death, and the half peanut found in the bronchus had lodged in the right bronchus, creating an inflammatory condition. When the deceased coughed a few minutes before his death the peanut was dislodged from the right bronchus and flew into the left bronchus and this resulted in his death.

A Northwestern Fuel Company truck entered Yard No. 1, Second and Dupont Avenues North, the morning of September 24th. The driver, Allen Coffaa, age 41, of 59 Glenwood Avenue, parked the truck on the scales and went into the office. The deceased, working with Coffaa, also left the truck and entered the office. In a few minutes Coffaa came out and drove the truck away. However, the deceased had followed Coffaa out of the office and apparently while attempting to board the truck fell under the wheels, which passed over his body. The first knowledge the driver had of the accident was when Paul Andrilunas, 413 Aldrich Avenue North, working about forty feet away, signaled Coffaa to stop. When the two men reached the deceased it was apparent that death was instantaneous and occurred at 10:00 a.m.

When the deputy coroner arrived detectives Cecil and Uglem were at the scene, also police officers H. Carlson and Doughty.

The body was removed to the Morgue where an autopsy revealed multiple ruptures of the liver, right lung and heart.

Doctor Fred C. Holzapfel reported this case to the Coroner's Office on September 30th.

According to information received by the Coroner's Office, Lauretta Anne Brennan, 23, employed as a relief elevator operator at Harold, Inc., 818 Nicollet Avenue, worked at the store all day Friday, September 27th. She had lived with her aunt, Mrs. George W. Holmquist, 914-26th Avenue North, during the past four years. After work Lauretta returned to her aunt's home. She had experienced labor pains during Friday, although she stated that neither her aunt nor her employer were aware that she was pregnant. About 7:30 that evening she went to the bath room and delivered her baby into the toilet bowl. The infant, immediately after birth, commenced to cry, whereupon Lauretta inserted her finger into the baby's mouth and down its throat to stifle its cries. In a few minutes the baby was dead. It was then wrapped in part of a pair of pajamas and stuffed into a Kotex box. The following Monday Mrs. Holmquist was conscious of an obnoxious odor in the girl's room and investigation revealed the body of the baby.

Mrs. Holmquist then took her niece, as well as the body of the baby, to the office of Doctor Holzapfel, arriving there between 4:40 and five o'clock Monday afternoon. The doctor, upon learning something about the case, promptly contacted the Coroner.

HARRIET M. SMITH - CONTINUED -

At 9:30 a.m., October 1st, an autopsy was done by Dr. A. J. Hertzog which revealed generalized purpura hemorrhagica, cerebral hemorrhage, fatty cirrhosis of the liver and chronic alcoholism.

It was the decision of the pathologist and the deputy coroner in view of the generalized purpura, also the past history of this disease, and the bleeding into other organs besides the brain, that these hemorrhages were spontaneous and not due to trauma. Therefore, since death could not be attributed to the fractured right clavicle and, since no other injuries were indicated by autopsy examination, it was decided that the death of this woman was due to natural causes.

The deceased was admitted to the receiving room in Minneapolis General Hospital at 10:23 p.m., September 27, 1946. She stated that she had been struck by an automobile four days previously. She complained of severe pain in her right shoulder. Examination revealed a fracture of the right clavicle and a figure eight dressing for immobilization was applied. There was evidence that the woman had been drinking on this occasion. Officer Miller of the Minneapolis Police Department was present. The deceased left the hospital that night at 11:31.

In view of the fact the deceased maintained that she had been struck by an automobile bearing a Kansas license plate about 2:00 p.m., September 25th (?) and had sustained a fractured clavicle, Officer Miller checked the neighborhood to ascertain if there had been witnesses to the accident. Deceased had stated that the accident occurred as she was walking across the street from her home, situated at 248 Cedar Avenue, to the drug store. No one could be found who had witnessed the accident.

On September 30th at 1:34 p.m. the deceased was admitted to Minneapolis General Hospital for treatment, since her condition had become critical. She stated she had fainted the previous day and was unconscious for an hour and a half. There was a contusion over the right malar, a cut on the lower lip, purpura of both lower legs and hematuria, as well as the aforementioned fractured right clavicle.

There is a history that the deceased had been a patient in Minneapolis General Hospital four times since June, 1945 because of alcoholism, hepatic cirrhosis and ascites, the last occasion having been six weeks ago. She also had purpura of the lower legs and renal hematuria. It was stated the deceased's father also had suffered from renal hematuria and purpura and had died in Minneapolis General Hospital.

Mr. Sullivan of the Fox-Sullivan Mortuary brought the death certificate covering this case to the Coroner's Office for attention, stating that Dr. D. M. Thysell had been called by the deceased's father; however, since he arrived a short time before the deceased's death felt that he did not care to sign the death certificate.

It was stated that the deceased had been ill for several days. He had been taken to the Minneapolis General Hospital Friday evening, October 4th, for treatment of a sore throat. There the child was examined and a diagnosis of tonsillitis was made. A sulpha drug was prescribed. The child was taken home. The following morning the child appeared to be quite ill and vomited during the day; however, the next day he appeared to be somewhat improved. On Monday he was worse and was kept in bed. His throat was swollen and he found it difficult to swallow. He did not eat nor was he able to walk. On Tuesday morning, October 8th, Mr. Wever stated that he called Minneapolis General Hospital and asked that an ambulance be sent to his home to remove his son to the hospital for treatment, however, the hospital did not feel that the child's illness warranted the service of an ambulance. During the day the parents tried repeatedly to obtain the services of a physician, but were unsuccessfull in their attempts until Doctor Thysell responded. Upon arrival of the latter he immediately requested Minneapolis General Hospital to send an ambulance to remove the deceased to the hospital. However, death occurred at 2:15 p.m. before arrival of the ambulance.

Two younger children in the Wever family were removed to Minneapolis General Hospital and placed in the contagious ward, one of whom showed positive cultures for diphtheria.

Social Security No. 476-14-8306

The deceased, employed as a window washer by the Acme Window Cleaning Company, 1228 Chestnut Avenue, was washing windows at the Paul A. Schmitt Music Company building, 88 South Tenth Street, on October 9th when he plunged to his death from the fourth floor of the building. The accident occurred at 1:10 p.m. and death was instantaneous.

Investigation revealed the deceased was using a safety belt of a type that apparently would not hold a man unless both snaps on the belt are locked on studs in the wall of a building. Ropes in the belt, it was discovered, would slide through the metal loops at the rear of the belt if the operator falls after snapping one end of the rope on a stud. The deceased apparently slipped after stepping onto the window ledge and having snapped one end of the rope on a stud. One end of the rope slid through the loops at the rear of his belt and the man hurtled to the street below; whereas the other end of the rope remained fastened to the stud in the wall.

The body was removed to the Morgue where an autopsy revealed a fractured skull and laceration of the brain.

Police officers Gugisberg and F. Johnson were at the scene of the accident.

The deceased was fatally injured at 2:14 P.M. October 11th when she was hurled out of her son's car and beneath the wheels of a car with which it collided. The collision occurred at the intersection of Eighth Avenue and Fifth Street Southeast.

The car in which the deceased was riding was driven by her son, Theodore Rampi, age 29, of 1112 E. 36th St. The car was a 1929 Graham Sedan bearing Minnesota license #336-894. Mr. Rampi's eighteen months old daughter, Janet Lynn, was also a passenger in the car. The car with which the Rampi car collided was driven by John P. Vevea, age 20, of Wyoming, Minnesota. It was described as a 1935 Chevrolet Sedan, Minnesota license #128-852. The Vevea car was going west on Fifth Street and as he approached the intersection the Rampi car appeared to be three-fourths of the way across the street. His car struck the Rampi car on the right rear fender. The Rampi car was travelling north on Eighth Avenue and was in the intersection when he saw the other car approaching.

Mr. Rampi, uninjured, said he climbed from his car to see his mother lying under the front wheels of Vevea's car and his daughter in the gutter. He backed his car from the wreckage, picked up his daughter, and called an ambulance. The deceased's body was removed to the Morgue where autopsy examination revealed death to have been caused by a crushed chest, ruptured heart, lacerated liver and head injury.

Witness to the accident was Donald Rooney, 3021 Idaho Avenue, St. Louis Park.

During the evening of October 12th the deceased and his wife had gone to the Gibson home, near Minnetonka Beach, to attend a party. Following a dance he complained of a severe pain in his chest and, since the pain persisted it was felt advisable to take him home. Therefore, Mrs. Youngblood drove him home, and upon arrival realized that he was dead. However, Doctor Wale S. Wright, living in the immediate neighborhood, was summoned and he pronounced the man dead on arrival, death having occurred about 11:45 p.m. In the meantime the rescue squad of the St. Louis Park Fire Department had responded to a call for assistance and had used the inhalator upon the deceased, without success. It was stated this was the first attack of sub-sternal pain experienced by the deceased.

The deputy coroner who made the investigation attributed the cause of death to coronary thrombosis.

According to information received by the Coroner's Office, the deceased had been a passenger in a car driven by Ernest F. Pidcock of 2832-38th Avenue South, on September 8, 1946, when it was struck by the right rear fender of an automobile driven by Gilbert Okerstrom, 3909 Snelling Avenue South. The Pidcock car was traveling in an easterly direction at the time. The accident occurred at 28th Avenue South and East 29th Street about 11:30 a.m. Deceased was taken to the Minneapolis General Hospital for first-aid treatment and then removed to his home the same day. Examination revealed a bruised shoulder.

The deceased complained of severe headaches, vertigo and diplopia and was placed under the care of Dr. J. F. Corbett. It was stated that the deceased, an electrician, had been unable to climb ladders since the accident due to the dizziness which he experienced.

Deceased was found dead in his bed by his wife at 5:00 a.m., October 13th. The body was removed to the Hennepin County Morgue where an autopsy revealed the cause of death to be due to aortic stenosis and left heart failure. Since no injuries were indicated and death was attributed to natural causes, the possibility of the deceased having expired from injuries suffered in the automobile accident of September 8, 1946 was eliminated.

Social Security No. 477-18-4610

The body of the deceased was found by his grandfather, Frank Garrison, at 8:00 A.M. in the rear of the garage at 4439 Garrison Lane. The body was lying face downward with the head turned right, a gunshot wound in the chest. A twenty gauge shot gun was found approximately seven feet from the body. One loaded twenty gauge shot gun shell was found on the ground nearby and another empty shell of the same size was found about two feet from the gun. The deceased's grandfather had gone to the garage to get a truck out of the garage. Mr. and Mrs. John Garrison, the deceased's parents, were not aware of what had happened. They had gone out the previous evening, leaving their home about 8:35 P.M. and arriving back at 1:40 A.M. October 13th. They had asked Eugene to accompany them, but he declined saying that he had a touch of stomach flu and preferred to stay home. They occupied a first floor bedroom and the deceased slept upstairs, so they supposed that he was asleep in his room when they returned home.

A Miss Forest Farmer had been employed by the Garrisons that evening to take care of their two daughters ages three and seven and Miss Farmer states that the deceased read a magazine for a while during the evening and at 10:00 P.M. he left the room and she heard a door close. She assumed that he had gone to bed and she slept until the elder Garrisons arrived home. The Deputy Coroner determined that the deceased had been dead approximately eight hours when found.

The body was removed to the Morgue and later released to the funeral director.

The deceased had been working for Charles Duncan of 4330 Arthur Street Northeast for about four weeks, cutting wood and piling bush, along with L. C. Thorkelson, 4252 Washington Street Northeast, on the property of H. O. Dahl at 85th Street and Normandale Road in Bloomington Township.

On the morning of October 17, 1946 the men began work about 7:00 a.m. and had been cutting wood with a power driven (gasoline) circle saw. About 1:10 p.m. Mr. Dahl noticed the deceased, who was standing a couple feet away from the saw, but facing in the opposite direction, place his hand on his head and sort of reel or stagger backward onto the saw which was in motion at the time. The men placed the injured man in the back seat of Duncan's car, Thorkelson sitting with him and supporting his body as best he could, and Duncan drove his car, with Dahl seated in in front beside him, to Abbott Hospital. En route the deceased gasped "I guess I'm a goner." Upon arrival at the hospital the man was pronounced dead by one of the physicians. Death occurred about 1:30 p.m.

The body was removed to the Morgue where examination revealed the deceased had suffered amputation of the left arm at the mid-humerus region and a deep laceration over and into the left scapular region. Death was attributed to exsanguination.

The deceased's son, Quenten DeWitt, was located the following day in Hutchinson, Minnesota and informed of his father's death. He returned to Minneapolis and made the funeral arrangements for the deceased.

Consent for an autopsy could not be obtained from Quenten DeWitt.

Two weeks ago, this child fell out of his high chair striking his head on the floor. There was an abrasion on the scalp extending midline about one-third of the way back. On October 20th, the child awakened and went through his regular routine. He was put to bed for his afternoon nap around one o'clock and at one thirty the father looked at him and he appeared to be sleeping normally. At 4:30 P.M., the child was still sleeping and the father tried unsuccessfully to arouse him. He then took the child in his car and started for Central Hospital at 1828 Central Avenue, however, when they arrived there at 6:15 P.M. the child was pronounced dead. The Bussert family had been living with Mr. Bussert's sister at 1109 Filmore St. NE for the past six months, moving to 5435 Fourth St. NE. on October 19, 1946. The father stated that this child expired in his car enroute to the hospital.

REMARKS: Social Security No. 472-05-3753

At approximately 9:15 p.m., October 20th, Mrs. Min. Erickson, who lived with her brother-in-law (the deceased) and his wife, heard the deceased closing the back door, but thought nothing of the matter since he customarily "tried" the back door before retiring to ascertain if it was locked. It later developed that the deceased had left the house at that time by way of the back door and walked out onto the sidewalk. As he walked along Chowen Avenue he passed Mr. Woodward, a neighbor residing at 3927 Chowen Avenue South. Woodward spoke to the deceased but the latter did not respond. It was noted that the deceased was carrying a small paper bag in his hand. Mr. Woodward also observed that the deceased continued on Chowen Avenue, where he turned left on 40th Street and walked toward Beard Avenue.

A short time later in the evening the deceased's wife and her sister-in-law became alarmed over the deceased's disappearance and discussed the matter with Mr. Woodward who told them about having seen the man walking out Chowen Avenue. A search was made of the immediate neighborhood and then Mr. Woodward called the Police Department and asked for assistance in locating the man. In due time squad car #19 responded and made a search of the neighborhood. As the car was cruising through the alley at the rear of Beard Avenue near 39th Street one of the officers noticed that the tall grass and weeds appeared to be beaten down in a certain spot. They investigated and a few feet from the alley in a heavy growth of brush and weeds found the body of the deceased lying on the ground. The body, which was still warm, was found at 11:00 p.m. There was a mark, resembling an acid burn, on the man's chin, which apparently had resulted from some fluid he may have drunk. A small paper bag, empty, was found nearby in the alley.

There is a history that this child apparently was in good health until October 17th. He had attended school October 16th; however the following day he was unable to use his legs and complained of severe pain. On the advice of Dr. M. A. Burns, the attending physician, the boy was removed from his parent's farm home to Montevideo, Minnesota. On October 21st, the deceased suddenly developed bulbar symptoms of poliomyelitis with respiratory difficulty. At 4:00 P.M. that day he was removed by ambulance to University Hospitals. The 130 mile trip was made in two hours. The ambulance driver stated, however, that about twenty miles out of the city, the boy stopped breathing and turned blue. At 11:25 a.m. October 23, 1946 the Coroner's Office received a call from the police stating that the body of an infant had been found in some bushes at Sibley Field, at Longfellow Avenue between 39th and 40th Streets. The body was found at 10:15 a.m. that date by Turney Barringer, caretaker of the field. The body was that of a fully developed female child with about 20 inches of the umbilical cord attached, and was wrapped in an October 14, 1946 Minneapolis Times newspaper, also a woman's black skirt, blood-stained, and a blood-stained blanket marked "Majestic." The body was brought to the Hennepin County Morgue, where examination revealed multiple stab wounds on the head, arms and back.

An autopsy done at 10:30 a.m. October 24th determined the cause of death to be multiple stab wounds with hemorrhage.

Park police officers at the scene were Hashman and Carlson, also detectives Higgins and Berkmoes.

Inspector of Detectives, Eugene Bernath, was called on the case, and he in turn placed the evidence in the hands of two of his men, Detectives McCarthy and Christiansen. The blanket was traced to the Majestic Hotel, 12 South Seventh Street, where it was learned from the housekeeper, Mrs. Delores Mudge, 4100-23d Avenue South, that a girl, between 19 and 21 years old, by the name of Frances Margaret Drexler, of Sleepy Eye, Minnesota, had worked at the hotel as a maid, however, she had left after working on October 14th and had not been seen since. Mrs. Mudge stated that the Drexler girl had told her on the morning of October 14th that she had had an accident and her room would have to be cleaned up. The housekeeper found room 230, occupied by the Drexler girl, in much disorder. The sheets, blankets and other bedding were all blood-stained and there was

On November 12th Frances Drexler surrendered to the Police Department. The following day she was taken to the County Attorney's Office where she gave a complete statement to County Attorney Michael Dillon, admitting killing her baby. The baby was born early during the morning of October 14th, Miss Drexler stated, and lived about two hours. Miss Drexler admitted stabbing the baby numerous times with a finger nail file until death occurred. She carried the body around in a suit case, she stated, for a few days and then tossed it into the bushes at Sibley Field.

On Thursday, November 21st, the case was presented to the Grand Jury and a charge of manslaughter against Frances Drexler was made.

About 10:30 A.M., October 23rd the deceased with Bernard Wareberg, Herbert Wilkins, Mike Lambert and Napoleon LeMere, employed at the Archer-Daniels-Midland Company laboratory, 29th Avenue SE and Great Western Tracks, were going about their various duties. Wilkins was in the process of splitting soap from the sulphide refuse of a paper mill in order to recover the oil. In one tank they had deposited ten barrels of sulphide material and had planned to add twenty more barrels. They added about one barrel of dilate sulphuric acid to the mixture. The processing had been going on about ten minutes when the deceased, who was up on a platform between the two tanks watching the procedure, complained that he did not feel good and came down the ladder, where he collapsed to the floor. Someone called for help. The other men all experienced a dizzy sensation, but Lambert was able to drag the deceased out of the place. Lambert and LeMere were examined in the medical department of the laboratory and then removed to their homes. Mr. Wareberg and the deceased were removed to Swedish Hospital, being admitted at 11:00 A.M.. Both men were under the care of Drs. Leonard Aaling, L. W. Foker and Arthur C. Kerkhof. The body was removed to the Hennepin County Morgue where an autopsy was done and specimens were given to the Toxicological chemist for analysis.

It was stated these men had performed the same test the previous day. Mr. Groenstein is the chemist at Archer-Daniels-Midland laboratory.

The deceased, while in the LaSalle Building, 91 South Seventh Street, during the afternoon of October 29, 1946, had gone to the women's lavatory on the third floor of the building. The lavatory is slightly elevated from the corridor, necessitating one step between the two floor levels. About 3:00 p.m. the deceased apparently, while emerging from the lavatory, fell as she stepped down to the floor of the corridor and injured her hip. She was unable to stand because of the severe pain. An ambulance was summoned from the Minneapolis General Hospital and the woman was removed to Minneapolis General Hospital, being admitted to the receiving room at 3:26 p.m. X-rays revealed an intracapsular fracture of the left hip. The deceased was then placed in a Buck's extension.

At a staff conference on October 27th an osteotomy was recommended for the deceased. Therefore, on October 29th she was taken to the operating room about 7:30 a.m. and 14 mgm. of prontocain was injected into the 4th lumbar vertebra, after which she was placed on what is known as a tower table and manipulation, which is customary in injuries of this type, was begun. The deceased suddenly became cyanotic, lapsed into unconsciousness and expired at 7:55 a.m.

An autopsy, done at 10:50 a.m. the same morning, revealed pulmonary embolism; thrombosis of the left femoral vein; and fracture of the left hip.

An ambulance from Minneapolis General Hospital was called and the ambulance physician pronounced the man dead. Death occurred at 6:15 P.M. The deceased had remarked to Louis Hammerstrom, relief fireman at Parkview Hospital on November 2, 1946 that "it would be easy for him to take some pills and thus end all his troubles." This information was passed on to Fred Rondeau by Louis Hammerstrom.

The body was removed to the Morgue and later released to the funeral director.

SUPPLEMENTAL REMARKS:

Due to discrepancies unknown at the time this case was first reported to the Coroner's Office relative to an injury sustained by the deceased previous to his death, Doctor Russell R. Heim, Coroner, summoned to his office certain employees of the Hans Rosacker Company. Therefore, a hearing conducted in the Coroner's Office on Friday, November 29, 1946, at 10:00 a.m., revealed the following information:

Elder Mohrman, 2205 Ilion Avenue North, stated that the deceased and himself were removing cases of jonquil bulbs from one of the sheds to another part of the building. They unpiled the cases, which weighed about 150 pounds each, placing each case on a cart and transported same to a section of the building where planting was in progress. In each instance deceased would grasp two sides of a case with his hands, and Mohrman would do likewise with the other end of the case. While backing away from the pile of cases and, of course, lifting one end of a case, the deceased in some manner stumbled and fell backwards, landing on his buttocks. The deceased made a wry face, as though he were in pain. Mohrman asked the deceased if he were hurt and he replied in the negative. Mohrman stated the deceased's face was slightly scratched, as though an edge of the case had grazed his face. He maintained, upon questioning by the Coroner, that the case had not fallen on the deceased. He further stated that deceased had never mentioned anything to him about having had a fall, other than that described herein, or any other kind of an accident.

George Hunter, 3510 Lyndale Avenue North, another worker employed by the Hans Rosacker Company, stated that he had never been with the deceased at any time when he had had an accident, although added that he had heard from others working at the greenhouse that deceased had injured

himself while working in a shed of the company. He related that Mr. Mohrman had told him that he (Mohrman) and the deceased were moving a case of bulbs when the deceased fell on a platform sidewalk (cement), and that Mohrman stated he did not know whether the case of bulbs had fallen on him or not. The deceased had fallen over backward and "lit on his seat," according to Mohrman. However, the deceased never had mentioned anything to Hunter about having hurt himself.

Arthur Rosacker, one of the members of the firm of the Hans Rosacker Company, stated that the afternoon of October 18th (1946) was the last date deceased had worked at the greenhouse. During the morning of that day he had gone to a doctor regarding his eyes, which were troubling him a great deal. Mr. Rosacker stated that he had heard only after the deceased's death, through other employees, that Mohrman and Sperry were carrying a box of bulbs, and "Lee" Sperry, while backing away from where the bulb cases were stacked, tripped and sat down. Mr. Rosacker inquired of Mohrman if the deceased had been hurt at the time, and he was told by Mohrman that the deceased had maintained that he was uninjured. However, as he fell backward to a sitting position the box of bulbs "sat on his lap," according to Mohrman. *

William Thompson, a foreman at the Hans Rosacker greenhouse, mentioned that the deceased had diabetes and any little scratch he might get would result in an infection. Thompson stated that the deceased's father, Horace Sperry, also employed at Rosacker's, had asked him to help load "Lee" into the automobile during the afternoon of November 5th, as he was going to take him to the hospital. Mr. Sperry then went on to say that his son (the deceased) had hurt his leg while carrying a case of bulbs and that infection had developed. Thompson stated that was the first time he had heard of the deceased's leg injury. Thompson inquired of others at the greenhouse, including George Hunter who worked with the deceased, about the accident; however, no one knew anything about an accident.

* Arthur Rosacker stated had he known about the deceased's injury and that he was in the hospital, he would have gone to see him. He knew he was not at work, but assumed he was absent because of his eyes.

REMARKS: LELAND SPERRY - Social Security No. CONTINUED -

Horace Sperry, 2208 Hayes Street Northeast, father of the deceased, was asked by Doctor Heim when he had first learned that his son had sustained a leg injury. Mr. Sperry replied that it was about six or seven days before he was taken to the hospital - about the 29th or 30th of October. His son had been having some trouble with his eyes and had mentioned nothing about the leg injury. The father happened to notice an abrasion on his son's leg one evening and asked him how that had happened. The deceased replied that he had scratched himself at work, but mentioned nothing further about the injury. Mr. Sperry related that his son had had diabetes for a long time and his condition was gradually becoming worse. His eyes were troubling him a great deal and he thought his son was more concerned about that condition than his leg. Later, Mr. Sperry said, his son had informed him that he had dropped a crate on his leg and had sat down flat, and thought he had hurt his "tail bone" at the time. Mrs. Florence Thomas, Mr. Sperry's daughter, also residing at 2208 Hayes Street Northeast, called Doctor Aling about her brother's leg; Mr. Sperry recalled that was probably on November 3d. Due to lack of room, Doctor Aling was unable to get the deceased into the hospital until November 5th. Mr. Sperry mentioned his son had worked a half day on October 18th. That evening the deceased, his sister, Mrs. Florence Thomas, and her boy friend, also Mr. and Mrs. George Porter had gone fishing. However, the following day (Saturday) the deceased returned home alone because his eyes bothered him so much.

Upon being asked by Doctor Heim as to how the bulb cases are generally carried, Mr. Sperry answered that the crates are made with cracks between the boards, and a man places his fingers in the cracks on each side of the crates, or at the ends, which facilitates handling.

Dr. C. J. Martinson of Wayzata reported this case to the Coroner's Office.

According to Mrs. P. V. Esterley, 2432 Girard Avenue South, sister and guardian of the deceased, the deceased had been under the care of Dr. Emil C. Robitshek for two years or more. It was stated that due to sleeplessness Phenobarbital tablets had been prescribed in quantities of one hundred at a time, that is, that amount had been prescribed in June, 1946 and again in October, 1946. Mrs. Esterly stated that two years ago the deceased had taken an overdose of Phenobarbital; she was taken to Eitel Hospital and placed under the care of Doctor Robitshek, and subsequently recovered.

Several months ago Mrs. Esterley sent Dr. A. E. Vik, her personal physician, out to examine the deceased and he reported that the latter was in very good health for a woman of her advanced age.

In October, according to Mrs. Esterley, the deceased visited the office of Doctor Robitshek and obtained a prescription for a hundred Phenobarbital tablets. On Wednesday, November 6th, the deceased's granddaughter, Mrs. Emma Matzala, with whom she lived, noticed that the deceased was sleeping. Later in the day she became apprehensive and called in one of her relatives. Doctor Robitshek was called by telephone and, informed of the situation, he suggested that an attempt be made to awaken the woman and to give her some hot coffee. Mrs. Matzala was unsuccessful in this effort. Doctor Martinson of Wayzata was then summoned and he had the woman removed that evening to the Minnetonka Hospital in Wayzata, where she expired at 10:00 p.m., November 9th, without having regained consciousness.

The deceased was instantly killed in a collision which occurred at 11:00 P.M. November 16th at Hennepin Avenue and West 15th Street. The deceased was driving with his wife, Signe; their car was a 1940 Studebaker Coupe bearing Minnesota licence number 345-448. They were travelling west on Oak Grove Street and at the foot of Lowry Hill, stopped for a traffic sign at Hennepin Avenue and then proceeded into the intersection when their car was struck broadside, on the door, by a car driven by Kenneth W. Nelson, age 26, of 1605 Hennepin Avenue.

The car which Mr. Nelson was driving was a 1936 Packard Sedan bearing Minnesota license #121-580. This car belonged to Larry Crowley of 3254 Hennepin Avenue. Mr. Nelson was travelling north on Hennepin Avenue and assuming that the deceased, whose car was stopped for the stop sign, was going to wait until he passed, he diverted his attention to watch other traffic and proceeded into the intersection, colliding with the deceased's car. The Krumholz car swerved against the curb after the impact, and the deceased was thrown into the street and killed. Mrs. Krumholz was removed to Minneapolis General Hospital for treatment of her injuries.

Witnesses to the accident were: Ronald Raymond of 3708 Noble Avenue, Robbinsdale and Richard Bristol, 3455 Blaisdell Avenue Minneapolis.

The body was removed to the Morgue and later released to the funeral director.

Because of Mrs. Krumholz's critical condition, permission for an autopsy was not obtained.

The deceased, it was stated, had just returned from a trip to Duluth, Minnesota. He had parked his car in a parking lot near the railroad station on November 22d and taken the train to Duluth, returning to Minneapolis the following morning. Upon arrival he apparently got into his car and started to drive home. He was traveling south on Fifth Avenue and had crossed East 25th Street when his car, apparently out of control, struck the curbing and continued on for 151 feet, grazing two trees, finally coming to rest against a large elm tree. There were no witnesses. However, at 7:40 a.m. Don and Sylvia Forstad, 3641 Park Avenue, also Ruth Swenson, 422 East 25th Street, and Jim Roncone of 3201 Fourth Avenue South, came along in a car en route to the University and noticing the deceased's car up on the curbing, investigated. They found the deceased lying across the seat, as though while driving he had collapsed and fallen toward the right on the seat. There were no other automobiles on the street when the Forstad car appeared at the scene.

The body was removed to the Hennepin County Morgue, where examination revealed no bruises or lacerations. A small amount of blood oozed from the mouth of the deceased.

Consent for an autopsy was refused by the family of the deceased. Due to hypertension, the deceased had been under the care of Dr. Alton C. Olson. It is believed that this man suffered a heart attack while driving his car and expired suddenly.

Police officers R. W. Anderson, Berg and Johnson arrived at the scene.

the kitchen light go on and then walked up the stairway leading to the living quarters occupied by the deceased and her daughter, Bonnie. The two women were in the kitchen. Confronting the deceased in the kitchen Slyt tried to discuss a reconciliation but she refused to consider the matter, Slyt said. The deceased then ran toward the stairway leading to the living quarters of her son, Donald, and Slyt shot her. Her body toppled down the steps. Slyt stated that Bonnie then ran from the side of the kitchen stove where she had been standing and into the bedroom. The girl jumped into bed and covered up her head with the bed clothing. Slyt shoved the shotgun muzzle against her and pulled the trigger, because, as he stated to police, he felt the girl had opposed his efforts to effect a reconciliation with her mother.

The two bodies were removed to the Hennepin County Morgue, where autopsy examinations were done.

It was stated that deceased, widow of Fred Peterson, and Slyt were married March 1, 1946. She separated from him October 3d, filed suit for divorse in Hennepin County district court on October 28th and was granted a divorce in November. The deceased, who had resumed her former name, had been working as a waitress at Hans' lunch room, 22 Hennepin Avenue.

REMARKS: Social Security No. 473-03-0404

The deaths of Theresa Peterson and her daughter, Bonnie, were reported to the Coroner's Office by the Police Department at 7:45 a.m., December 2, 1946.

The body of the deceased was found lying at the foot of the stairs on the first floor of deceased's home. There was a shot gun wound in the lower left breast. The body of deceased's daughter, Bonnie, age 17, was found lying in her bed. There was a shot gun wound on the outside of the right breast. A 4" x 8" powder burn was on the bedspread, indicating a shot had been fired through the spread and quilt. The bedroom opened off the dining room.

Donald Peterson, age 33, and his wife and two children occupy the first floor of the house. Donald is a son of the deceased. He was in bed at the time of the shooting, however, he got up when he heard the two shots and saw a man, whom he later told police he thought was Peter Slyt, former husband of the deceased, running out the front entrance of the house.

A pickup was immediately put out for Peter Slyt, whose address was given as 202 Hennepin Avenue, room 1, and at 7:55 a.m. officers Roehl and M. Nelson picked up Slyt in the hallway of 202 Hennepin Avenue, just as he was coming out of the place. At the time of his arrest Slyt had in his possession a double-barrel 16-gauge shot gun and a box of 16-gauge shells , a hunting knife with an eight inch blade in a sheath; also a pair of side wire cutters and a black plastic flashlight. When brought to headquarters he readily admitted the shooting and signed a statement to that effect. He said he had gone to 608-25th Avenue North at 2:00 a.m., December 2d and hid in a shed in the rear, waiting for Donald Peterson to come out of the house to attend to his milk route; however, it was Donald's day off and he was in bed.

Slyt admitted that he had taken a ladder off pegs on the front of the shed, quietly raised it against the rear of the house and snipped the telephone wires. About seven o'clock Slyt saw

The deceased had complained to her mother, Mrs. Marie Snyder who made her home with her, that she had a very severe headache and the pain was becoming more intense. About 11:00 A.M, Mrs. Snyder went to the basement of the home; suddenly she heard a shot and rushed upstairs to find the deceased standing over her six months old baby's crib with a revolver in her hand. She pushed the deceased away and then the deceased ran into the kitchen where her other daughter, Roberta age six, lay on the floor already wounded. She leveled the gun at the child, but as she pulled the trigger Mrs. Snyder jarred her arm and the bullet lodged in the far wall of the bedroom. She then tussled with the deceased in an attempt to remove the gun from her grasp. The deceased then ran to the kitchen door leading outside and was pursued by Mrs. Snyder and caught on the porch. Mrs. Snyder grabbed the deceased by the clothing and pulled her back into the kitchen. While pulling the deceased back into the kitchen, she turned the gun on herself firing a shot into her chest. Death occurred at 11:00 A.M.

The deceased's husband stated that his wife had been despondent when her health failed gradually following the birth of her last child.

Deceased had left his home early in the evening of December 18th to attend a Boy Scout meeting at the Crystal Village hall. He was riding his bicycle on the right shoulder of old Jefferson Higway when he was struck by the car of Edgar Hall, age 25, of St. Cloud, Minnesota. The accident occurred at 6:45 p.m. about a half mile north of the Bass Lake road, near Crystal. Both vehicles were traveling in a southerly direction at the time. Hall, visiting his parents, who are neighbors of the Baldwins, was on his way to a store in Bass Lake. Hall later stated that he was conscious of the fact that his car had struck something, which he thought might have been a Christmas tree that had been dropped on the road. He stopped his car, a Chevrolet, bearing Minnesota license No. 349-514, when he heard something scraping the road, which investigation revealed to be the mangled bicycle the deceased had been riding. The body of the boy lay 160 feet back on the side of the road. Hall and Earl Kimball, Route 6, Camden Station, who was passing the scene, picked the deceased up and carried him into the home of Michael Olson on the highway.

There was a dent in the right hand front fender of Hall's car, and the paint was scraped off. The deceased's bicycle was firmly wedged under the car at an angle of about 65 degrees between the right rear wheel and the middle of the left main frame brace. Hall stated that he was traveling about 30 or 35 miles an hour at the time of the accident.

Deputy sheriffs Julkowski and Quady arrived at the scene.

The body was removed to the Morgue, where examination revealed a fracture (comminuted) of the right femur at about the middle; fractured pelvis; laceration beginning in the

It was stated that the deceased had not been at his office during the past month because of a nervous condition. He had also been receiving treatment for a heart condition. Pathological findings included petechial hemorrhages on cerosal coverings, also acute congestion of lungs and liver.
