On December 26, 1946, the deceased was inside a huge mixing machine at the American Excelsior Company, 3200 E. Hennepin Avenue, where he is employed; he was doing some repair work to the mixer when another employee of the company accidentally brushed against the switch which started the gears. A fire department rescue squad, a Minneapolis General Hospital ambulance doctor and fellow employees worked for nearly an hour to extricate the deceased from the machine, a job that required dismantling of the gears.

The deceased was removed to St. Mary's Hospital where he was admitted December 26, 1946 at 9:30 A.M. He was attended by Dr. LaPierre, Dr. Rockwell and Dr. H. E. Hoffert. It was stated that the deceased had been living in her own home in Deephaven with a couple who took care of her. On November 27th the home was sold, and she was removed to the Hague Rest Home in Deephaven. The deceased was senile, disorientated and, it was stated, difficult to care for. On many occasions it was necessary for the nurses to feed her. On December 12th at 6:00 P.M., she was put to bed and the nurse went to care for other patients. The deceased got out of bed and started for the bathroom when she slipped and fell to the floor landing on her right hip and striking her head on the floor. A Dr. Seifert was called. The deceased at that time did not complain of her hip, however on December 13th, the nurse noticed that the right leg appeared fractured. X-Ray examination revealed an intra-capsular fracture of the right hip and the deceased was put in Breck's traction. On December 28th, the woman's temperature rose and the following day there was evidence of pneumonia. Death occurred at 3:30 P.M. January 1, 1947.

This child was in an ambulance enroute to Swedish Hospital when she expired. The baby and her parents had been at the home of Mrs. Marion Kempf at 4152 40th Avenue South. Death occurred at 7:25 A.M. January 1st. Mrs. Kempf is the paternal grandmother of the child.

There seems to be a great deal of confusion in regard to this case. However, according to information received by the Coroner's Office, upon arrival at Swedish Hospital, since the child had already expired, it was deemed advisable to take the body to the funeral home. There it was noted the child had a flannel cloth fastened over her chest, and there was evidence that a chest "rub" had been applied.

George Carpenter, 2425 Lyndale Avenue South, is the child's maternal grandfather.

According to deceased's husband, he and his wife had planned to attend an "open house" some time between the hours of 5:30 p.m. and 11:00 p.m., January 1st, at the home of friends, Mr. and Mrs. Beery. The deceased had attended the Zuhrah's Ladies breakfast at the Calhoun Beach Club that day (10:30 a.m. to 1:00 p.m.), after which she had returned to her home. During the latter part of the afternoon she laid down on her bed to rest. About 7:00 p.m. Mr. Ewald came in to talk to his wife about the time they probably would leave for the function at the Beery's home. He found that she was sleeping, and believing the rest was of more importance, did not attempt to awaken her. At approximately 10:00 p.m. he again went to his wife and found that she was still asleep and he left the room without awakening her. The following morning Mr. Ewald arose at eight o'clock and looked in on his wife, and again at 8:30 a.m. and noticed that she was still sleeping. He did not attempt to disturb her.

Deceased, who was Executive Secretary of the National Foundation for Infantile Paralysis, was scheduled to attend a meeting at the organization's headquarters, 211 Baker Building, at 10:00 a.m., January 2d. Mrs. George Werness, another worker in the group and a friend of the deceased, arrived there at the time mentioned. A few minutes later deceased's daughter, Emarie, telephoned Mrs. Werness and told her that her mother would be unable to attend the meeting, that she had been sleeping since late the previous afternoon and could not be awakened. Mrs. Werness then immediately went out to deceased's home and found that she was in a "deep sleep." Mrs. Werness stated that the deceased's pulse was quite weak. Noting that the deceased was fully clothed (a blanket had been spread over her) she loosened her clothing, particularly her girdle, and then her pulse seemed somewhat stronger. Mrs. Werness stated that the deceased was reclining on her right side. Mrs. Werness then telephoned to the deceased's physician, Dr. C. G. Arvidson, who ordered the woman removed by ambulance to Swedish Hospital. Deceased was admitted to the

hospital at 1:00 p.m. (January 2d) and expired at 3:00 p.m., without regaining consciousness.

The body was removed to the Werness Mortuary, where an autopsy was done at eight o'clock that night by Dr. John A. Williams, after the arterial embalming had been done. It was stated that nothing of a pathological nature, other than edema of the upper lobe of the right lung, had been revealed.

Doctor Arvidson informed the Coroner that he had prescribed some "Jellseal" (Upjohn's) for the deceased for a gastric ulcer - 2 drams four to five times daily. Also, the following prescription: ---- Tincture of Belladonna - 5 drams; Elixir Phenobarbital Q.S. - 6 ounces. To be taken 1 tsp. 3 times a day after meals. ---- Mr. Ewald stated his wife had been taking some red liquid out of a bottle (the aforementioned prescription); he stated he had also found some yellow capsules in the house about a month ago. He stated the prescription referred to had been filled December 4, 1946 and had been refilled on December 10th. It was noted that one ounce of the medicine was left in the bottle after his wife's death.

It was stated the deceased had had an accident about two years ago and had fractured a shoulder. Later, adhesions that had formed, had to be broken up. A uterine suspension was considered about two years ago, according to Doctor Arvidson, however, this was not done. The physician stated that the prescription referred to was given because of a nervous condition.

There was some delay in referring this case to the Coroner's Office, undoubtedly due to the fact that Doctor Arvidson had been in regular attendance.

Mr. and Mrs. Stanley Kapala left their home in Minneapolis at 9:00 a.m., January 4th, and drove up beyond Richmond, Stearns County, Minnesota, in a station wagon they had recently purchased. Mr. Kapala had some business to attend to in that section. They had dinner at the home of a farmer and his wife, and then left for the return trip to Minneapolis shortly after two o'clock that afternoon. A short distance before entering the town of Richmond it became necessary to cross the railroad tracks which crossed the highway. The Kapala car had nearly cleared the tracks when it was struck on the left rear part by an approaching Great Northern passenger train. The impact caused the automobile to turn to the left. The door on that side flew open, and Mr. Kapala was catapaulted directly into the path of the diesel engine of the train. He was killed instantly. In the same manner the deceased was thrown from the right side of the car when the door on the right side flew open. She fell against the guard wire of the road, and the car toppled down in the direction she had fallen, pinning her against the guard wire.

The accident occurred one block north of Highway #23, Richmond, Stearns County, Minnesota, at 2:31 p.m.

Deceased was taken to the hospital in Richmond, and the following day was removed to St. Mary's Hospital in Minneapolis, being admitted at 6:15 p.m. She expired at 12:05 p.m., January 7th.

injured and that he did not wish to see a doctor. Erickson stated there were no visible injuries but the deceased appeared nervous and excited. The accident occurred at 4:36 p.m. The officer had the deceased get into the squad car, intending to drive him home. About 5:30 Erickson noticed that the deceased appeared to be very ill and he drove him to the home of Dr. Reuben Erickson, 3648 Edgebrook Place, Edina. The latter pronounced the man dead. Death apparently had occurred about 5:30 p.m.

The body was removed to the Morgue, where an autopsy was done. There is a history of a cardiac condition over a period of several years; however, despite the fact there were no injuries due to the motor vehicle accident, and death was revealed to be due to coronary sclerosis, myocardial infarction and a rupture of the left ventricle of the heart, the pathologist was of the opinion that the shock resulting from the impact of another automobile against the car he was driving was sufficient to be a definite contributing factor to hastening the deceased's death.

REMARKS: Social Security No. 468-05-4425

This death was referred to the Coroner's Office by the Edina Police at 5:45 p.m., January 12th.

On Sunday afternoon, January 12, 1947, the deceased was driving his car, a 1940 DeSota coupe, bearing Minnesota license No. 334-591, in a southerly direction on Highway No. 100 in Edina. Robert William Rosenthal, age 29, of 3302-18th Avenue South, was driving his car, a 1937 Chevrolet sedan, bearing Minnesota license No. 302-435, north on the same highway. The deceased stopped his car on the highway at the intersection of Valley View Road, allowing oncoming traffic to pass before making a left-hand turn into Valley View Road. Rosenthal came over a crest in the highway about 480 feet from the intersection and noting the deceased's car, slowed his own vehicle to permit the turn to be made. However, since the deceased did not immediately turn into the intersection, Rosenthal continued his course at about 45 or 50 miles per hour. However, at this time the deceased then started to turn into the intersection, and oncoming traffic prevented Rosenthal from going around behind the deceased's car, and it was too slippery to stop, nor was there sufficient time to turn ahead of the deceased's car into Valley View Road. Consequently the deceased's car was struck in the middle right side by the Rosenthal car, and the impact caused the vehicle to swing around, facing west instead of east. Rosenthal's car came to a stop about eighteen feet beyond the point of impact, still facing north, his direction of travel.

A witness to the accident, A. O. Larson, 1901 Foshay Tower, verified the above information. Mr. Larson had been traveling east on Valley View Road and had stopped his car for the stop sign.

When Clayton E. Erickson, of the Edina Police, arrived at the scene of the accident he stated that the deceased was walking around, answered questions, claimed that he was not

REMARKS: This death was reported to the Coroner's Office by the Police Department at 11:50 p.m., January 12, 1947.

Lucille Anderson, age 21, of 708 Sixth Street South, became ill in her home during the forenoon of January 12th, but her mother did not think there was anything seriously wrong with her daughter and went out for the day, and did not return until about eleven o'clock that night. Lucille's grandmother, Mrs. Peska, was in the apartment when the girl complained of having terrific pains. The latter spent a great deal of time in the bath room, and Mrs. Peska asked her what was wrong; the girl replied that she was having some difficulty with her bowels and was constipated, whereupon the grandmother gave her a glass of fruit juice, thinking it might be beneficial. Then Lucille went to bed. That night while she was in the bath room Lucille called for her grandmother to help her. When Mrs. Peska went into the bath room, it was stated, Lucille was giving birth to a child. The fetus supposedly was expelled about 11:10 p.m., and Mrs. Peska admitted that she assisted in delivery of the child. Mrs. Peska then called the Minneapolis General Hospital. An ambulance responded, the cord was then tied and the girl was brought to the hospital, being admitted at 11:40 p.m. Examination at the hospital revealed that the placenta had not been expelled, and Doctor Daehlin, of the hospital staff, informed detectives on the case that this did not pass for two or three days after entering the hospital. It was felt that this was an induced abortion, since Lucille maintained a rather high temperature for a few days. However, the girl denied that she had taken any medicine to induce an abortion, nor had instruments been used. She stated the only thing she had used was a bottle of Lysol, a certain portion at a time, diluted with water and had douched herself with this. She further admitted having forced the hard rubber end of the syringe tube up into the vagina.

The fetus was brought to the Hennepin County Morgue, where the deputy coroner determined the weight to be 215 grams; the umbilical cord 9-1/2 inches in length; from vertex to rump 7.6 inches; from vertex to heels 10.8 inches.

Lucille and her grandmother stated to the detectives that the baby was born dead. This fact was borne out by the deputy coroner who tested the baby's lungs, which failed to float in water, indicating that the lungs contained no air, which confirmed the statement that the child was born dead.

Detectives assigned to this case were Clifton Smith, Rydland, McCarthy, Christensen and Cecil.

REMARKS: Social Security No. 468-10-6550

The deaths of Donald Thomas Laycock, Arnold Albin Anderson and Harlow Joseph Tischer were reported to the Coroner's Office by the Police Despatcher at 6:40 p.m., January 23, 1947.

Shortly before 5 p.m., January 23d a fire broke out in the basement of a garage known as the Hull-Dobbs Motor Company, 2610 Hennepin Avenue, where several employees were working on cars. One worker, it was stated, was using a torch on a fender repair job and a gasoline tank cap had been removed from another car standing nearby. Fumes from the open gasoline tank apparently became ignited. A series of explosions followed as the flames reached containers of paint and automobile gasoline tanks. Flames were hurled the length of the basement, and timbers supporting the first floor began burning. It was stated that Leonard Wyckhoff, 4003-2d Avenue South, ran upstairs to turn in an alarm, while other workmen attempted to fight the blaze with hand extinguishers. However, they were soon forced to give up their efforts.

The first dozen firemen reaching the scene began laying hose lines through the first floor display room, but they were unable to get into the basement because of the heat and dense smoke. They were chopping a hole through the terrazzo floor when the weakened joists gave way and plunged them into the basement. It was stated because of the density of the smoke it was impossible for the men to see even a few inches, and most of the firemen remained where they fell and shouted to other firemen above to lower ladders. Eight of the men scrambled to safety when they heard the ladders being lowered. The firemen knew that additional men were trapped in the basement, however, more than an hour elapsed before they were able to get into the basement, tie the men to ladders and pull the ladders out of the debris.

Laycock, Anderson and Tischer, when brought to the street level, were pronounced dead by ambulance doctors from the Minneapolis General Hospital, and their bodies were subsequently removed to the Hennepin County Morgue.

DONALD THOMAS LAYCOCK - CONTINUED -

Walter R. McLeod, age 54, 228 North Cedar Lake Road, captain of the first fire unit in the building, was pulled up on the ladder-stretchers, and examination revealed that he was alive. He was removed to Minneapolis General Hospital and was given oxygen and plasma and treated for shock. However, due to inhalation of smoke, pneumonia developed and he expired on February 2d.

Several firemen were given first aid at the scene of the accident and then were sent to the Minneapolis General Hospital.

An autopsy was done on Donald Thomas Laycock which established the cause of death to be due to suffocation and carbon monoxide poisoning.

It was stated that Arthur P. Spottswood, Chief of the Fire Prevention Bureau, declared the cause of the Hull-Dobbs Motor Company fire to be due to "ignition of gas vapors by a welding torch being used in the basement of the building" at 2610 Hennepin Avenue.

REMARKS:

This case was reported to the Coroner's Office by the Police Department at 12:25 p.m., January 24th.

It was stated the deceased had been part owner of the Minneapolis Coal Co. for eighteen years, but had recently sold his interest in the firm.

The deceased, his wife and their 11-year old daughter, Barbara, had planned to leave for Seattle on January 25th, and were to make the trip by motor. During the morning of January 24th the deceased went to his former place of business, the Minneapolis Coal Co., 74 Lowry Avenue North, to bid the men goodbye. After talking with M. H. Dahl, Route #2, Isanti County, Minnesota, an office employee, about 11:30, he walked back into the rear of the place and talked with S. L. Bergeron, 3719 Dupont Avenue North, and Andrew Johnson, 2222 Bryant Avenue North. During the conversation the deceased remarked, "I've got a feeling I'm not going to Seattle." He then left the two men and entered an adjoining room. In a few moments the men heard a loud noise, which they assumed to be a box of fuel crashing to the floor. Bergeron then stepped into the room from which the sound had apparently emanated and found the body of the deceased lying on his back on the floor behind some packages of fuel that had been stacked on the floor. There was a large pool of blood on the floor. A 32-caliber Smith & Wesson revolver was lying on the floor near the deceased's left foot.

Officers Lillijord and Ely were at the scene when the deputy coroner arrived. Examination by the latter revealed a bullet wound in the left ear canal. There were powder burns around the area and profuse bleeding. Death, which was instantaneous, had occurred at 11:45 a.m.

Mr. Hansen, of the Hansen-Nugent Funeral Home, telephoned this morning (2-11-47) and stated that the body of the deceased had been released to him by the Anatomical Department of the University in view of the fact the deceased had previously made arrangements for burial by the funeral home mentioned. Further, that the deceased's landlord had in his possession a bank book which the former had turned over to him for safekeeping. Mr. Hansen stated that it was the deceased's intention that the money on deposit was to be used to defray the expense of his burial. In checking with Donovan Lawrence, of the Anatomical Department, it was learned that Mr. Hansen, when he claimed the body of the deceased, produced the bank book in question, which showed a balance of $262.00. Further, the account had been opened in 1945.

The landlord referred to above is Charles H. Arnold, proprietor of the Pioneer Hotel, 8 Second Street South.

REMARKS:

This case was reported to the Coroner's Office at 9:55 A.M. February 2, 1947 by Minneapolis General Hospital.

Shortly before 5 p.m., January 23rd a fire broke out in the basement of a garage known as the Hull-Dobbs Motor Company, 2610 Hennepin Avenue where several employees were working on cars. One worker, it was stated, was using a torch on a fender repair job and a gasoline tank cap had been removed from another car standing nearby. Fumes from the open gasoline tank apparently became ignited. A series of explosions followed as the flames reached containers of paint and automobile gasoline tanks. Flames were hurled the length of the basement, and timbers supporting the first floor began burning. It was stated that Leonard Wyckhoff, 4003-2d Avenue South, ran upstairs to turn in an alarm, while other workmen attempted to fight the blaze with hand extinguishers. However, they were soon forced to give up their efforts.

The first dozen firemen reaching the scene began laying hose lines through the first floor display room, but they were unable to get into the basement because of the heat and dense smoke. They were chopping a hole through the terrazzo floor when the weakened joists gave way and plunged them into the basement. It was stated because of the density of the smoke, it was impossible for the men to see even a few inches, and most of the firemen remained where they fell and shouted to other firemen above to lower ladders. Eight of the men scrambled to safety when they heard the ladders being lowered. The firemen knew that additional men were trapped in the basement, however, more than an hour elapsed before they were able to get into the basement, tie the men to ladders and pull the ladders out of the debris.

Firemen Donald T. Laycock, Arnold A. Anderson and Harlow J. Tischer, when brought to the street level were pronounced dead by ambulance doctors from the Minneapolis General Hospital and their bodies were removed to the Hennepin County Morgue. An autopsy was done on Donald Thomas Laycock which established the cause of death to be due to suffocation and carbon monoxide poisoning.

McLeod, captain of the first fire unit in the building, was pulled up on the ladder stretchers, and examination revealed that he was alive. He was removed to Minneapolis General Hospital and was given oxygen and plasma and treated for shock. However, due to inhalation of smoke, pneumonia developed and he expired on February 2nd at 9:15 A.M. An autopsy which was done at the hospital revealed the cause of death to be due to bilateral purulent lobar pneumonia and purulent tracheo-bronchitis

Several firemen were given first aid at the scene of the accident and then were sent to the Minneapolis General Hospital.

It was stated that Arthur P. Spottswood, Chief of the Fire Prevention Bureau, attributed the cause of the Hull-Dobbs Motor Company fire to "ignition of gas vapors by a welding torch being used in the basement of the building" at 2610 Hennepin Avenue.

REMARKS:

This death was reported to the Coroner's Office by the Minneapolis General Hospital at 6:45 a.m., February 14, 1947.

It was stated that the deceased was walking south on Utica Avenue, which is a one-way south-bound street or service road, in St. Louis Park, about 6:25 p.m., February 13th, when he was struck by an automobile traveling in the same direction deceased was walking. A witness, Mrs. Stanley Johnson, 2910 Utica Avenue, was standing in the driveway of her home at the time of the accident. Mrs. Johnson stated several cars had passed, when a dark-colored car, without lights, came along and she saw a body thrown through the air. The car continued on without stopping. The accident occurred almost directly in front of 2910 Utica Avenue - about 165 feet north of West Lake Street. St. Louis Park police were summoned by Randolph Thorne of 2910 Utica Avenue, and Officer Carl Iverson, on duty at the time, responded. Deceased was removed to Minneapolis General Hospital by Olsen Emergency ambulance, being admitted at 7:10 p.m. He expired at 12:55 a.m February 14th.

The body was removed to the Hennepin County Morgue, where an autopsy revealed a massive subdural hemorrhage and terminal hypostatic pneumonia.

While this young man's death was originally considered the result of a "hit-run" motor vehicle accident, on Saturday, February 15th, Erling Mostue, age 56, of 2916 Webster Avenue, St. Louis Park, accompanied by his attorney, Gordon J. Mangan, 4848 Washburn Avenue South, appeared voluntarily before Police Chief Andrew Nelson of St. Louis Park and said he had driven in the vicinity of the accident but that he didn't believe he had hit anyone.

Fragments of a broken headlight lens found at the scene of the accident were turned over to Dr. John B. Dalton, Criminologist, Bureau of Police of St. Paul, who identified the car

Social Security No. 475-24-6733

This case was reported to the Coroner's Office at 4:20 A.M. February 15th by the Sheriff's Office.

The deceased was killed instantly when the car in which she was a passenger plunged down a steep embankment on Highway #169 and Indian Road, Eden Prairie Township and crashed against a cluster of trees. The accident occurred at 3 A.M. when the deceased and William Meyer together with Alton Domras, 23, his wife Barbara, 22, Catherine Sheehan, 20, and Donald Bleicher, 23, were returning from a reunion of the 1942 Belle Plaine High School graduating class at Newport, Minnesota. Mr. Meyer was driving and the deceased was seated beside him. The others were asleep in the back seat.

The car missed a curve and went off the highway on the left side, about 20 feet short of a protecting guard rail, then rolled along the shoulder nearly 200 feet outside the rail. Mr. Meyer, according to Donald Bleichner, one of the passengers, tried to drive back on the highway but was blocked by the guard. The car then struck a dip in the shoulder, veered out of control and plunged 50 feet down a 40 degree bank and crashed into the trees. Mr. Bleichner was the only one able to move and he hailed a passing motorist. The remaining three injured were removed, but the deceased and William Meyer, both instantly killed, rescuers were unable to extricate from the front seat. Doors and other parts of the car were removed to pry the bodies from the wreckage.

The body was removed to the Morgue and later released to the funeral director.

This case was reported to the Coroner's Office by the Police Department at 12:45 P.M. February 20, 1947.

Mrs. Madge Rice, in charge of the Rice Girls' Home, 245 Clifton Avenue, upon learning that Miss Joyce Arlene Lahti, a resident of the home, was ill called in Doctor R. M. Sullivan. When the doctor arrived at 9:00 A.M on February 20th, and made a preliminary examination, he informed Mrs. Rice that the girl was pregnant and was about to deliver. Doctor Sullivan then called an ambulance from Minneapolis General Hospital and left. In the meantime, the baby was born about 10:00 A.M. and according to the girl's statement, was born dead. The physician who accompanied the ambulance pronounced the child dead on arrival. Miss Mahti was taken to Minneapolis General Hospital for treatment and the infant was removed to the Hennepin County Morgue.

Examination revealed a fully developed white male child, weighing 3370 grams, or seven pounds, length from vertex to rump, 14¼ inches and from vertex to heel, 19½ inches. The umbilical cord was 21 inches long. Right lung weighed 41 grams, and the left 32 grams. Heart weighed 25 grams. The placenta weighed 512 grams. The Deputy Coroner removed the lungs of the infant to determine whether or not the child was stillborn. Since both lungs floated in water, it was concluded that the infant was alive when born, however, had become asphyxiated due to lack of proper care.

This death was reported to the Coroner's Office by Minneapolis General Hospital at 2:45 a.m., March 1, 1947.

A fire which apparently originated near the boiler in the basement of Snyder's Drug Store, Eighth Street and Hennepin Avenue, and spread through connecting basements, was discovered by L. C. Krueger, 1501 LaSalle Avenue, proprietor of Lee's Candy Shop, 8 South 8th Street. Krueger was working in his shop at the time. He turned in a box alarm at 1:17 a.m.

Firemen who responded to the alarm groped their way into the smoke-clogged building. Unable to reach the basement, they began to cut holes in the floor and the openings disclosed an inferno in the basement of the drug store.

Deceased, captain of ladder company No. 3, it was stated, was one of the first to arrive on the scene. After an inspection in one of the shops, he fell to his hands and knees on the sidewalk. He apparently had recovered and resumed work, but a moment later he collapsed in the street, overcome by smoke. While being removed to Minneapolis General Hospital he expired in the ambulance at 2:34 a.m.

The body was removed to the Hennepin County Morgue.

Consent for an autopsy was refused by deceased's wife.

According to information received from the Police Department, Patrick J. Cannon, 609-8th Avenue Southeast, Minneapolis, engineer of Soo Line train #109, while passing 28th Avenue and Second Street North, saw a "body" or an "object" on the track before striking same. He proceeded on his way, and his train, consisting of seven cars and the engine, stopped at the Camden station where the agent was notified. Engineer Cannon then proceeded on his run to Winipeg. Dan Webb, an investigator for the Soo Line, arrived at the scene after having been notified by the agent at the Camden station, and found the body of the deceased at 10:20 p.m. (March 1st), lying on the tracks, about 75 feet from the intersection of 28th Avenue North, with his right arm severed nine inches below the shoulder and directly above the elbow. There was a sharp penetrating wound in the right temple. Further investigation revealed a railroad spike protruding three inches alongside of the rail of the westbound main line at the exact position where deceased's head was lying. In the cinders alongside this spike were clots of blood and bits of red woolen material. The deceased's cap was found "open side up" seven inches from the rail, directly opposite his head, and approximately three inches from his severed arm. His leather, sheeplined mitten was found 18 inches north of the body between the rails.

Detectives later questioned Mrs. Elsie Schultz, deceased's wife, who stated that she and her husband had driven to the vicinity of the Soo Line right-of-way, her husband parked the car in front of 2827 Washington Avenue North, left the keys in the car, and told her to wait for him as he was "going to see a friend." He walked to 28th Avenue and disappeared, she said. Further, she waited until 10:10 p.m. and, not being able to operate the car and "being very

REMARKS: Social Security No. 477-20-0329

This death was reported to the Coroner's Office by the Police Department at 7:18 a.m., March 9, 1947.

The deceased's body was found at 6:50 a.m., March 9th in a reclining-sitting position alongside the building of the Grant Battery Company, against the north corner of their storm entry-way, side entrance, at 123 Third Avenue North, by Laurel Batcher, 1824 Fourth Avenue South, and John Ballentine, 2554 Hayes Street Northeast.

The deputy coroner who made the investigation noted, upon examination, that there were no marks of external violence on the deceased's head, face or body. When the body was found it was noted that the deceased's leather jacket was pulled up, with the right collar and lapel over his head, as though in an effort to keep warm.

It was stated the deceased had been drinking with Leonard Stately, 23, and McKinley Kingbird, 24, both of 806 Sixth Avenue South, and Lawrence Lussier, 30, of 1811 Park Avenue. About 2:00 a.m., March 9th, an argument ensued, and Stately, according to the others, slugged the deceased and robbed him, taking his money and a wrist watch. As the deceased was struck, he collapsed to the sidewalk, where he apparently was left lying, unconscious, by his companions.

The body was removed to the Morgue where an autopsy revealed pulmonary edema. While there were no injuries indicated, undoubtedly this man's death resulted from exposure to cold, due to having been slugged and left lying unconscious on the sidewalk.

Police officers Fox and Heinzen arrived at the scene, also detectives Michaelson and Mealey. Detectives C. W. Smith and Rydlund were also assigned to the case.

This case was reported to the Coroner's Office by the Police Department at 11:00 A.M. March 10, 1947.

This child, in the company of a playmate, Dennis Lane, age four of 5229 Bryant Avenue North, walked down to the Mississippi River from their homes nearby, at 3:00 P.M. on March 9th. The two boys walked out onto the ice covered river between 53rd and 54th Avenue North. A third companion, Gerald Anderson, age six, told police and the two others ventured out on the ice toward an open channel about ten feet from shore. Dennis kicked at the ice with his foot and suddenly his foot went through the ice. The Peterson boy tried to pull Dennis toward the shore when the ice gave way and both sank into the water. Gerald Anderson ran to the Peterson home to inform the boy's parents. Meanwhile Joyce Peterson, 18, no relation, heard cries for help and summoned her father, F. A. Peterson who ran from his home and plunged into the icy water. He was unable to reach the pair. Firemen said the deceased went down in about twenty feet of water. There is a strong current at the point and the search was given up for the night. The body was recovered at 11:30 A.M. March 10, 1947.

REMARKS: Social Security No. 494-14-5952

This case was reported to the Coroner's Office by the Minneapolis General Hospital at 9:10 p.m., March 24, 1947.

According to a report received from the Police Department, Carl Rees, proprietor of the Red Feather Cafe, 18 South Fourth Street, stated that between 9:15 and 9:30 the evening of March 13, 1947, the deceased, while in a highly intoxicated condition, fell off a small platform around the dance floor, striking his head against the floor. He was taken by Mike McMahon, the head bartender, and another unknown bartender, to the wash room. While in the wash room Mr. Rees telephoned to Dr. R. F. Werner, 1025 West Broadway, who arrived in a few minutes. Examination revealed some blood in the left ear and a bulging ear drum. Doctor Werner suggested that the deceased be removed to Minneapolis General Hospital for medical treatment. However, the deceased, who was rational at the time, refused, and he was taken up to his room in the Russell Hotel, which adjoins the Red Feather Cafe. It was stated employees of the hotel looked in on the deceased on two or three occasions during the night.

At 10:00 oclock the following morning, Eva Collins, a maid entered the deceased's room to clean it and observed the deceased sitting on the edge of his bed. She immediately left the room. The clothing on the body consisted of a red and white sweat shirt, dark trousers and black, heavy work shoes. Mrs. Nelson stated that the deceased had worn an overcoat when he left his home on December 15th. However, this garment was not on the body when found.

The body was fairly well preserved, and there were no particular marks on the body except a dent in the skin of the scalp, which undoubtedly was caused by the boat which dragged the body up the river.

REMARKS:

This case was reported to the Coroner's Office by the Police Department at 9:45 a.m., March 28, 1947.

About 9:10 a.m., March 28th, Gerald Danborg, age 20, of 800-22d Avenue South, was walking along the west bank of the Mississippi River, in the path closest to the water's edge, when he saw a body about thirty feet from the river bank. The body had caught on the limbs of a dead tree; the base of the tree was on the shore and the branches were out in the water. The police were called by Danborg and the first one on the scene was Officer J. B. Meyers, Car #164, who in turn notifed the homicide squad and the Coroner's Office. Officers Clifton Smith and Johnson responded. While the body was found at East 25th Street, it was decided, after arrival of the Deputy Coroner, to drag the body up the river to the University Flats by boat in order to facilitate removal.

The body was removed to the Hennepin County Morgue and examination revealed the word "Fox" tatooed on the back of the deceased's right hand. This identifying factor corresponded with a report received by the Missing Persons Department December 17, 1946. On the strength of this, as well as the description of the clothing and general description of the man, Detective Schlong of the Missing Persons Department notified Mrs. Peter A. (Ida) Nelson, 1856 East 38th Street, aunt of Reynold A. Erlandson. Mrs. Nelson came to the Morgue and identified the body of her nephew. Later in the day Mrs. Nelson's brother, Alfred Erlandson, 3133-19th Avenue South, also came to the Morgue and identified his son's body.

According to Mrs. Nelson, on Sunday noon, December 15, 1946, the deceased had told his mother that he was going to walk down to Cedar Avenue and Lake Street. The young man left the house and was never seen again nor heard from until his body was found on March 28th. It was

This case was reported to the Coroner's Office by the Police at 1:45 p.m., March 31, 1947.

It was stated that about 11:00 a.m., March 31st a man named Joe Rosik, 107 Nicollet Avenue, jokingly told a friend, John Melinsky, 106 Hennepin Avenue, that "we are going to have to go to a funeral tomorrow. Paul (Mellnik) died yesterday." Rosik later explained that he had seen Paul on Friday (March 28th) and that Paul told himhe (Paul)was going to die. Melinsky, also a friend of Paul's, decided he had better investigate. He went to the living quarters occupied by Paul Mellnik, age 53, and the deceased on the second floor of 701 Fifth Street North. There, about 1:30 p.m., he found the body of the deceased. Melinksy then told two other friends, Gust Belkovich, 101 Nicollet Avenue, and William Kukacz, 321 Marquette Avenue, who went to the scene and then called police.

The body of the deceased was found on a cot in the bedroom. A .45 caliber automatic pistol was found on the kitchen floor with an empty shell case in the chamber. A bullet was found in the wall of the room. A bloody butcher knife, believed used in the slaying, was found in an unlighted kitchen stove. The body was fully clothed, and the man's shirt and mackinaw were buttoned to the throat. The wall north of the body was blood spattered and there was a large pool of blood on the floor on the north side of the cot.

Examination revealed the man's throat had been slashed and there were several other knife wounds on the neck. There were three stab wounds on the chest, also a transverse slash just above the umbilicus which had disemboweled the man,and three loops of the small intestine were protruding. The deceased's undershirt, as well as his shirt and mackinaw bore cuts which were bloody.

Mrs. Ella Lee, 74, who lives on the first floor at 701 Fifth Street North, reported she believed the deceased and several other men had been drinking upstairs in their quarters on Friday night and Saturday (March 28th and 29th). She said she thought she heard a shot about 2:00 a.m. (March 30th), although there is considerable noise in the neighborhood at times, and it might have been the backfiring of a passing automobile.

Police were told the deceased and Mellnik were seen together purchasing a gallon of wine in a lower Nicollet Avenue liquor store Saturday night (March 29th). When this case was being investigated by the deputy coroner and detectives it was noted that an empty gallon wine container was in the place.

Milton Winslow, of the Bureau of Identification, and detective Clifton Smith were at the scene when the deputy coroner arrived.

The body was removed to the Hennepin County Morgue where an autopsy was done March 31st.

This case was reported to the Coroner's Office by Dr. E. McKenzie, Minneapolis General Hospital ambulance physician, at 10:14 p.m., April 8, 1947.

The deceased, a member of an orchestra playing at the Sportsmen's Show at the Minneapolis Municipal Auditorium, was accidentally shot during the evening of April 8th at the finale of a sharp-shooting act staged daily by Lane W. and Frances Johnson, Waupaca, Wisconsin. The act always closed with some rather spectacular shooting done by the Johnsons when Mrs. Johnson entwined her legs around her husband's neck and, leaning back, fired at a balloon target from an upside-down position, shooting between her husband's legs. While Mrs. Johnson fired at one balloon during this part of the act, her husband fired at two other balloons with a revolver in each hand. During this part of the act it was necessary for certain members of the orchestra to leave the bandstand because their seats were in line with the targets and backstop. During the evening mentioned, the first part of the act followed its usual routine, then the deceased, who played the bass violin, Nick Novak, 1511 Fifth Street Northeast, the piano player, and Larry Malmberg, 3821-37th Avenue South, accordian player, left the bandstand and took their usual places near an exhibition booth to watch the act. The Johnsons had punctured the three balloons in their final exhibition of marksmanship for the evening. However, as Mrs. Johnson started to disengage her legs from her husband's neck, she slipped. Johnson lunged to catch her, and the revolver in his left hand was discharged. The bullet struck the deceased in the right chest and passed through his body.

While being taken to Minneapolis General Hospital in Ambulance No. 1 the deceased expired at 10:14 p.m. and the body was then brought directly to the Hennepin County Morgue.

The revolver used was a 38-caliber Remington.

Detectives assigned to the case were Clifton Smith and Rydlund. Officers Mealey and Johnson were at the scene.

An autopsy revealed gun shot wound of right chest, with laceration of pulmonary vessels, and massive hemorrhage. The bullet entrance, on the anterior surface of the right chest, consisted of an 8 mm. hole, with a 2 mm. hemorrhagic area around the entrance 7½ mm. to the right mid-sternal line on a level with the second rib. The exit of the bullet revealed an 8 mm. perforation 7½ cm. to the right midline on a level with the inferior angle of the right scapula. The right pleural cavity contained 3200 cc. of blood. The bullet went through the upper lobe of the right lung and made its exit through the posterior aspect of the lung, severing the pulmonary artery and vein.

This case was reported to the Coroner's Office at 7:55 P.M. April 16, 1947 by the Police Department.

The body of the deceased was found at 7:40 P.M. April 16th by Olai Haude, 4008 31st Avenue South, an employee of the Minneapolis Railway and Power Company. Addresses found in the deceased's pockets were checked and at the Chez Paree Bar it was learned from Mrs. Danico Zaklan, 3210 Minnehaha Avenue, that the deceased had been there between three and four P.M. and she had given him fifty cents for food. She told her then that she would not see him again. Mrs. Zaklan stated that she had given him small amounts of money almost every day with which to buy food. The deceased was nearly blind and it was difficult for him to find suitable work. He had spoken several times of "jumping in the river."

The body was removed to the Morgue and since there were no known relatives to make claim, it was released to the Anatomical Department of the University of Minnesota.

A hearing was conducted by Dr. Russell R. Those present were Mrs. Inga Sears, 911-7th Avenue South, mother of the deceased; Mrs. Mildred Sears, the deceased's wife; and Henry Erickson, father of Mildred Sears.

Mrs. Inga Sears stated her son, the deceased, had never been seriously ill up until the time of his last illness, except for childhood diseases. She said her son had been in the army during World War II, about two and a half years of which time had been spent in the "jungles." Mrs. Mildred Sears stated that a Mr. and Mrs. Ernest Sawyer had previously owned the dry cleaning business situated at 5301 Chicago Avenue. The deceased had been employed by the Sawyers as a presser. Mrs. Sears said her father, Henry Erickson, and the deceased had bought the business from Mr. and Mrs. Sawyer in January, 1947. After taking possession of the business the deceased had instructed Mr. Erickson how to operate the cleaning machine. Mrs. Sears stated her husband had always felt very confident about working with the cleaning machine, and he had remarked to her that if he ever became ill from the carbon tetrachloride fumes he could "shake it off."

Doctor Heim questioned Mr. Erickson as to whether he had ever used a mask when operating the cleaning machine. He replied that he never had done so until after Gale's death, and then he

The Veterans Hospital reported this case to the Coroner's Office at 8:38 a.m., April 18, 1947.

The deceased and his father-in-law, Henry Erickson, 4927 Eighteenth Avenue South, were partners in a dry cleaning concern known as Esquire Dry Cleaners, 5301 Chicago Avenue. In the process of cleaning various garments carbon tetrachloride was used, in fact, it was stated the deceased had undoubtedly been subjected to exposure of this chemical over a period of about ten months. On April 7, 1947 he had been working over vats of clothes saturated with carbon tetrachloride, after which he had become ill. He was taken to the Veterans Hospital April 14th. He was cyanotic. He was also suffering from uremia and anuria.

Death occurred at 8:55 p.m., April 17th.

An autopsy revealed a terminal bronchopneumonia, toxic hepatitis due to carbon tetrachloride poisoning (accumulative), and manifested by anuria, uremia and pulmonary edema, as well as petechial hemorrhages of the brain and pericardium.

During the afternoon of April 25, 1947 G. S. Michaelsen, Acting Director of the Division of Industrial Health, Minnesota Department of Health, in the presence of Dr. Russell R. Heim, Coroner, and Goodwin Joss, Toxicological Chemist, collected atmospheric solvent vapor concentrations in the vicinity of dry cleaning operations at the Esquire Dry Cleaners, 5301 Chicago Avenue, Minneapolis. The results of his findings are contained in a report submitted to the Coroner under date of April 29, 1947.

This case was reported to the Coroner's Office at 3:41 a.m., April 18, 1947 by Doctor E. McKenzie, a Minneapolis General Hospital ambulance physician.

About 6:00 p.m., April 17th, Dr. John L. Stennes had given the deceased, hypodermically, triple X vaccine (pertussis, tetanus and scarlet fever), and at 7:00 p.m. Mrs. Marcussen put the child into her bed in a basket, which was on the floor of the living room. About eleven o'clock when Mrs. Marcussen looked at the baby the latter apparently was asleep. The parents then retired. At 3:00 a.m. the mother went to the bath room and on her way back to bed looked at the baby. At that time the baby was lying face downward, crosswise in her bed, with her head toward a corner of the bed. (The mattress in the child's bed sloped downward at all four corners). Mrs. Marcussen became alarmed because the child apparently was not breathing; she called her husband, who immediately applied artificial respiration, while she telephoned to the Minneapolis General Hospital for assistance. Ambulance No. 1, police and the fire department rescue squad responded. The latter used an inhalator, without success.

Doctor McKenzie, who accompanied the Minneapolis General Hospital ambulance, was of the opinion that this infant's death was due to suffocation, in which the deputy coroner who made the investigation concurred.

An autopsy was done the following day. This revealed a few scattered petechiae over the surface of the lung bilaterally. Microscopic examination of the lungs indicated small scattered areas with serum in the alveoli and a few more macrophages than are usually seen, also some congestion of the capillaries, but no hemorrhages.

Police officers Hanson and Arlandson functioned on this case.

This case was reported to the Coroner's Office by the Police Department at 8:15 A.M. April 24, 1947.

Conrad Bjorkman, residing at the Summit Hotel, 253 Second Avenue South, in room 58, stated that he had remained in his room all during the afternoon of April 23rd, except on two occasions when he had gone out to the Olson Drug Company to purchase whisky. He had spent the entire afternoon drinking, and during that time the deceased, a bed maker at the hotel, entered Bjorkman's room several times for a drink with Bjorkman. About 9:30 p.m. the latter stated he left his room and went to the Christiania Lunch Room, 113 Washington Avenue South, for some food returning about 10:10 p.m. When he opened the door of his room he found the deceased lying on the floor and Bjorkman apparently knew that the man was dead. However, Bjorkman then went ot the Christiania Lunch Room for breakfast, after which he boarded a Bloomington Avenue streetcar to 24th Street, got off and then boarded a car returning downtown about 7:00 A.M. Previous to this, Bjorkman went to bed and awakened at 5:30 A.M. April 24th, at which time the deceased was still lying on the floor. It was then he went to the Chrstiania Lunch Room for breakfast. When Bjorkman arrived downtown on the streetcar, he stopped in a tavern on Washington Avenue between Marquette and Nicollet Avenues and had three of four glasses of beer and then returned to his room. The deceased was still lying on the floor so he went downstairs and informed the clerk that a man was lying on the floor in his room. He professed to have no knowledge as to who the deceased might be. When the Coroner arrived to make his investigation it was noted that rigor mortis was completely developed.

The body was removed to the Morgue. Investigating officers: Berkmoes and Higgins; Shorten and Aby.

REMARKS:

This death was reported to the Coroner's Office by the Sheriff's Office at 4:00 a.m., April 27, 1947.

The deceased's parents had attended a dance at the University sponsored by the Reserve Officers Training Corps the night of April 26th. They had left their infant daughter at home in care of her grandfather, F. J. Warren. Before going to the dance Mr. Beasom had used some Energine to remove some spots from his clothing and had placed the bottle on a table, which was beside the deceased's crib. He had neglected to screw the cap firmly on the bottle.

At 8:30 p.m. Mr. Warren looked at the deceased and she was asleep. He then retired. At 3:30 in the morning he awakened and went into the bedroom to look at the child. He noticed that she was lying face-down in her crib, and that her body was cold. Realizing that the baby was dead he telephoned the Sheriff's Office. The bedding around the deceased's face and head was damp. The child apparently had awakened and grasped the bottle of Energine, directing it toward her face. The loose bottle cap also must have fallen from the bottle, permitting the fluid to spill over the bedding. There were also superficial burns on the baby's chin and mouth due to the cleaning fluid.

The deputy coroner who made the investigation deducted that fumes from the cleaning fluid had been responsible for the deceased's death. This fact was later borne out by the autopsy.

The body was removed to the Hennepin County Morgue.

This case was reported to the Coroner's Office by the Police Department at 9:08 A.M. May 11, 1947.

The deceased's husband, Sam Goldberg, stated that he left his home for work as usual May 10th at 6:30 A.M. and returned at 6:30 P.M. When he returned, the deceased was lying in bed apparently asleep. He tried to awaken her, but could not do so and later in the evening he went to bed in the livingroom. He arose the following morning at 8:20 A.M. and again attempted to awaken the deceased. He then noticed blood on the pillow and sheet. Mr. Goldberg called Anne LeCouteur, telephone operator at the hotel, and asked her to contact a doctor for his wife. She called the Physicians Exchange who called Dr. J. Y. Feinstein. On being told the details of the case, Dr. Feinstein concluded it was a case for the police and therefore notified Captain Mullen.

Mr. J. M. Lowenthal, proprietor of a grocery store at 1925 Lyndale Avenue South, states that the deceased had made some purchases in his store during the afternoon of May 10th at which time she was intoxicated. On leaving the store, he states, she proceeded out from the curbing approximately ten feet when she fell on her face. A car approaching around the corner stopped within a short distance of where the deceased had fallen and the driver got out of the car and tried to help the deceased to her feet. Failing this, he put her in his car and drove her to the side entrance of the Antler Hotel where she lived. The deceased got out of the car, walked about ten feet and again fell to the sidewalk. The driver was assisting her when a pedestrian, Mr. T. Sundermeyer, 520 Forest Avenue, walked by and he and the driver helped the deceased through the entrance of the hotel. The deceased told Mr. Sundermeyer that "she was all right; the trouble was, she was drunk."

Mrs. Gerald Holmberg, who lives in Room 218 Antlers Hotel, states that she met the deceased going up the first flight of stairs and that she was staggering and apparently very intoxicated. Her face was also very dirty. She helped the deceased into her apartment. For a half hour thereafter, Mrs. Holmberg states, she heard the deceased apparently mumbling to herself in her apartment and then all was quiet.

The Deputy Coroner determined that the woman had been dead from eight to ten hours when found. The body was removed to the Morgue and later released to the funeral director.

Later information revealed that when the deceased's husband returned home from work the evening of May 10th he found a burner of the gas stove turned on and not lighted. He shut off the burner. A pet canary was in a cage nearby and was alive, therefore, Mr. Goldberg did not attach too much importance to the incident. As stated previously, the deceased was lying in her bed sleeping in a room situated next to the kitchen.

This case was reported to the Coroner's Office by Dr. D. G. MacMillan at 1:42 P.M. May 11, 1947.

There is a history that the deceased was injured in an automobile accident in August 1946 resulting in the amputation of the upper end of the fourth finger. This disability resulted in the loss of her job as a typist which had caused her to be very depressed. The deceased was under the care of Dr. E. W. Bedford for a nervous condition and he had given her a prescription for forty one-and-a-half grain nembutal tablets. She had taken three tablets before going to bed May 10th and arose and went about her duties as usual the following morning. About 12:15 the deceased went into the bathroom and when she came out, she handed her husband the empty box of Nembutal and told him she had taken all of them. Mr. Gaus did not think his wife was serious because she had threatened suicide several times in the past, but had not mentioned it for some time. She was seated on the davenport talking to her daughter when she suddenly fell backward. Dr. Bedford was called, however he was out of town and Dr. D. G. MacMillan was sent. He pronounced the woman dead on arrival at 1:30 P.M.

About 2:00 P.M. the deceased went out into the yard of his home and walked around, later sitting down on a lawn chair. When at 2:45 P.M., his wife went to call him for dinner, she found the deceased lying face downward on the grass in front of the chair. In 1946 the deceased had been examined by Dr. C. G. Arvidson who told him he should not do any work because of a coronary condition. He had consulted Dr. M. J. Jensen approximately six months ago. Mrs. Lindberg called Dr. Jensen when she found the deceased and he pronounced the man dead on arrival.

This case was reported to the Coroner's Office by the Police at 2:45 p.m., May 15, 1947.

The body of the deceased was found about 2:35 p.m., May 15th, by Henry Marshall, an employee of the Minneapolis Park Board, at the Park Board dump at France and 8th Avenues North, diagonally across from the Animal Rescue League. Marshall stated that a truck just ahead of his had dumped trash, and he noticed some bloody newspapers there and he pulled them open and found the body of the deceased. The driver of the truck that apparently had dumped this body was L. Tripp, 2730 Pleasant Avenue, also employed by the Park Board. Tripp stated he noticed quite a few newspapers in one of the trash cans which he picked up near the Shuffle Board Court in Loring Park. He dumped this can into his truck about 2:00 p.m. and hauled the contents, as well as other refuse gathered in the park, to the dump. The body was wrapped in a Minneapolis Sunday Tribune newspaper dated April 27, 1947.

The body was removed to the Hennepin County Morgue, where examination revealed a fully developed white female infant, with cord and placenta attached. The body was in an advanced stage of decomposition. Weight was 6 pounds 14 ounces; length 20 inches.

A partial autopsy revealed the weight of the thymus to be 8 grams; weight of the right lung was 25 grams, and the left 18 grams. Both lungs were fully expanded and floated in water, indicating the infant was alive when born. There were no marks of violence on the body.

It was felt that death undoubtedly was due to post-natal neglect; in other words, a lack of care at the time of birth.

Detectives Christenson and Hawkinson were at the scene when the Coroner arrived to make his investigation.

On May 14th, the deceased was up and about the house most of the day, however the following day at 11:00 A.M., she complained of severe pains in her left chest and back. At 3:30 P.M. the pain became more severe and she asked for a physician. Dr. M. L. Fredlund was called, however, the woman expired before he arrived, death having occurred at 4:00 P.M. It was stated that a speciman of the deceased's urine had been taken to a doctor two days ago the analysis of which was sugar one plus and albumen two plus.

This case was reported to the Coroner's Office by the Police Department at 4:40 P.M. May 16, 1947.

On May 16th at 4:15 P.M., Mr. Winston Lowrie, living on the second floor at the above address, came home from work and found his wife Donna on the davenport unconscious and his sister-in-law, Betty Sowles, slumped in a chair in the kitchen also unconscious. He detected an odor, but did not know what it was. He called the Police Department and the women were taken to Minneapolis General Hospital for treatment. Police Officers Peterson and Bloomquist finding no heating stove of any kind burning on the second floor, went to the downstairs apartment. All doors were locked so they forced the front door and found the deceased dead in a chair in the kitchen. A gas heater in the kitchen was burning, also one burner on the kitchen stove was lighted under a tea kettle which had burned dry. An oil burning stove in the dining room was also going. The Minneapolis Gas-Light Company was called and inspection revealed that the vent leading from the hot water heater to the chimney was badly plugged, thus carbon monoxide poisoning had caused Mrs. Dahl's death and had also seeped upstairs to the Lowrie apartment causing Mrs. Lowrie and her sister to become ill. The deceased had been dead approximately six hours when found.

This case was reported to the Coroner's Office by the Police Department at 8:50 P.M. May 16, 1947.

At 8:20 P.M. May 16th, the deceased's wife, Audrey, came home and finding the door closed and seemingly locked, she entered through a bedroom window. She found the deceased in a kneeling position against the front door. Thinking the deceased was intoxicated, she called her brother-in-law, Harry Cassidy, who lives upstairs at the above address. He in turn called the Police Department. The deceased and his wife had been staying at the home of his mother at 4212 Chicago Avenue because of his mother's illness. However, the deceased had returned to his home May 15th to do some work and Mrs. Ersin had stayed with the mother. She talked with the deceased on the telephone at 9:30 P.M. May 15th and the following morning called him at 6:30 and also at 7:00 A.M., but received no reply. Since the deceased had been in the habit of drinking heavily, she assumed that he might be sleeping off the effects of the liquor when he did not answer the phone.

The deceased was found on his knees with his head against the door, rigor fully developed and livores marked. A bloody vomitus was noted around the deceased's mouth. It was assumed that the deceased had been seated on a davenport and got up to go to the bedroom when he collapsed. Death was determined to have occurred at 10:00 P.M. May 15, 1947.

The body was removed to the Morgue and later released to the funeral director. Investigating officers - Christenson and Hawkinson.

This case was reported to the Coroner's Office by the Police at 10:20 a.m., May 19, 1947.

Earl Enright, age 42, of 1008 Emerson Avenue North, a truck driver for the City of Minneapolis Engineering Department, was hauling sand in connection with the paving project of an alley situated between Stevens and First Avenues South, near 38th Street, during the morning of May 19th. As Enright entered the alley he noticed two small children there, so he got out of his truck and took the children out of the alley and put them on the sidewalk and told them to stay there. He then entered his truck and drove into the alley, and was backing the vehicle, spreading sand, when he was conscious of a bump. He got out of the truck to investigate and found that the right rear wheel of his truck had passed over the head of one of the children. This child apparently had followed Enright's truck into the alley, and as the truck was backing he was knocked down and run over. Death occurred at 10:05 a.m.

The deceased's body was removed to the Hennepin County Morgue.

Another truck driver, Louis Hough of 5342-40th Avenue South, also working on the paving job, had previously found it necessary to stop his truck and warn the children to keep out of the alley.

Police officers Breen and Erickson arrived at the scene of the accident.

Mr. Reed notified Mrs. F. H. Brinkman, manager of the hotel and they forced the door open. The body of the deceased was found at 7:00 P.M. and an ambulance from Minneapolis General Hospital was summoned. The ambulance physician pronounced the man dead on arrival.

The body was removed to the Morgue and since there were no known relatives to make claim, it was released to the Anatomical Department of the University of Minnesota.

About 6:30 that morning the deceased regained consciousness and told Miss Swartout, the nurse, that he had taken one hundred 1/2 grain Phenobarbital tablets. A short time later he lapsed into a stupor again, and about ten o'clock the Minneapolis General Hospital was again called. Doctor Freeman accompanied Ambulance No. 1; however, the deceased had expired before his arrival, death having occurred at 10:45 a.m.

The body was removed to the Morgue where an autopsy was done and specimens of the organs were turned over to the toxicological chemist for analyses.

According to this man's history, as ascertained from Minneapolis General Hospital records, he had fallen on October 2, 1944 and sustained a fracture of the right femur. He was taken to Minneapolis General Hospital for surgical repair of the fracture. On January 5, 1946 he fell down a flight of stairs and again fractured the right femur. Subsequent fractures occurred to the thigh mentioned and in each instance he was hospitalized at Minneapolis General Hospital for this condition as well as for opiate addiction. The last period of hospitalization was from August 4, 1946 until March 17, 1947, and during this time another patient pushed the deceased, causing him to fall to the floor, when he again sustained another fracture of the right femur.

REMARKS: Social Security No. 474-05-7020

This case was reported to the Coroner's Office at 11:00 a.m., May 27, 1947 by Miss Swartout a nurse at the Mission Farm, Medicine Lake.

The deceased was admitted to the Mission Farm from Minneapolis General Hospital March 17, 1947 with a diagnosis of opiate addiction, fracture of the right femur and chronic osteomyelitis. There was a draining wound on the right thigh which required a small dressing. He was able to get around on crutches, with some assistance. He was receiving Digitalis daily because of a heart condition. It was understood he was to return to the fracture clinic at the hospital in two weeks for a follow up. His last visit to the out-patient department of the hospital was May 23d.

On the night of May 26th the deceased retired about nine o'clock along with the rest of the men at the farm. Later he was seen to be staggering around, and at 11:00 p.m. an orderly saw him in the toilet writing a note on an envelope, to be sent to his sister, Mrs. Elsa Safro, 3025-11th Avenue South. About two o'clock in the morning it was noted the deceased was in a stupor and Minneapolis General Hospital was called. Ambulance No. 1 responded and arrived at 2:45 a.m. Doctor Henry, who accompanied the ambulance, gave the deceased an intravenous injection, but refused to remove the man to the hospital, since, knowing his history of drug addition, he assumed he had taken some drug. Deputy sheriffs Williams and Rosnow arrived at this time and took possession of the note the deceased had written to his sister. On the face of the envelope appeared the following: "From A. K. Scherf. Included in my belongings is my toilet case; also a pkg. containing notebooks and photographs. I want my sister to get these. She is Mrs. Elsa Safro, 3025-11th Ave. So. Phone Du. 3129." The writing was excellent, and apparently was written when the deceased's mind was clear. On the other hand, badly written and practically illegible were remarks about not being able to write good, that he (the deceased) was sorry for everything, also something about being distorted, Els (intended for Elsa, undoubtedly); I am passing; have no regrets, etc. This latter message appeared on the back of the envelope and apparently had been written while the deceased was under the influence of drugs.

BABY GIRL LINDGREN - CONTINUED -

that she had given birth to this baby about 5:15 a.m., June 1, 1947, in the bath room at 2408 Nicollet Avenue, and after the birth she had torn the umbilical cord apart, then wrapped the baby in a white blanket. She stated she did not remember much after that for several hours. She further stated she then cleaned up the mess in the bath room, and paid no more attention to the infant until approximately eleven o'clock the following morning, when she unwrapped it from the blankets. At that time the child was lying on its back and its hands and feet moved slightly, but as she had to be at work at noon, she again wrapped the baby in the blanket and left it on the bed. When she returned home from work shortly before 6:00 p.m. she again looked at the baby and realized it was dead. She then wrapped the body in brown paper shopping bags and put it in the garbage can in the rear of the rooming house, 2408 Nicollet Avenue. Miss Lindgren, who is 26 years of age, stated that Harold W. Riley is the father of the child, that she is not married, and the reason for the act that resulted in the death of her baby is the fact that she is not married to Riley.

It was stated that a sister of the deceased, Margaret Lindgren, a nurse at Minneapolis General Hospital, was with Annette for a short period on Sunday, June 1st, in the latter's room and a baby was heard crying. Margaret asked where the baby was and Annette was supposed to have replied that "apparently some one had a baby in the next room." Later it developed that the cries emanated from Annette's baby that was wrapped in the blanket.

The baby's body was brought to the Hennepin County Morgue, where an autopsy was done on June 3d.

Annette Lindgren is employed as a stenographer at Sears, Roebuck & Co. Harold W. Riley is a bus driver for the Twin City Rapid Transit Company.

REMARKS: Social Security No.

This case was reported to the Coroner's Office by the Police at 7:40 p.m., June 2, 1947.

It was stated that Mrs. Hart C. Brennan, 2408 Nicollet Avenue, and Mrs. C. S. Palzer, of the same address, saw Annette Lindgren, who lives on the second floor of the building, come around the north side of the house, apparently from the front of the building, about 6:00 p.m., June 2d, and proceed to the garbage can at the rear of the building. Miss Lindgren was carrying a bundle which she deposited in the garbage can. There was some discussion between Mrs. Brennan and Mrs. Palzer, also Mrs. Eleanor Johnson, Apartment 1, second floor, of this same dwelling, as to the incident, and the latter decided to investigate. She went out to the garbage can and pulled out the bundle, examined the contents, and discovered the body of a dead baby girl. She notified Mrs. Palzer of the contents, and Mr. Palzer then called the police.

The first officer to arrive at the scene was Sergeant Steve Dickinson and he discovered that the body was still warm in part. There was a Manila paper grocery sack with the body, a corner of which was stuffed in the infant's mouth. Also wrapped in this shopping bag were numerous bloody rags and towels, all blood soaked, and the after-birth. Detectives Dufrene and Schaaf, as well as C. W. Smith and Don W. Johnson arrived a short time later.

Miss Annette Lindgren was apprehended at the home of her boy friend, Harold W. Riley, age 49, 1416 Laurel Avenue, second floor, where she was preparing the evening meal, by detectives Dufrene and Schaaf. Both were taken to police headquarters and Riley was lodged in the city jail, marked "held." He admitted being the father of the deceased infant. Annette Lindgren was then taken to the Minneapolis General Hospital where she was examined and then confined in Station H.

At the hospital Miss Lindgren made a statement to Detective C. W. Smith to the effect

This case was reported to the Coroner's Office by the Police Department at 4:45 A.M. June 5, 1947.

There is a history that this child had been a feeding problem since birth. The parents had changed physicians recently and had taken the child to a doctor a week ago who diagnosed her condition as subacute rhinitis which continued and evidently produced an upper respiratory condition. At 4:00 A.M. June 5, the child started to cry and her mother got up to prepare her four o'clock feeding. At that time the baby was lying on her back and was covered with three children's blankets. Preparing the formula required about one-half hour; when the mother reentered the bedroom she found the baby completely covered by the three blankets. The father called the police and Ambulance #1 and the Fire Department responded. An inhalator was used for a half hour without result. Dr. G. W. Callerstrom pronounced the child dead on arrival. Permission for an autopsy was refused by the baby's parents.

REMARKS: Social Security No.

This case was reported to the Coroner's Office by the Police Department at 6:10 P.M. June 6, 1947.

The deceased had been reported missing on March 16, 1947. The body was found June 6, 1947 in the Mississippi River at Seventh Avenue South by Andrew Mulen, 624 21st Avenue South. Police investigation revealed that on March 16th, the deceased had been working on track #12 of the Northern Pacific Railroad and was seen several times between 9:00 and 11:00 P.M. that night by John Grimm, 1057 25th Ave. SE., a mail handler for the railroad. Mr. Grimm stated that the deceased was intoxicated to the extent that he had difficulty performing his duties. The last time he saw the deceased, he was walking over toward track #12 which is the track closest to the Mississippi River. This track comes out from the Great Northern Depot and runs parallel to the Mississippi River; approximately one block from the end of the Great Northern train shed, the river and track make a right turn as it comes out to the main line. This track is about 15 feet from the river and this distance tapers to a distance not to exceed three feet from the river. This is built on a stone wall and anyone stepping off from the track bed would drop directly into the river, as the retaining wall is directly straight up and down. Police Officers were told at the Northern Pacific Round House that the deceased had been employed on this job for about three days and had not worked there before; his entire time with the company had been spent working at the North Town Junction. The concensus of police opinion is that the deceased, being in unfamiliar territory, either fell off the wall, or walking along the graded side of the track, the loose rock caused him to slip.

The body was removed to the Morgue and later released to the funeral director.

The deceased, a graduate of the nursing school of Fairview Hospital, had been acquiring additional credits attending St. Olaf's College, Northfield, and was to graduate from that institution on June 16, 1947. While attending school she had also been doing nursing service at the college hospital. Apparently she was greatly overworked and had experienced difficulty in sleeping nights, therefore the deceased was in thehabit of taking Nembutal capsules to induce sleep. The deceased's roommate entered the room they shared during the morning of June 7th and noticed that the deceased appeared to be ill. She was admitted to the college hospital at noon that day. On June 8th, her condition became worse and a Doctor Nielsen, who had attended her in the hospital, had her removed to Fairview Hospital in Minneapolis by ambulance. She was admitted to the latter hospital in an unconscious condition at 12:30 P.M. June 8th. She expired at 3:33 A.M. June 11th. While in Fairview Hospital the deceased was under the care of Dr. R. C. Logefeil.

Autopsy findings revealed nothing except a mild bronchopneumonia in the left lung and edema of the right lung. Specimens of the deceased's organs were given to the toxicological chemist for analyses.

REMARKS: — Social Security No. 475-22-4429

This case was reported to the Coroner's Office at 3:00 a.m., June 15, 1947, by the Police.

Early Sunday morning, June 15th, the deceased, while driving south on 34th Avenue South, between 52d and 53d Streets, swerved his car, a 1937 Plymouth sedan, bearing Minnesota license No. 437-698, into an approaching 34th-North Bryant street car. The street car, No. 1408, operated by Henry Schlechter, age 30, of 1730 Marshall Street, St. Paul, was traveling north at the time of the accident, which occurred about 2:45 a.m.

According to the motorman, he first noticed the deceased's automobile when it was about 200 feet distant from his street car. At that time the vehicle was traveling on the proper side of the street. However, when the automobile was about fifty feet from the street car, Schlechter stated, it suddenly swerved to the left and headed directly toward the street car. The deceased apparently made no effort to stop his car nor turn it back toward the right side of the street. The automobile crashed into the left, front part of the street car. The street car traveled about fifty feet from the point of impact until it came to a stop. There were no passengers in the street car at the time of the accident, nor in the deceased's car.

Deceased's body was removed from his car by Harold Almquist of 4052-24th Avenue South, whose car was parked in front of 5250-34th Avenue South at the time of the accident, assisted by Schlechter. The two laid the deceased on the boulevard.

Minneapolis General Hospital ambulance No. 1 arrived at the scene, and the physician who accompanied the ambulance pronounced the man dead.

Police officers Butler, Sorenson, Erickson and Breen arrived at the scene.

This case was reported to the Coroner's Office at 1:20 a.m., June 16, 1947 by the police.

Deceased and her husband had gone to Elk River on Saturday, June 14th, to attend a family get-together that evening in honor of deceased's father's birthday. The following day was spent in the father's home. The deceased and her husband left Elk River via bus that evening, and arrived in Minneapolis at 8:45 p.m. Before retiring they had some sardine sandwiches, crackers, and a bottle of beer each, although it was stated the deceased did not drink all of her beer. According to Mr. Boeck, his wife awakened him about 12:45 a.m. complaining that she felt ill, and exclaimed, "My heart, Daddy, my heart!" Mr. Boeck stated that he was perspiring and did not feel very well himself. The deceased arose and went to the apartment of Mr. and Mrs. Floyd B. Lacky, on the same floor. She requested Mrs. Lacky to come to her apartment, stating that she and her husband were ill. Mrs. Lacky stated that as she opened the door she noticed the deceased was sitting on the railing of the stairwell.

As the deceased turned to walk toward her apartment she apparently fainted and fell against the railing of the stairwell. The railing gave way and the deceased plunged down the flight of stairs to the first floor. (According to the police report, the hand rail was six feet in length and 29 inches in height and was held at each end to the wall by one nail, and one nail on the bottom at mid-center, which was only partially driven).

Minneapolis General Hospital ambulance No. 1 arrived at the scene and Doctor Magee who accompanied the ambulance pronounced the woman dead. Death occurred at 1:05 a.m., June 16th.

When the deputy coroner arrived he found the body of the deceased lying at the foot of the stairs, wedged head-first in the doorway, face down.

This case was reported to the Coroner's Office by Minneapolis General Hospital at 3:40 a.m., June 23, 1947.

At 1:15 a.m., Saturday, June 21, 1947, police officers Harvey Evenson and Joseph Pudlick were in a squad car on Emerson Avenue North and Broadway, on the north side of the intersection, when they saw an automobile, traveling east on Broadway, go through the intersection. At the far corner a street car was discharging passengers. Suddenly the officers observed that the right front of the automobile had knocked down three pedestrians in rapid succession. The vehicle failed to stop, but continued on Broadway. A block away, at Dupont Avenue, the car turned right. A block further, at Eighteenth Avenue, the police car which had given chase, forced the car to the curb.

The three pedestrians included the deceased, Mrs. Irma Lahr, age 54, 3122 Emerson Avenue North, and Flur Ploof, age 55, of 3701 Fremont Avenue North. The deceased was removed to the Minneapolis General Hospital, being admitted at 1:45 a.m. Mrs. Lahr was also taken to the same hospital, while Mr. Ploof was removed to St. Barnabas Hospital

The car, a 1929 Chevrolet sedan, bearing Minnesota license No. 300-330, was driven by Robert C. Banker, age 28, of 3861 Major Avenue, Robbinsdale, Minnesota.

The deceased expired of his injuries at 3:20 a.m., June 23d. An autopsy was done on the same day at 10:00 a.m.

This case was reported to the Coroner's Office by Duane Dailey, assistant chief of the Excelsior Fire Department.

The deceased, her husband and son and daughter-in-law, Mr. and Mrs. Joe Marks of Excelsior were fishing from a boat near the center of Christmas Lake when apparently a leak developed and the craft filled with water until it was barely afloat. The four clung to the sides of the submerged boat and shouted for help. Their cries were heard by Mrs. Lawrence A. Carlson, 3845 Tenth Avenue So., who was staying with her husband and daughter, Joyce, at the lake home of Mr. and Mrs. J. Harry Leef while they were away. Gilbert Leef, 19 and Joyce Carlson ran down 103 steps to the lake, launched a boat and rowed out to the sinking boat. They pulled Mr. and Mrs. Lynch onto their boat while another rescue boat manned by Mr. and Mrs. W. T. Bruce rescued Mr. and Mrs. Marks. All were conscious except the deceased whom the Excelsior fire department tried unsuccessfully to revive. The accident occurred at 2:25 P.M.

REMARKS: Social Security No. 468-01-0469

This case was reported to the Coroner's Office at 6:35 p.m., June 26, 1947 by the Sheriff's Office.

Deceased, accompanied by his daughter, Doris, age 28, on Thursday, June 26th, was driving west on Highway No. 7. There was a heavy downpour of rain at the time and visibility was poor. The two were en route to the Peterson cottage at Lake Minnewashta. The deceased's car was a 1941 Buick sedan, bearing Minnesota license No. 390-519. A 1941 Chevrolet two-door car, being Minnesota license No. 379-949, driven by Ernest Held, 68, of 11-18th Street South, Hopkins, was approaching from the opposite direction, and apparently crashed into the Peterson vehicle. The accident occurred at 6:00 p.m., 3½ miles west of Hopkins, at the intersection of the Tonkawood Road and the highway.

When deputy sheriffs Nordberg and Schultz arrived they found the Peterson car pointed toward the west, at an angle, near the Tonkawood Road. Held's car was on the opposite side of the highway parallel with the road, headed east. Debris, consisting of dirt and broken glass was on the north side of the center line of the highway; also the license plate and parts of a broken headlight belonging to Held's car were found on the wrong side of the road. Deceased's daughter stated that Held's car appeared to swerve in front of them suddenly as though making a left-hand turn. Mr. Held stated it was raining so hard he could not see until the Peterson car suddenly loomed in his path.

Mrs. J. R. Hunsaker, 4100 Excelsior Boulevard, a graduate nurse and a friend of the Peterson family, later contacted the deputy coroner at his home and gave him the following information: On the evening of June 26th Mrs. Hunsaker was also driving west on Highway No. 7, in fact, was in the second car behind the Peterson automobile, and while she did not actually witness the accident, she arrived a few moments later. She immediately went to the Peterson car to give what assistance she

could. She stated the deceased expired about five minutes after she arrived. She mentioned that he was not cyanotic nor was his breathing stertorous. His hands and face were very pale. Mrs. Hunsaker sat in the car with the deceased's daughter until arrival of the deputy sheriffs. She then drove out to the Peterson home at Lake Minnewashta and remained with Mrs. Peterson until relatives arrived and informed her of the accident.

Mrs. Hunsaker verified the fact that the deceased was driving in the right lane of the highway, and that the Held car at the time of the collision was also over on the same side of the road as the deceased's car. Doris Peterson told Mrs. Hunsaker that the Held car had crashed into them.

The impact of the collision caused Doris Peterson's head to strike the windshield with such force that the glass was shattered. She sustained a severe head injury, and it was stated, the loss of an eye. She was removed to Swedish Hospital by Smith ambulance.

The deceased's body was removed to the Hennepin County Morgue. The only apparent injury was a fracturered right patella and epistaxis. However, an autopsy done the following morning revealed death to have been caused by a ruptured heart due to a crushed chest.

Social Security No. 477-16-0730

This case was reported to the Coroner's Office at 11:35 a.m., June 27, 1947 by Eitel Hospital.

During the early part of the afternoon of June 26th, it was stated, the deceased, employed at the garage of Cooperative Services, Inc., 811 Fifth Avenue South, was changing a tire when the rim flew off and struck him on the left side of the face and head. The deceased was taken to Eitel Hospital and was admitted at 2:00 p.m. He was placed under the care of Doctor Frank R. Hirshfield. Upon admittance he was oriented, his pupils were equal and reacted to light and accommodation; he apparently was not in shock. There was some bleeding from the nose. Examination revealed a laceration on the left cheek, which was sutured. There was a fracture of the superior maxilla, as well as a fracture of the maxillary antrum. He was put into bed.

The following morning the deceased was taken to the operating room where an anesthetic of pentothal sodium was given. The cheek wound was opened and a small hooked probe was inserted in an effort to raise the broken nasal bones. Following this procedure there was a rush of blood, probably from the nasal sinus, into the throat and bronchi. Doctor V. J. Schwartz, who was in an adjoining room was called and he immediately inserted a bronchoscope and removed the blood. The deceased expired immediately at 11:25 a.m.

The body was removed to the Hennepin County Morgue where an autopsy was done that afternoon at three o'clock. No pathology was indicated in the chest or abdomen. The heart was normal. There was a tear in the left lateral sinus and a compression of the left occipital lobe, as well as a linear fracture at the base of the skull over the left antrum. Death was attributed to an intra-cranial hemorrhage. A contributing factor was the linear fracture at the base of the skull over the left antrum.

This case was reported to the Coroner's Office at 6:44 p.m., July 5, 1947 by Northwestern Hospital.

On Friday evening, July 4, 1947 a south bound Bloomington to 54th street car, No. 1312, was traveling on Bloomington Avenue, between 31st and 32d Streets, when it struck a bicycle going west on 32d Street. The accident occurred at 7:52 p.m. The street car was operated by Richard L. Johnston, age 24, 407 University Avenue Southeast. The street car was fairly well filled with passengers, most of whom were en route to Powderhorn Park to attend the fireworks celebration. One of the passengers who had gotten on the car at Lake Street, a man, gave the motorman a five dollar bill as the car was approaching 31st Street. The car was proceeding on toward 32d Street while the motorman was making change for the bill. He later stated there was no traffic approaching from the opposite direction and none passed his car. When Johnston glanced ahead he saw a bicycle with two small boys on it. He applied the brakes, but struck the vehicle on the rear wheel on the west rail of the south bound tracks, knocking the boys to the pavement.

Robert Lenox, age 9, 3128-18th Avenue South, sustained bruises, and was removed to his home by police.

The deceased, who had sustained a head injury, was removed by Smith ambulance to Northwestern Hospital and was admitted at 8:35 p.m. He was placed under the care of Doctors A. A. Zierold and Rolla Stewart. He expired at 6:27 p.m., July 5th. The body was removed to the Hennepin County Morgue, where an autopsy was done July 6th.

Social Security No. 066-12-7136

This case was reported to the Coroner's Office by Minneapolis General Hospital at 7:27 P.M. July 5, 1947.

The deceased was admitted to Minneapolis General Hospital July 1, 1947 at 11:34 A.M. He was unconscious when admitted and a diagnosis was made of a head injury. The Police Report states that they found the deceased lying at the base of a statue in Pioneer Park, apparently asleep. He was lying on his back with his coat wadded up under his head for a pillow. The deceased appeared to be ill, so Police Officer Shorten called the ambulance and he was removed to Minneapolis General Hospital. X-Ray examination revealed a fractured skull. There were no marks of violence nor were the deceased's clothes disarranged. Death occurred at 7:05 P.M. July 5, 1947. Permission for an autopsy was refused by Frank Mahon of Newark New Jersey, a brother of the deceased. The Police Department theorized that the deceased had been sleeping at the base of the statue at Pioneer Square and in his sleep rolled off to the cement apron surrounding the statue, a distance of about four feet.

The body was removed to the Morgue and later released to the funeral director.

This case was reported to the Coroner's Office by the Police Department at 7:52 P.M. July 5, 1947.

The deceased had gone to the Lake Harriet Beach near Morgan Avenue and Lake Harriet Boulevard about 6:00 P.M. July 5th. With him were Robert Page, 15, 4539 Pillsbury Avenue, Wendell Westblade, 13, 4538 Pillsbury Avenue and several other boys. The Page boy was giving the boys rides on a one-man army life raft purchased at a war surplus goods sale. He asked the deceased if he was a good swimmer and when he said he was, the two boarded the raft and sailed about ten feet beyond the safety ropes at the beach. On the way in, the raft suddenly tipped over, pitching the boys into the water. When Robert Page saw the deceased floundering, he went to his assistance trying to get a "chin-carry" then an arm hold on the deceased, but the boy struggled furiously, Robert stated. He then summoned the aid of an older swimmer at the beach. After both had dived futilely for Paul, the man drove to another beach and brough back a lifeguard. On the third dive, the lifeguard recovered Paul's body. Firemen worked forty-five minutes in an attempt to revive him. The body was recovered at 7:00 P.M.

The body was removed to the Morgue and later released to the funeral director.

This case was reported to the Coroner's Office by Eitel Hospital at 6:05 a.m., July 16, 1947.

The deceased had been a patient in Parkview Hospital, where it was necessary to apply leg and arm restraints. On June 29th, the deceased in some manner was able to extricate herself from the restraints and, in attempting to procure some object from the bedside table, misjudged the distance from the bed to the table and fell out of the bed and onto the floor. Injuries included contusions of both eyes as well as an abrasion on one of her knees.

The following day - July 1st, the deceased was transferred to Eitel Hospital, where she was admitted at 3:00 p.m. On admission her pulse was "thready," however, she was conscious. Undoubtedly, due to her advanced age the deceased's condition became weaker, and she finally expired at 5:30 a.m., July 16th.

This case was reported to the Coroner's Office by the Police at 2:58 p.m., July 17, 1947.

The deceased had gone to the First National Bank in Minneapolis during the afternoon of July 17th with her brother, Mark L. Rowell, 425 Dewey Street, St. Paul. They were on the banking floor when the deceased appeared to feel faint. She asked an elevator operator for a drink of water and then collapsed. One of the bank's guards, John Glynn, and others assisted the deceased to an ante room, and someone called the bank's nurse, Helen Baggett, as well as an ambulance from Minneapolis General Hospital. However, the woman was pronounced dead on arrival by the physician who accompanied the ambulance.

Mr. Rowell informed the Coroner that his sister had not been attended by a physician for several years. The personal possessions of the deceased, including $15.00, were released to Mr. Rowell by the Coroner.

The deceased had been a diabetic for several years. Death was ascribed to cardiac decompensation; a contributory factor undoubtedly was heat exhaustion. The body was removed to the Hennepin County Morgue.

Police officers - Moberg and Christiansen.

While at the University of Minnesota Doctor Ackerman had had some dental work done by Dr. H.A. Garmers of the School of Dentistry. Therefore, a comparison of the dental record on file in the Coroner's Office for an unidentified woman known as Unknown Mary Roe No. 3 with the dental chart in possession of Dr. H. A. Garmers indicated that undoubtedly this unknown woman was in reality Doctor Elizabeth M. Ackerman.

Doctor Russell R. Heim, Coroner of Hennepin County, on October 8, 1947 requested permission from the Court to disinter the body of the unidentified woman referred to throughout this record so that same could be examined by himself and Dr. H. A. Garmers for the purpose of ascertaining the identify of the woman. A Court Order was issued the same date by William A. Anderson, Judge of District Court authorizing the disinterment. The body was exhumed the date mentioned (10-8-47) at Potter's Field, Hopkins and Doctor Garmers, upon examination of the woman's teeth and checking them with the dental chart and x-rays pertaining to the teeth of Dr. Elizabeth M. Ackerman, substantiated the fact that the unidentified woman known as Unknown Mary Roe No. 3 is Dr. Elizabeth M. Ackerman.

The Coroner's Office on October 9th received telegraphic authorization from Thomas C. Ackerman, father of Dr. Elizabeth M. Ackerman, releasing her remains to the Davies Mortuary of Minneapolis.

Townes of the death of her son. Mrs.Townes then arranged with a Washington funeral director to take charge of the burial of her son; that funeral director in turn contacted the Woodard Funeral Home in Minneapolis and instructed them to embalm the body and ship same to Washington.

The following day (July 29th) the Police called the Morgue and stated that they were of the opinion that Ishmeal Townes, who had been released from the Workhouse on July 25, 1947, was not dead, for they had reason to believe he had been involved in a car prowl between 4:30 and 5:00 p.m., July 28th. In the prowled car was found a razor in an envelope that was blood-stained and bore the name and address of Townes. Therefore, the finger prints of the dead man who was thought to be Ishmeal Townes were immediately taken to the Bureau of Identification, where it was established that the man thought to be Ishmeal Townes was actually Charles Johnson, also known as "Kid" Harris, whose last known address was Seville Hotel, 246½ Fourth Avenue South.

The body of Charles Johnson (the deceased) was taken to the Anatomical Department at the University, since there were no known relatives to whom it could be released for burial.

The luggage that was picked up at the Union City Mission through the claim check on the deceased's body, and actually belonging to Ishmeal townes, was turned over to the Police and is now in their Property Room.

Detectives assigned to this case, besides Messrs. O'Rourke and Uglem, were Neuman and Johnson.

This case was reported to the Coroner's Office at 10:12 a.m., July 28, 1947, by the Police Department.

About 8:15 a.m., July 28th, the deceased, a colored man, was seen lying between tracks 6 and 7 in the Chicago, Great Western Railroad yards, just west of 7th Avenue northeast by Virgil Dygert, an employee of the B. F. Nelson Manufacturing Company, 401 N. E. Main Street. Dygert assumed at the time that the man was just sleeping there. However, he was noticed again at 9:30 a.m. by Roman Heriges of Route 10, Minneapolis, who is employed as a yard clerk by the Chicago, Great Western Railroad. Heriges notified the Police.

An ambulance was summoned from the Minneapolis General Hospital, also Squad #124 was sent to investigate. Doctor Harry Shragg, the ambulance physician, pronounced the man dead.

The deputy coroner found upon the person of this dead man a slip of paper bearing the name of E. Dewberry, 741 Indiana Avenue, Toledo, Ohio, also a Union City Mission baggage check bearing number 6945 for June 5, 1947. The deputy coroner, accompanied by detectives O'Rourke and Uglem went to the Union City Mission, 12 North Second Street, and found that check No. 6945 covered two parcels, one being a black leather suitcase, the other a duffle bag. Both pieces of luggage had been sent by express from Haynes, North Dakota to Bert Lewis, Minneapolis, Minnesota. The luggage was taken by the deputy coroner to the Hennepin County Morgue.

Upon examining the contents of the luggage several letters were found in the suitcase addressed to an Ishmeal Townes, and these apparently were from his mother. The envelopes bore the following return address: Mrs. Arsula Townes, 1121-10th Street N. W., Washington, D.C. The Coroner's Office, believing the dead man to be Ishmeal Townes, promptly advised Mrs. Arsula

The body of the deceased was found by Joe Grif of the Standard Hotel who stated that he walked over to Fifth Avenue SE and the River to pick catnip for his cat. As he was walking along the edge of the woods, he noticed what appeared to be a man in a kneeling position about 15 feet back in the woods in a small hollow. He went closer, but could not determine whether it was a dummy or a man and checked no further. After lunch, however, at 1 P.M. he walked back and investigated more closely and found that what he had seen was a human body. He then went to the Court House and told Officers Olson and Bartosh about the body and they returned with him to investigate.

The body was in a kneeling position, both knees resting on the ground. A piece of sash cord was tied around the deceased's neck, the other end twisted around the limb of a tree. All efforts to establish identification of this man were futile. Therefore, arrangements had been completed for burial in Potter's Field, Hopkins on August 8th, However, on that date a telegram was received by the Bureau of Identification, Washington, which identified this man as William Bamber, also known as William Bombiur.

This case was reported to the Coroner's Office at 12:35 p.m., August 3, 1947 by Doctor Baxter A. Smith, Jr., who stated the deceased had succumbed from injuries sustained when he was struck by an automobile on July 23, 1947.

The deputy coroner later learned that this accident had occurred on Lyndale Avenue North and West Broadway. The driver of the car involved had taken the deceased to the office of Doctor Myron Lysne, 700 West Broadway, for first aid treatment. The man was then returned to his home and was given medical care for a week. Finally his condition took a serious turn and he was taken to St. Barnabas Hospital on July 30th and placed under the care of Doctor Baxter A. Smith, Jr.

Injuries to the scrotum had been sustained and finally a gangrenous condition developed. Penicillin and Antitoxin were administered, and finally it became necessary to incise the abdominal wall to permit escape of gas that had formed. Twenty-three incisions were made for the purpose mentioned. The deceased expired at 12:20 p.m., August 3d.

The body was removed to the Hennepin County Morgue, where an autopsy revealed gangrene of the scrotum and lower abdomen. The right lower lung showed the presence of pneumonia and the left upper an atelectasis.

In checking with the Police Department it was found that they had no record of this accident. However, subsequent investigation by that department revealed the following:

On Wednesday, July 23, 1947, at 11:20 a.m. the deceased was walking across the street, from north to south, in the crosswalk,at Lyndale Avenue North and West Broadway, when he was struck by

This case was reported to the Coroner's Office by Minneapolis General Hospital at 12:06 A.M. August 12, 1947.

Ward Mitchell, alias Tex, 1830 E. Franklin Avenuestated that the deceased and Jack Thomas, both of whom are employed at the Milwaukee Roundhouse, were in the Casa Loma Bar, 1830 E. Franklin Avenue where some trouble between the two ensued. The deceased was seated on the table when Thomas (who lives at 609 16th Avenue So.) hit him in the chest with his fist. At that time Lafayette received a telephone call from an unidentified woman and he told Mr. Mitchell that he was going out to call for her, but he was afraid to go outside because Thomas was outside. The latter then came in and stood at the bar; the deceased then ran outside and down the street to his car which was parked in front of 1844 E. Franklin. Thomas ran after the deceased, and up to the car where he was seated behind the wheel, put his gun in the right front window and fired a shot at the deceased. The deceased then got out of the car on the left side. According to the police report, the deceased then fired one shot at Jack Thomas and then requested someone to call an ambulance because he had been hit.

A short time later a call was received at the Police Department requesting an ambulance be sent to 609 16th Avenue South. When the ambulance arrivedit was found that a man by the name of Jack Thomas had a gun shot wound in the left arm. He was treated and removed to City Jail. The deceased was removed to Minneapolis General Hospital, where he was admitted at 11:25 P.M. August 11th, and expired shortly thereafter at 11:50 P.M. The body was removed to the Morgue and later released to the funeral director.

This case was reported to the Coroner's Office by the Police Department at 8:52 A.M. August 13, 1947.

There is a history that the deceased had experienced respiratory difficulty for eight months previous to admission to Minneapolis General Hospital. His voice became increasingly hoarse and he coughed a great deal. He had been under the care of a private physician without obtaining any relief.

The deceased was admitted to Minneapolis General Hospital at 11:15 A.M. on July 3, 1947 with a working diagnosis of a laryngeal obstruction. A biopsy revealed carcinoma of the larynx. A tracheotomy was done July 3, 1947 and on July 14th a total laryngectomy was done. The deceased was discharged from the hospital in an improved condition at noon on August 7, 1947. The tracheotomy tube that was supposed to have been worn by the deceased was found lying on his chest, apparently having become disengaged from his throat, when in an intoxicated condition he fell backward on a wall or ledge on which he had been sitting. Without this tube undoubtedly mucus collected in the deceased's throat, resulting in suffocation. The body of the deceased was found at 8:45 A.M. by Squad Car No. 1, in a partial reclining position on the curb in the alley between Washington and Second Avenue So. On admission to the hospital, the deceased gave his address as 124½ Washington So., however on leaving he went to 425½ Washington Avenue So.

The body was removed to the Morgue and later released to the funeral director.

Since Swedish Hospital failed to report this case to the Coroner's Office, the Coroner called the hospital the morning of August 15, 1947 and asked for details concerning the death of Edith Amy Moore, which occurred the previous day.

It was stated that Mrs. Charles E. Moore, 2800 Fifth Avenue South, was across the street from her home on Thursday morning, August 14th. Her small daughter (the deceased) was on the opposite side of the street. Suddenly the child ran into the street, apparently with the intention of joining her mother, when she was struck by an automobile traveling north on Fifth Avenue South. Automobiles were parked on both sides of the street, and Bertelsen stated he did not see the deceased until he had passed a parked car, then he heard a "thump" and stopped. The accident happened at 9:45 a.m.

Mr. Bertelsen drove the deceased to Swedish Hospital, where she was admitted to the Emergency Room about 10:30 a.m. Dr. Elmer F. Lundquist, who was in the hospital, was summoned to care for the deceased. X-rays of the skull, lower pelvis and thighs were negative, however, a marked cardiac bubble was revealed. There was a fracture of the ninth rib on the left side. There was marked dilatation of the stomach. A tube was inserted and the stomach became deflated. Marked cyanosis was indicated. The deceased was unconscious when admitted and remained so until the time of her death, which occurred the same day, at 12:20 p.m.

This case was reported to the Coroner's Office by the Police at 6:45 p.m., August 17, 1947.

The deceased had been arrested by Officers Meehan and Kane at Second and Nicollet at 1:35 a.m., August 16th, and was lodged in the City Jail on a drunkenness charge. Otto H. Papenfus, age 48, a transient, whose home address is 639 Lynn Street, Fostoria, Ohio, had also been picked up for drunkenness and was placed in the same cellblock (B) with the deceased.

Papenfus stated that the deceased did not get up for breakfast the morning of August 17th, and since the latter did not appear to be well, Papenfus brought some coffee to him and succeeded in pouring some coffee down his throat, a little at a time. The deceased continued to lie in the spot all day without moving very much. After supper that night Papenfus noticed a decided pallor in the face of the deceased, and went over to him. When he was unable to detect the man's pulse he called the jailor, who examined the deceased and then called a physician from the Minneapolis General Hospital. The latter pronounced the man dead at 6:30 p.m.

The body was removed to the Hennepin County Morgue and, after the prescribed period of 36 hours had elapsed, since there were no known relatives who could arrange for burial of this man, his body was sent to the Anatomical Department.

This case was reported to the Coroner's Office by the Police at 4:05 p.m., August 18, 1947.

At 1:40 p.m., August 8th, Russell Bomsta, 3332-16th Avenue South, was driving west on the Lake Street bridge and saw a man climb over the railing on the north side of the bridge, hang by his hands for a few moments and then drop into the river. Bomsta immediately stopped his car and looked over the railing of the bridge and saw where the man had fallen into the river and, as he failed to come up again, Bomsta went under the bridge to the western abutment and dove into the river several times trying to locate the man. However, he failed to locate him.

The man had left a green plaid sport shirt hanging on the rail of the bridge, which contained part of a package of cigarets, two books of matches, a brown leather billfold, a bus ticket from Owatonna to St. Paul of the Jefferson Transportation Company, also a bus ticket on the Missouri-Pacific from Pine Bluff, Arkansas to Little Rock, Arkansas, as well as various identification papers. The billfold also contained a note reading as follows: "I want you to wire my sister. I jump in the river, I hope you feel good about this and the way you talk about me this morning. Man works in the Veterans Administration - he knows her address. (Signed) Howell O. Daniels."

The body was removed to the Hennepin County Morgue. A sister of the deceased, Mrs. R. S. Woodruff, 510 South Schiller Street, Little Rock, Arkansas, was contacted by the Coroner's Office, and she made the necessary burial arrangements.

CLARE RUBIE BERTHA DOOLITTLE - CONTINUED -

Mrs. Elwell stated that she sleeps in a front bedroom upstairs and did not personally hear any argument. Mrs. Elwell's daughter, Arden, age 19, stated she returned home at midnight and heard the Doolittles quarreling downstairs, and that just before she retired she looked at her watch and it was 1:00 a.m. Mr. Elwell stated he heard the Doolittles quarreling just after Arden had retired, and that this continued for a short time and then all was quiet. Both Arden and her father were under the impression from the way Doolittle was talking that he was intoxicated.

Mr. Doolittle, it was stated, maintained that he and his wife had a drink of wine at 10:30 p.m. Monday (August 25th), that she went to bed and he fell asleep in a chair in the living room, remaining there for the night. He claimed he awoke at six o'clock the following morning and went into the bedroom to get his work clothes. His wife was sleeping and he didn't disturb her, he said.

The Doolittles had been married in Nashwa, Iowa in November, 1946.

The body of the deceased was removed to the Hennepin County Morgue where an autopsy was done at 2:30 p.m., August 26th.

Police officers to arrive at the scene were Sgt. Warhow and Officer Newham of Squad car 124. Detectives Mealey and Michaelson were assigned to the case, also Smith and Rydlund.

This case was referred to the Coroner's Office by the Police at 10:34 a.m., August 26, 1947.

When the deputy coroner arrived he found the deceased lying on her back in bed. Rigor mortis was fully developed, as well as livores of the dependent parts, and the body was cold. There was a laceration 5/8 inch long in the outer edge of the left eyebrow. This laceration had sharp edges. A small abrasion was present on the left side of the nose. There were two linear abrasions on the left side of the face, 1½ inches and 2 inches long, respectively. These were about 1/2 inch wide. There were multiple diffuse abrasions over the neck and clavicles. There was an abrasion extending over and below the right clavicle 1½ inches long and 1/2 inch wide. Diffuse bruising 1 x 2½ inches was noted over the left clavicle. The other side of the bed did not appear to have been slept in. The deceased had a damp washcloth in her left hand, and a powder puff in her right hand. The interior of the home did not appear to be in disorder. A gallon jug of wine, partly empty, was on the floor of the living room beside a chair.

It was stated the deceased's body was first discovered about 10:10 a.m., August 26th, by her son, Allan, age 12, when a telephone call came for the deceased regarding her employment as a house cleaner. Allan went to awaken his mother, and being unable to do so, went next door to 910-24th Avenue Northeast and called Mrs. Eunice Pearson. However, the latter, being in delicate health, was afraid to approach the body, so she called Mrs. Winifred Elwell, who lives upstairs at 908-24th Avenue Northeast, and Mrs. Elwell in turn called the police.

The police found no indication that there had been a struggle anywhere on the premises, and the deceased's son, Allan, and the daughter, Ardeth, age 17, stated they had not heard any argument during the night. Both went on to say, however, that they are very sound sleepers.

This case was reported to the Coroner's Office by Dr. J. P. Spano at 1:15 P.M. August 28, 1947.

On August 25, 1947 the deceased was mowing his lawn and while doing so ran the mower against a tree. The impact caused the handle of the mower to strike him across the lower abdomen, over the symphysis, bilaterally. The deceased was conscious of severe abdominal pain. Dr Edward A. Zaworski was called and examination revealed a right inguinal hernia. The doctor, believing that surgery might be indicated, called in a surgeon that same night, Dr. J. J. Kaplan. The latter reduced the hernia by pushing it back into place under the abdominal wall. The deceased was given morphine and then catheterized, however the urine revealed no blood. Dr. Kaplan did not feel that it was necessary to operate upon the man. The abdominal pains persisted. Dr. Zaworski continued in attendance and saw the deceased as late as during the afternoon of August 27th.

At 5:30 A.M. August 28th, Dr. J. P. Spano was called and he had the man removed to St. Barnabas Hospital. Time of admittance was 6:25 A.M. Dr. Spano examined the man five minutes later and noted symptoms of an intestinal obstruction. A nasal tube was inserted, which afforded the deceased some relief. He expired at 9:45 A.M. August 28th.

The body was removed to the Morgue where an autopsy was done, revealing death to have been caused from general peritonitis following intestinal perforation.

This case was reported to the Coroner's office by the Police Department at 10:33 A.M. August 29, 1947.

The deceased, in the company of Mrs. Gertrude Sanders was in a tavern at 34th Avenue South and Fifty-fourth Street on August 28th. About 1:00 A.M. the following morning, they were joined by Reubin W. Paulson, 5532 35th Avenue South, and Robert Selmer, 5133 Nokomis Avenue. The deceased and Mrs. Sanders had a bag filled with bottled beer and they suggested a swim at Lake Nokomis. The four walked about nine blocks to an area on the lake known as "The Point", one hundred yards south of Fifty-third Street. They all went for a swim and after a time Mr. Paulson and Mr. Selmer went to shore and drank some beer. They heard splashing and laughing in the darkness and suddenly there was silence. Paulson said there was no cry for assistance. He fixed the time at approximately 2:30A.M.

The two on the beach waited about ten minutes thinking the deceased and Mrs. Sanders might have gone to another beach. They then waded into the lake in search of them. Paulson dived at the place where he had last heard the couple and struck an object in the water. He dived again, but was unable to get the body to the surface. Paulson began floundering in the water and Selmer dragged him to shore. They then notified the police. The body was recovered at 10:20 A.M. August 29th. and removed to the Hennepin County Morgue, later being released to the funeral director.

The body of Mrs. Gertrude Sanders was recovered at 12:45 P.M. August 29th, and likewise removed to the Hennepin County Morgue.

This case was reported to the Coroner's Office by the Police Department at 10:05 A.M. August 30, 1947.

The deceased had last been seen alive by his wife at 8:45 A.M. August 29th. He left the house shortly thereafter and she assumed that he had gone to his brother-in-law's. When the latter telephoned later in the day, Mrs. Gardner found that her husband had not been there, so she thought he had gone to work at the Radisson Hotel where he is employed as a bartender. When he had not arrived home the following morning, she became alarmed and asked her daughter, Charyll age 15, to go to the garage to see if the car was still there. The garage doors were closed and as the girl entered, she saw the deceased's feet protruding out the opened left front door of the car. The body was lying on the right side, left foot was resting on the running board; rigor was completely developed. It was the Deputy Coroner's opinion that the man had been dead at least twenty-four hours. The body was found at 9:30 A.M. August 30th.

Mrs. Gardner stated that the deceased had suffered a paralytic stroke in 1943 and since that time he had not been in good health.

The body was removed to the Hennepin County Morgue and later released to the funeral director.

This case was reported to the Coroner's Office by the Sheriff at 11:16 AM September 2, 1947.

At 10:05 AM, September 2nd, a woman telephoned the Bayer residence and asked that the deceased be called to the phone. Mr. Bayer went to the Hyde cabin and informed the deceased of the call. The deceased responded in a "mumbling" sort of voice, and then walked to the Bayer home and talked over the phone for about five minutes. Mr. and Mrs. Bayer were both in the kitchen and did not hear any part of the deceased's conversation. He returned to his cabin and five minutes later, at 10:15 A.M., Mr. and Mrs. Charles Yost, who live in the rear part of the cabin heard a shot. Mr. Yost reported the incident immediately to Mr. Bayer. The latter entered the Hyde cabin and found the deceased's body lying on the bath room floor with a towel wrapped around his head. Beside the body was a .32 caliber Colt revolver. There was a gun shot wound in the deceased's right temple.

It was customary for the deceased to leave the place each morning about seven o'clock. However, on the day of his death the deceased apparently remained home purposely to carry out his plans. He had made his bed very neatly, then evidently had been lying on the bed when he was called to the telephone. The Hydes and their two children, age 5 and 8 years, have been living in one of the Bayer's Grove cabins for about three months, and in the meanwhile making an effort to buy a home. Mrs. Hyde had returned to New York with the children about three weeks previous to the time of the deceased's death.

The body was removed to the Morgue and later released to the funeral director.

REMARKS: Social Security No. 470-12-3301

This case was reported to the Coroner's Office by Police at 7:43 a.m., September 9, 1947.

The Emil Peterson Co., general contractors, of 408 Selby Avenue, St. Paul, had been called to do some repair work on the wooden vats at the M. A. Gedney Co., Lowry Avenue North and the River. The deceased, one of the carpenters engaged in this work, the morning of September 9th was sawing lumber into the desired lengths. He was operating an electrically powered handsaw, when he suddenly cried out and collapsed to the floor. W. G. Novak, 875 Armstrong Avenue Northeast, and Iver Johnson, 388 Iglehart Avenue, St. Paul, fellow-workers were present at the time. An ambulance was summoned from Minneapolis General Hospital and Doctor Donald Peterson who accompanied the ambulance pronounced the man dead on arrival. Death occurred at 7:10 a.m.

When the Coroner arrived to make his investigation he noted the deceased's body was damp with perspiration. The floor was constructed with 10 inch wood planks and there was a puddle of water on the floor where the deceased had been standing while sawing the lumber.

The deceased's body was removed to the Hennepin County Morgue, where an autopsy was done September 10, 1947.

S. Martin Streed, Chief Electrical Inspector of the Building Inspector's Department of the City of Minneapolis, on September 9, 1947 examined the power saw which had been used by the deceased at the time of his death and found it to be faulty in the electrical circuit, thereby grounding the frame.

Police officers who arrived at the scene were Melchesdick, Woodruff and Risberg.

REMARKS: Social Security No. 572-24-7729

This case was reported to the Coroner's Office by the Police Department at 10:28 A.M. September 19, 1947.

Mrs. Mildred DeGroot, 1915 Aldrich Avenue South, a sister of the deceased, states that she came to her sister's apartment around 10:00 A.M. September 19th. She knocked on the door several times, but no one answered. Hearing "gurgling sounds" emanating from the apartment, Mrs. DeGroot became alarmed and used her key to enter the apartment. She found the deceased lying across the bed clad in red and white striped pajamas; her head was facing the wall. There was a large pool of blood on the bed and a bullet wound in the deceased's left temple. The deceased's husband, Charles Thompson, was lying on the floor, a bullet wound in his right temple and a .22 caliber single shot rifle lying on the floor. Mrs. DeGroot immediately telephoned her husband and he advised her to notify the Police Department, which she did. Mrs. Thompson was pronounced dead on the arrival of the Deputy Coroner. However, Mr. Thompson, who was unconscious, was removed to Minneapolis General Hospital where he was admitted at 10:31 A.M. September 19th. He expired at 10:40 A.M. that day.

Mrs. Ella Binnett, who lives downstairs at 2001 Portland Avenue, states that she saw Mr. Thompson come home in a cab shortly after 9 A.M. September 19th. Shortly thereafter she heard scuffling in the Thompson apartment, but did not hear any shots, so did not investigate. The Thompsons had been married since June 17, 1947, however there had been some domestic trouble and Mrs. Thompson had started suit for divorce.

The bodies were removed to the Hennepin County Morgue, later being released to the funeral director. Post Mortem examination on the body of Mrs. Thompson revealed a fracture of the left forearm, laceration of the scalp over the right ear and a fractured skull.

This case was reported to the Coroner's Office by Minneapolis General Hospital at 7:00 A.M. September 26, 1947.

Joyce Bland, the mother of this baby, had gone downstairs to the bathroom early in the morning on September 26th. While sitting on the toilet, she gave birth to a full-term male child. This was followed by hemorrhage and general distress. One of the tenants in the building, Alphonse Eisenschenk, hearing Joyce's call for help, went up to the next floor and called her parents, Mr. and Mrs. Harrison Lawver, with whom she lived. Mr. Lawver, finding the bathroom door locked, climbed into the bathroom through the transom. This was about 4:30 A.M. Minneapolis General Hospital was called and emergency ambulance number one responded. Dr. Donald Gumpreckt, who accompanied the ambulance, found the baby, still alive, in the toilet bowl. Joyce and her baby were removed to Minneapolis General Hospital, being admitted at 5:37 A.M. The baby expired at 5:59 A.M. The body was removed to the Hennepin County Morgue and later released to the Anatomical Department of the University of Minnesota, since Mrs. Lawver stated they could not bury the child.

In discussing the case with Mrs. Lawver, the Deputy Coroner learned that Joyce had at no time experienced labor pains, in fact a desire to stool had prompted her going to the bathroom. Mrs. Lawver also informed Dr. Bockman over the telephone in the Coroner's Office that one Ray Barr, of the Marine Recruiting Office in the Post Office, was the father of this infant.

It was stated Joyce Bland is separated from her husband. She has had another child previously, which is living.

JOHN R. McGUINESS - Continued -

According to police records, on September 27, 1947 the deceased was driving his cab in the vicinity of 15th Avenue and Fourth Street South when the vehicle struck or brushed one Joe Donnelly of 1412 Fifth Street South. The deceased stopped his cab and an argument ensued between the two men, with the result that deceased was struck by Donnelly. Shortly after this altercation police officers Gustason and Russell of squad car No. 132 arrived upon the scene and arrested Donnelly. He appeared in Court the morning of September 27 and pled guilty to disorderly conduct charges and was fined fifteen dollars and released. However, after the deceased's death Joe Donnelly was later apprehended by police and held in the City Jail. He was subsequently released under bail.

An autopsy performed at the Morgue revealed a massive subdural hemorrhage and hemorrhage into the pons, also edema of the lungs.

On November 28, 1947 the facts pertaining to this case were presented to the Grand Jury and, since an indictment was not returned against Joe Donnelly, the death of the deceased would be regarded as accidental.

This case was reported to the Coroner's Office by a Dr. Wagner of Swedish Hospital at 4:00 A.M. September 29, 1947.

At 4:30 P.M. July 13, 1947 the deceased was riding in a car driven by Magne Dyste, age 44, of 3741 Harriet Avenue when they collided with a car driven by Louis J. Adis, age 47 of 422 Melrose St., Chicago, Illinois. The collision occurred at Cedar Avenue and East 38th Street. The Dyste car was a 1941 Nash Sedan bearing Minnesota license #90-446. The Adis car was a 1947 Oldsmobile Sedan bearing Illinois license #180-422. Police Officers stated that Mr. Adis proceeded through a semaphore which was changing from "Go" to "Stop". The deceased was thrown from the car by the impact. On July 19, 1947 the deceased was removed to Swedish Hospital, where he was placed under the care of Dr. Emil W. Johnson. Dr. Johnson stated that for twenty-four hours preceding the deceased's death, a fibrillation of the heart was indicated. Death occurred at 3:55 A.M. September 29, 1947.

On October 1, 1947 an autopsy was done which revealed the following: thrombosis of the right descending coronary; old scar in left ventricle 1 x 1½", almost paper thin and dead white; very marked scoliosis for years; atherosclerosis of the thoracic aorta. There was no fracture of the right scapula, however there was a healed fracture of the right radius, middle one-third. There was a severe bed sore, necrotic. The findings of the pathologist indicated the deceased's death was due to natural causes. On the other hand, obviously the shock that resulted from having been hurled from the automobile in which he was riding, as related above, surely must have been a contributing factor in this man's death.

The deceased, a paralytic, had been in the Franklin Hospital for about two years. He had been under the care of Dr. Kenneth A. March of Cambridge, Minnesota, who last saw the deceased September 26, 1947. However, in view of the fact that Dr. March is away from Cambridge on a fishing trip and the body is to be moved from Minneapolis to Cokato this afternoon, it became necessary for the Coroner's office to sign the Death Certificate. The deceased had sustained a complete left-sided hemiplegia and was removed to the Franklin Hospital a year and ten months ago. His health continued to fail and he expired at 12:18 A.M. September 29th.

This case was reported to the Coroner's Office by Minneapolis General Hospital at 2:08 A.M. October 3, 1947.

The deceased had returned to her home from a shopping trip at 4:30 P.M. October 3rd and noticed that the house smelled strongly of gas. Her husband arrived home shortly thereafter and went to the basement and opened windows to air it out. He had just returned to the upstairs of the house when an explosion occurred hurling him through a side window. The explosion ignited the deceased's clothing and she fled through the house and out the front door with her clothing ablaze. An unidentified passerby pulled her to the ground and smothered the flames. The deceased was removed to Minneapolis General Hospital, being admitted at 5:06 P.M. October 2nd. Examination revealed third degree burns over seventy-five percent of the body and she expired at 1:30 A.M. October 3rd.

The body was removed to the Hennepin County Morgue and later released to the funeral director.

Mr. DeLay was also removed to Minneapolis General Hospital for treatment of burns and injuries. Their five month old daughter, Patricia, excaped unharmed as she slept in her crib. Another daughter, Gail, age three, was sitting on the front lawm watching employees of the Minneapolis Gas Light Co. trying to locate a gas leak under the street and also was uninjured. It was stated that a recently laid gas main about eight feet above a newly laid sewer main, had broken when the earth used to fill the sewer ditch settled. Gas evidently entered the house through the pipe connecting the residence to the sewer main.

This case was reported to the Coroner's Office by Police Department at 12:10 P.M. October 3, 1947.

The deceased's wife stated that she retired at 10:30 P.M. October 2, 1947 at which time the deceased told her he was going downtown. He had done this often previously, and arriving home late would sometimes sleep in the car in the garage. At 8:00 A.M. the following morning, Mrs. Gisslen sent her daughter, Dorothy, to the garage to see if the deceased was there. She reported to her mother that the deceased was seated in the front seat of the car sleeping and did not disturb him. She had assumed this, however, since the garage doors were locked and she did not try to enter. An hour later Mrs. Gisslen went to investigate and looking in the window saw the deceased seated in the car and believed him to be sleeping. At 11:15 A.M. she again went out and looked in the garage window and became alarmed when she noticed that the deceased was still in the same position. She called her brother, Ira Corneiller, 3258 Polk St. NE., who came over and broke the garage window, allowing some of the gas fumes to expel before he went in. He found the ignition key on and the gas tank empty and assumed that the man was dead. Minneapolis General Hospital was called and Dr. F. S. Stiegler, the physician accompanying the ambulance which was sent to the scene, pronounced the man dead on arrival.

The body was removed to the Hennepin County Morgue where an autopsy was performed which revealed death to be due to carbon monoxide poisoning.

An analysis by the toxicological-chemist revealed no alcohol present at the time of the deceased's death.

Police officer Greeley arrived at the scene, followed by Detectives Cliff Bailey and Rebholtz.

The deceased had been confined to bed in her home since June 6, 1947 when she was released from Asbury Hospital. Her condition was diagnosed as generalized carcinomalosis. At 12:50 A.M. October 6th, she was awakened by the deceased's groans. On investigating she found the deceased's body cold and called Dr. Norman Johnson. He pronounced the woman dead on arrival.

On pulling back the sheets of the deceased's bed, it was found that the bed was saturated with blood and both ankles showed multiple abrasions as well as the inner side of the right thigh. A razor strap and a razor blade were found under the deceased's pillow. The deceased had never threatened suicide, however Miss Ledeng stated that at one time after reading an account of a suicide in the paper she remarked, "That is an easy way out."

This case was reported to the Coroner's Office by Dr. L. A. Whitesell at 6:35 P.M. October 7, 1947.

The body of the deceased was found by her husband, J. Bennett Syverson, when he returned home from work at 6:05 P.M. October 7th. The body was in the attic suspended from a two-by-four rafter by means of a three-eighths inch hemp rope. Mr. Syverson cut the body down and called Dr. Whitesell.

A note left by the deceased stated: "Ben, I've failed you as a wife and failed you as the mother of your children. You deserve a good wife. You are too fine a person to be stuck with me. You'll find me in the attic. I know that now I go to my eternal damnation that I deserve for that failure. Joy is at Mrs. Little's. In the end this will be much better for you and the children. Signed - Edith." A postcript read: "This is all my failure. Everyone will know that. I am not worthy of you."

This case was reported to the Coroner's Office by the Sheriff's Office at 7:21 P.M. October 13, 1947.

The deceased was one of a group of eleven children, sixth grade pupils of the Rockford School, in rural Hennepin, who were having a picnic and weiner roast near the Crow River under the supervision of Mrs. Dorothy Rassler, a teacher at the school. The children had been warned to stay away from the river, however the deceased and Luverne Pasenow, age 11, started to walk across the stream on rocks at a shallow spot. Luverne dropped her shoe and in reaching for it, fell into the water and was taken by the current into a deep pool. The deceased, trying to help her, also fell in and was carried into deep water by the current. Their screams were heard by Mrs. Rassler and by John Schaertl, principal of the school, whose home is on a bank of the river.

Hurrying to the river, Schaertl leaped in fully clad and swam to Luverne who had floated face down about 20 yards from where she fell in. He saw no trace of the deceased. He brought Luverne to shore and administered artificial respiration until she resumed breathing and then went to search for the deceased but failed to find her. The body was recovered at 5:30 P.M. in 20 feet of water by Omar Lemmage of the Rockford Volunteer Fire Department. Efforts to revive her were futile and after several hours she was pronounced dead by Dr. P. J. Guilfoyle of Delano.

This case was reported to the Coroner's Office at 9:55 a.m., October 16, 1947 by S. C. Mattestad, assistant manager of the Radisson Hotel.

The deceased had registered at the Radisson Hotel at 5:20 p.m., October 13. At 7:15 p.m. October 15 she called the desk and asked that Doctor F. M. Shouse be called for her as she was ill. Doctor Shouse, an osteopath, had called on the deceased previously that day about 10:00 and found nothing particularly wrong with her other than the fact she had blood pressure, which she already knew about. Doctor Shouse prescribed Milk of Magnesia, which induced good elimination.

Mr. and Mrs. J. R. McKnight, friends of the deceased, were staying at the Curtis Hotel while Mr. McKnight was attending to some business. The McKnights, also from Pierre, South Dakota, phoned the deceased the evening of October 15 and suggested that she have dinner with them. The deceased, however, declined the invitation, stating she was not feeling well. The following morning Mrs. McKnight phoned the Radisson to inquire about the deceased's condition; being unable to obtain response from the deceased's room, the McKnight's decided to call upon the deceased. They inquired of Emma Johnson, 3641-35th Avenue South, a maid in the hall outside room 948 about the deceased, and asked that she enter the room to investigate. Miss Johnson said she was not permitted to unlock the door of a guest's room. However, she turned the knob of the door and found the door to be unlocked. The deceased's body was found slumped on the floor between the wall, the bed and a stool. Her head was bent backward and was resting on the edge of the bed. The window was open about twenty inches. The woman was nude, however, she apparently had vomited on her nightgown and had probably just removed it when she was seized with a heart attack, had gone to the window for air, when she collapsed. The body was found at 9:40 a.m.

The body was removed to the Hennepin County Morgue and Mr. J. R. McKnight took charge of the funeral arrangements.

Dr. Englund was called by the deceased's parents to attend the deceased at 4:00 P.M. October 20th in her home in Mound. It was Dr. Englund's opinion that the child was dead when he arrived, however in the event the child could be resuscitated, Dr. Englund took her to the hospital in Watertown, Minnesota (Carver County) so as to have oxygen administered. All efforts in this respect were futile. Dr. Englund was of the opinion that food had been aspirated by the infant, thus causing suffocation or asphyxiation. Particles of food were in evidence about her mouth.

The funeral director removed the body from Carver County to Mound, Minnesota where the body was viewed by the Deputy Coroner.

This case was reported to the Coroner's Office by the Sheriff's office at 11:55 A.M. October 25, 1947.

The deceased, his sister Margaret Ann, age 6, and a playmate, John Holmquist, age 10, of 407 Monroe Avenue, Edina were at play digging in the sand below a sand hill at the end of a dead-end street at Jefferson and Monroe Streets in Edina. Leveling work had been started to cut the street through at that point. Tons of sand, apparently loosened by rain the night before, gave way and buried the deceased and his sister. The Holmquist boy escaped the avalanch. The latter ran for help, however, and neighbors hurried to the scene with shovels. Firemen joined them in digging about six feet down in an attempt to rescue the children. The bodies were recovered at 10:25 A.M. after they had been buried approximately fifteen minutes. A rescue squad administered inhalator treatment and Dr. J. A. Blake, a Hopkins physician gave shots of adrenalin, but the children failed to respond.

Officer D. A. Nelson of the Edina Police Department and Iver Johnson of the Hopkins Police Department were at the scene when the Deputy Coroner arrived to make his investigation.

This case was reported to the Coroner's Office by the Police Department at 9:22 A.M. October 26, 1947.

The deceased had written a letter to his estranged wife stating that unless she returned to him he would commit suicide, specifically setting the time at 9 A.M. October 26, 1947. Mrs. Moey reported this to Captain Mullen of the Police Department who had the deceased investigated at his place of employment, the Abbott Produce Company. Mr. Abbott, his employer, stated on October 25th that he had known the deceased for some time, that he was a good worker and a moderate drinker. He was of the opinion that he would not carry out his threat. On October 26th, Detectives Sperry and Rydlund went to the deceased's home, however the deceased did not answer the door at 8:45 A.M. when they called. The curtains in the door moved slightly, so they believed someone was home. On checking with Mrs. Ed O'Conner in apartment one, she stated she had heard the deceased walking around upstairs. They again tried to gain entrance to the deceased's apartment, but received no response.

At 9:05 A.M. Mrs. O'Connor heard what sounded like a shot and notified the police. The deceased had shot himself in the left chest using a double barreled shotgun. A garbled suicide note, apparently written while the deceased was in an intoxicated condition, was left for the deceased's wife. Lying on the bed was an empty fifth of whiskey and on the cupboard was a half pint of liquor, also.

The body was removed to the Hennepin County Morgue and later released to the funeral director.

REMARKS: Social Security No. 173-03-3898

This case was reported to the Coroner's Office by the Police Department at 7:54 A.M. October 28, 1947.

The deceased arrived for work at the Moore Business Forms Company, 628 Stinson St. N.E. at 7:30 A.M. October 28th. He was standing on the first floor of the building in front of the self-operated freight elevator; the elevator was in the basement and the deceased pulled the starter rope to bring it to the first floor. When the elevator reached the first floor where the deceased was waiting, he held the door open with his left hand and reached inside the elevator with his right hand for the lever control in order to stop it. Apparently, however, he failed to reach the lever control and the elevator continued on without stopping. The deceased then attempted to board the elevator while it was in motion by boosting himself up on the floor; his arms had caught the floor of the lift, but he had trouble swinging his knees onto the floor. As the elevator reached the junction with the second floor, the deceased was caught and crushed. Leon Muraski, 2315 Second St. N.E., an employe on the first floor, witnessed the accident. Firemen were summoned when Mr. Muraski and other employes were unable to free the trapped man. They tried vainly for more than an hourto force an opening between the elevator, which was stuck, and the adjoining door. The man was pronounced dead when his body was finally released.

The body was removed to the Hennepin County Morgue and later released to the funeral director.

Mr. Rolf Nelson, who lives upstairs at 3245 16th Avenue South, states that at 4:45 P.M. October 30th, he went downstairs to the deceased's apartment to investigate. He had not heard her moving about since 10:30 A.M. and became apprehensive. He found the deceased lying in bed with her head toward the foot of the bed and a blanket thrown over her head. A light red frothy substance was noted on the deceased's mouth, some of which had been ejected down the right side of her face. There was also evidence that the deceased had had a bowel movement before she reached the bed; this indicated no gross evidence of blood, however.

A bottle was found in a kitchen cupboard containing Bichloride of Mercury, 3 drams and Isopropyl alcohol, 6 ounces. This prescription had been filled on August 4, 1947 at the Keller Drug Store, Lake and Bloomington. The deceased had signed the poison record and stated she wanted this prescription for sewer bugs.

The body was removed to the Hennepin County Morgue and later released to the funeral director. When found at 4:45 P.M. rigor was fully developed in the deceased's body. Death was determined to have occurred at approximately 11:00 AM October 30th.

This case was reported to the Coroner's Office at 12:36 p.m., November 5, 1947 by Miss Margaret Ryan, in charge of the admitting office of Northwestern Hospital.

It was stated the deceased on the morning of November 3, 1947 was working on the gas tank on the wing of a plane in a hangar at Wold-Chamberlain Field. He was standing on a scaffold which was about twenty feet distant from the floor of the hangar. In some manner he fell from the scaffold to the cement floor and sustained head injuries. He was removed to Northwestern Hospital by ambulance, being admitted at 9:15 a.m. He was placed under the care of Doctor Lawrence M. Larson, who called in Doctor Leonard A. Titrud. The latter decided a craniotomy was essential.

The deceased, therefore, was taken into the operating room, where it was noted a marked hematoma covered nearly all of the surface of the man's head. Trephining surgery was done, one each in the right temporal and parietal, and the left temporal and parietal regions. A spinal tap made at that time showed increased pressure and the fluid was blood-tinged. There was a large amount of subcutaneous hemorrhage - about 100 cc. There was a fracture line extending from the right temporal region across the vertex into the left temporal region. From this cross fracture line another fracture line extended upward on each side to the trephine opening. There was a fracture line extending on the right to the sphenoid process. There was hemorrhage in both petrous portions of the temporal bones, and there was an estimated 100 cc. of blood under the scalp, as well as extradural hemorrhage over the whole brain surface.

The deceased expired at 12:35 p.m., November 5.

An autopsy was performed at 11:20 a.m. on the date of death, and this revealed a fractured skull, bruising of the brain and intracranial hemorrhage.

Social Security No.

This case was reported to the Coroner's Office at 9:07 A.M. November 11, 1947 by the Police Department.

The body of the deceased was found lying on the sidewalk in front of 123 Nicollet Avenue at 8:45 A.M. November 11th. An ambulance from Minneapolis General Hospital was sent to the scene and Dr. Nordin, the ambulance physician, pronounced the man dead on arrival. The body was then removed to the Hennepin County Morgue where investigation revealed that the deceased had sustained a fractured left humerus, fractured left femur and fractured left ribs. Acting on this information, the Police Department investigating the Minneapolis Revival Mission at 123 Nicollet Avenue, in front of which building the deceased's body was found, found evidence which indicated someone had raised the third floor window onto the fire escape and from marks in soot on the hand railing, determined that the deceased had evidently gone halfway down the fire-escape from the third to the second floor and then jumped.

An unidentified passerby saw the deceased leap from the fire escape and came into the building and notified Mr. Brown, the Clerk. When Mr. Brown went to investigate, the deceased was still breathing. Death occurred, however, before the ambulance arrived.

The deceased's wife stated that she had retired the night of November 13th and the deceased was still up. She heard him walking about downstairs when suddenly it became quiet. After waiting a few moments, Mrs. Dorr got up to investigate and found the deceased laying at the foot of the basement stairway. She covered him with a blanket and went back to bed. However, when she awakened at 8:00 A.M. the following morning, she found that the deceased was still lying in the same position at the foot of the stairs. She immediately called Dr. W. H. Trow. Dr. Trow stated that the deceased feet were resting on the lower step and that he was in a comatose condition, arms limp, eyes staring, a gross hemorrhage of the right eye.

The deceased was then removed to Swedish Hospital, being admitted at 11:00 A.M. November 14th. He expired at 3:00 P.M. that day. The body was removed to the Hennepin County Morgue where autopsy examination on November 15th, revealed that death had resulted from a skull fracture and subarachnoid hemorrhage.

The doors of the bedroom were closed and on opening the double doors, she found the deceased's body in a kneeling position beside the bed with his feet against one of the double doors. Two belts has been fastened together, one end of which was around the deceased's neck and the other affixed to the left side of the headboard. The deceased had then rolled off the right side of the bed. On finding the body, Mrs. Brumbaugh telephoned her sister, Mrs. W. T. Noonan, 2388 West Lake of the Isles Blvd. who called the police and then came to her sister's home.

A note was found on a chair near the body which read: "My Dear Wife and daughers: I can't go on any longer. I don't seem to make any improvement. It's best this way for everyone. Daddy H. W. Brumbaugh." A twelve year old daughter of the couple, Joyce, stated that the deceased had put her to bed between 10:30 and 11:00 p.m. and told her "he was going to get well soon." It was stated that the deceased had been in ill health for the past two years and had not worked for the past two months. He had threatened suicide on more than one occasion, his wife stated.

The body was removed to the Hennepin County Morgue and later released to the funeral director.

This case was reported to the Coroner's Office at 12:25 P.M. December 2, 1947 by Dr. W. K. Foster at St. Barnabas Hospital.

The deceased's husband stated that when he arrived home on November 26, 1947 he found the deceased seated on a chair in the living room in a semi-conscious condition. Mr. Taylor went to the kitchen and while he was there, he heard the deceased fall to the floor. He picked her up and placed her on a sofa where she remained that night, all day and the night of November 27th, also. At noon on November 28th, however, the deceased's husband called Dr. W. K. Foster. Dr. Foster advised that the deceased be removed to St. Barnabas Hospital where she was admitted November 28th at 3:00 P.M.

After consultation, a diagnosis of possible phenobarbital poisoning was made. Hospital laboratory tests indicated that there was a quantity of phenobarbital in the deceased's blood. Metrozole and picrotoxin were administered, however the deceased failed steadily, never regaining consciousness, and expired at 11:45 A.M. December 2, 1947. Mr. Taylor showed Dr. W. K. Foster a bottle which had originally contained 100-1½ grain pheno-barbital tablets, in which there were fifteen to twenty tablets left. Mr. Taylor stated that the deceased had never threatened to commit suicide.

This case was reported to the Coroner's Office at 10:50 P.M. December 4, 1947 by Dr. Henry A. Norum.

The deceased's husband arrived home at 4:30 P.M. December 4th and found the deceased lying at the bottom of a flight of steps leading to the basement. A vacuum cleaner was lying nearby, also a broken glass jar containing wallpaper cleaner and a bottle of window cleaner. Mr. Flannigan called the Columbia Heights Police and after police officers arrived, Dr. Henry Norum was summoned. The deceased was removed to Fairview Hospital by Olson Ambulance, being admitted at 5:45 P.M. December 4th. A spinal puncture was done in which there was evidence of blood. Death occurred at 10:15 P.M. December 4, 1947.

It was determined that the deceased was either ascending or decending the basement steps when she slipped. Half way up the steps there is a recess in the wall where the vacuum cleaner and brooms are kept. The cord of the vacuum cleaner was wound around the deceased's leg, indicating that the cord was probably lying on the steps and the deceased's foot became entangled in it.

The body was removed to the Hennepin County Morgue where autopsy examination revealed death to have been caused from skull fracture and bruising of brain.

This case was reported to the Coroner's Office by the police at 6:35 a.m., December 12, 1947.

It was stated the deceased, a telephone technician, had been employed by the Western Electric Company, 900 Laurel Avenue, for about thirty-three years. He had been somewhat despondent for the past six weeks due to a change that had been made in his work.

The deceased had retired about 10:30 the night of December 11. The following morning at 6:10 Mrs. Helen J. Willoughby, the deceased's wife, was awakened by a sound, and almost instantly heard a thud. She searched the house and finally found the body of her husband lying face-down alongside his bed in his bedroom. She called the police and while doing so heard the alarm clock go off, which was found later to be set at 6:22. Ambulance No. 1 from Minneapolis General Hospital responded and Doctor A. S. Rathkey, the ambulance physician, pronounced the man dead on arrival. There was an odor of powder smoke in the bedroom when the police arrived. Mrs. Willoughby stated the revolver, a 38-caliber Harrington & Richardson No. 377570, and holster, belonged to the deceased and had been kept on the top shelf in his closet. The revolver was found under deceased's body. There was a bullet wound in the right temple, 1-1/2 inch posterior to the right eyebrow. There was no evidence of exit of the bullet. There were powder burns around the entrance of the bullet.

The body was removed to the Hennepin County Morgue and later was released to a funeral director.

Police officers Conroy and Johnson, squad car No. 164, arrived at the scene, and Detective D. W. Johnson investigated the case.

This case was reported to the Coroner's Office at 10:40 A.M. December 16, 1947.

Dr. Stuart L. Arey of the pediatric clinic, 1801 Lyndale Avenue South, had checked this infant at the clinic about a month ago, at which time his health was pronounced good. On December 11, 1947 the child had a cold and Mrs. Emery called Dr. Arey and was informed he was out of the city. Therefore, Dr. Robert L. Wilder advised using steam. The child's cold became worse Sunday night, December 14th and Dr. Wilder was called and he advised continuance of the steam. He did not call on the child. The following night Mrs. Emery was up all night with the baby. His breathing at this time was difficult and the child was cyanotic. About 7:30 A.M. December 16th, Mrs. Emery again phoned Dr. Wilder and was informed that Dr. Arey had returned to the city the previous night, therefore she called the latter, who suggested continuing the steaming. The doctor was again called at 9:30 A.M. since the child's condition had taken a turn for the worse, and he called Minneapolis General Hospital and asked that an ambulance be sent to the Emery home. Upon arrival, Dr. Austin McCarthy, the ambulance physician, pronounced the baby dead. Death occurred at 9:40 A.M. The Deputy Coroner attributed the cause of death to bronchopneumonia - primary.

Dr. Arey stated that he did not care to sign the Death Certificate.

This case was reported to the Coroner's Office at 1:45 P.M. December 22, 1947 by Dr. Wilder of St. Barnabas Hospital.

It was stated that the deceased and John Marks, also of 1000 W. Franklin Avenue, left their home at noon December 22nd to go skating on a pond in the rear of the home of Reverend Carl Haselden, 1815 Colfax Avenue South. According to the Marks boy, who is nine years old, on their way home the deceased ran across the street and stumbled into a snow bank in front of 1910 Colfax Avenue South. His skates were hanging around his neck by the straps, and when the deceased got to his feet, his eyes immediately began to swell and he complained of a choking sensation. The Marks boy took off the deceased's coat and hat, thinking it would aid him, then becoming frightened at the deceased's appearance, he ran to his home. He first, however, called to a man passing by who paid no attention to him.

The boy's parents stated that when he arrived home his features were swollen and protruding and he was unable to talk clearly except to say something about skates and that he was choking. Mr. Steel carried his son to a doctor's office over the Burch Pharmacy at Hennepin and Franklin. The doctor was not in, however, and the dentist in the building called an Olson Ambulance. The boy expired, however, in the ambulance enroute to the hospital. Death occurred at 12:30 P.M. December 22, 1947.

Autopsy examination at 4:30 P.M. December 22nd, revealed that death had resulted from traumatic rupture of trachea, bilateral pneumothorax, generalized emphysema.
