The Board next reviewed the new pharmacy applications. The first application to be reviewed was submitted on behalf of Oakdale Pharmacy, 2722 Stillwater Road, Maplewood, MN by Mr. Salah A. Fattah, pharmacist-in-charge. After thoroughly discussing this application and reviewing the diagram of the proposed pharmacy Mr. Hackner moved and Mr. Zastera seconded that the application be approved and a license issued subject to Mr. Salah Fattah's appointment of a different pharmacist-in-charge either for the proposed Oakdale Pharmacy or for the presently existing Lincoln Park Drug and subject also to the successful completion of an on-site inspection by a member of the Board's staff to assure compliance with Pharmacy Board rules dealing with licensure. The motion passed.

The next application to be reviewed was submitted on behalf of Snyder Drug-Princeton, George Mall, Princeton, MN by Mr. Michael P. Wagner, pharmacist-in-charge. After thoroughly discussing this application and reviewing the diagram of the proposed pharmacy Mr. Hart moved and Mr. Wangenstein seconded that the application be approved and a license issued subject to the successful completion of an on-site inspection by a member of the Board's staff to assure compliance with Pharmacy Board rules dealing with licensure. The motion passed.

The Board next discussed applications for the use of supportive personnel it has received in accordance with requirements of 7 MCAR 8.047. The first such application was submitted by Mr. Richard LaLonde, pharmacist-in-charge of Cedar Mall Drug in Owatonna, MN. After reviewing this application Mr. Hart moved and Mr. Wangenstein seconded that the application be approved subject to the development and inclusion in the formal procedures by Mr. LaLonde of a statement indicating that the pharmacist will make the decision as to which drug will be used in filling a prescription and may then direct the supportive personnel to retrieve the medication and further a statement indicating that the supportive personnel will be visually differentiated from pharmacists in some manner. The motion passed.

The next application for the use of supportive personnel to be considered by the Board was submitted on behalf of Children's Health Center Pharmacy in Minneapolis by Mr. Richard Macko, pharmacist-in-charge. After carefully reviewing this application Mr. Zastera moved and Mr. Wangenstein seconded that the application be approved subject to the development and inclusion in the formal procedures by Mr. Macko of a statement indicating that the supportive personnel will be visually differentiated from the pharmacist in some manner. After carefully reviewing this application Mr. Wangenstein moved and Mr. Delger seconded that the application be denied at this time. After some discussion of this motion the motion was withdrawn. Mr. Hart then moved and Mr. Delger seconded that the application be approved subject to the development and inclusion in the formal procedures by Mr. Mehlberg of statements indicating that under Roman numeral II only the pharmacist will interpret medication orders, under Roman numeral III that the supportive personnel will only involve themselves in bulk compounding of medications and not the extemporaneous compounding of individual prescriptions which is reserved for the pharmacist, under Roman numeral V a statement indicating that only the pharmacist will be the individual to select the drug for repackaging, under Roman numeral XI a statement indicating that supportive personnel will be visually differentiated from pharmacists in some manner and further that the present existing wording in Roman numeral XI will be deleted. The motion passed.

The fifth application for the use of supportive personnel to be considered by the Board was submitted on behalf of Rosatti Drug in Hibbing, MN by Mr. Mario Rosatti, pharmacist-in-charge. After carefully reviewing this application Mr. Delger moved and Mr. Hart seconded that Secretary Holmstrom return the application to Mr. Rosatti requesting more specificity in several areas of the application. The motion passed.

The motion passed.

The final application for the use of supportive personnel to be considered by the Board was submitted on behalf of White Mart Pharmacy in Little Falls, MN by Leslie E. Wolff, pharmacist-in-charge. After carefully reviewing this

application Mr. Hackner moved and Mr. Zastera seconded that the application be approved subject to the development and inclusion in the formal procedures by Mr. Wolff of a statement indicating that the use of supportive personnel will be within the ratios allowed under 7 MCAR 8.047 and that supportive personnel will be visually differentiated from pharmacists in some manner. The motion passed.

The next item on the Board's agenda was the recommendation of the Continuing Education Advisory Committee relative to programs recommended for approval in meeting the continuing education requirements of Minnesota pharmacists. After reviewing the list of programs recommended for approval by the CEAC sub-committee Mr. Hart moved and Mr. Delger seconded that those programs recommended for approval be so approved and that approval be denied for those programs for which denial of approval was recommended. The motion passed.

The next item of business to come before the Board was the continued membership in the National Association of Boards of Pharmacy. After a brief discussion of the many benefits derived from membership in the National Association of Boards of Pharmacy including participation in the nationwide reciprocity system established through NABP Mr. Hart moved and Mr. Zastera seconded that the Board again renew its membership in the National Association of Boards of Pharmacy. The motion passed.

The Board next discussed its intention to maintain the requirement of graduation from an accredited college of pharmacy in order to qualify to take the Board's licensure examination. Mr. Blume then moved and Mr. Hart seconded that the Board approve and adopt as its own the current creditation standards of the American Council on Pharmaceutical Education as they appear in the accreditation manual, second printing of the 7th Edition, and that the Board adopt the list of approved colleges of pharmacy published by ACPE as the list of colleges from which the Board will accept graduates as candidates for licensure these colleges having proven their compliance with the above mentioned accreditation standards. The motion passed. A copy of the list of accredited colleges of pharmacy is attached hereto.

Secretary Holmstrom next presented to the Board a letter from Mr. Curtis W. Hort, owner of Hort Enterprises, Inc. Mr. Hort's letter was in the form of a proposal that Hort Enterprises be allowed to operate as a prescription drop-site or pick-up station at the Control Data Tower in Bloomington. The proposal would be that prescriptions could be dropped off at Hort Enterprises in the morning, be transported to Town Drug in Bloomington for filling and be transported back to Hort Enterprises in the afternoon.

After discussing Mr. Hort's letter and the current Board prohibition against operations of this type Mr. Hart moved and Mr. Blume seconded that the proposal contained in Mr. Hort's letter be disapproved and that Secretary Holmstrom so inform Mr. Hort. The motion passed unanimously.

Secretary Holmstrom next presented to the Board his plans for dividing the proposed rules into controversial and non-controversial categories in order to more quickly implement the non-controversial items. The Board generally agreed with Secretary Holmstrom's division of the proposed rules and authorized, in conjunction with the proposed rule changing the reporting date of continuing education, a one time allowance for carrying over continuing education credits to the next reporting period in order to avoid any hardship for those pharmacists who have already obtained their 30 hours of continuing education participation by October of 1982.

The Board suggested that Secretary Holmstrom check with legal counsel regarding the possible separation of the continuing education reporting date change from the rest of the continuing education proposed changes. Secretary Holmstrom indicated that he would do so immediately.

The following resolution was then made, seconded and passed unanimously:

"Resolved, that David E. Holmstrom, Executive Secretary of the Board of Pharmacy, be and he hereby is granted the authority and directed to sign an Order of the Board directing that Notice be given of the Board's intent to adopt without a public hearing rules governing licensure fees, internship, pharmacy equipment, licensure requirements, continuing education, return of drugs, prescription labeling, controlled substance samples, transfer of prescriptions, controlled substances, registration of researchers, prescription order communication, emergency kits, labeling of large volume parenterals, waivers of board requirements, and reorganization of existing rules, to sign the Notice thereof, and to perform any and all acts incidental thereto. In the event a public hearing becomes necessary, he hereby is granted the authority and directed to call a hearing for the purpose of promulgating said rules as well as perform any and all acts incidental thereto, including but without being limited to signing an Order for Hearing and Notice of Hearing as well as acting as the Board's representative at all hearings."

*** Schedule of meetings amended at the 2/9/82 meeting.

Acknowledgement

The American Council on Pharmaceutical Education acknowledges the substantive grants from the American Foundation for Pharmaceutical Education (Radburn Plaza Building, 14-25 Plaza Road, Fair Lawn, New Jersey 07410, Albert B. Fisher, Jr., Ph.D., President.) The Council extends its appreciation to the pharmaceutical industry, Century Club members, other corporate patrons, and benefactors of the Foundation.

FOREWORD

Accreditation may be defined as the public recognition accorded to a specialized program of study which meets certain established qualifications and educational standards through initial and periodic evaluations. The essential purpose of the accreditation process is to provide a professional judgment of the quality of the educational program offered and to encourage continued improvement thereof. The American Council on Pharmaceutical Education was established in 1932 and is the national accrediting agency in pharmacy recognized by the Secretary of Education, U.S. Department of Education, and the Council on Postsecondary Accreditation. The Council is also a member of the Council of Specialized Accrediting Agencies.

The Council is an autonomous agency whose membership is derived through the American Association of Colleges of Pharmacy, the American Pharmaceutical Association, the National Association of Boards of Pharmacy, (three appointments each), and the American Council on Education (one appointment). The latter appointee serves as a representative of the public in the sense of being a lay person who is not an educator in, nor a member of, the profession for which students are being prepared, nor in any way directly related to the programs being evaluated. In addition, a panel of public representatives serves in an advisory capacity to the Council.

The American Foundation for Pharmaceutical Education, a philanthropic foundation dedicated to the improvement of the quality of pharmaceutical education in the nation's schools and colleges of pharmacy, has provided major financial support to the Council since 1945. The AACP, APhA and NABP also provide annual support to sustain the Council's activities. Fees are charged to the colleges and schools of pharmacy to defray travel and assist in sustaining the accreditation program.

Council Standards and Procedures

Accreditation standards for degree programs of colleges of pharmacy, policies and procedures, and other pertinent information are published in the *Accreditation Manual*, second printing of the 7th edition. Limited quantities of the manual and this listing of accredited degree programs may be obtained without charge by writing the Council office. Other publications of the Council available include: The

Continuing Education Provider Approval Program and the list of approved continuing education providers.

There are presently two professional undergraduate programs accredited by the American Council on Pharmaceutical Education: curricula leading to the baccalaureate degree in pharmacy and the doctor of pharmacy degree. Colleges offering both degree programs are evaluated concurrently for purposes of accreditation. Evaluation teams are comprised of a member of the Council, the executive staff officer and faculty members of the nation's colleges of pharmacy. A member of the board of pharmacy of the state in which the institution is located is invited to work with the team and the institution may invite a member of the regional accrediting body to participate in the work of the team. A program self-study which includes information on both faculty and student achievements and on educational outcomes which demonstrate the program's success in attaining its objectives is required in advance of the evaluation. The on-site visit involves interviews with the dean, faculty, students, and university administrators. A survey is made of physical and clinical facilities as well as other educational resources. Interim monitoring of program quality includes an annual progress report, as well as special reporting as may be requested.

As a result of the evaluation visit, a written report is furnished to the institution commenting on the program's areas of strength, areas needing improvement, suggestions concerning means of improvement, and specific areas, if any, where the program may not be in compliance with Council standards. The institution is given opportunity to respond to the report of the evaluation team. During a subsequent meeting of the Council, the report of the evaluators and communications from the institution are duly considered for purposes of determining compliance with standards and the accreditability of the program. The program of the school is either accredited, not accredited, or placed on probation. A school whose program is discredited or placed on probation is given due notice in accord with established policies and procedures. Schools where programs are discredited, after availing themselves of other opportunities to avoid such action, have a specified appeal mechanism available to them. On-site evaluations are customarily made on a six-year cycle, however, programs may be reviewed for purposes of accredi-

tation within a shorter time period based upon a written progress report or an on-site evaluation at the discretion of the Council. The Council will also consider requests from an institution for an alteration in the review cycle; however, the schedule does not generally extend beyond six years.

Policy on Reference to Accreditation

Any reference by an institution to accreditation by the Council shall state only the following: "Name of institution's program(s) is accredited by the American Council on Pharmaceutical Education." References should accurately reflect the designation indicated in the current annual list of accredited degree program(s) of colleges of pharmacy.

Complaints Regarding an Accredited College of Pharmacy Program

Complaints from other institutions, students, faculty, or the public against a particular college of pharmacy, including complaints relative to tuition and fee policies, shall be placed in writing in detail by the complainant and submitted to the Council office. The executive staff officer shall promptly determine the facts concerning the alleged complaint; where appropriate, the matter shall be considered at the next meeting of the Council. The procedure shall provide for treatment of complaints in a manner that is fair and equitable to all parties, and the complainant shall be advised of the decision or action.

The institutions with which the Council maintains accreditation relationships have demonstrated that they conduct their affairs with honesty and frankness. The *Accreditation Manual* describes the Council's probity policy.

The Annual List of Accredited Degree Programs of Colleges of Pharmacy

Recognition of a program in the annual list denotes compliance with the minimum standards of the Council. It does not imply that all programs on the list are equal or totally equivalent. Many schools' programs exceed Council standards in terms of the various elements comprising accreditation. In pharmaceutical education, as in American education generally, there is great diversity. Information concerning the various accredited programs as well as graduate programs may be obtained by corresponding directly with the appropriate institution.

Accredited First Professional Degree Programs in Pharmacy

The first professional degree program (the entry degree program, graduates of which usually qualify for licensure examination) may be that leading to the baccalaureate degree in pharmacy or the doctor of pharmacy degree. The baccalaureate in pharmacy curriculum normally requires a five year program of study. A doctor of pharmacy program designed as a comprehensive professional curriculum normally requires six years to complete degree requirements. An intervening baccalaureate in pharmacy degree may not be awarded, however, doctoral programs appearing in this list meet, at a minimum, all requirements of a baccalaureate in pharmacy degree program and qualify as an accredited first professional degree program. A doctor of pharmacy program may also be designed as a post-baccalaureate in pharmacy curriculum. The combined period of study for doctoral programs of such design is, normally, longer than six years. In composite with the professional educational base of the baccalaureate in pharmacy program, a doctor of pharmacy program of post-baccalaureate design qualifies as an accredited first professional degree program. Admission to the post-baccalaureate doctor of pharmacy curriculum requires a degree from an ACPE accredited baccalaureate in pharmacy program or the program of study must otherwise satisfy ACPE requirements for a first professional degree program.

Colleges of Pharmacy Offering Accredited Doctor of Pharmacy Curricula²

The doctor of pharmacy degree (Pharm.D.) is the highest award given in recognition of academic preparation for pharmacy practice. In comparison with standards for the baccalaureate in pharmacy program, standards for the doctoral program call for an educational process which provides a different level of professional development. The program leading to the doctor of pharmacy degree is an undergraduate professional curriculum enriched with pharmaceutical and biomedical knowledge as well as clinical experiences.

Inclusion on the list of accredited doctor of pharmacy curricula indicates that (1) the program, satisfies all requirements of a first professional degree program (previous listing of accredited first professional degree programs), and (2) the program further meets the added standards for the doctor of pharmacy degree curriculum.

Daniel A. Nona, Ph.D.
Executive Director

July 27, 1981

MEMORANDUM

TO: Deans - Colleges and Schools of Pharmacy,
State Board Secretaries and other members
of the pharmacy community

FROM: Daniel A. Nona, Executive Director / *Dan*

Enclosed is a policy statement adopted by the ACPE during their June 12-14, 1981 meeting. The policy speaks to the awarding of the doctor of pharmacy degree by colleges and schools of pharmacy only upon the basis of completion of study consistent with the ACPE standards and guidelines for that degree.

... OVER ...

ACPE Statement: Awarding of the doctor of pharmacy degree only upon
June 12-14, 1981 the basis of the completion of a program of study
 consistent with standards and guidelines.

An accredited doctor of pharmacy degree program is one to which public recognition is accorded by ACPE upon having met established standards through initial and periodic evaluations. The ACPE accreditation status validates the educational process leading to the highest degree in recognition of academic preparation for practice. Colleges and schools of pharmacy have latitude in the development of the doctor of pharmacy curriculum in accord with the institution's own objectives; however, the program should be congruent with established educational and professional standards. Assurances are expected that all graduates of a given institution's doctor of pharmacy program will have achieved the same educational outcomes. Unique programs or apparent variations from standards and guidelines place a requirement upon the institution to demonstrate to the Council's satisfaction that the modification proposed provides adequately for program equivalency.

In restating this primal tenet of doctor of pharmacy program accreditation, the ACPE takes pleasure in noting the following statement adopted by the AACP Board of Directors (cf. American Journal of Pharmaceutical Education, Vol. 45, Feb. 1981).

"The Board of Directors affirms the obligation of schools to award the professional doctoral degree (PharmD) only for demonstrated performance in meeting the standards and guidelines for doctor of pharmacy programs established by the American Council on Pharmaceutical Education. Schools should develop opportunities for practicing pharmacists to obtain the PharmD degree through non-traditional study programs but with the proviso that graduates demonstrate a level of performance capability consistent with Standards and Guidelines for accreditation of doctor of pharmacy programs established by the American Council on Pharmaceutical Education. The Board of Directors views with alarm any approach by member schools to award a PharmD degree in any way that does not meet these established principles."

Furthermore, as there does not appear to be any restrictions on what title an individual may choose to call himself or herself, it is important that the general public be given assurances of the meaning as well as the distinctions and merit associated with the degree of doctor of pharmacy. Individuals may not refer to themselves as being graduated from an accredited doctor of pharmacy program, nor may institutions represent in their catalogs or other documents that accreditation is granted, unless this is in fact the case.

The motion passed.

Secretary Holmstrom next presented to the Board a letter from Mr. Dennis Lingbeek requesting internship credit for previously obtained military pharmacy experience. Secretary Holmstrom also presented to the Board the results of a survey of the members of the Internship Advisory Committee relative to this issue. After reviewing Mr. Lingbeek's request and the recommendations of the Internship Advisory Committee Mr. Blume moved and Mr. Hackner seconded that the Board grant Mr. Lingbeek 400 hours of internship experience for his military pharmacy time. The motion passed.

Secretary Holmstrom next presented to the Board a letter and other documents from Mr. Sudip Guharoy requesting that the Board accept his internship experience obtained in the state of New York and recognized by the state of California to make up the 140 hours of regular internship he still needs in order to qualify to sit for the June, 1982 Board exam. After reviewing Mr. Guharoy's letter and

other documents Mr. Berg moved and Mr. Delger seconded that the Board accept Mr. Guharoy's internship experience from the state of New York in meeting the 140 hours of internship that he currently lacks. The motion passed.

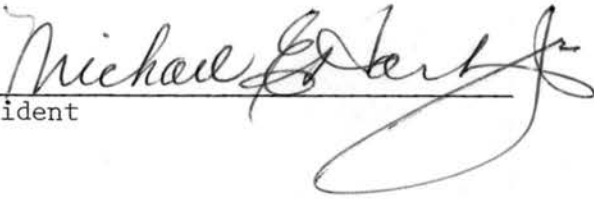

Secretary Holmstrom next presented to the Board a letter from Dr. G. M. A. Fortier, Jr. of the Little Falls Clinic, wherein Dr. Fortier seeks "approval and comment" of his proposal to prepackage medication at the Royalton Pharmacy for use at the Little Falls Clinic. After thoroughly discussing Dr. Fortier's letter Mr. Berg moved and Mr. Blume seconded that Secretary Holmstrom write to Dr. Fortier expressing the Board's disapproval of his proposal due to the fact that the proposal would result in drugs being misbranded under the Federal Food Drug and Cosmetic Act. The motion passed.

Secretary Holmstrom next presented to the Board a letter from Mr. Rick Kingston of St. Paul Ramsey Hospital requesting that the Board consider changing the present labeling requirements of prescription drugs. After discussing Mr. Kingston's letter Mr. Zastera moved and Mr. Berg seconded that Secretary Holmstrom be instructed to write to Mr. Kingston informing him that the Board will keep his request on file and consider it at such time as rule changes regarding prescription labeling are being proposed. The motion passed.

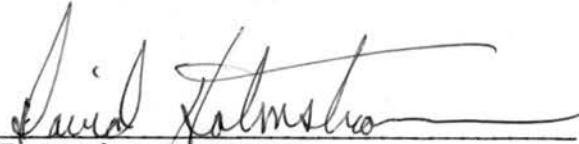

President Hart and the Board next discussed Board member participation on the Board's three standing committees. President Hart indicated that he will defer making any appointments to the Board's three standing committees until he has had an opportunity to discuss with Present Board Appointees their desire to continue to serve.

Secretary Holmstrom next presented to the Board a letter from Wendle Kerr relative to the change of dates for the District V NABP/AACP meeting scheduled for Winnipeg, Manitoba. The Board instructed Secretary Holmstrom to write to Wendle Kerr and to Langley Jones expressing the Minnesota Board's concern over the new proposed dates in that it conflicts with the September NABPLEX dates.

There being no further business at this time President Hart adjourned the meeting.

At approximately 9:00 a.m. March 25, 1982, the Board met in Room 305 of the Minnesota Department of Health Building, 717 Delaware St. SE for the purpose of conducting a general business meeting. In attendance were Mr.

Michael Hart, Mr. Thomas Berg, Mr. Ove Wangensteen, Mr. Gary Blume, Mr. Lester Hackner, Mr. Joseph Zastera, Mr. Arnold Delger and the Board's Secretary Mr. David Holmstrom.

The first item of business was a review of the minutes of the meeting of February 9, 1982. Mr. Joseph Zastera moved and Mr. Arnold Delger seconded that the minutes of this meeting be approved as written. The motion passed.

At this time Mr. Richard Wexler and Mr. Robert Holley, the Board's new legal counsel, joined the meeting. Mr. Wexler first proceeded to introduce Mr. Holley to the Board and to review for the Board the background associated with Mr. Holley's appointment as Board counsel.

Mr. Wexler next proceeded to describe for the Board the manner in which complaints will be handled at the Attorney General's office in the future. Mr. Wexler indicated that because of staffing and budget reductions complaints and other matters will have to be prioritized. Mr. Wexler provided the following prioritization schedule for the Board:

- A. Emergencies and immediate work;
- B. Contested cases and litigations (commenced);
- C. Disciplinary actions (commenced);
- D. Rule making (commenced);
- E. Advise and preparation for B, C and D; and
- F. Miscellaneous.

Newly received complaints which would fall under category E will be further categorized into serious, intermediate, and minor. Mr. Wexler indicated that he and Mr. Holley have had several hours of meetings with Secretary Holmstrom relative to the categorization of existing complaints and procedures for handling new complaints. Mr. Wexler recommended that President Hart appoint a permanent complaint committee that would work with Secretary Holmstrom in categorizing new complaints and in disposing of minor complaints in accordance with Chapter 214 of the Minnesota Statutes. President Hart then proceeded to appoint Board Members Joseph Zastera and Arnold Delger as the complaint committee that will work with Secretary Holmstrom in dealing with complaints received by the Board.

Mr. Wexler and Mr. Holley then departed from the meeting.

The Board next turned its attention to applications to conduct new pharmacies. The first application to be reviewed was submitted on behalf of Arnold Memorial Hospital Pharmacy, 601 Louisiana, Adrian, MN by Mr. Melvin Kroon, pharmacist-in-charge. After carefully reviewing this application and the diagram of the proposed pharmacy Mr. Thomas Berg moved and Mr. Joseph Zastera seconded that the application be approved and a license issued subject to the successful completion of an on-site inspection by a member of the Board's staff to assure compliance with Pharmacy Board rules dealing with licensure and that Secretary Holmstrom communicate with Mr. Kroon advising him and Hospital Administrator Charlotte Heitkamp of the Board's concern over the very minimal space allotted for the hospital pharmacy and that Secretary Holmstrom encourage Mr. Kroon and Ms. Heitkamp to attempt to allocate additional space to the licensed pharmacy area as soon as possible. The motion passed.

The next application to be reviewed was submitted on behalf of Ruffalo Drugs Eastwood, 1515 12th St. SE, Rochester, MN by Mr. Joseph Bendry, pharmacist-in-charge. After thoroughly discussing this application and reviewing the diagram of the proposed pharmacy Mr. Lester Hackner moved and Mr. Joseph Zastera seconded that the application be approved and a license issued subject to the successful completion of an on-site inspection by a member of the Board's staff to assure compliance with Pharmacy Board rules dealing with licensure. The motion passed.

Secretary Holmstrom next presented to the Board a list of pharmacists delinquent in renewal of their licenses to practice for the years of 1980 and 1981. After reviewing and discussing the list of pharmacists (a copy of which is appended to these minutes) Mr. Joseph Zastera moved and Mr. Gary Blume seconded that the pharmacists on the list be dropped from our roles of licensees. The motion passed.

The next item on the Board's agenda was the recommendation of the Continuing Education Advisory Committee relative to programs recommended for approval in meeting the continuing education requirements of Minnesota pharmacists. After reviewing a list of programs recommended for approval by the CEAC sub-committee for March Mr. Thomas Berg moved and Mr. Arnold Delger seconded that those programs recommended for approval be so approved and that approval be denied for those programs for which denial of approval was recommended. The motion passed.

The Board next discussed applications for the use of supportive personnel it has received in accordance with the requirements of 7 MCAR 8.047. The first such application was submitted on behalf of Group Health Plan Pharmacy, 2165 White Bear Avenue, Maplewood, MN by Mr. Nicholas Thrune, pharmacist-in-charge. After reviewing this application Mr. Lester Hackner moved and Mr. Joseph Zastera seconded that the application be approved as it was written. The motion passed.

The next application for the use of supportive personnel to be considered by the Board was submitted on behalf of Shopper's Pharmacy, 1783 East Maryland, St. Paul, MN by Mr. Herman Windisch, pharmacist-in-charge. After carefully reviewing this application Mr. Lester Hackner moved and Mr. Arnold Delger seconded that the application be approved subject to the development and inclusion in the formal procedures by Mr. Windisch of statements indicating that all pre-packaging will be done in accordance with the requirements of 7 MCAR 8.038, and that pharmacy supportive personnel will be visually differentiated from pharmacists in some manner. The motion passed.

The third application for the use of supportive personnel to be considered by the Board was submitted on behalf of Snyders Maple Grove, 11425 96th Ave. NE, Maple Grove, MN by Mr. William Johnson, pharmacist-in-charge. After carefully reviewing this application Mr. Joseph Zastera moved and Mr. Lester Hackner seconded that the application be approved subject to Mr. Johnson making a change in item number two, which would indicate that the pharmacist will re-write prescriptions that are to be updated and that the physician will be contacted. The motion passed.

The fourth application for the use of supportive personnel to be considered by the Board was submitted on behalf of Swanson Drug Co., 816 E. 7th St., St. Paul, MN by Mr. Darrell Sorenson, pharmacist-in-charge. After carefully reviewing this application Mr. Arnold Delger moved and Mr. Ove Wangensteen seconded that the application be approved subject to Mr. Sorenson developing and including in Section I A a statement indicating that the pharmacist will check the validity of all prescriptions and further that the pharmacist will select the drug to be used in preparing the prescription. The motion passed.

The fifth application for the use of supportive personnel was submitted on behalf of Uptown Pharmacy, 3049 Hennepin Ave. S., Mpls., MN by Mr. John Mondati, pharmacist-in-charge. After carefully reviewing this application Mr. Arnold Delger moved and Mr. Ove Wangensteen seconded that the application be approved subject to Mr. Mondati developing and including in item five of his procedures a statement indicating that the pharmacist will select the drug to be used in preparing the prescription and further that Mr. Mondati develop and include in item two of his procedures a statement indicating that the pharmacist will check for potential drug interaction. The motion passed.

The final application for the use of supportive personnel to be considered was submitted on behalf of White Drug, 308 Chestnut St., Virginia, MN by Mr. Bradley Larson, pharmacist-in-charge. After carefully reviewing this application Mr. Ove Wangensteen moved and Mr. Thomas Berg seconded that the application be approved subject to the development and inclusion in the formal procedures by Mr. Larson of a statement indicating who makes the entries on the patient profile and a statement indicating that the pharmacist will verify these entries if they are not made by him personally. The motion passed.

Secretary Holmstrom next informed the Board that the Executive Secretaries of the various Health Licensing Boards are considering developing legislation for the 1983 legislative session that would give the Board's the authority to levy fines in addition to other disciplinary remedies available to them. Secretary Holmstrom asked the Board whether the Board of Pharmacy should go on record in support of this legislation or whether a position should be taken in opposition to this proposal. It was the opinion of the Board that Secretary Holmstrom should work with the other Executive Secretaries in developing and lobbying for this additional disciplinary tool. Board Members Berg, Hackner, Zastera, Wangensteen and Delger indicated support for such a measure.

Secretary Holmstrom next presented to the Board a letter from Mr. William Beaudette, who was previously registered as a pharmacist-intern. Secretary Holmstrom explained that Mr. Beaudette had ceased making progress toward obtaining a degree from the College of Pharmacy some years ago but had continued to work as a pharmacist-intern. On November 16, 1979 Mr. Beaudette was informed that his internship registration was being revoked on the basis of his failure to make progress toward completing his degree in pharmacy and that he could no longer function in the role of a pharmacist-intern. It was subsequently discovered by Pharmacy Board Inspectors that Mr. Beaudette had continued to perform the duties of a pharmacist-intern in spite of the fact that he had been informed by Secretary Holmstrom that he was no longer authorized to do so.

Mr. Beaudette, through his letter, now seeks to explain his circumstances to the Board and obtain permission from the Board to re-register as a pharmacist-intern upon his readmission to the College of Pharmacy at the University of Minnesota.

After discussing the Beaudette matter Secretary Holmstrom was instructed to accept Mr. Beaudette for re-registration as a pharmacist-intern upon his documenting his readmission to the College of Pharmacy.

Secretary Holmstrom and President Hart next presented to the Board the proposed constitution and by-law changes that will be addressed at the NABP Annual Meeting in April. In discussing change number I Mr. Ove Wangenstein moved that Minnesota Board support the Arizona amendment. The motion died for lack of a second. After some additional discussion Mr. Wangenstein moved to support the substitute amendment that will be presented in place of the Arizona amendment. Mr. Lester Hackner seconded and the motion passed.

Under constitutional change identified as II Mr. Thomas Berg moved and Mr. Joseph Zastera seconded that the Minnesota Board support the removal of the Executive Director/Secretary as an elected position and make that individual accountable to NABP as an employee only. The motion passed.

Under proposed change III Mr. Thomas Berg moved and Mr. Joseph Zastera seconded that in as much as the Board had taken the position it did in II it would follow that it support the change indicated in III as well. The motion passed.

Under change indicated as IV Mr. Thomas Berg moved and Mr. Lester Hackner seconded that the Minnesota Board go on record in support of this proposed change. The motion passed.

Under change indicated as V Mr. Thomas Berg moved and Mr. Arnold Delger seconded that the Minnesota Board support this proposed change. The motion passed.

Under proposed change VI Mr. Joseph Zastera moved and Mr. Thomas Berg seconded that the Minnesota Board go on record in support of that proposed change. The motion passed.

Secretary Holmstrom next briefly discussed with the Board the response he received from Mr. Wendle Kerr relative to the dates established for the District V NABP/AACP meeting in the fall of 1982. No further action was taken on this item by the Board.

Secretary Holmstrom next presented to the Board a letter he received from Mr. William Grosz of the North Dakota Board of Pharmacy relative to the acceptance and recording of internship time obtained in Minnesota and recorded in North Dakota. No definitive action was taken by the Board on this issue.

Secretary Holmstrom next presented to the Board a proposal to raise the examination fee in Minnesota to correspond to the \$15.00 increase in exam fees being implemented by the National Association of Boards of Pharmacy effective June, 1982. Mr. Joseph Zastera moved and Mr. Arnold Delger seconded that Secretary Holmstrom take whatever steps are necessary to raise the examination fees in Minnesota by \$15.00 to correspond to the increase at the national level. The motion passed.

Secretary Holmstrom next presented to the Board the grades of the candidates for licensure by reciprocity. After a thorough review of the performance of the candidates for licensure by reciprocity Mr. Ove Wangenstein moved and Mr. Joseph Zastera seconded that having passed the jurisprudence examination and any other examinations that may have been requested of them for reason, the following candidates for licensure by reciprocity be granted such licensure based on their current license to practice in the state listed with their name. The motion passed.

MINNESOTA BOARD OF PHARMACY

FIVE HUNDRED SIXTY-NINTH MEETING

April 19, 1982. At approximately 7:30 p.m. April 19, 1982 the Board met in the Regency Room of the Hyatt Regency Hotel in Minneapolis for the purpose of conducting a brief business meeting in conjunction with the National Association of Boards of Pharmacy Annual Meeting. All Board members were present as was the Board's Secretary Mr. David Holmstrom.

The first order of business was a letter to the Board by Mr. Mark Stassen, a candidate for licensure. Mr. Stassen had retaken the laboratory portion of the examination at its March 23 offering. Mr. Stassen requested that the Board reconsider the scoring of his examination and offered an explanation of his performance. After discussing Mr. Stassen's performance and the points brought out in his letter the Board determined that it was willing to regrade Mr. Stassen's performance. Upon regrading it was determined that Mr. Stassen's score on the practical examination should be 75 rather than the reported 72. Mr. Lester Hackner then moved and Mr. Arnold Delger seconded that Mr. Stassen be licensed as a pharmacist in Minnesota based on this performance. The motion passed.

The second item of business was the recommendation of the Continuing Education Advisory Committee relative to programs recommended for approval in meeting the continuing education requirements of Minnesota pharmacists. After reviewing the list of programs recommended for approval by the CEAC sub-committee Mr. Thomas Berg moved and Mr. Arnold Delger seconded that those programs recommended for approval be so approved and that approval be denied for those programs for which denial of approval was recommended. The motion passed.

Secretary Holmstrom next reviewed for the Board the grading system established at the March, 1982 meeting for the recently administered licensure examination. At that time it was determined that in grading the examination the NABPLEX written "practice of pharmacy" examination would be weighted at 100 points and the Board's own "laboratory practical" examination be weighted at 150 points toward the total practical examination grade and further that the Federal Drug Law Examination and the Board's own Minnesota jurisprudence examination be graded so that each question would be weighted equally with the combination of those two grades equaling 100 points toward the total examination score. The four NABPLEX written sections of the examination also would be graded as 100 points toward the total examination score.

With this criteria established Mr. Thomas Berg moved and Mr. Joseph Zastera seconded that the candidates who received a general average of 75 or better, not less than 75 on their practical examination score, not less than 75 on their jurisprudence examination score, and not less than 60 on any one written NABPLEX subject be granted licensure as a pharmacist. The motion passed.

The candidates who successfully passed the examination are as follows:

The motion passed.

Secretary Holmstrom next presented to the Board a brief report of the activities of the Complaint Committee during the past month.

Secretary Holmstrom next presented to the Board a concern expressed to him by Pharmacist James Herrick of United Hospitals in St. Paul relative to the frequency with which individuals are visiting the out-patient pharmacy at the hospital requesting prescriptions "after hours" and with prescriptions for drugs that retail pharmacies either cannot or do not wish to provide. Mr. Herrick indicated that their hospital and the hospital pharmacy do not wish to compete with retail pharmacies in this area and contacted the Board office to see what, if anything, the Board could do to alleviate the problem. The Board discussed this issue but indicated that there was no action the Board could take directly other than recommending that the issue be referred to the State Pharmaceutical Association for discussion.

After thoroughly discussing all of the issues and recommendations for resolution the Board unanimously backed the position taken in the March 17, 1982 memorandum.

Secretary Holmstrom next presented to the Board information concerning the availability through state purchasing of a word processor and requested that the Board authorize Secretary Holmstrom to review the budget for Fiscal Year 1983 and review the capabilities of the word processor currently installed at the Department of Health with an eye toward possible purchase of such by the Board. The Board indicated that Secretary Holmstrom should proceed to determine the financial feasibility of the purchase of a word processor for the Board office and to report back at a future meeting relative to his recommendations.

Secretary Holmstrom next presented for the Board's consideration the issue of whether the Board office should provide scores from NABPLEX examinations participated in in Minnesota to Board's of Pharmacies in states who are not participating in the NABP Score Transfer mechanism. After briefly discussing this issue the Board unanimously directed Secretary Holmstrom to limit both the receipt and distribution of NABPLEX scores for grade transfer purposes only to those states who are participating in the NABP Grade Transfer process.

Secretary Holmstrom next provided the Board with a brief status report of the development of the new rules. No action on this report was taken.

There being no further business at this time President Hart adjourned the meeting.

Secretary Holmstrom next reviewed for the Board the grading system established at the June, 1982 meeting for the recently administered licensure examination. The four NABPLEX written sections of the examination also would be graded as 100 points each toward the total examination score.

With this criteria established Mr. Gary Blume moved and Mr. Roger Vadheim seconded that the candidates who received a general average of 75 or better, not less than 75 on their practical examination score, not less than 75 on their jurisprudence examination score and not less than 60 on any one written NABPLEX subject be granted licensure as a pharmacist. After carefully reviewing this application Mr. Joseph Zastera moved and Mr. Arnold Delger seconded that the application be approved subject to the development and inclusion in the written procedures by Mr. Ekeren of a statement indicating that all supportive personnel will be affirmatively identified as supportive personnel by name tags in addition to the already proposed different colored smocks. The motion passed.

The next application for the use of supportive personnel to be considered was submitted on behalf of K-Mart Pharmacy, 400 E. Travelers Trail, Burnsville, MN by Mr. Fred Parduhn, pharmacist-in-charge. The Board next discussed the charges submitted to it by the College of Pharmacy for the set-up and ingredients used in conducting the laboratory practical examination administered in September. The Board expressed its concern over the cost involved and directed Secretary Holmstrom to contact Mr. Frank DiGangi, Associate Dean for Administrative Affairs at the College of Pharmacy, and request clarification.

Secretary Holmstrom next presented to the Board a letter from Mr. James Herrick, President Elect of the Minnesota Society of Hospital Pharmacists, requesting the Board's consideration of expanding the Continuing Education Advisory Committee to thirteen members from the present ten with the three additional members being specifically designated as appointees of MSHP. After thoroughly discussing this issue the Board directed Secretary Holmstrom to inform Mr. Herrick that while the Board is not willing at this time to make additional changes involving committee representation to the package of proposed rules currently under development they would be willing to entertain such a recommendation if made during the course of testimony at the public hearing that will be held in conjunction with the currently developed package of proposed changes.

The Board next turned its attention to setting a date for a business meeting in the month of December. A meeting date of Wednesday, December 8 was decided upon. At 8:00 a.m. the pharmacist members of the Board will meet with Secretary Holmstrom to develop the prescriptions that will be used for the wet lab examination given in conjunction with the January Board exam.

Secretary Holmstrom next reviewed for the Board the grading system established at the September, 1982 meeting for the recently administered licensure examination. At that time it was determined that in grading the examination the NABPLEX written "Practice of Pharmacy" examination would be weighted at 100 points and the Board's own "laboratory practical" examination would be weighted at 150 points toward the total practical examination grade and further that the Federal Drug Law Examination and the Board's own Minnesota jurisprudence examination would be graded so that each examination is weighted equally with the combination of those two grades equalling 100 points toward the total examination score. The four NABPLEX written

sections of the examination would also be graded as 100 points each toward the total examination score.

With this criteria established Mr. Roger Vadheim moved and Mr. Gary Blume seconded that the candidates who received a general average of 75 or better, not less than 75 on their practical examination score, not less than 75 on their jurisprudence examination score and not less than 60 on any one written NABPLEX subject be granted licensure as a pharmacist. The motion passed.

FOREWORD

American Council on Pharmaceutical Education

The year 1982 marks the fiftieth anniversary of the founding of the American Council on Pharmaceutical Education (ACPE), the national agency for accreditation of professional programs of colleges and schools of pharmacy. The ACPE is an autonomous agency whose membership is derived through the American Association of Colleges of Pharmacy, the American Pharmaceutical Association, the National Association of Boards of Pharmacy, (three appointments each), and the American Council on Education (one appointment). The latter appointee serves as a representative of the public in the sense of being a lay person who is not an educator in, nor a member of, the profession for which students are being prepared, nor in any way is directly related to the programs being evaluated. In addition, a panel of public representatives serves in an advisory capacity. The ACPE recognized by the Secretary of Education, U.S. Department of Education, and the Council on Post-secondary Accreditation. The Council is also a member of the Council of Specialized Accrediting Agencies.

The American Foundation for Pharmaceutical Education, a philanthropic foundation dedicated to the improvement of the quality of pharmaceutical education in the nation's colleges and schools of pharmacy, has provided major financial support to the Council since 1945. The AACP, APHA and NABP also provide annual support to sustain the Council's activities. Fees are charged to the colleges and schools of pharmacy to defray travel and assist in sustaining the accreditation program.

The Annual List of Accredited Degree Programs of Colleges and Schools of Pharmacy

Recognition of a program in the annual list denotes overall compliance with the standards of the ACPE. It does not imply that all programs on the list are equal or totally equivalent. Many colleges' and schools' programs exceed Council standards in terms of the various elements comprising accreditation. In pharmaceutical education, as in American education generally, there is great diversity. Information concerning the various accredited programs as well as graduate programs may be obtained by corresponding directly with the appropriate institution.

Accreditation Standards and Procedures

Accreditation standards for degree programs of colleges and schools of pharmacy, policies and pro-

cedures, and other pertinent information are published in the *Accreditation Manual*, second printing of the 7th edition. Limited quantities of the manual and this listing of accredited degree programs may be obtained without charge by writing the Council office. Other publications of the Council available include: *The Continuing Education Provider Approval Program* and the *List of Approved Continuing Education Providers*.

Accreditation Process

Accreditation may be defined as the public recognition accorded to a specialized program of study which meets certain established qualifications and educational standards through initial and periodic evaluations. The essential purpose of the accreditation process is to provide a professional judgment of the quality of the educational program offered and to encourage continued improvement thereof.

There are presently two professional undergraduate programs accredited by the ACPE: curricula leading the baccalaureate degree in pharmacy and the doctor pharmacy degree. Colleges and schools offering both degree programs are evaluated concurrently for purposes of accreditation. Evaluation teams are comprised of a member of the ACPE, the executive staff officer and faculty members of the nation's colleges and schools of pharmacy. A member of the board of pharmacy of the state in which the institution is located is invited to work with the team and the institution may invite a member of the regional accrediting body to participate in the work of the team. A program self-study which includes information on both faculty and student achievements and on educational outcomes which demonstrate the program's success in attaining its objectives is required in advance of the evaluation. The on-site visit involves interviews with the dean, faculty, students, and university administrators. A survey is made of physical and clinical facilities as well as other educational resources. A written report is furnished to the institution commenting on the program's areas of strength, areas needing improvement, suggestions concerning means of improvement, and specific areas, if any, where the program may not be in compliance with ACPE standards. The institution is given opportunity to respond to the report of the evaluation team. During a subsequent meeting of the ACPE the report of the evaluators and communications from the institution are considered for purposes of determining compliance with standards and the accreditability of the program. The program of the college or school is either accredited, not accredited, or placed on probation. A college or school whose program is discredited or placed on probation is given due notice in accord with established

policies and procedures. Colleges or schools where programs are discredited have a specified appeal mechanism available to them. On-site evaluations are customarily made on a six-year cycle, however, programs may be reviewed for purposes of accreditation within a shorter time period based upon a written progress report or an on-site evaluation at the discretion of the Council. Interim monitoring of program quality includes an annual progress report, as well as special reporting as may be requested.

Policy on Reference to Accreditation

Any reference by an institution to accreditation by the ACPE shall state only the following: "Name of institution's program(s) is accredited by the American Council on Pharmaceutical Education." References should accurately reflect the designation indicated in the current annual list of accredited degree program(s) of colleges of pharmacy.

Complaints Regarding an Accredited College of Pharmacy Program

Complaints from other institutions, students, faculty, or the public against a particular college of pharmacy, including complaints relative to tuition and fee policies, shall be placed in writing in detail by the complainant and submitted to the ACPE office. The executive staff officer shall promptly determine the facts concerning the alleged complaint; where appropriate, the matter shall be considered at the next meeting of the Council. The procedure shall provide for treatment of complaints in a manner that is fair and equitable to all parties, and the complainant shall be advised of the decision or action.

The institutions with which the ACPE maintains accreditation relationships have demonstrated that they conduct their affairs with honesty and frankness. The *Accreditation Manual* describes the probity policy.

Accredited First Professional Degree Programs in Pharmacy

The first professional degree program (the entry degree program, graduates of which usually qualify for licensure examination) may be that leading to the baccalaureate degree in pharmacy or the doctor of pharmacy degree. The baccalaureate in pharmacy curriculum customarily requires a five year program of study. A doctor of pharmacy program designed as a comprehensive professional curriculum customarily requires six years to complete degree requirements. An intervening baccalaureate in pharmacy degree may not be awarded, however, doctoral programs appearing in this list meet, at a minimum, all requirements of a baccalaureate in pharmacy degree program and qualify as an accredited first professional degree program. A doctor of pharmacy program may also be designed as a post-

baccalaureate in pharmacy curriculum. The combined period of study for doctoral programs of such design is, customarily, longer than six years. In composite with the professional educational base of the baccalaureate in pharmacy program, a doctor of pharmacy program of post-baccalaureate design qualifies as an accredited first professional degree program. Admission to the post-baccalaureate doctor of pharmacy curriculum requires a degree from an ACPE accredited baccalaureate in pharmacy program or the program of study must otherwise satisfy ACPE requirements for a first professional degree program.

Colleges of Pharmacy Offering Accredited Doctor of Pharmacy Curricula²

The doctor of pharmacy degree (Pharm.D.) is the highest award given in recognition of academic preparation for pharmacy practice. In comparison with standards for the baccalaureate in pharmacy program, standards for the doctoral program call for an educational process which provides a different level of professional development. The program leading to the doctor of pharmacy degree is an undergraduate professional curriculum enriched with pharmaceutical and biomedical knowledge as well as clinical experiences.

Inclusion on the list of accredited doctor of pharmacy curricula indicates that (1) the program, satisfies all requirements of a first professional degree program (previous listing of accredited first professional degree programs), and (2) the program further meets the added standards for the doctor of pharmacy degree curriculum.

Doctoral Programs Scheduled For Review³

The ACPE maintains accreditation relationships with the following institutions which have instituted curricula leading to the doctor of pharmacy degree. These programs have not been reviewed for purposes of accreditation as a first professional degree program nor for the added designation as an accredited doctor of pharmacy curriculum. These programs are to be evaluated at the time of the next currently scheduled on-site review of that institution's presently accredited program.

The Board then discussed the issues surrounding the reinstatement of the license to practice of Mr. John M. Ness and a motion was duly made and seconded that Secretary Holmstrom notify Mr. Ness that his license to practice pharmacy will only be reinstated at this time in accordance with the terms and conditions of a stipulation that will be developed by Mr. Holley. The motion passed.

Mr. Holley then presented to the Board a copy of the Settlement Stipulation for Order of Suspension and Probation in the matter of the pharmacist license of Barbara A. Wolf. The motion passed.

Secretary Holmstrom next presented to the Board a letter from Mr. Pritpal Singh Thind wherein he seeks internship credit for his previous experience as a licensed pharmacist in the United Kingdom. Secretary Holmstrom next presented to the Board a letter received from Pharmacist Raymond A. Anderson of Medcenter Pharmacy in St. Louis Park. Mr. Anderson seeks a variance from the Board's requirement of maintaining a manually signed log in conjunction with the computer system operated by Mr. Anderson. After discussing this issue with Secretary Holmstrom and reviewing the recommendations made relative to this issue by the Board's Adhoc Committee on the Use of Computers in Pharmacy the Board directed Secretary Holmstrom to inform Mr. Anderson that a variance of the type he is requesting will not be granted by the Board at this time and further that the Board will expect Mr. Anderson to maintain a computer log initialled by the pharmacist at the time of filling of each prescription.

Secretary Holmstrom next presented to the Board a letter he has received from Ms. Wendy Kuzel, who is seeking to retake the Board licensure examination after having unsuccessfully taken the examination on four different occasions between 1976 and 1979. After discussing Ms. Kuzel's situation Mr. Arnold Delger moved and Mr. Lester Hackner seconded that Secretary Holmstrom inform Ms. Kuzel that she will be allowed to take the Board's licensure examination in June of 1983 but if she fails to pass it on this occasion she will not be invited to retake the examination without showing evidence of having participated in additional course work at a college of pharmacy accredited by ACPE. The motion passed with Mr. Michael Hart voting in opposition.

After a thorough review of the performance of the candidates for licensure by reciprocity it was moved by Mr. Michael Hart and seconded by Mr. Arnold Delger that having passed the jurisprudence examination and an oral examination on pharmacy laws and ethics the following candidates for licensure by reciprocity be granted such licensure based on their current license to practice in the state listed with their name. 4183	Ungerman, Constance A.	IL

Secretary Holmstrom next reviewed for the Board the grading system established for the recently administered licensure examination. It was determined that in grading the examination the NABPLEX written "practice of pharmacy" examination should be weighted at 100 points and the Board's own "laboratory practical" examination should be weighted at 150 points toward the total practical examination grade and further that the Federal Drug Law Examination and the Board's own Minnesota jurisprudence examination should be graded so that each examination is weighted equally with the combination of those two grades equalling 100 points toward the total examination score. The four NABPLEX written sections of the examination would also be graded as 100 points each toward the total examination score. With this criteria established Mr. Roger Vadheim moved and Mr. Michael Hart seconded that the candidates who received a general average of 75 or better, not less than 75 on their practical examination score, not less than 75 on their jurisprudence examination score, not less than 60 on any one written NABPLEX subject, and not less than 75 as an average of their five NABPLEX scores be granted licensure as a pharmacist. BOARD POSITION REGARDING UNIT DOSE DISTRIBUTION
VIS-A-VIS FREEDOM OF CHOICE IN NURSING
HOMES

ISSUE

If a long term care facility determines that it wishes to utilize a unit dose drug distribution as its primary drug delivery mode can the facility limit pharmacy providers to those willing to dispense with the chosen unit-dose system without violating the patient's right to freedom of choice with regard to pharmacy vendor.

POSITION

A long term care facility may decide that it wishes to utilize a specific unit dose as the primary system of distribution in the facility but may not infringe on the patient's freedom to choose their vendor of pharmacy services in so doing. The Board's own rules in 7 MCAR 8.076 declares it to be evidence of unprofessional conduct for a pharmacy to participate in any arrangement or agreement that would infringe on the freedom of choice of a patient to select whatever pharmacy services they choose.

In most cases there exists a primary vendor of pharmaceutical services to the various long term care facilities. This pharmacy generally provides the majority of the prescription services for the residents of the facility. Usually the facility and the primary provider agree on a unit-dose dispensing system which the primary provider will utilize in distributing medications to its patients within the home. Under the Board's rule, this is as far as that agreement can go. The primary vendor of pharmaceutical services cannot engage in any agreement with the facility which would limit the opportunity of other pharmacies to provide their patients in the facility with medications in whatever distribution system the second pharmacy chooses to use.

While the Board recognizes that it does not have any jurisdiction to require or prohibit specific actions on the part of the long term care facility itself the Board can, within its jurisdiction, direct the activity of the primary vendor of pharmaceutical services to such an extent that it prohibits the primary vendor from entering into any agreement with the facility which would restrict the freedom of the patients in that facility to select other pharmacies and other drug delivery systems.

The Board next addressed itself to the performance of the candidates for licensure by examination that completed the examination process on June 28 and 29, 1983. Secretary Holmstrom reviewed for the Board the grading system established for the recently administered licensure examination. It was determined that in grading the examination the NABPLEX written "Practice of Pharmacy" examination should be weighted at 100 points and the Board's own "laboratory practical" examination should be weighted at 150 points toward the total practical examination grade and further that the Federal Drug Law Examination and the Board's own Minnesota jurisprudence examination should be graded so that each examination is weighted equally with the combination of those two scores equalling 100 points toward the total examination score. The four NABPLEX written sections of the examination will also be graded as 100 points each toward the total examination score. With this criteria established Mr. Roger Vadheim moved and Mr. Ove Wangensteen seconded that candidates who received a general average of 75 or better, not less than 75 on their practical examination score, not less than 75 on their jurisprudence examination score, not less than 60 on any one written NABPLEX subject, and not less than 75 as an average of their five NABPLEX scores be granted licensure as a pharmacist. FIVE HUNDRED EIGHTY-THIRD MEETING

November 16, 1983. At approximately 8:00 a.m., November 16, 1983, the Board met in room 305 of the Minnesota Department of Health Building, 717 Delaware St. SE for the purpose of conducting a general business meeting. In attendance were Mr. Joseph Zastera, Mr. Lester Hackner, Mr. Roger Vadheim, Mr. Ove Wangenstein, Mr. Michael Hart, Ms. Patricia Lind, and the Board's Secretary Mr. David Holmstrom.

The Board spent its first hour working on the development of the laboratory practical examination that will be administered as part of the general examination for licensure of pharmacists in January of 1984.

The first regular agenda item was a review of the minutes of the meeting of October 11 & 12, 1983. Mr. Lester Hackner moved and Mr. Roger Vadheim seconded that the minutes be approved as they were written. The motion passed.

The Board next turned its attention to applications to conduct new pharmacies. The first application to be considered was submitted on behalf of Abbott HomeCare Pharmacy, 2520 Pilot Knob Road, Mendota Heights, MN by Mr. Richard J. P. Doering, pharmacist-in-charge. Mr. Doering and Mr. C. L. Gutman, Jr. were present at the meeting and made themselves available to the Board for responding to any questions the Board might have regarding the application. Abbott HomeCare Pharmacy intends to specialize in enteral and parenteral nutrition products, home antibiotic therapy, home chemotherapy, and pain control products and does not intend to involve itself in traditional pharmacy dispensing. After carefully reviewing this application and discussing the unique aspects of the Abbott HomeCare Pharmacy with Mr. Doering and Mr. Gutman Mr. Roger Vadheim moved and Mr. Michael Hart seconded that the application be approved and a license issued subject to the successful completion of an on-site inspection by a member of the Board's staff to assure compliance with Pharmacy Board rules dealing with licensure. The motion passed.

The next application to be reviewed was submitted on behalf of Metro Pharmacy Services, 7232 Boone Ave. N. #27-29, Brooklyn Park, MN by Mr. Steve Buss, pharmacist-in-charge. After carefully reviewing this application and the diagram of the proposed pharmacy Mr. Lester Hackner moved and Mr. Ove Wangenstein seconded that the application be approved and a license issued subject to the successful completion of an on-site inspection by a member of the Board's staff to assure compliance with Pharmacy Board rules dealing with licensure. The motion passed.

The third application to be considered was submitted on behalf of the Sleepy Eye Hospital Pharmacy, 400 Fourth Ave. NW, Sleepy Eye, MN by Mr. Paul Stadick, pharmacist-in-charge. After carefully reviewing this application, the diagram of the proposed pharmacy, and supporting documents Mr. Roger Vadheim moved and Ms. Patricia Lind seconded that the application be approved and a license issued subject to the successful completion of an on-site inspection by a member of the Board's staff to assure compliance with Pharmacy Board rules dealing with licensure. The motion passed.

The fourth application to be considered by the Board was submitted on behalf of The Medicine Shoppe-East, 210 N. 6th Ave. East, Duluth, MN by Mr. Donal W. Moe, pharmacist-in-charge. After carefully reviewing this application and the diagram

of the proposed pharmacy Mr. Michael Hart moved and Mr. Lester Hackner seconded that the application be approved and a license issued subject to the successful completion of an on-site inspection by a member of the Board's staff to assure compliance with Pharmacy Board rules dealing with licensure. The motion passed.

The next item on the Board's agenda was the review of the recommendations of the Continuing Education Advisory Committee relative to programs recommended for approval in meeting the continuing education requirements of Minnesota Pharmacists. After reviewing the list of programs recommended for approval by the CEAC Committee for the period October 5 - November 1, 1983 Mr. Ove Wangenstein moved and Mr. Roger Vadheim seconded that those programs recommended for approval by the Committee be so approved and that approval be denied for those programs for which denial of approval is recommended. The motion passed.

The Board next discussed applications for the use of supportive personnel it has received in accordance with the requirements of 7 MCAR 8.047. The first such application was an amendment to a previously submitted application for the Medcenter Pharmacy, 5000 West 39th Street, Minneapolis by Mr. Raymond Anderson, pharmacist-in-charge. After carefully reviewing this application Mr. Ove Wangenstein moved and Mr. Michael Hart seconded that the amendment be approved subject to Mr. Anderson developing and including in the amendment a statement indicating that the pharmacist will first determine the drug to use in preparing a prescription after which the technician may aid in the preparation of the prescription for dispensing. The motion passed.

The second application for the use of supportive personnel was submitted on behalf of the Pamida Pharmacy, 1601 S. Broadway, New Ulm, MN by Mr. Charles A. Brecht, pharmacist-in-charge. After carefully reviewing this application Mr. Lester Hackner moved and Ms. Patricia Lind seconded that the application be approved subject to the development and inclusion in the formal procedures by Mr. Brecht of a statement indicating that the technician will be identified to the public by a name tag in addition to the different colored jacket. The motion passed.

The third application for the use of supportive personnel was submitted on behalf of the Walgreens, 399 Northtown Drive, Blaine, MN by Mr. Fred Friedman, pharmacist-in-charge. The Board did not approve this application but directed Secretary Holmstrom to return the application to Mr. Friedman for rewriting and clarification, particularly of items number two and number six.

Secretary Holmstrom and President Zastera then presented to the Board a draft of a resolution on continuing education that will be submitted to the NABP Committee on Resolution for consideration at the NABP Annual Meeting. After some discussion during which minor amendments to the draft resolution were made Mr. Roger Vadheim moved and Mr. Michael Hart seconded that the resolution be forwarded, as amended, to the NABP Committee on Resolutions. The motion passed.

The Resolution to be sent to NABP is as follows:

"WHEREAS many pharmacists are licensed to practice pharmacy in more than one state; and

WHEREAS approximately half of the states require mandatory continuing education; and

WHEREAS the date for reporting continuing education participation varies from state to state;

NOW THEREFORE be it resolved that the various states requiring continuing education participation on the part of licensed pharmacists agree to accept evidence of completion of a like number of hours of continuing education from their licensed pharmacists who are living and working in a second mandatory continuing education state as meeting the first state's continuing education requirement even though the dates of the programs participated in by the pharmacist living and working in the second state do not coincide with the reporting period of the first state."

Secretary Holmstrom next presented to the Board a draft of proposed statutory change that he and President Zastera have developed relative to the recovery of legal costs and attorney fees from pharmacists who have been the subject of disciplinary action by the Board. After discussing this proposed change Mr. Roger Vadheim moved and Mr. Lester Hackner seconded that the Board proceed with this proposed change and that Secretary Holmstrom take whatever steps are necessary to accomplish its introduction at the next session of the legislature. The motion passed.

Secretary Holmstrom next presented to the Board the concerns expressed by the Board Inspectors relative to the Board's previously adopted position on hospital out-patient dispensing. After substantial discussion on its previously adopted position Mr. Ove Wangenstein moved and Mr. Michael Hart seconded that the position remain essentially the same but that the word "physically" be inserted in the third from the last line between the word "beds" and the word "attached" so that the last sentence of the previously adopted position will now read "for purposes of this position statement dispensing of prescription drugs to any nursing home beds physically attached to a hospital shall not be deemed out-patient dispensing, while dispensing prescription drugs to any other nursing home bed will be deemed out-patient dispensing requiring adherence to these statements". The motion passed.

At this time Mr. Mark K. Stassen appeared before the Board relative to his petition for reinstatement as a licensed pharmacist in Minnesota. After discussing with Mr. Stassen his current situation and the requirements that were imposed upon him by the Board's Order of November 10, 1982 Mr. Ove Wangenstein moved and Mr. Lester Hackner seconded that Mr. Stassen's license to practice pharmacy in Minnesota be reinstated according to the provisions of the above mentioned Board Order and that Mr. Stassen be invited to appear before the Board in approximately one year and again at the end of his two year period of probation to relate his progress and status. The motion passed.

The Board next discussed the petition by Mr. Perry Brown for reinstatement of his license to practice pharmacy. After a lengthy discussion of the Stipulation and Order entered into with Mr. Brown in November of 1982 Mr. Lester Hackner moved and Ms. Patricia Lind seconded that the Board not take action at this time to reinstate Mr. Brown's license to practice pharmacy but that Secretary Holmstrom be directed to invite Mr. Brown to appear before the Board to discuss his reinstatement at the Board's January meeting. The motion passed.

Secretary Holmstrom next presented to the Board a letter from Mr. Paul A. Schuchardt, 1346 Albany Ave., Hot Springs, SD requesting reinstatement of his license to practice pharmacy in Minnesota which Mr. Schuchardt allowed to lapse for non-payment of fees in 1975. After some discussion of Mr. Schuchardt's current status Mr. Roger Vadheim moved and Ms. Patricia Lind seconded that Secretary Holmstrom be directed to contact Mr. Schuchardt and inform him that he will be allowed to once again reciprocate to Minnesota based on his current license in South Dakota. The motion passed.

The Board next discussed the recently received correspondence in the matter of Mr. William Janecek and his desire to again become licensed to practice pharmacy in Minnesota. After considerable discussion of Mr. Janecek's current position relative to relicensure in Minnesota Mr. Michael Hart moved and Mr. Ove Wangenstein seconded that Secretary Holmstrom be directed to inform Mr. Janecek that his license to practice pharmacy in Minnesota will be reinstated upon the following conditions:

1. Successful completion of a specific continuing education course in pharmacology; and
2. Completion of six months of "internship"; and
3. Participation in and successful completion of the jurisprudence and laboratory practical examinations scheduled by the Board as part of its overall Board examination.

The motion passed.

Secretary Holmstrom next discussed the correspondence he has received from the United States Pharmacopeia Convention relative to volunteers for participation in the USP/DI Review. Board Member Patricia Lind then volunteered to participate in the USP/DI Review.

Secretary Holmstrom next brought to the Board's attention the situation with regard to typewriters for the January laboratory practical examination. Secretary Holmstrom reported that electric typewriters will be made available to the Board at a cost of \$10.00 per machine through the College of Pharmacy at the University of Minnesota. Mr. Michael Hart then moved and Mr. Lester Hackner seconded that Secretary Holmstrom contact the appropriate individuals at the College of Pharmacy to arrange for the use of these typewriters. The motion passed.

There being no further business at this time the meeting was adjourned.
