LAKE DIRECTORY

CHIPPEWA NATIONAL FOREST & VICINITY

STATE OF MINNESOTA

Prepared by United States Forest Service, Regional Office, Milwaukee, Wisconsin, January 2, 1942, and revised August 29, 1951.

Under "Location", all townships (T) are North and all ranges (R) are West and refer to the 4th and 5th Principal Meridians. Large lakes easily identified on maps are listed only by townships and ranges and not by sections. Other lakes are listed by township and range, sections and legal subdivisions of sections as needed. Locations were taken from the best maps available and in some cases may be in minor error. As new and more accurate maps become available, locations can be corrected.

Names in the directory preceded by the symbol (#) have been approved by the U. S. Board on Geographic Names for use on all federal maps and documents. It is understood that state mapping agencies use the approved names in their work. All other names in the directory have been thoroughly investigated and are the most authentic names accepted and used most frequently by local residents and map makers. The directory does not list lakes and ponds which have no recognized names at present. As the use of these features increases, suitable names may be recommended to the U.S.B.G.N. through established procedure.

Lake names are listed alphabetically with descriptive names like "Big", "Little", "Upper", etc. following the proper name. For example: Big Calf Lake is listed as "Calf, Big". Groups of lakes are listed thus: "Hanson (Lakes) (5)"; the figure indicates the number of lakes in the group where known. When a lake is most commonly known as, for example, "Lake Winnibigoshish" rather than "Winnibigoshish Lake", the listing is "Winnibigoshish (Lake Winnibigoshish)". Well-known bays of larger lakes are listed by name and location under the name of the lake of which they are a part. Ponds are indicated thus: "Rice Pond (pond)".

Users of the directory will confer a favor by pointing out errors and omissions. Communicate with - Regional Forester, United States Forest Service, 623 North Second Street, Milwaukee 3, Wisconsin, or Forest Supervisor, Chippewa National Forest, United States Forest Service, Cass Lake, Minnesota.

The area covered by the directory is as follows:
