VILLAGES AND POST OFFICES

AS RECORDED IN

ANDREAS ATLAS OF 1874

VILLAGES AND POST OFFICES OF 1874

(as recorded in Andreas Atlas)

The following list, of village and post office names, is taken from the patrons' directory and maps in Andreas 1874 Atlas. Those names marked with an asterisk (*) are given as post offices in the patrons' directory, but do not as villages or post offices on the maps in the volume. Those names followed by PO (post office) are so printed on the maps. Many of those listed on the maps without the PO, however, are nevertheless post offices. The list, excepting a few mills and natural features, is only of villages and post offices. No lakes or townships are listed as such.

NOTE: Only names recorded in Andreas Atlas of 1874 appear in this list.
