Feature named Island

County Chippewa

Location Lac Qui Parle Lake

Names

Comments

Watson Voice, Sept. 19, 1940: Named by Boy scout troops of nearby communities, Sept. 15, 1940. Aldon Hanson, scoutmaster of one of the troops, when he saw the island from a nearby hill, said "Here is the last word in natural beauty." This suggested the name. But to the scouts it stands for an Indian chief, Omega, who as a small boy lived on the island long ago; he had red hair and was ridiculed and chased by the other boys. He was chased so much that he developed the habit of saying "O-Me-Go"-which came to be his name" Etc.etc. (A story evidently made up by the scouts)

Montevideo American, Sept. 20, 1940, p.1, c.2. Account of naming.

CHART

Description & Name Origin

This Latin Name, signifying "from the mountain I see," or "Mount of Vision," was selected, according to the late L. R. Moyer, by Cornelius J. Nelson, a settler who came here in 1870 from N. Y. State. The city "was given its high-sounding appellation by its romantic founders, who were so delighted by the wonderful view gained from the heights overlooking the
(over)

interlocking valleys of the Minnesota and Chippewa rivers at that point, that they translated their feeling into good mouth-filling Latin". But this name, while very appropriate, on account of the view here, was derived by Nelson from the large South American city, the capital of Uruguay.

Another good reason for the choice of this name, in allusion to the grand prospect seen from the river bluffs, may have been found in the aboriginal Sioux name of the Chippewa river, before noted as MANYA WAKAN (meaning wonderful bluffs), quite probably so named by these observing people in their admiration, like our own, for the beautiful and noble panorama here spread around them.

Description & Name Origin This county, established February 20, 1862, and organized March 5, 1868, is named for the Chippewa river, which here joins the Minnesota. The river was called Many Wakan (of remarkable or wonderful bluffs) by the Sioux. Its present name also was given by the Sioux, because the country of their enemies, the Chippewa or ojibway Indians, extended southwestward to the headquarters of this stream, at Chippewa lake in Douglas county. As the Chippewa river in Wisconsin received its name from war parties of this tribe descending it to the Mississippi, likewise the river in Minnesota was named for this tribe, whose warriors sometimes made it a part of their "war road" to the Minnesota valley, coming with their canoes from Leech lake and Mille Lacs, by the Crow Wing, Long Prairie and Chippewa rivers. The earliest publication of the name, Chippewa river, was by Keating and Nicollet, though only the other Sioux name Many Wakan, is given on Nicollet's map. Ojibway is more accurately the aboriginal tribal title, which is anglicized as Chippewa, with the

12. NAME CHIPPEWA CO CHIPPEWA
Form - Classi-
No. 11 fication County Ref Upham 102 2
(page)

final vowel long. The form Ojibway has been used in nearly all the publications of the Minnesota Historical Society. It is asserted by Warren, the Ojibway historian, that this name means "to roast till puckered up," referring to the torture of prisoners taken in war."

By the early French voyageurs and writers the Ojibways were commonly called A Sauteurs, from their once living in large numbers about the Sault Ste Marie. Their area, however, also comprised a great part of the shores of lakes Huron and Superior, with the adjoining country to variable distances inland. During the eighteenth century they much extended their range southwestward, driving the Sioux from the wooded part of Minnesota, and also spreading across the Red River valley to the Turtle mountain on the boundary between North Dakota and Manitoba.

William W. Warren, whose mother was an Ojibway, prepared, in 1851-53, an extended and very valuable "History of the Ojibway Nation," chiefly relating to its part in Minnesota and Wisconsin, which was published in 1885 as Volume 5 of the Minnesota Historical Collections. In Volume IX of the same series, published in 1901, Rev. Joseph Gilfillan, who during twenty-five years was a very devoted missionary among the Ojibways in the White Earth Reservation and other large parts of northern Minnesota, contributed a paper of 74 pages, vividly portraying the habits and mode of life of this people, their customs and usages in intercourse with each other and with the white people, their diverse types of physical and mental development and characteristics, and much of their recent history. The next paper in the same volume, 14 pages, is by Bishop Whipple, entitled "Civilization and Christianization of the Ojibways in Minnesota."
